Alternative proposal regarding process to achieve 13 Council Members July 8, 2014

Rather than creating two-year terms for current Districts 9 through 17 (2015) and 1 through 6 (2017) with districts 7 and 8 having six-year terms, my proposal is to carry over Council Members as we did to achieve our current 17.

In 2015 Districts 9 through 17 would be elected to the new districts 8 through 13 with the two "out districted" Council Members serving the balance of their term.

In 2017 Districts 1 through 9 would be elected to the new districts 1 through 7 having completed full four-year terms.

Not only would this process be less confusing overall it also would allow for the staggered terms that we have found to be satisfactory and want to continue. It also allow for phasing the transition rather than a potential for a very significant turnover in 2017
