I am writing today to urge you all to prioritize funding for renewable energy projects. We cannot afford to wait on action to save a livable environment. Every dollar we don't invest now will be 2 if we wait until more damage and degradation has taken place. I hope that you all understand the urgency of climate change and keep all initiatives to fight it fully funded, especially item #257: Greenhouse gas emissions inventory and Sustainable Energy and Climate Action Plan. Thank you and I will see you at the meeting tonight.
