Subject: Purchase of 2 Apple iPad Air 11”, Bluetooth hand scanners and stickers

Refuse & Recycling Department would like to purchase 2 Apple iPad Air 11” with iPad Case, Bluetooth hand scanners and stickers for the 2026-2028 seasons.

New stickers will have a barcode that can be scanned and will show all resident/purchaser information attached to that sticker. The ability to scan stickers will allow the site employees to see if the sticker has been renewed for the season. Stickers will be good for 3 years. The quote below is from our IT Department.

Apple iPad Air 11” 128GB- \$649.99 x 2 = \$1,299.98
iPad Case with cover- \$23.59 x 2 = \$47.18
Bluetooth hand scanner- \$68.88 x 3 = \$206.64
Yard waste site stickers- \$1,920.00

During the installation of the new shed purchased for the site in 2025, we found that the underground wiring that goes to the compactors is damaged. New wiring and conduit will have to be installed before the site opens in March of this year. A used light pole will also be installed to provide lighting for the compactor area. Below is the cost of having our electricians install the conduit, wiring and light pole.

Wiring for compactors- \$1,500.00
Conduit for compactors- \$425.00
Cement for light pole- \$590.00

Total purchase from the yard waste sticker sales account will be \$5,988.80
