

## Engineering Department

City of La Crosse  
400 La Crosse Street  
La Crosse, WI 54601-3396  
(608)789-7505

### NOTICE OF PUBLIC HEARING

DATE: February 5, 2024

Dear Resident/Owner:

City of La Crosse policy includes continuing efforts to provide access for individuals of all abilities, multimodal connections, and safer facilities for use by pedestrians and bicycles. This includes such as new or infill sidewalk and on-street bike lanes. This helps provide safer travel options within and through neighborhoods.

Per the City of La Crosse Green Complete Streets Ordinance, staff must examine every street project for addition of sidewalks and bike lanes. City planning documents highlight priorities, which may include, but do not require, worn footpaths in grass or dirt, proximity to City bus stops, safe routes to school, and blocks with partial/incomplete sidewalks.

The addition of **sidewalks** is proposed on your street block. These will be built within public Right-of-Way, not on private property. However, this may be a significant change for you. Facilities are constructed with capital improvement funds. No assessments are charged to property owners.

A hearing will take place as part of the regular Board of Public Works meeting on Monday, February 12, 2024, for formal input on this matter. This project has already been approved by the Common Council as part of the Capital Improvement Projects budget.

The Public Hearing is your time to provide input and ask questions. Participation is encouraged. If you are unable to attend, you may submit written statements. Please submit to:

City of La Crosse Engineering Department  
400 La Crosse Street  
La Crosse, WI 54601
