CHARTER ORDINANCE NO.: _____

A CHARTER ORDINANCE to create Section ~~19~~ 20 of Appendix A of the Code of Ordinances of the City of La Crosse creating the position, duties and responsibilities of the Office of the City Administrator and removing duties from the Office of the Mayor.

The COMMON COUNCIL of the City of La Crosse do ordain as follows:

Sec. ~~19~~ 20. – Office of the City Administrator

(a) OFFICE OF THE CITY ADMINISTRATOR. In order to provide the City of La Crosse with a more efficient, effective and responsible government under a system of a full-time Mayor and a part-time Common Council at a time when City government is becoming increasingly complex, there is hereby created the Office of City Administrator for the City of La Crosse.

(b) APPOINTMENT, TERM OF OFFICE AND REMOVAL The administrator shall be appointed on the basis of merit with due regard to training, experience, administrative ability and general fitness for the office, by a majority vote of those present and voting of the Common Council. The administrator shall hold office for an indefinite term at the pleasure of the Council subject to removal at any time by an affirmative vote of three-fourths of all the members of the Council. The Council may establish other employment terms and conditions consistent with the provisions of this ordinance or the Municipal Code of the City of La Crosse.

~~(c) RESIDENCY The administrator shall become a resident of the City of La within three (3) months following the date of appointment, unless this requirement is specifically waived or varied by the Common Council, and entered into with the administrator, covering the terms and conditions of residency.~~

~~(d)~~(c) QUALIFICATIONS The ideal qualifications for the administrator will include Bachelor of Arts or Science Degree and a Master's Degree in Public Administration, Public Finance or closely related field from an accredited university and have at least five (5) years of experience in City or County government as a City Administrator, City Manager, or County Administrator.

~~(e)~~(d) FUNCTIONS AND DUTIES OF THE ADMINISTRATOR The administrator, subject to the limitations defined in resolutions and ordinances of the City of La Crosse and Wisconsin State Statutes, shall be the chief administrative officer of the City, responsible only to the Common Council for proper administration of the business affairs of the City, pursuant to the statutes of the State of Wisconsin, the ordinances of the City of La Crosse, and the resolutions and directives of the Common Council, with power and duties as follows:

(1) General Duties

(a) Carry out policy directives of the Common Council established by resolution or ordinance which require administrative implementation, reporting promptly to the Common Council any difficulties encountered herein;

(b Be responsible for the administration of all day-to-day operations of the City government including the monitoring of all city ordinances, resolutions, council meeting minutes and state statutes;

(c) Prepare a plan of administration, including an organizational plan, which defines authority and responsibility for all nonstatutory positions of the City; and submit it to the Common Council for adoption as the official organization and administrative procedure plan for the City;

(d) Establish administrative procedures to measure and to increase the effectiveness and efficiency of City government according to current practices in local government, not inconsistent with subsection (c) above or policy directives of the Common Council which are established by resolution or ordinance;

(e) Serve as ex-officio non-voting member of all boards, commissions and committees of the City, except as specified by the Common Council or Wisconsin State Statutes;

(f) Keep information concerning current federal, state and county legislation and administrative rules affecting the City and submit appropriate reports and recommendations thereon to the Common Council;

(g) Keep informed concerning the availability of federal, state, county and nonprofit grants and funds for local programs and initiatives. Assist Department Heads and the Common Council in obtaining these funds under the direction of the Common Council;

(h) Represent the City in all matters involving legislative and intergovernmental affairs as authorized and directed as to that representation by the Common Council;

(i) Act as public information officer for the City with the responsibility of assuring that the news media are kept informed about the operations of the City and along with the City Clerk and City Attorney that all open meeting rules and regulations are followed;

(j) Established and maintain procedures to facilitate communications between citizens and City government to ensure that complaints, grievances, recommendations and other matters receive prompt attention by the responsible official, and to ensure that all such matters are expeditiously resolved;

(k) Promote the economic well-being and growth of the City through public and private sector cooperation.

(2) Responsibilities to the Common Council.

(a) Attend all meetings of the Common Council, assisting the Council as required in the performance of its duties.

(b) In coordination with the Common Council, Mayor, City Clerk and City Attorney, ensure that appropriate agendas are prepared for all meetings of the Common Council, all Council committees, and all other appropriate committees and commissions of the City, together with such supporting material as may be required; with nothing herein being construed as to give the administrator authority to limit or in any way prevent matters from being considered by the Council, or any of its committees or commissions.

(c) Coordinate the preparation of ordinances and resolutions as required by the Common Council and Department Heads.

(d) Keep the Common Council regularly informed about the activities of the administrator's office by oral or written report at regular and special meetings of the Council.

(3) Personnel

(a) Be responsible for the administrative direction and coordinator of all employees of the City according to the established organization procedures.

(b) Consistent with the statutes of the State of Wisconsin, recommend to the Common Council the appointment, promotion, and when necessary for the good of the City, the suspension or removal of Department Heads.

(c) In consultation with the Director of Human Resources see that complete and current personnel records, including specific job descriptions, for all City employees are kept; evaluate in conjunction with Department Heads the performance of all employees on a regular basis; recommend salary and wage scales for City employees not covered by collective bargaining agreements; develop and enforce high standards of performance by City employees; ensure that City employees have proper working conditions; work closely with Department Heads to promptly resolve personnel problems or grievances;

(d) In cooperation with the appropriate Department Heads and Director of Human Resources and after following City policies and procedures, make a recommendation to the appropriate City officers regarding the appointment, promotion, and when necessary for the good of the City, the suspension or termination of employees below the Department Head level.

(e) Manage and assist in labor contract negotiations and collective bargaining issues.

(f) Work closely with Department Heads to ensure that employees receive adequate opportunities for training to maintain and improve their job-related knowledge and skills and act as the approving authority for requests by employees to attend conferences, meetings, training schools, etc., provided that funds have been budgeted for these activities.

(4) Finances, Budgeting, and Purchasing

(a) Be responsible for the preparation of the annual City operating budget, including capital budget, in accordance with City Ordinances and guidelines as may be provided by the Common

Council and in coordination with Department Heads, pursuant to state statues, for review and approval by the Common Council.

(b) Administer the budget as adopted by the Common Council.

(c) Report regularly to the Common Council on the current fiscal position of the City.

(d) Supervise the accounting system of the City and ensure that the system employs methods in accordance with current professional accounting practices.

(e) Administer the City's purchasing ordinance, polices, and procedures including all purchasing and contracting for supplies and services subject to the purchasing ordinance and procedures established by the Common Council and any limitation contained in the Wisconsin State Statues.

(5) Cooperation

(a) All officials and employees of the City shall cooperate with and assist the administrator so that the City government shall function effectively and efficiently.

SECTION II: The provisions of this ordinance shall be deemed severable and it is expressly declared that the Common Council of the City of La Crosse would have passed the other provisions of this ordinance irrespective of whether or not one or more provisions may be declared invalid; and if any persons or circumstances is held invalid, the remainder of the ordinance and the application of such provision of other persons or circumstances shall not be affected thereby.

SECTION III: This charter ordinance specifically removes those duties from the Office of Mayor to oversee the day-to-day operations, management and administration of the City of La Crosse that are found under § 62.09 (8) (a), Wis. Stat. Any charter provision or any previously enacted ordinance or charter ordinance inconsistent or in conflict with this ordinance is expressly repealed.

SECTION IV: This charter ordinance shall take effect sixty (60) days after its passage and publication subject to the provisions of Section 66.0101(5) Wis. Stat.

Meeting Minutes - Final

City Administrator Working Group

Wednesday, April 23, 2025 **12:00 PM** **Grandad Conference Room - City Hall**

Call to Order

The meeting was called to order by the Working Group Chair, Larry Sleznikow at 12:03 p.m.

Welcome

Roll Call

Present: 3 - Barb Janssen, Larry Sleznikow,Erin Goggin

Approval of Minutes

A motion was made by Janssen, seconded by Goggin, to APPROVE the minutes of April 9, 2025. The motion carried unanimously.

Agenda Items:

Thanks were given to the members of the City Administrator Working Group including CM Janssen and CM Goggin and former Working Group members and former city council members Mac Kiel and Mark Neumann, Director of Human Resources Rebecca Franzen, Nikki Elsen and Sondra Craig in the City Clerk's Office, City Department Heads, and Daniel Foth, JD, Director, Certified Public Manager Program and Local Government Specialist, Local Government Education at University of Wisconsin-Madison Extension.

This meeting of the City Administrator Working Group will be the summary of the working group's work since it started meeting in December 2024. It will include an overview of the draft city administrator information paper created by Daniel Foth in collaboration with the working group.

Mr. Foth will also present a public engagement plan for providing information to and receiving feedback from community members related to the possibility of hiring a city administrator.

Daniel Foth, JD, Director, Certified Public Manager Program and Local Government Specialist, Local Government Education at University of Wisconsin-Madison Extension joined the meeting in person and provided another overview of the document he created for the working group members titled Draft 4-7-25 City of La Crosse - Mayor vs. City Administrator Information Paper including updates from the April 9th meeting.

Mr. Foth also provided an overview of the 4-21-25 DRAFT One Pager, a concise summary of the information paper, and DRAFT Public Engagement Outline - La Crosse 4-21-25 document outlining a suggested framework for public engagement about hiring a city administrator.

24-1585 Proposed City Administrator position.

A motion was made by Janssen, seconded by Goggin and unanimously approved to recommend that J&A and the Common Council refer 24-1287 (Charter Ordinance to create position of City Administrator) until the February 2026 council cycle.

The motion allowed for refilling the two open working group positions as was done originally. Once the working group is back to five members, the City Administrator Working Group will continue the work it has started with the assistance of city staff including engaging the public about the hiring of a city administrator.

Sleznikow will work with the Legal Department to develop a resolution for the motion and request that the Mayor short-circuit the resolution (see File 25-0502).

Adjournment

Meeting was adjourned at 1:22 p.m.

LEGISLATION STAFF REPORT FOR COUNCIL

File ID: 24-1287

Caption: Creating the Position of City Administrator

Staff/Department Responsible for Legislation

Mitch Reynolds, Mayor; Rebecca Franzen, Director of Human Resources

Requestor of Legislation

Mayor Mitch Reynolds

Location, if applicable

N/A

Summary/Purpose

The purpose of this legislation is to add the position of City Administrator to the City of La Crosse.

Background

The City of La Crosse is complex and would benefit from additional expertise in community development, public safety, public works, emergency preparedness, planning, personnel, finance, customer service, intergovernmental relations, and an administrative structure that encourages and supports overall team organization.
The need for professional municipal administration is not a matter of a failure of local government, but rather adapting to changing conditions by increasing the capacity of a municipality to provide effective and efficient services. Having an administrator provides direct accountability to the council for the proper operation of municipal services. Elected officials and others know who is responsible for effectuating policies adopted by the Common Council. The administrator is responsible for the day-to-day operations of the City and it is their responsibility to bring coordination to the provision of municipal services. The administrator will be evaluated on their ability to provide more efficient and effective government to the City and accomplish this by carrying out the priorities of the voters and common council. While the City Administrator fills a professional role in daily operations, the Mayor will still function as the Chief Executive Officer of the City as provided for in the state statute.

Fiscal Impact

The estimated fiscal impact of adding a City Administrator is anticipated to be $186,645.89 to $194,422.80 for salary + benefits.

I recall the last Mayor(Mr Johnsrud wanted this and also an ambulance service!!!) Let me see, where did he go, after we did not vote him
In again? Johnson creek, wi?
We need less government, lower taxes, people with a brain, common sense, maybe normal citizens working for the people. This liberalism
Does not seem to be working!!? We had the coulee region humane society, picking up lost pets. Now we have a woman ($80.000) added,
A person watching the homeless ($140.000) I think there may be another person helping Mr sampson? The police helping the dog catcher??
Where does this stop?? More taxex, more construction, more bike lanes, I have yet to see those bike lanes filled with riders? Maybe
The high schoolers should start riding there bikes, instead of cars.

Thank you

Carol Herlitzka

Attention Mitch and City Council,

This email is to oppose you voting and hiring of a City Administrator. If the Mayor cannot handle the duties of his position that has been this way for many years then I suggest he resign and we get another vote to get another Mayor who can do the work. Many companies are working with less and many people are doing more in their positions. Our city must do the same. I also do not believe we are in the financial status to be hiring for a City Administrator. also this position would now be hired and not able to be voted in by the people. That takes the voice away from the tax payers. Always remember the tax payer of this city is where you get the money from and we need to keep it this way. I sure hope others in this community are giving you their voice on this issue and we keep it the way it is.

Thank you,
Baylee,
A concerned citizen,

Elsen, Nikki

Andrea,

All is well here on the east side of the state.

I know this is getting to you a little later than you wanted so I am not sure if it will be helpful now or not.

One of the biggest pros of an administrator is consistency. Regardless of elections, you have a leader within the organization that can provide continuation of vision while elected officials change. The other big advantage is you have a boss that is over department heads (outside of elected positions) that can address problems with individual department heads and between department heads. The budget process was also easier with an administrator because he/she has the final say on what is presented to council. This simplified the process greatly.

On the flip side, one of the largest challenges is when the Mayor and Administrator do not agree. Then as a department head it can be difficult to navigate when you are receiving conflicting direction. At a minimum you need to educate the council and mayor on their roles and ultimately everyone needs to understand that employees report to the administrator and not elected officials. If you don't have a strong person in the administrator role, this would be very difficult to navigate.

Those are some high level thoughts. If you want more, let me know.

Thanks,

Diane McGinnis-Casey

From: Caroline Gregerson <cityadmin@wabasha.org>
Sent: Tuesday, September 10, 2024 2:36 PM
Subject: RE: City Administrator/Mayor

Benefits of an Administrator versus Mayor

- I think for La Crosse, if the Department Heads were under the management of the City Administrator, they (City Administrator) could play a positive role to ensure departments were consistently working together. I would definitely recommend all departments are under the management and oversight of the administrator or manager.
- A good city administrator focuses in on the vision of Council and Mayor and then can ensure various departments are able to be given the resources and authority to coordinate the vision and work together on the vision. There can be competing priorities for each department, so they have a role in moving forward with the right option and bringing staff consensus. They ensure everyone is "rowing in the same direction".
- One major role they have is oversight on personnel and management issues for department heads. Those can be challenging issues at times. Our policy makers are very thankful not to have a role in that. I take in any complaints about staff and manage those.
- Focus on employee engagement and addressing employee concerns by bringing in background in organizational leadership. Many city administrators, including myself, focus on time making sure their department heads receive leadership training.
- The system helps the Mayor and Council to be able to focus on policy direction.
- The professionalized management and background in municipal governance and budgets can be helpful. This position can strategize around how to bring resources to the table to advance the policy makers goals and with a strong background in budgeting and financial planning, can help them realize those goals.
- We worked on a strategic plan together my first year, mission statement, and so we have a pretty clear path and agreement on their strategic goals and measure progress against the goals. Every budget year, we look at the strategic plan and progress. That's sets some benchmarks to measure success for Council and the Administrator. https://www.wabasha.org/strategicplan/
- Mayors still play an important role in advancing projects important to them or championing an idea and then having the City Administrator execute the idea.
- Council has the option to provide a City Administrator annual performance reviews and also has the option to hire/fire this individual with a majority vote. This ensures accountability to Council.

The benefits of the Mayor for La Crosse that I see are that I think the Mayor of La Crosse is compensated at a much lower rate than a traditional administrator. I do think the current system in La Crosse does correctly put a lot of leadership capacity in the hands of individual departments. For example, issues that I might handle in my current role, are done by HR Director or Finance Director in La Crosse. I do think the role of "Mayor" brings weight to any conversation. La Crosse has a strong tradition of Mayoral leadership. I think a lot of the effectiveness of either system, can also depend on the individual.

I am sure it's going to be a good discussion!

Kind Regards,

Caroline Gregerson

Mitch;

I am of the opinion that a City Administrator is best for larger municipalities as compared to those with just an elected Mayor. My position is based upon my experience. I was a municipal attorney for 23 years prior to being elected as Waukesha's Mayor. I have been a student of local government for most of my life. I have been Mayor of Waukesha for more than 10 years. There are times I wish I was a "Strong" Mayor, for my own selfish purposes. I truly believe however that the "Weak" Mayor/City Administrator model is what works best for the wellbeing and continuity of a city over time. (I am leaving out any comments regarding the City Manager form of government).

The two main reasons I have this opinion is that a City Administrator is insurance that professionalism and expertise in running the city has a high baseline at all times. The other main reason is that the Common Council generally will have its policy decisions followed more directly if there is a City Administrator/Mayor than if there is just an elected Mayor (without any City Administrator).

Continued professionalism and expertise are essential for a city to thrive. Elected Mayors can be good or bad. With a good Mayor, the city can thrive and be run professionally without any major problems. I recognize that many elected Mayors have the skills needed to run a large operation with many employees and large budgets. Often however, the elected Mayor lacks some (or all) of the needed skills to direct a large number of employees and run a complex and large organization. There are many examples where a Mayor was elected that did not have professionalism or expertise. At some point, I think every municipality makes the wrong choice as to whether it elected the best person for the job. We can all recall situations where the elected Mayor was a continual detriment to the well being of the community. If there is an Administrator, the bad Mayor problem is not cured but the overall damages to the integrity and reputation of the city are minimized because there is a professional individual with the authority to continue running the city day to day. Without a City Administrator, if there is a Mayor that actively creates detrimental issues, the Common Council should step in to take over more responsibility of the day to day running of the city. This is extremely difficult both procedurally and in practice. The Common Council needs to publicly step in and remove aspects of the authority of the Mayor. Besides figuring out how to accomplish this, it takes time. While this is occurring, the administration of the city is in a free fall. It can then take years for the city to get back on track. If there is a City Administrator, the process of blunting the bad actions of an incompetent Mayor are much easier and the fallout will never be as severe.

I also am a firm believer that the ultimate policy maker for municipalities is the majority vote of the Common Council. Whether a Mayor is good or bad, if there is a City Administrator, the policy decisions of the Common Counsel are more efficiently carried out if there is a City Administrator. Without a City Administrator, the Mayor is

in charge of carrying out the Common Council policy decisions. If the Mayor does not agree with the majority decision on policy decisions, the stand alone Mayor is easily able to slow walk any decision he/she disagrees with. The Mayor can pretty much ignore the Common Counsel policy decisions until he/she is called out on it. Even then, the Mayor can create impediments to the will of the Common Counsel almost indefinitely. When there is a City Administrator, the policy decisions of the Common Council will be followed. The City Administrator answers to the Common Council, not the Mayor.

Let me know if you want to discuss this further. If any of your Alders want to talk to me about this, I will be happy to make that happen.

Hey Shawn,

Hope things are going well for you in Waukesha. Really appreciated your presentation in Milwaukee and was inspired to do a five-year budget projection of my own. Man, that makes everything seem really bleak.

Also hoping you can help me with something. I will have an ordinance change in front of the city council in a couple of weeks to add a city administrator. Currently, the plan is to maintain the mayor as a full-time position. One of the things I have been asked is how the role of mayor changes with an administrator in place and whether having a full-time mayor under the new leadership structure makes sense. Since you are one of just a few with that form of government, I was hoping I could get some sort of short overview/testimonial from you that I can share with a council executive meeting for a meeting on Monday.

Look forward to hearing from you.

Members of the Common Council –

My name is Bob Gollnik, Executive Director of the La Crosse Area Planning Committee (LAPC), and a transportation planner with over 20 years of experience working across the United States. Our agency focuses on regional transportation planning for the La Crosse-La Crescent area, with the City of La Crosse as our largest member. Our policy board consists of the highest elected officials from 10 area member communities and the La Crosse County Board Chair. We also have two committees that involve multiple City of La Crosse technical staff.

Since becoming Director in 2023, I've had the privilege of working with Mayor Reynolds, who has been an excellent collaborator, fostering many conversations that have benefitted our regional efforts. His leadership and vision has highlighted the importance of professional city management, regardless of who holds office. I agree with Mayor Reynolds that a City Administrator in La Crosse is perhaps more urgent than ever, and long overdue. Cities of La Crosse's size—and even smaller municipalities—commonly have this role to ensure consistent, effective governance. While many points have been outlined for the council, I would like to emphasize a few key areas most relevant to our work and the benefits a City Administrator could bring to La Crosse's growth and development:

1. **Professional Leadership and Continuity**: A city administrator can provide expert leadership to navigate La Crosse's unique opportunities, balancing natural resources like the Mississippi River with sustainable urban growth and other pressing issues. With experience working with public agencies across the area (and state), we see how professional management leads to effective decision-making and sustainable development. An Administrator also provides continuity among departments and external collaborations despite political seasons.
2. **Efficient Resource Allocation**: In cities across the U.S., I've observed that city administrators can excel in maximizing public resources. La Crosse, with its focus on sustainability and community-driven initiatives, would benefit from a administrator who could strategically direct tax dollars, grants, and operational resources among departments and toward high-impact projects such as infrastructure upgrades, housing, and public safety.
3. **Policy Implementation**: La Crosse's recent and ambitious plans—ranging from riverfront development to expanding transit options—require dedicated oversight. A city administrator could streamline the execution of these plans, ensuring they are carried out efficiently and in line with the city's long-term visions.
4. **Day-to-Day Operations**: Managing the complexities of La Crosse, including public safety, environmental challenges like flooding, and a vibrant tourism sector, requires dedicated administrative focus. A city administrator could handle these operational details, freeing the mayor and council to prioritize strategic policy decisions and community engagement.

5. **Long-Term Planning**: Drawing on state and national best practices, a city administrator would help guide La Crosse through strategic growth, including economic development, affordable housing, homelessness concerns, and sustainability. This role would be crucial in planning for the city's future while maintaining a high quality of life for current residents.
6. **Non-Partisan Leadership**: As someone with experience working in diverse political environments, I have seen how a city administrator's non-partisan role ensures that decisions are based on professional expertise and community needs rather than political cycles. La Crosse could benefit from this continuity in leadership. The administrator also serves as a valuable resource in acclimating new administrations to key processes and initiatives within the city.
7. **Improved City Council Functionality**: A city administrator would allow La Crosse's city council to focus on legislation and community engagement, ensuring that administrative functions, such as budgeting and staff management, are professionally handled.
8. **Crisis Management**: From flooding to economic shifts to tourism-related events, La Crosse faces its share of challenges. Having observed city administrators in similar cities, their ability to coordinate rapid, efficient responses in times of crisis ensures better protection for residents and businesses.
9. **Community Engagement**: City administrators in other regions have proven effective at fostering meaningful dialogue between residents, businesses, and local governments. La Crosse, with its strong community identity, would benefit from a city administrator who facilitates this engagement, ensuring that public input drives decision-making.
10. **Accountability and Performance**: The city administrator is accountable to the council and public, La Crosse would see greater transparency and measurable performance in city operations and within city departments. This structure ensures that goals are met and that public trust remains strong.

I believe the role of a City Administrator would significantly enhance La Crosse's governance, providing stability and professional management to address the city's current and future needs while expanding collaborative opportunities with regional partners like us.

Please contact me if any of you would like to discuss further, and I strongly encourage you to consider this important ordinance.

Sincerely,

Bob Gollnik

Good morning City Council members! Please see the forwarded message below.

I saw a great LTE in the Tribune this morning from an Aron Newberry that I'll steal a quote from: "This investment in professional management will pay dividends by creating a more efficient, stable, and prosperous community for all La Crosse residents."

When I was on the City Council in my hometown, a community in southeastern Minnesota of under 4k people, I assumed having a City Administrator was the norm. Even though we had our political differences (as a healthy democracy should), having this leadership position allowed City business to run much more smoothly, and as Aron said, allowed elected officials to focus on long-term vision.

I hope you'll support this at J+A tonight. Thanks for all you do!

You can read the full letter here https://lacrossetribune.com/opinion/letters/la-crosse-needs-consistent-professional-leadership---aron-newberry/article_6bd11530-7ec7-11ef-8174-97834a746b1d.html?fbclid=IwY2xjawFownFleHRuA2FlbQIxMQABHdSwACx2_p015OC2BKhH-pMwqmpF4Av7lBDqr2SA3jonXG3dCCUE3S73ug_aem_Rt30Sry9rG_Ll1v-RbcuFw

Good afternoon Kristen,

I am writing to express my full support for creating a City Administrator position. I appreciated the comprehensive breakdown of the "rationale" on the City website, too.

As a newly elected supervisor on the La Crosse County Board, I've really enjoyed getting to know our Admin Jane Klekamp and to see how the flow of communication between department heads to her to the Board works. La Crosse County also has the opportunity to work collaboratively with the City on the Pathways Home plan, and you're well aware of the road bumps we've recently had to navigate.

I think an admin in La Crosse would be a huge benefit to the City. Perhaps with more consistency the Mayor's job would be less overwhelming from the start of onboarding and orientation. My small hometown in southeastern Minnesota has had an admin for years, and when I was on Pine Island City Council from

2018 to 2022 I saw firsthand how having an admin kept things internally organized so externally we could provide the best services to our community members.

Hope you're doing well and staying safe. Thanks for all you do.

I vote NO to a city administrator. However, I believe the decision is a done deal and it will happen regardless the wishes of the citizens.
The Mayor will then become a figurehead and his duties reduced to groundbreaking and ribbon cutting ceremonies. The Mayor's salary should then become a part time position with a substantial reduction in pay.

To Whom it may concern,

It seems to me that this position is another costly redundancy, especially at a time when we are cutting services like Libraries and Swimming pools.. Either have a City Administrator or a Mayor-not both. Also if we hire an administrator- combine it with any similar positions involving communications public and interdepartmental. Maybe then someone will oversee departments calling citizens back in a timely fashion.

Sincerely

Good Afternoon
My feelings on the new City Managers position is a positive, as I believe La Crosse has grown to a size where people who have ran, and won for Mayor don't have the knowledge, and background to manage a city of our size. I also believe the Mayors position should be a position of being a tie breaker for the Common Council, and a Ambassador for the City of La Crosse only . If the average salary of a City Manager is around 185,000.00, and the current Mayor is at 77,000.00, I believe the Mayor's position being non managerial should be shaved to 50,000.00, with an expense account of 25,000.00 as an Ambassador for the City, so he can ride in all the area parades, and festivals.

Sincerely

As La Crosse continues to grow, it's time to consider the benefits of hiring a professional city administrator to manage day-to-day operations and ensure efficient, transparent governance. Cities and counties nationwide, big and small, including local examples like the city of Onalaska and Trempealeau County, have successfully hired administrators to streamline services, improve accountability and save taxpayer money.

A city administrator brings professional expertise in public finance, urban planning and service coordination — skills critical to our community's sustainable growth. This role would allow our elected officials to focus on leadership and long-term vision while ensuring city operations run smoothly and effectively.

This model would benefit local businesses, community organizations and residents alike. Supporters include small business owners, the chamber of commerce, neighborhood associations and nonprofit groups that recognize the value of consistent, professional management. A city administrator can help us attract investment, improve infrastructure and provide better services to residents without the political pressures that often complicate decision-making. This investment in professional management will pay dividends by creating a more efficient, stable, and prosperous community for all La Crosse residents.
Vote Yes on approving a City Administrator position.
Sincerely,
Aron Newberry

As a former personnel director for the city, I would agree that a City Administrator would be appropriate for a city the size of La Crosse provided a well qualified professional is selected. The Administrator must be of course kept free from the political arena with removal for cause only.

City of La Crosse
Common Council
400 La Crosse Street
La Crosse, WI 54601

To Whom It May Concern,

Please accept this letter in support of the charter ordinance to create section 19 of Appendix A of the Code of Ordinances of the City of La Crosse creating the position, duties and responsibilities of the Office of the City Administrator and removing duties from the Office of the Mayor.

Many of the core issues our community faces—both the challenges and the opportunities—are long-term issues. These are conditions we will face for decades, not months or even years. A community our size needs operational guidance and certainty to advance addressing these issues as directed by the elected Council and the Mayor. The creation of a City Administrator position would allow for continuity in daily operations of the city and would bring expertise and professional training in the operations of critical services in local government including emergency services, public safety, intergovernmental relations, and community development. A City Administrator has the potential to further the efficiency and effectiveness of services in the City of La Crosse, allowing for continued leadership in the region and beyond. La Crosse is poised to continue its rise as a premier community in the Upper Midwest. Implementing a full-time City Administrator will help advance that rise, allowing our elected leaders to focus on vision and policy while the Administrator manages operations. This will help city government be even more responsive to all citizens.

Gundersen Health System—becoming Emplify Health—experiences firsthand many ways municipal services and operations of the City of La Crosse impact our patients, staff, and the community. I appreciate your thoughtful attention to this request and ask you to support and advance this proposal. Please do not hesitate to contact me if you have any questions or concerns.

Sincerely,

Heather Schimmers

Heather Schimmers

Dear City Council Members,

I strongly support approval of item 24-1287 to hire an administrator for the city of La Crosse. A professional with expertise in planning, finance, and service coordination will be a strong support for our department heads and will save taxpayer money. I also support continuing our mayoral position - full time or part time to be determined in the future.

Aaron Newberry's recent letter to the La Crosse Tribune succinctly states my views.
Please support the hiring of a city administrator.

Thank you for your service to the citizens of La Crosse.

Dear Mayor and Common Council,

RE: Professionally trained and experienced Administrator

I am writing this letter to underscore the crucial need for a professional Administrator in the City of La Crosse. The role of an Administrator is pivotal in ensuring the smooth functioning of the city's operations. Below, I present my thoughts and comments on this matter.

No matter the organization, be it a non-profit, educational institution, governmental body, small business, or corporate enterprise, many factors contribute to the organization's health. The organization's health allows for adaption to change, creates the culture, determines production outputs, maximizes allocation of financial resources, and creates the greatest service for the customer. While there are many factors in creating healthy organizations, three main factors are Leadership, Structure, and Professional Skill Requirements. Working on your organizational health is a pursuit in which improvement always exists, change is constantly necessary, and creating the proper focus is absolute. Like many of you working in various roles in different types of organizations, I have learned to ask a fundamental question with both little issues, conflict resolution, and significant decisions that question is “What does great look like?” Once “great” is defined, putting the pieces to pursue that objective becomes relatively easy. From my vantage point of view, “What does great look like?” for the City of La Crosse operations platform, it is easy to define that our city has a structural issue that causes a skills gap. Below, I will define some of these issues from my perspective, with the caveat that there is no silver bullet to improving an organization. It is constantly focused on intentional work “on” the organization versus working “in” the organization. We must recognize these issues and work towards change and improvement in our city's operations.

In the case of a city, the vision is the will of the people (which in written form is all the plans sitting on the shelves, some of which may be lacking implementation); the leadership is based on whom they choose to represent them. We choose to have an elected administrator (mayor) handling day-to-day operations; we elect a new administrator every 6.2 years since Mayor Medinger was in office. Then, we expect this person to have all the skills required to administer the city's business. I often joke that every 6.2 years, the whole City of La Crosse gets on a giant airplane, then we elect one of us as our pilot and hope like heck they have enough skill to get it off the ground and, more importantly, land the plane with most of us surviving. The probability of electing someone with the skills required to manage the complexity of a city is as close to zero as you can get. To make matters worse, this “newly elected administrator” manages the city's day-to-day operations but has zero authority to get the work done, as that lies with our common council. Fundamentally, our structure creates an administrator without professional skill, then provides a work environment in which they have no authority. This is not what great looks like. We need a collaborative effort to address these issues and create a better future for our city.

Having worked in many communities, my experience in working with communities with a professional Administration there are many benefits. Three recent projects we have worked on are as follows:

1. Professional administrators implement plans effectively. We did a $18 million project approximately three years ago; we were selected via RFP in mid-April. By August 1st, we had completed all entitlements, and excavators were moving dirt for the project. Our team spent less than 4 hours in public meetings. This project also included approximately $1M in public

sector projects that we completed in our scope of work. How? The administrator managed the process with professional skill, and the whole team at the city knew their marching orders and timeline for getting work done. This administrator's plans were not on a shelf; the team was implementing the people's plans, and the council was exceptionally well informed and received updates on the process; they knew the city business. This administrator knew the city economics so well that they provided us with the market rate rent projection with examples; additionally, due to the public-private partnership, they also knew the support needed to make the project work. This administrator and staff "knew their numbers." We are starting another project in the community in 2025. This community is the benchmark for what does great look like.

2. On September 16th, we broke ground on a $32 million public-private partnership, including a new public library, community center, and 78 residential units. This collaborative project included many partners, including the school district, senior center, library board, several community members, vision groups, and our development team. This comprehensive project with significant deal structure complexity falls on the skill of one person, a first-time city administrator who worked his way up the ladder and was professionally educated and trained. The city administrator has managed this process with timelines and specifics, laid out steps to finish, facilitated vital community input, and managed the outside professional services required for a successful project. The mayor and council were active in this project's public meetings, engaged in the vetting process, and, most importantly, championed this great new addition to the community's urban core and its lasting impact. In La Crosse, we closed libraries.
3. The final project will be very familiar. An experienced administrator led it at the time, taking place in the core of the City of La Crosse. At the time of construction, it was one of the larger dollar-volume projects in the city's core. This project was led by the County Administrator and included a county administration building, Belle Square Block, and The Hub on the 6th. These three projects changed our urban core and turned parking lots into residential housing and business use, converting a minimally used bank building and repurposing it for county offices and turning an asbestos-infused office building to be repurposed for housing, which includes condos. The role of the administrator was critical; I think you would be hard-pressed to "elect" the required professional skill needed to put this project together.

Other strategic differences between our current structure and that of a city administrator, from my experience, are as follows:

1. Having a trained professional administer the duties associated with the day-to-day management of a city allows elected officials to be more impactful in their service to the community. An effective administrator will provide thoughtful expertise, excellent communication, good training, and a comprehensive approach to supporting the vision of the elected officials/community, which causes and empowers more of the people's vision to be done. An administrator managing day-to-day details strengthens the voice of the people.
2. The number of people willing to run for office will increase as it will not be a full-time job. I appreciate the work our current and past council have put into running our city, but let's face it, it is a considerable time commitment that most people can't do. This time commitment is a prime example of structural deficiency in the city operations. I serve on non-profit boards, but

only if they have paid professional staff, which allows me to contribute to my area of expertise without an extra full-time or part-time job.

3. A professional administrator will create an environment where all department heads can focus on the production needed to complete the community's vision with the authority to make necessary changes. Currently, our mayor has responsibilities/duties to perform. Still, the reality is the council manages those department heads, and the authority to replace department heads lies in the hands of the council, which creates a work environment in which a department head does not have to listen to our weak mayor. We have a lot of excellent department heads in the city; we also have department heads who choose not to follow the direction of the Mayor, as I have witnessed over the years. In essence, our mayor has responsibility with no authority, which is a broken operating platform, leading to a workplace that is less than desirable. With candor, our workforce deserves a trained, professional, and competent supervisor.
4. Communities need capital from the private sector to complete projects and facilitate economic development. In essence, our community is competing with other communities for that capital. I recently spoke at the Economic Development Association of Minnesota Summer Conference. After the presentation, I met several professional staff and administrators working to move their communities forward; I did not meet a single mayor. They are not even in the game.
5. Our current structure creates a void in leadership in day-to-day operations as our typical modern-day mayor's tenure is 6.2 years; the first half or more of their tenure is just figuring out the job and developing professional skills. When you have this void in leadership, it creates an environment of a de facto administrator. For many years of my early career, this role was served by our Director of Planning, Larry Kirch. Larry, in essence, served as a City Administrator. I don't think he asked to be in the role; he was just willing to do the work and filled the void the best he could.
6. By having a professionally trained Administrator, the mayor can more effectively lead in implementing the people's vision. For a couple of reasons, but typically, in most organizations, the visionary and implementer are not the same person, and the skills required are different. Let the Mayor be the champion voice and visionary of the people's will. Let a qualified, trained, and professional Administrator excel in the operations and implementation of the people's business.
7. Regarding the cost of this new position, the cost is what you will pay for an administrator. You will get the value by fixing the broken operating platform. A simple 1% savings in efficiency in a 75-million-dollar budget will more than pay for this position, but the real value lies in unrealized opportunity cost. To see this in action, what was the net benefit of new tax revenue, homes created, and economic impact in example 3 above?

I could continue regarding the value and benefits of a city administrator in creating a healthy organization focusing on Leadership, Structure, and Professional Skills. But I will end by saying that I believe this decision is the most critical to come before the council during my time working in the city. Now is the time to act and work "on" the structural problems within the city by hiring a city administrator to implement the vision created by our elected body.

As always, if I can help in any way, I will. Thank you for reading this letter. I am cheering you on in this decision.

The considered salary of the possible City Administrator for the City of La Crosse is more than DOUBLE that of the Elected, publicly chosen Mayor of La Crosse, Wisconsin.
It is time for the La Crosse City Council to make reasonable and acceptable decisions for non-elected persons of POWER!

I am in favor of a city administrator. The mayor's race in the recent years has been merely a popularity contest with most being unqualified and unable to meet the many needs of our city. Once elected we discover the inadequacies of the mayor and are unable to remedy it until next election cycle. I don't see why we should have both. Perhaps so the mayor can be a meet and great and ceremonial head. If we have both then the mayor's salary should be decreased to help defray the administrator's salary and the mayor would have fewer responsibilities. We are at a crucial point in the survival of the quality of our city. It is very difficult to compete with our neighboring cities in many categories and we need an intelligent and motivating leader. Perhaps a city administrator is an answer.

RE: Anticipated Costs for City Administrator

Please find below the anticipated wages and benefits for the City Administrator position, should it be approved by Common Council.

As previously stated, the recommendation by McGrath Human Resources Group is that the City Administrator position be compensated at approximately 20% - 25% higher than department head positions to maintain an appropriate level of separation between the positions. Additional costs related to the position that have been assumed include (1) WRS employer contributions of 6.95%, (2) FICA Tax, (3) Health Insurance, (4) Life Insurance/Income Continuation Insurance, and (5) Non-Personal Expenses such as travel, training/registrations, memberships, and office supplies.

Based on 20% Higher Than Current Highest Paid

	City Administrator		Notes
Contract Paid	Hours	2080	21.2% Insurance Rate and 3% COLA for 2025 assumed; both subject to change based on final budget. Based on the highest paid employee as of 9.5.24 at Grade 19, Step 10
	Hourly Rate	$ 89.73	
	Subtotal	$186,645.89	
	WRS (6.95% of Salary)	$ 12,971.89	
	FICA (7.65% of Salary)	$ 14,278.41	
	Health Insurance	$ 17,552.87	
	Life/ICI Insurances (.006% of Salary)	$ 1,119.88	
	Non-Personal Expenses*	$ 10,000.00	
		$242,568.94	

Based on 25% Higher Than Current Highest Paid

	City Administrator		Notes
Contract Paid	Hours	2080	21.2% Insurance Rate and 3% COLA for 2025 assumed; both subject to change based on final budget. Based on the highest paid employee as of 9.5.24 at Grade 19, Step 10
	Hourly Rate	$ 93.47	
	Subtotal	$194,422.80	
	WRS (6.95% of Salary)	$ 13,512.38	
	FICA (7.65% of Salary)	$ 14,873.34	
	Health Insurance	$ 17,552.87	
	Life/ICI Insurances (.006% of Salary)	$ 1,166.54	
	Non-Personal Expenses*	$ 10,000.00	
		$251,527.94	

*Non-Personal Expenses: Travel, Training/Registrations, Memberships, Office Supplies

RE: Draft Hiring Plan for City Administrator

The Hiring Team:

To properly facilitate the hiring process of **City Administrator**, it is the Director of Human Resources recommendation that the hiring process is facilitated by a team referred to as the *City Administrator Search Team* with two sub teams: (1) the core team and (2) the selection team. The core team's role is to manage the logistics of the process which includes outreach planning, time-lining, crafting position advertisements, etc. The members of the core team would be members of the Human Resources department and the recruitment firm.

The selection team's role will be to participate in the screening process (i.e. resume review, virtual interview, in-person interviews and any other necessary subsequent interviews or public listening sessions). This team will be responsible for the final candidate selection.

The City Administrator Search Team will consist of at least 6 members. To ensure we have fair representation in the selection process, the selection team will be at least one (1) Finance and Personnel Committee member, at least one (1) Executive Committee member, the Mayor, at least two (2) department heads and the Director of Human Resources.

Announcing the Position:
With the help and partnership of an executive recruitment firm, the position will be announced via numerous sources to ensure that a qualified, diverse pool of applicants is reached.

The Core Team will announce and advertise the position via the following channels:

- Recruitment firm reaching out to individuals and organizations on an outreach list.
- Social media (Facebook, LinkedIn, etc.)
- Wisconsin City/County Management Association job board
- Specialized mail advertising by recruitment firm
- City's website
- Governmentjobs.com job board
- Any other locations recommended by the executive recruitment firm

The core team will monitor how frequently the job opening pages are visited and if we become concerned that we are not generating enough interest in the position, we will re-evaluate our approach and/or extend the application window.

Rebecca A. Franzen, SHRM-CP
Director of Human Resources
Gwendolyn A. Benish
Human Resources Generalist

Audra M. Bloom
Employee Benefits Specialist
Angela M. Berget
Human Resources Assistant

Angela R. Leisso
Sr. Human Resources Generalist
Heidi L. Stein
Wellness Coordinator

Screening the Candidates:

The Director of Human Resources will input all applicants into a tracking spreadsheet. The tracking spreadsheet will include a list of desired and required competencies that the screening team will use to review resumes and cover letters. The screening team will review all cover letters, resumes and key information about each candidate in the tracking sheet. Candidates will be rated red/yellow/green on how well they match the competencies listed in the job description/ordinance.

The screening team will have a virtual interview with all candidates that have been classified as green. Candidates classified as yellow will be revisited if we have any concerns about the strength of the green candidate pool. Candidates in the red pool will be sent regret notices.

Currently, the Director of Human Resources is anticipating at least two in-person interviews with the selection committee. Although this is subject to change based on how the interviews progress and if there is a need for further clarification from any candidate or the entire Common Council would like to host a special meeting and interview the candidate(s).

Hiring Timeline:

Date	Task
By December 31st	City Administrator Search Team is established with members from: ▪ Executive Committee ▪ Finance and Personnel Committee ▪ Department Heads ▪ Mayor ▪ Director of Human Resources
January 1 – January 31	Director of Human Resources gathers information on executive recruitment firms and brings a recommendation forward to the City Administrator Search Team.
March 3rd	Job posting goes live on all forms of marketing (i.e. website, social media, specialty organizations, etc.).
April 4th	End of Application Period
April 4th – 18th	Resume screening with selection team
April 28th – May 9th	Virtual Interviews with Candidates
May 19th – May 30th	First Round of In-Person Interviews with Candidates
June 9th – June 20th	Second Round of In-Person Interviews with Candidates ▪ This will include a tour of the City with the La Crosse Chamber of Commerce's First Friend Program
Week of June 23rd	Make Contingent Offer to Candidate ▪ Contingent on background check ▪ Pre-Employment Drug Screening
July 10th	Candidate selection confirmed by Common Council
Week of July 28th	City Administrator Hired

***Any breaks between dates on the schedule are intended to provide notice to the candidate to ensure availability and scheduling for potential travel to and from the City of La Crosse.*

***This is a tentative schedule and subject to change. We may add additional interviews with the full Common Council or additional department heads but that will be determined by the City Administrator Search Team.*

Selection of the Candidate:

The candidate selected for the role of City Administrator will be selected based on their education, qualifications and responses throughout the interview process.

The selection team will convene after each round of the screening process to review the candidates and determine which individuals will move forward to the next round and ultimately are extended a contingent offer.

The candidate selected for a contingent offer will be granted based on a majority vote of the City Administrator Search Team. The selection will be confirmed by the full Common Council.

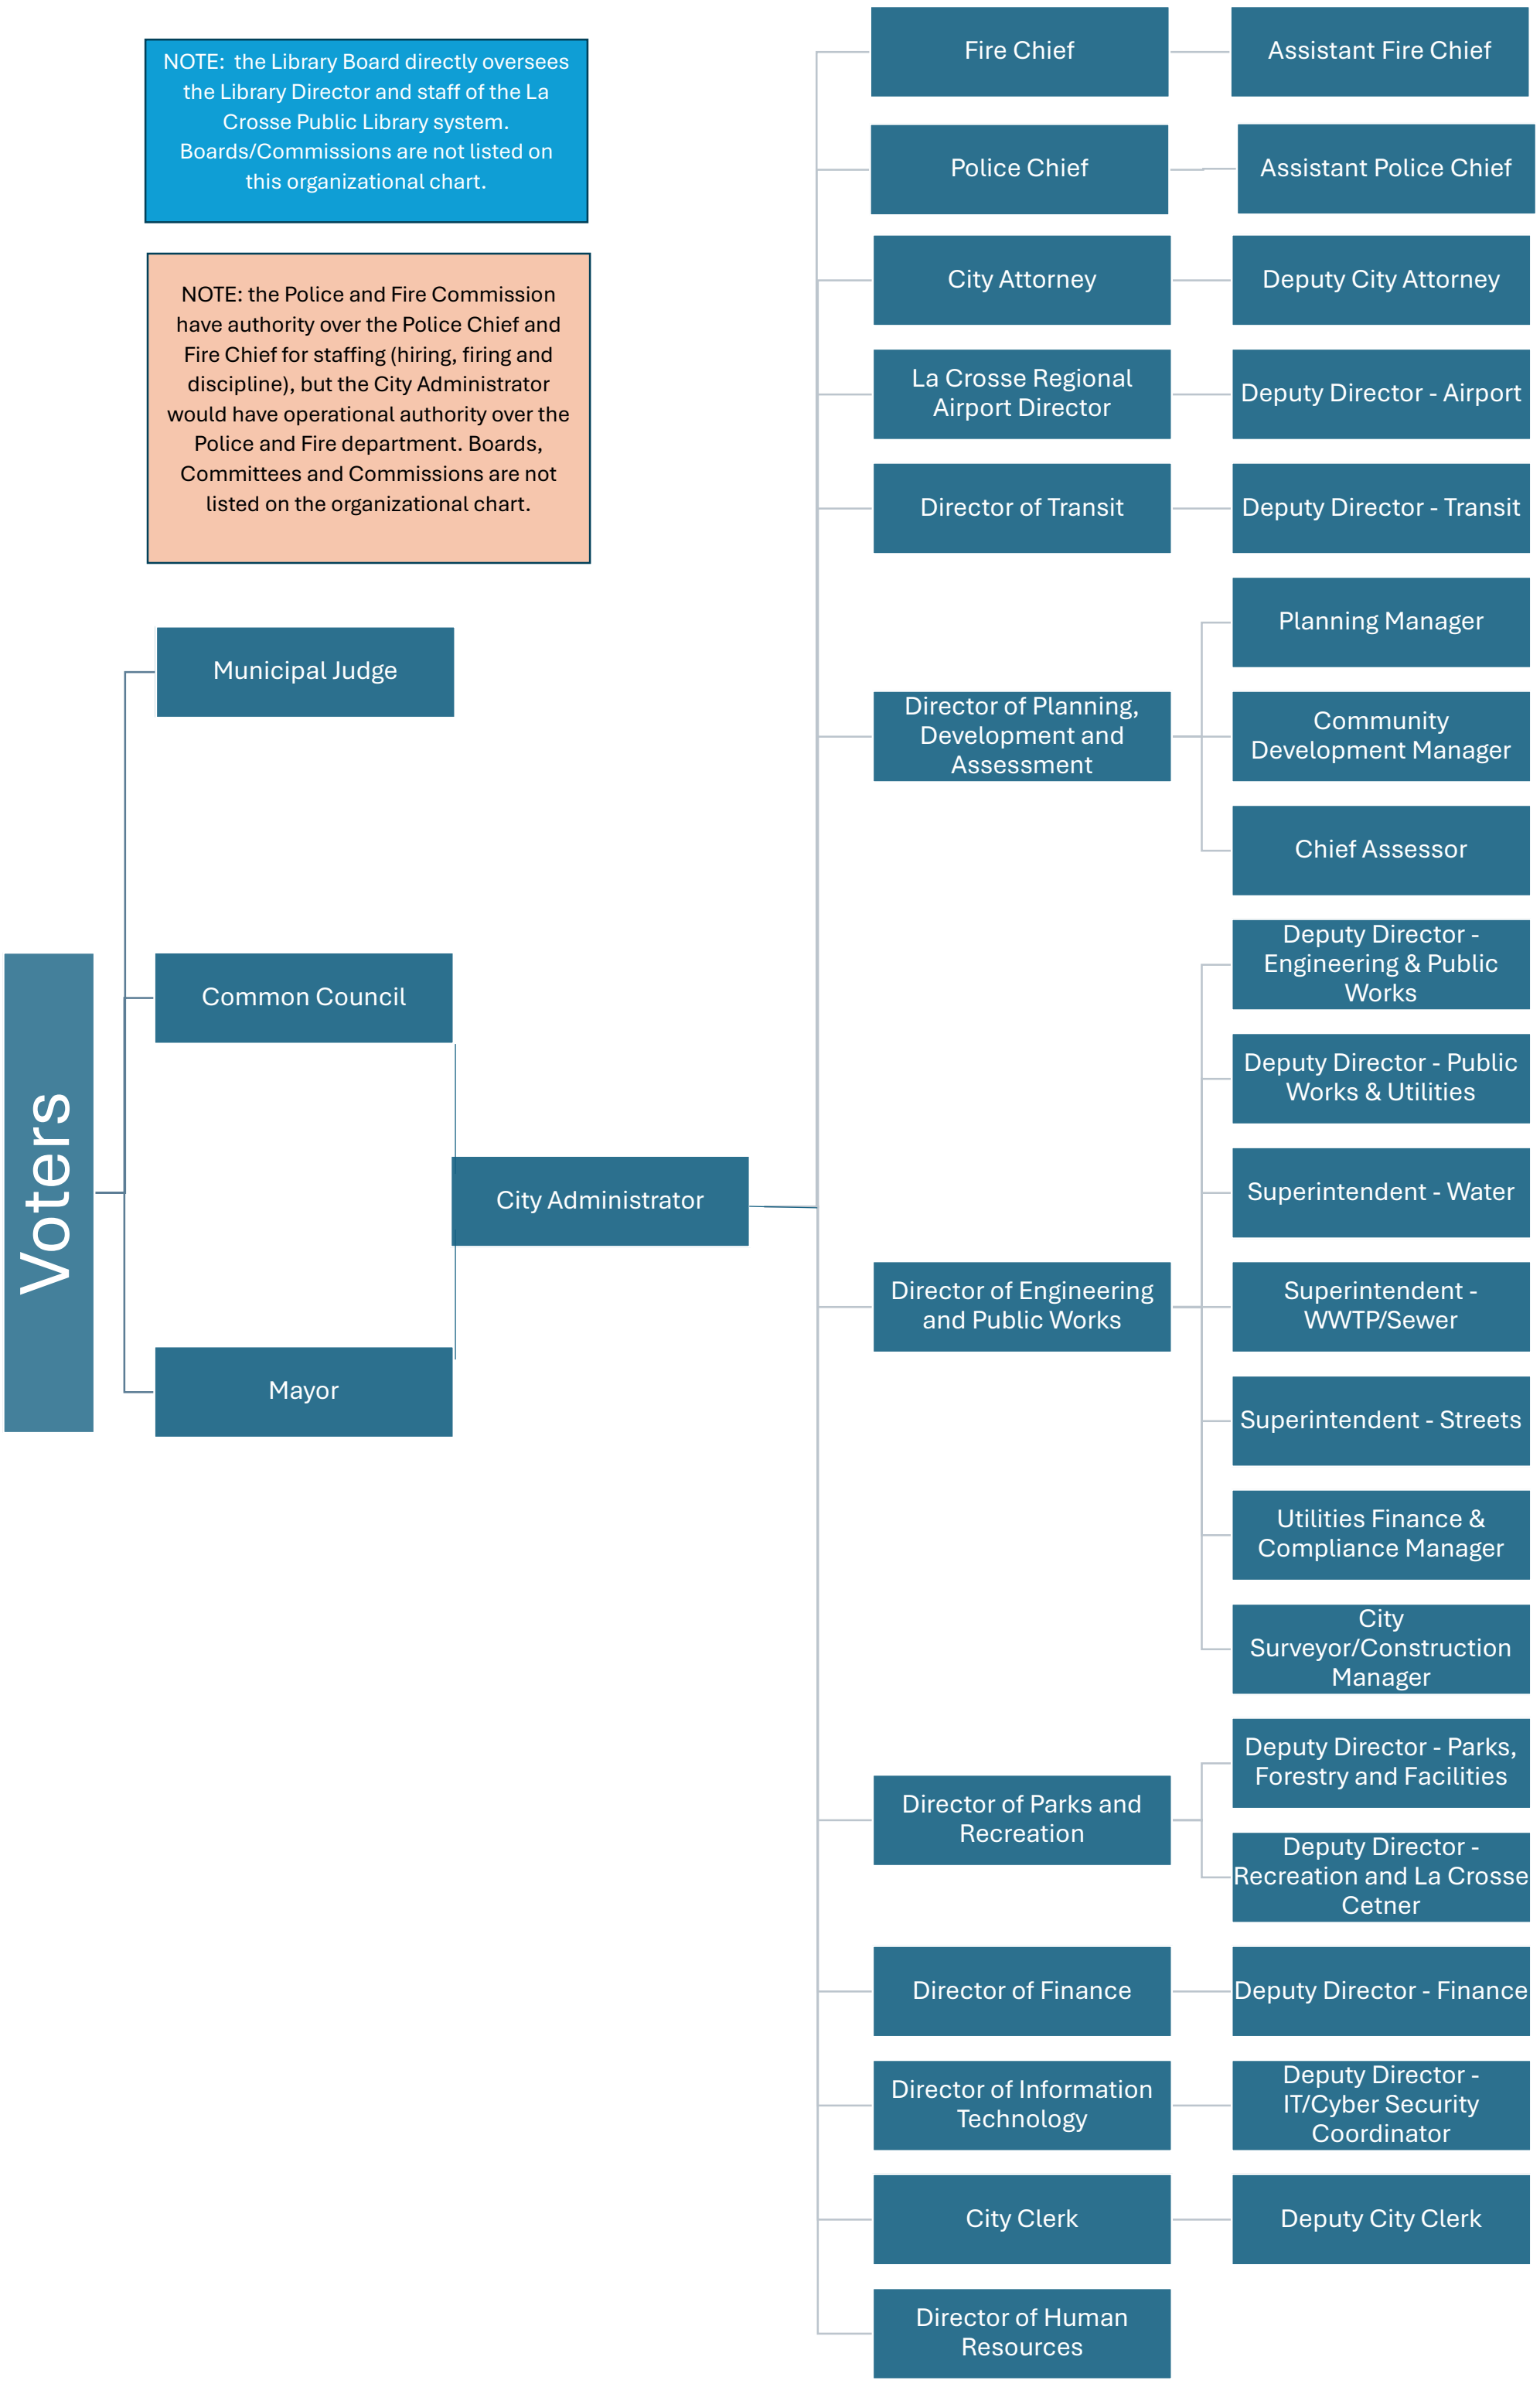

Once a candidate is selected, the Director of Human Resources will work with the selection team and the executive recruitment firm to determine a wage offer for the candidate and create a contract with the partnership of the legal department. The candidate will undergo a background check, and a pre-employment drug screening conducted by a third-party.

Onboarding:
Once the candidate has accepted the City's offer, all further onboarding will be handled by the Human Resources Department per usual City practice.

Rebecca A. Franzen, SHRM-CP

NOTE: the Library Board directly oversees the Library Director and staff of the La Crosse Public Library system. Boards/Commissions are not listed on this organizational chart.

NOTE: the Police and Fire Commission have authority over the Police Chief and Fire Chief for staffing (hiring, firing and discipline), but the City Administrator would have operational authority over the Police and Fire department. Boards, Committees and Commissions are not listed on the organizational chart.

I vote NO to a city administrator. However, I believe the decision is a done deal and it will happen regardless the wishes of the citizens.
The Mayor will then become a figurehead and his duties reduced to groundbreaking and ribbon cutting ceremonies.

The Mayor's salary should then become a part time position with a substantial reduction in pay.

Dear Mx. Schadeberg and Council Members,

I am writing as a citizen residing at 1715 Barnabee Rd in La Crosse, WI, to express my support of adding a public administrator into the La Crosse's City Government. My personal and professional experience with the City of La Crosse has provided many opportunities to see where this position would benefit the City and its citizens. There are a number of silos that I have experienced between the various departments and depending on who you talk to at the City, you may get somewhat different answers or not be made aware of other resources available. Having someone with the daily oversight and authority to project manage the various departments in alignment with the goals set by the Mayor and Council would create efficiencies both within and across departments and externally with partner organizations.

I understand this can feel like a tremendous change and budget update but this is one of those moves that will allow for positive growth and will undoubtedly bring new opportunities as well as cost savings from the success of having a qualified administrator keeping the beat for everyone to work in tandem instead of against each other. Many other cities have shown what a successful working relationship can be with a city administrator, mayor and council, and I believe La Crosse is in a great position to see these benefits as well.

I'm happy to speak more about my experiences, and I encourage the City to support this new position from the mindset of an opportunity for growth.

Thank you,

Anna Sprague

Good evening,

I am writing in support of creating a city administrator position for La Crosse. A municipality of our size maintains a considerable workforce across numerous departments that requires greater coordination for day-to-day operations than we currently experience.

As an elected political official, the mayor is in the position to have more direction in policy and working with the common council. Individuals elected to the role of mayor often have no background in public administration, or even business administration, whereas a qualified City Administrator candidate would bring that experience directly to bear on the work of the city. An administrator free from the political process can provide consistency and efficiency in daily operations, provide more complete information and timely information to aid the mayor and council, and improve services for the entire community.

I believe the proposal is a good idea that would bring much needed support to our city employees, find and create efficiencies in the city's operations, and provide consistency among personnel changes in the common council and mayor's office.

Thank you,

Trevor Sprague
1715 Barnabee Rd.

To Whom It May Concern:

I led the City of La Crosse Human Resources Department for 5 years. After the conclusion of my first year in my position, the Mayor at that time, Tim Kabat, asked me to write a summary of my first year and provide any thoughts I had about how the City could do things more efficiently. My first suggestion was to add a City Administrator position. My rationale for this addition was the position would take the politics out of managing the operations of the city and it would help it run more effectively and efficiently.

The comparison I made at the time was to envision the Mayor being the Chief Executive Officer (CEO) of the city and the City Administrator being the Chief Operating Officer (COO). The Mayor would be the person providing their vision for the City and the City Administrator would be the one overseeing the operations.

In addition, since the City Administrator would be a city employee (not an elected official), it would also add consistency to the operations should there be turnover in the Mayor position.

This is a model that has proven to be very successful in other communities throughout the US. I strongly support Mayor Reynolds' recommendation in adding this position.

Sincerely,

David Buroker
2208 Main Street

Hello,

I'm writing to express my support of the proposal to create a City Administrator position for the City of La Crosse.

An administrator would bring more clarity and oversight to day-to-day processes. The person hired could effectively delegate and execute on Council's policies. This is an exciting prospect for taxpayers, local businesses, nonprofit agencies, and others who rely on a strong local government.

In both personal and professional situations, I've been frustrated by a lack of cross-departmental communication, clear over-burdening of city staff, and avoidable inefficiencies within La Crosse's city government. It's concerning to see all the missed opportunities and miscommunication. Many city staff I interact with fully acknowledge the gaps. I am confident the cost of hiring a City Administrator would immediately be offset by more efficient use of staff (and taxpayer) time and resources.

La Crosse must step up and join the ranks of municipalities across Wisconsin and throughout the nation that understand local government must be run efficiently, effectively, and transparently--and that it takes a talented executive to make that happen. Thank you for considering this proposal and reading my comments.

Thanks,
Natalie Heneghan

Mayor Reynolds and Common Council,

I am writing to express my strong support for the creation of the City Administrator position in La Crosse.

As I mentioned during the J&A meeting last week, I fully endorse this initiative. Since Mayor Reynolds first brought up the idea in his State of the City address last January, I've been giving it a lot of thought. Initially, I was unsure, as I hadn't heard much about the role before. But the more I learned, the more it made sense. It's a smart, practical solution for a city like ours. Frankly, it was surprising to realize that we don't already have a "COO" type role. As I've come to understand the broad and nearly impossible responsibilities currently placed on the Mayor, it makes me wonder why we've waited so long to act.

Reading our comprehensive plan fills me with excitement for what this wonderful city can grow into. But if we truly want to reach that vision, we need to be serious about how we manage our operations now. I believe the best way to set us up for future success is by bringing in a City Administrator as soon as possible.

I understand the concerns about adding expenses to an already tight budget. For a moment, that gave me pause as well. But then I realized that part of the reason we're facing these budget challenges is due to short-term thinking and decision-making. This budget situation should serve as a wake-up call—an opportunity to bring on a City Administrator who can help us plan for the long term and manage our human, financial, and capital resources more effectively in the face of difficult headwinds.

I appreciate that La Crosse isn't breaking new ground with this discussion. The City Administrator role has been successfully implemented in municipalities across Wisconsin.

Looking ahead to the next mayoral election, I've been considering the difficult decision that city residents will have to make. On one hand, voters are looking for a mayor with a clear vision for the city's future in a shifting political environment. On the other hand, the role requires someone capable of managing the day-to-day operations of the city. It's almost impossible for voters to assess whether a prospective mayor would excel as a "COO" without the kind of thorough interview process and reference checks you'd expect for such a role. We need to separate these two functions.

In conclusion, I want what is best for La Crosse, and I firmly believe that creating a City Administrator position is the best path forward for our city.

Respectfully,
Andrew Ericson
La Crosse

Given the opportunity to express my opinion I am not in favor of a proposed City Administrator. This is a waste of City financial resources (Tax payers dollars). This is taking away powers of the City residents that have a right to vote in a mayor that needs to do his or her job, which is both to act as a political figure and as an administrator.

To all council members please do not vote in favor of the City Administrator position.

City resident,

Troy Nedegaard

Hello all,

I just heard this morning that the vote to approve a City Administrator position has been postponed to get more public input.

Count me in as a La Crosse County resident who is very much in favor of creating this new position.

I believe this would offer more efficient Management, Budget oversight, improve strategic planning and overall enhance our great cities governance.

Sincerely,

Dear La Crosse City Council,

I am writing to express my disappointment and disapproval of your recent decision to defer the City Administrator position decision until next May. This decision undermines the efficient and effective governance of our city and goes against the best interest of our community. I watched last night's Common Council meeting and anxiously awaited to hear how council would vote.

As I could infer from the guidance the city's attorney provided to you, it was advised any deferral past December 1st, 2024, meant any decision made would not take effect until after the next mayoral term. This means the citizens must wait 4.5 years if majority of council approves.

I am particularly taken back by your indecision and indecisiveness. The primary argument was the citizens did not express their opinion. The secondary argument was a 20+ year discussion was moving too fast. Understand, we the citizens don't always understand nor care to know the inner-workings of government. Instead, we elect persons to make the decisions that are best for a citizen's city government. We may always take to social media to complain about a decision, but we never do our due diligence to understand a decision. But perhaps worse is when councilpersons incorrectly assume they are just like any ordinary citizen and can throw up their hands and say "I don't understand what's going on; this is moving too fast". You have your government and council subcommittees at your disposal.

As a nation, we are entering an era that shifts to a new generation which means a rapidly changing world. Deep investments in infrastructure and the economy will become paramount for the United States and has been underway. The council must be stewards to put in place frameworks that ensure their government performs at its best. We cannot afford to delay decisions and be paralyzed by indecisiveness. Unfortunately to all, that indecisiveness is what the majority of council voted for tonight.

Thanks,

Westley Wamsley
City of La Crosse resident

Hello:

We are opposed to the hiring of a City Administrator for the following reasons:

1. It creates another paid government position for a job that should already be done by the Mayor and current staff of employees.
2. It provides a powerful leadership position that the citizens of La Crosse do not vote on. Tbus we cannot vote the person out, like we can the Mayor and City Council.
3. The City of La Crosse is not much larger than it was in 1940 (about 42,000), but our administrative staff is much larger.

Thank you,
Sincerely,

Good morning Council Members,

I'm writing to you to urge you as a body to refer the City Administrator legislation. I realize the pros and cons to the position creation, however I don't believe the tax payers are as well informed as they should be. During this referral time period several Public engagement sessions can be held throughout the City. In addition to public engagement sessions this should again be put to referendum, once the public has been educated. This significant change in government structure should be decided on by the people of La Crosse as they will ultimately foot the bill.

Thank you for your service,

Chris Woodard

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Dear Councilmembers,

First off, thank you all for your thoughtful dedicated service to the City of La Crosse.

I am writing to express my support for moving forward to hire a city administrator. I remember hearing about this idea four or five years ago and I thought, and still do think, that it makes a lot of sense for a city of La Crosse's size and complexity to have a position like this. This is, however, my first time writing to you to express this view. I understand you have been and still are interested in public input on this matter and so here I am speaking up.

Personally, I am strongly in favor of the idea of hiring a city administrator. I see this role as an important support for the mayor and the other city leaders who are stretched thin. We need these people doing the jobs they are there to do, not an administrator job that could be more efficiently and effectively handled by an individual hired for that purpose. As I'm sure employees in many other sectors can attest, constantly trying to "do more with less" eventually results in getting less, and that is not good enough for me when it comes to our city. The other people working hard on behalf of the city deserve to have a full team to support them and coordinate their efforts for optimal payoff and I am excited to see what a city administrator could do for us in terms of positive change.

I understand that an issue currently before you is whether to pause for further input from the public. While commendable, that endless desire for more input can function as a stalling tactic. I first heard about this idea years ago, and the working group has gathered information from those most impacted. I elected you to make informed decisions on my behalf, and I believe you should all feel empowered to represent residents of the city and make decisions to move us forward without unnecessary delay.

Sincerely,

Grace Deason

City Administrator Position

Employee view

Good morning,

As an employee of the City of La Crosse, I would like my view to be read and considered when the decision is made whether to move forward with the City Administrator position.

I have been with the City of La Crosse, beginning in a temp role in 2014 and transitioning to a full-time hire in 2016, and see many reasons why this position would be a benefit to the City residents and employees.

I do want to state that I am not a City of La Crosse taxpayer as I live outside City limits, however, I did grow up on the Northside of La Crosse and my family still resides within City limits.

I believe the position should be added specifically to hold Department Heads accountable for their actions and decisions. It puzzles me as to why they are not held to a specific standard already. Sure, are they supposed to be? Yes. But are they? Absolutely not.

When I hear Department Heads telling their Superintendents and Managers that they can do "whatever they want with their budget", it infuriates me. It is not the department's budget to do whatever they want to do; it is the taxpayers' budget, and the City is responsible for ensuring the money is used wisely with the money being spent directly benefiting those that pay into it.

A question I have is when can Departments go ahead with projects within their department that are to "benefit" the employees, with funds used from utility bills or taxpayer funds, without approval or support from the Human Resources Director? Or approval from the taxpayers themselves? Or the City Council? A City Administrator would be able to review these items and approve them as they see fit.

Frivolous spending on the Department Heads part is why the City of La Crosse is always looking to make cuts. The money is not ours. It is not theirs. It is the taxpayer's money.

Employees are consistently told from their superiors that their "hands are tied" when inquiring for higher pay or a reclassification in their position. However, behind closed doors and slid through to the Council for approval, they are reclassifying their own positions, receiving higher pay and taking more money from taxpayers while at the same time delegating more and more of their work out to the people they manage. "Low-level" employees should have the same considerations as management when they try to "better" themselves. A City Administrator would be able to oversee these reclassifications without bias.

The City Council approves based on Department Heads and Management recommendations. They do not ask for employee input. And if they do, employees are not made aware of that. Again, a City Administrator would be able to oversee these recommendations without bias.

One last comment, if the City Administrator position is to be adopted, the position should be hired from outside of the current employment pool. If the City were to hire from within, there would be no change. The “good ole boys” club would continue. The same people would be making the same detrimental decisions, just being paid more and having more power.

An outside perspective is exactly what the City of La Crosse needs. It is obvious to me that how we are doing business now, is not working, on the employee front or for the residents.

I very much enjoy my position with the City of La Crosse and am one of the few that welcome change. I believe that a City Administrator would not only benefit the residents but the employees as well.

Thank you for your time.

Dear Council Members,

I was shocked to learn last week at a Housing Week event last week that the city of La Crosse does not have a city administrator. I recently moved from a town in Michigan of 3,000 which had both a mayor and administrator and the smaller neighboring town of 2,000 had this position as well. I feel it is unreasonable for a city the size of La Crosse to expect the mayor to function as the administrator. Having an administrator would allow for continuity of city programs and projects as new mayors enter the office. I feel that too much time is spent training mayors to fill this role when an administrator could manage city staff with approvals coming from the mayor. I urge you to support the creation of this position for the city. Thank you,
Sam Stauffer

Hello La Crosse City Council Members,

Thank you for your service on the council. It is my understanding that topic of a city administrator position will once again be considered this week and I'm writing as a resident of La Crosse to share my support for the creation of a city administrator position. A professional, experienced city administrator who can execute a strategic vision for the city in a cohesive manner across mayoral terms would be a significant benefit for our city. It is my understanding that many cities the size of La Crosse employ administrators and, given the complexities of our city, it seems prudent that we invest in the capacity of our city leadership.

Thanks again for your time and dedication on behalf of our community!

Nell Saunders-Scott

Hello Council Members,

I live at 515 23rd St S, La Crosse WI 54601. Before my husband and I moved to La Crosse, we lived in River Falls, a city with a City Administrator. As a City employee, it felt like City staff were proud to do their jobs and that the City was able to accomplish a lot, across all departments. I think that we need to stop wasting time and make this investment in experienced and capable leadership for La Crosse. I can see the possibilities and they are awesome. Please stop pushing this decision back and bring in a City Administrator.

Hello there,

I wanted to share a couple of sentiments that I have regarding the city administrator issue that will be coming up again soon. I would like to see this item explored at this time and not pushed down the line for future review again.

Additionally, I would like to express my support for the city administrator position being implemented if we can find a way to fund it in a sustainable manner. In times when budgets are tight and there are complex decisions on the table, I would love to see a professional in this role with all of the experience necessary to make challenging decisions.

Thank you for the work you do!
Best,
Meagan Ronsman

I think the position of City Administrator should be put to a referendum. It's way too contentious to be left to council alone.

My only concern with doing that is making sure the people know what they're voting for exactly. (I have ideas, but those of you who know me know that of course I would have ideas.)

Good Afternoon Members of the Common Council –

My name is Bob Gollnik, Executive Director of the La Crosse Area Planning Committee (LAPC), and a transportation planner/project manager with over 20 years of experience working across the United States. Our agency focuses on regional transportation planning for the La Crosse-La Crescent area, with the City of La Crosse as our largest member. In some ways we serve as a de facto "Council of Governments" for the communities surrounding the City of La Crosse. Our policy board consists of the highest elected officials from 10 area member communities and the La Crosse County Board Chair. We also have two committees that involve multiple City of La Crosse technical staff.

Last fall, I shared a version of the information below, and I believe this issue remains just as important as you consider the next steps for the City Administrator, City Manager, or Chief of Staff role. Since becoming Executive Director of the LAPC in 2023, I had the privilege of working with Mayor Reynolds, who was an excellent partner and supported many productive conversations that advanced our regional planning work. In recent months, his leadership underscored the value of having a professional city management structure in place—regardless of who is in office. I look forward to building a similar partnership with Mayor Washington-Spivey, and I believe the need for this role is more urgent than ever. A City Administrator, City Manager, or Chief of Staff could help La Crosse meet future demands, improve service delivery, and boost coordination and effectiveness across departments.

Cities of La Crosse's size—and even smaller municipalities—commonly have this role to ensure consistent, effective governance. While many points have been outlined for the council, I would like to emphasize a few key areas most relevant to our work and the benefits a City Administrator/City Manager/Chief of Staff could bring to La Crosse's growth and development:

- **Experienced Professional Leadership and Stability:** The right city administrator will bring professional experience to help La Crosse grow in a smart and sustainable way—especially when balancing natural resources like the Mississippi River with development. They also provide consistency across departments and outside partnerships, even when elected officials change.
- **Smart and Efficient Use of Resources:** Administrators are tasked with making the most of public funds. La Crosse could benefit from someone who can manage tax dollars, grants, budgets, and resources wisely—especially for projects like infrastructure, housing, and public safety.
- **Follow-Through on Plans:** La Crosse has a history of big goals, like improving the riverfront and expanding transit. A city administrator could help make sure these plans move forward efficiently and stay on track with the city's long-term vision.

- **Managing Daily Operations:** Running a city like La Crosse—with its transportation and public safety needs, housing issues, and busy tourism scene—requires full-time attention. A city administrator would handle daily operations *so the mayor and council can focus on big-picture policy, long-term vision, and engaging with the community*.
- **Planning for the Future:** Ideally, a city administrator will help La Crosse grow thoughtfully—supporting economic development, affordable housing, environmental goals, tourism, and quality of life for residents.
- **Non-Partisan Leadership:** Effective city administrators work well across political lines. Their focus is on what's best for the community, not politics. They also help new mayors and council members get up to speed, which keeps city work moving smoothly.
- **Helping the Council Do Its Job:** With a city administrator handling budgets, staff, and operations, the city council can focus on making laws, listening to residents, and setting priorities.
- **Handling Emergencies and Crisis Management:** Whether it's flooding, economic challenges, or major community events, city administrators are great at leading quick, organized responses, leadership helps keep people and businesses safe.
- **Connecting with the Community:** Administrators in other places have helped strengthen the connection between city government and the people it serves. La Crosse could benefit from someone who ensures community voices are heard and used to guide decisions.
- **Improved Accountability:** Because city administrators answer to the council and public, they help ensure city departments meet goals and operate transparently. This builds trust and keeps city services on track.

I believe the role of a City Administrator (or a variety of) would significantly enhance La Crosse's governance, providing stability and professional management to address the city's current and future needs while expanding collaborative opportunities with regional partners like us.

Please contact me if any of you would like to discuss further, and I strongly encourage you to consider this important initiative sooner than later.

Sincerely,

Bob Gollnik

The City Administrator Charter Ordinance proposal should be delayed for two months, and modified slightly.

A delay is needed because there have not been public input sessions/town halls on this topic. These are necessary because this is a very major and contentious issue. I believe that having these will clarify what the administrator will do, explain how it will make the city run more efficiently, and show how it can end up saving more than it costs. Delaying until February is unnecessary, so I suggest two months. This will make everyone a lot happier with the decision.

Second, I would like to see the consideration of a modification to the ordinance. Section III states:

"This charter ordinance specifically removes those duties from the Office of Mayor to oversee the day-to-day operations, management and administration of the City of La Crosse that are found under § 62.09 (8) (a), Wis. Stat. Any charter provision or any previously enacted ordinance or charter ordinance inconsistent or in conflict with this ordinance is expressly repealed."

Wis. Stats. § 62.09(8)(a) states:

"The mayor shall be the chief executive officer. The mayor shall take care that city ordinances and state laws are observed and enforced and that all city officers and employees discharge their duties."

(§ 62.09(8)(b) through (e) state the Mayor's other official duties)

I don't believe it's necessary to transfer the statutory powers granted by § 62.09(8)(a), and I think the right thing to do would be to either eliminate this section or change it to say something like "When not overruled by the Mayor, the Administrator will oversee the day-to-day operations, management, and administration of the City of La Crosse as stated under § 62.09 (8) (a), Wis. Stat.".

One of the concerns that many residents have about the Administrator proposal is that it puts another unelected bureaucrat in between the people and their government. The Administrator will be a de facto lifetime appointment with very little chance of removal except for outrageous misconduct; merely being disappointing will probably not be enough cause for removal.

With this change, I believe that the normal dynamic on a day-to-day basis would be indistinguishable from if the statutory power was transferred - the Administrator would still carry out the administrative role as envisioned - but it would ease the minds of many city residents, myself included, to know that the elected Mayor would retain the option to overrule the Administrator if he or she felt it was absolutely necessary. It would not surprise me if this never happens in any of our lifetimes, but just keeping the option would be healthy for democracy.

Also, unless I'm not seeing it, there doesn't seem to be a provision for city administration when the

Administrator is unexpectedly absent. Having the administrative powers be in the hands of two people would allow them to cover for each other when necessary.

Finally, I suspect that the transfer of statutory powers is what makes this a Charter Ordinance, although I'm not certain about that; this would be a question for the City Attorney. If that's the case, then keeping the mayoral powers intact could potentially reduce the number of votes needed to approve the Administrator and preclude the possibility of a costly and time-wasting referendum on it. A few town halls and a tweak to Section III would dramatically ease this proposal along.

Good Afternoon,

As a resident of the city of La Crosse, I urge you to move forward in supporting a plan for a city administrator. La Crosse needs a professional person who can help us move toward the planning goals that were previously adopted.

Housing is a crucial issue in La Crosse that impacts residents, students, businesses and future growth. A city administrator would provide consistency in dealing with zoning and developers. Our city is large enough to benefit from a professional administrator that won't be impacted by changes in the mayoral or council seats.

Thanks for your consideration.

Hello City Council Members,

I'm writing to share my support for a City Administrator and ask you to work toward achieving this in a timely manner without continuing to push off the decision. Having a City Administrator will provide more direct accountability for the day-to-day operations for all parties. Based on my professional experience with projects that involve more than one department, there is ample opportunity for cost savings and helping the City to move in a more unified direction. In my eyes, this position is not one that oversteps on the role of mayor but instead elevates the work of that role. Many surrounding communities have seen wonderful success and huge economic development because they are properly staffed. I encourage you to invest in our community with the addition of a City Administrator.

Thank you,
Anna Sprague

Dear City Council,

I encourage you to vote "yes" to hire a City Administrator. This position could bring consistency to the city that we have been lacking for many years. Council members come and go, mayors come and go and we need someone who can provide consistent oversight and leadership to our fine city.

While I have heard plenty of concerns about the expense of this position, I feel this would be money well spent. And in the long run would more than likely end of saving the city money.

Please support this position for all of us!

La Crosse, WI 54601

To Whom It May Concern,

Please accept this letter in support of the charter ordinance to create section 19 of Appendix A of the Code of Ordinances of the City of La Crosse creating the position, duties and responsibilities of the Office of the City Administrator and removing duties from the Office of the Mayor.

Many of the core issues our community faces—both the challenges and the opportunities—are long-term issues. These are conditions we will face for decades, not months or even years. A community our size needs operational guidance and certainty to advance addressing these issues as directed by the elected Council and the Mayor. The creation of a City Administrator position would allow for continuity in daily operations of the city and would bring expertise and professional training in the operations of critical services in local government including emergency services, public safety, intergovernmental relations, and community development. A City Administrator has the potential to further the efficiency and effectiveness of services in the City of La Crosse, allowing for continued leadership in the region and beyond. La Crosse is poised to continue its rise as a premier community in the Upper Midwest. Implementing a full-time City Administrator will help advance that rise, allowing our elected leaders to focus on vision and policy while the Administrator manages operations. This will help city government be even more responsive to all citizens.

Gundersen Health System—becoming Emplify Health—experiences firsthand many ways municipal services and operations of the City of La Crosse impact our patients, staff, and the community. I appreciate your thoughtful attention to this request and ask you to support and advance this proposal. Please do not hesitate to contact me if you have any questions or concerns.

Sincerely,

Heather Schimmers

Good Afternoon,

I am a La Crosse city resident, and learned the Council deferred the decision on the above position in order to elicit public comment. What specific initiatives are planned by the Council to hear from the public? It would seem that the election of the mayoral candidate who voiced support for the city administrator position would be a strong indication of public support.

I look forward to your response.

Thank you,

Linda Myers

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

opinion:
Both my husband Tom and myself would prefer a city administrator to decrease the upheaval during a newly elected mayor term, thus providing consistency and reporting to the council not the mayor The Mayor position would then be a LESS than full time position, the admin staff for the mayor currently could be shared with the newly hired city administrator.

questions?? We do not understand why a mayor would need an operation director, what would be this role consist of? and then what would the mayor's role become? Why hire someone who would be removed from office with each election cycle?

Thank you Karen and Tom Briggs, concerned city residents

Good Morning,

I am a resident of the city of La Crosse and would like to support the recommendation of implementing a city administrator. Our city has a large budget that needs to be professionally administered by someone with education and experience in these areas. I believe this expertise will ultimately be a great advantage to the city in evaluating services, expenses, budgets, resources etc.

I have attended one of the work group sessions and appreciate the information shared along with the opportunity to ask questions. I also have reviewed the information on the city web site which was very informative.

Thank you for your services and for the diligence in evaluation the option of the city administrator.

Respectfully,
Kathy Zieja

I urge all of you to vote against the City Administrator position. To date I have not heard how much this is going to cost the taxpayers. I mean the total cost for the position, support staff, supplies utilities etc. etc. The taxpayers just got stuck with another huge increase in property taxes. We don't need more increases. People are struggling to pay those taxes and utilities groceries etc. some are losing their homes. You should be thinking of ways to reduce these taxes not making it harder for us to survive. Please give us a break and please help us by voting against the administrator position. Thank you Sent from my iPhone

FOR IMMEDIATE RELEASE

LA CROSSE AREA CHAMBER OF COMMERCE SUPPORTS CITY ADMINISTRATOR POSITION FOR THE CITY OF LA CROSSE

La Crosse, Wisconsin- January 13, 2026 The La Crosse Area Chamber of Commerce strongly supports the addition of a City Administrator within the City of La Crosse government. This move was formally endorsed by the Chamber's Government Relations Committee as part of their 2025 Legislative Priorities Summary, recognizing the need for professional, consistent, and efficient executive leadership. The discussion around adopting a City Administrator model has been thoughtful and extensive, involving various committees and public engagement efforts over the past year, including most recently a Forum hosted by the Chamber on January 12, 2026. The Forum provided an opportunity to hear firsthand accounts of how professional management has created stability and consistency, improved financial management, and driven strategic growth in other municipalities, offering a clear model for La Crosse's future success and reinforcing that a city administrator can help businesses better-navigate local government. It also allowed our members to ask questions and share their thoughts on this position.

The implementation of a City Administrator would provide immediate and tangible benefits to the entire La Crosse region, particularly the business community. Members of the Chamber, ranging from large corporations to small local businesses to nonprofits have endorsed the idea of adding a City Administrator. This dedicated, professional manager would inject strategic direction into daily operations, enhance operational efficiencies across city departments, and establish a clear line of accountability in our local government. For businesses, this translates to faster, more predictable processes for permits, zoning, and development, fostering a more welcoming and competitive economic climate. As the City moves forward, we believe this is an opportune moment for our elected officials to leverage their leadership and bring this important initiative to a definitive conclusion. Appointing a professional City Administrator allows our elected Common Council and Mayor to shift their focus from day-to-day management to high-level policymaking and community vision, a change that will ultimately lead to more efficient governance and economic growth for La Crosse.

From: City of La Crosse Department Heads

Date: January 8, 2026

Re: Requested Feedback for Charter Ordinance Change 24-1287 – City Administrator

On December 18, 2025, the City of La Crosse department heads received an email from City Administrator Working Group member and Councilmember, Larry Sleznikow inviting department heads to *"to share their comments and concerns about this position with council members."* The City department heads would like to thank the former and current members of the City Administrator Working Group for the time and efforts spent listening to staff, community members, and community stakeholders along with the time and energy put into gathering and presenting data that was shared at the December 16, 2025, City Administrator Working Group meeting. The City Administrator Working Group invested a great deal of time in learning what it would mean if the City of La Crosse adopted this charter ordinance and were to add a City Administrator position, which is appreciated. The success of this group has led to fruitful conversations and soliciting the feedback of our community members.

On January 5, 2026, the City department heads met to discuss the charter ordinance regarding the City Administrator. As the group of leaders who have been entrusted with the operations of our City government, we have identified several questions that we believe require resolution before a charter ordinance is adopted. The response below reflects our shared commitment to transparent governance and our responsibility to the effective day-to-day operation of the City.

Collectively, we believe the following questions require clarification regarding a City Administrator governance model in the proposed charter ordinance.

Governance Structure and Authority

- What specific problem in the current City governance structure does the creation of the City Administrator position aim to address?
  - Are there other ways to address the identified problem that are more cost effective?
- What will the reporting structure be among the Mayor, Common Council, City Administrator, and departments heads?
- What powers will the City Administrator hold individually?
- What powers will remain with the Mayor and Common Council collectively?
- How will decision-making authorities be delineated in areas where responsibilities may overlap?

Selection and Transition

- Who will be responsible for selecting applicants for the City Administrator position for both interviews and selection of a finalist?

- How will the transition be managed given that it will occur mid-election cycle?
  - Will the position of Mayor for the next election cycle be changed from full-time to part-time?

- If approved, the City would need to appoint an interim City Administrator as duties will be removed from the Mayor's office. The Mayor is prohibited from serving as interim City Administrator.
  - How will continuity of operations be maintained during a transition period?
  - How will an interim City Administrator be selected?

Fiscal Impact

- How will the budget support this role given the City's current structural deficit?
  - *The estimated cost to add a City Administrator is approximately $275,000 - $285,000 for salary, benefits and non-personnel expenses for the position. This does not include any expenses related to support staff, office space or other negotiated expenses. We likely won't see this full expense realized until early 2027.*
  - *In 2026 we could see approximately $30,000 - $50,000 in expenses related to an executive recruitment firm, if the Common Council agrees to use such a service. Currently, this expense is not budgeted.*
  - *In addition, there will be an increased salary expense if an internal candidate is selected as interim City Administrator. This could be upwards of $50,000 in 2026. Currently, this expense is not budgeted.*

- What will be the budgetary impact on existing department resources to fund this position?

- Is the physical space available sufficient for the creation of this position?

- What data has been collected and assessed to demonstrate a positive fiscal impact for City operations overall with the addition of a City Administrator?

Additionally, the Common Council approved a workforce study in 2026 that will evaluate the operational efficiencies of our current governmental structure and staffing. Through this study, it may identify if a City Administrator is recommended or if other positions could assist with filling gaps that may be identified through the study.

Department heads are faced with the realities of budgetary constraints that have led to reduction in resources, unanswered questions how the change in governmental structure will impact our ability to provide services to the City of La Crosse residents, and a charter ordinance that doesn't answer the primary question of "*what is the problem we are looking to solve?*"

The questions posed by department heads are not in opposition of a City Administrator position, rather they intend to ensure that any governance restructuring is implemented thoughtfully, and with full consideration of operational realities. As a group of experienced public service leaders who have collectively served the City for decades, we are faced with questions that lead to concerns, making it difficult to support a charter ordinance at this time that adds the position of City Administrator.

City of La Crosse
400 La Crosse St., La Crosse, WI 54601 · Tel: (608) 789-2489
www.cityoflacrosse.org

We believe that the questions listed should be evaluated and answered before a new charter ordinance be introduced. We look forward to continued collaboration and open dialogue.

City Administrator Ordinance

Message*
Good afternoon,
I do not reside in the City of La Crosse, so I understand my message may have limited relevance to your upcoming review of the ordinances creating a city administrator position. I am writing simply to express my personal support for professional administrator positions in cities, villages, and towns. I am not speaking on behalf of the Village of West Salem or the Village Board of Trustees. I simply wish to offer a different perspective for your consideration.
You are undoubtedly aware of the basic eligibility requirements to run for mayor—or any elected municipal office. A candidate must:
• Be a qualified elector
• Be at least 18 years old
• Be a U.S. citizen
• Be a resident of the municipality
• Not have been convicted of a felony without a pardon
That's it. That is the full extent of the qualifications. There is no requirement for experience in municipal finance, long range planning, public administration, human resources, public works, infrastructure, or community and economic development. In the absence of a professional administrator, city staff must not only keep operations running but also train a new mayor—potentially every two years—on the fundamentals of municipal management.
A city administrator provides continuity, day to day oversight, coordinated operations, and a clear line of accountability. Municipalities with administrators are consistently noted by businesses and developers for their efficiency, communication, and predictable processes.
Speaking only for myself, my most productive working relationships are with fellow administrators, department heads, employees, and clerks throughout our region. Those are the individuals who manage operations, solve problems, and collaborate across municipal boundaries. The City of La Crosse is missing this key component of stable, efficient, and forward looking local government.
Hiring a qualified and experienced city administrator would make La Crosse more competitive, more responsive, and better positioned for long term success. It would also allow the mayor to focus on community engagement—attending events, meeting residents, understanding neighborhood issues, and building relationships with businesses, nonprofits, and civic groups—rather than being pulled into the daily operational demands of city management.
Thank you for taking your time to read this message.

Subject: City Charter Ordinance City Administor

Council members,

You are tasked to consider something that has not happened in our city in the past century, changing the structure in which our city government works. I implore you to consider all the options then move forward in a careful, detailed manner.

When I attended a public listening session it was repeatedly stated that the City Administrator Working Group was charged with the sole purpose of considering the former Mayor's proposed ordinance and no other options. A city manager option was not discussed and there was still confusion as to who the new administrator would report to as well as what role the mayor would play. These are very important details that need to be debated and clearly defined before moving forward.

Recently the La Crosse County Board experienced conflict with the role of their administrator. Monies approved by the Board for one purpose were shifted to another program without consulting or getting approval of the full board. This dissent led to four members voting not to renew the County Administrators contract. This appeared to be a disagreement about the governmental process of authority and not with the actual performance of the person. This is a recent, local example of the importance of clearly spelling out the details and processes of this new position.

I believe the charter ordinance put forward by our prior mayor, currently being considered, is woefully inadequate and so poorly written that trying to amend it into a coherent plan is not possible and will only create confusion with many future problems.

The Newberry charter ordinance appears to be a bit cleaner framework to work with, clearly defining the role of mayor, council and lines of authority. I would however eliminate the limiting subsection e QUALIFICATIONS and let subsection b APPOINTMENT language guide the hiring process.

Due to the fact this is a once in a century structural change this body will debate, I think taking the time to consider all possibilities and details is necessary. As much as postponing a decision is frustrating, this is one that needs to be done right the first time. Under this potential change, the role of Council will become focusing on the big picture and no longer micromanaging the details. Stepping back and taking the 30,000-foot view to consider all options now is the best approach before finalizing the details of this endeavor.

Thank you and good luck to you all,

Mike Kiefer

Agenda Date: 2/3/2026 **Version:** 1 **Status:** Referred

In Control: Judiciary & Administration Committee **File Type:** Resolution

Agenda Number:

Second Amended Resolution providing course of action to the Wisconsin Department of Transportation with respect to Alternatives for USH 53 Corridor Study, from King Street to La Crosse Street.

RESOLUTION

WHEREAS, the Department of Transportation of the State of Wisconsin (WisDOT) is conducting a corridor planning study on USH 53, including the section known by local designation as 3rd Street and 4th Street, from King Street to La Crosse Street (Downtown); and

WHEREAS, the Public Involvement conducted by WisDOT included has included meetings (with surveys) that incorporated a local Technical Advisory Committee (TAC, June 17), a Local Officials Advisory Committee (LOAC, June 17), a Community Advisory Committee (CAC, July 16), a Public Involvement Meeting (PIM, July 16), and a Downtown Business Owners Meeting (September 3); and

WHEREAS, said meetings with said groups did include discussion, input, and survey regarding two alternatives, which themselves were distilled from a larger number of alternatives through involvement with said groups, and are presented herein as Alternatives 1 and 2; and

WHEREAS, existing adopted citywide plans were referenced and consulted when considering the Alternatives, including, but not limited to, the Comprehensive Plan, Transportation Demand Management Plan, Bicycle and Pedestrian Master Plan, and the Imagine 2040 La Crosse Downtown Plan; and

WHEREAS, discussion of Alternatives has been routed for input to various committees and boards, including the Committee for Citizens with Disabilities, the Bicycle Pedestrian Advisory Committee, and the Board of Public Works; and

WHEREAS, there has been support for each Alternative, without a unanimous consensus emerging; and

WHEREAS, both Alternatives meet the established Purpose and Need of the WisDOT Corridor Study but require final direction to advance the study beyond Alternative selection and into the design phase, and said selection is most properly made as a policy decision by the whole of the Common Council; and

WHEREAS, the selection of a concept as a preferred Alternative is necessary for the creation and approval of State/Municipal Agreements throughout the design and construction process for the USH 53 corridor; and

WHEREAS, aside from their similarities, the differences for the alternatives can be summarized as follows:

Alternative 1 – Keep on-street parking on one side of the street (parking lane funded 100% by City of La Crosse) and install a parking-separated, raised bicycle lane on the same side, between the parking lane and sidewalk, buffered each side with paved terrace space.

Alternative 2 – Keep on-street parking on two sides of the street (parking lanes funded 100% by City of La Crosse) and do not install designated bicycle facilities but slightly widen sidewalks.

WHEREAS, the Imagine 2040 La Crosse Downtown Plan highlights a 3rd/4th Street Circulation Design with bicycle infrastructure.

WHEREAS, the 2024 Bicycle and Pedestrian Master Plan lists 3rd and 4th Street bikeways as a desired long-term project.

WHEREAS, according to the La Crosse Climate Action Survey, over 65% of respondents indicated they would walk or bike more frequently if they felt safer. Studies also show that improvements in pedestrian and bicyclist safety not only improve walking environments, but also contribute to urban renewal, local economic growth, social cohesion, improved air quality and reduction in the harmful effects of traffic noise.

WHEREAS, Public Right-of-Way Accessibility Guidelines (PROWAG) dictate that on-street nonresidential parking must have designated accessible parking spaces sized so that a person with a disability may exit a parked vehicle and maneuver to the sidewalk without entering a vehicular way.

WHEREAS, a significant number of La Crosse residents do not own a car and do not drive.

NOW, THEREFORE, BE IT RESOLVED by the Common Council of the City of La Crosse that it hereby provides the course of action to proceed by selecting Alternative ~~2~~ 1.

BE IT FURTHER RESOLVED that for the selected Alternative, all City and State standard specifications, procedures, and details shall be followed for design and construction, recognizing 3rd and 4th Streets as connecting highways within the jurisdictional maintenance limits of the City of La Crosse.

BE IT FURTHER RESOLVED that the Common Council hereby authorize staff, and request that WisDOT proceeds, to complete the design and construction phases expeditiously.

BE IT FURTHER RESOLVED that City of La Crosse staff are hereby directed to effectuate this resolution.

Amended Resolution providing course of action to the Wisconsin Department of Transportation with respect to Alternatives for USH 53 Corridor Study, from King Street to La Crosse Street.

RESOLUTION

WHEREAS, the Department of Transportation of the State of Wisconsin (WisDOT) is conducting a corridor planning study on USH 53, including the section known by local designation as 3rd Street and 4th Street, from King Street to La Crosse Street (Downtown);and

WHEREAS, the Public Involvement conducted by WisDOT included has included meetings (with surveys) that incorporated a local Technical Advisory Committee (TAC, June 17), a Local Officials Advisory Committee (LOAC, June 17), a Community Advisory Committee (CAC, July 16), a Public Involvement Meeting (PIM, July 16), and a Downtown Business Owners Meeting (September 3); and

WHEREAS, said meetings with said groups did include discussion, input, and survey regarding two alternatives, which themselves were distilled from a larger number of alternatives through involvement with said groups, and are presented herein as Alternatives 1 and 2; and

WHEREAS, existing adopted citywide plans were referenced and consulted when considering the Alternatives, including, but not limited to, the Comprehensive Plan, Transportation Demand Management Plan, Bicycle and Pedestrian Master Plan, and the Imagine 2040 La Crosse Downtown Plan; and

WHEREAS, discussion of Alternatives has been routed for input to various committees and boards, including the Committee for Citizens with Disabilities, the Bicycle Pedestrian Advisory Committee, and the Board of Public Works; and

WHEREAS, there has been support for each Alternative, without a unanimous consensus emerging; and

WHEREAS, both Alternatives meet the established Purpose and Need of the WisDOT Corridor Study but require final direction to advance the study beyond Alternative selection and into the design phase, and said selection is most properly made as a policy decision by the whole of the Common Council; and

WHEREAS, the selection of a concept as a preferred Alternative is necessary for the creation and approval of State/Municipal Agreements throughout the design and construction process for the USH 53 corridor; and

WHEREAS, aside from their similarities, the differences for the alternatives can be summarized as follows:

Alternative 1 – Keep on-street parking on one side of the street (parking lane funded 100% by City of La Crosse) and install a parking-separated, raised bicycle lane on the same side, between the parking lane and sidewalk, buffered each side with paved terrace space.

Alternative 2 – Keep on-street parking on two sides of the street (parking lanes funded 100% by City of La Crosse) and do not install designated bicycle facilities, but slightly widen sidewalks.

NOW, THEREFORE, BE IT RESOLVED by the Common Council of the City of La Crosse that it hereby provides the course of action to proceed by selecting Alternative 2.

BE IT FURTHER RESOLVED that for the selected Alternative, all City and State standard specifications, procedures, and details shall be followed for design and construction, recognizing 3rd and 4th Streets as connecting highways within the jurisdictional maintenance limits of the City of La Crosse.

BE IT FURTHER RESOLVED that the Common Council hereby authorize staff, and request that WisDOT proceeds, to complete the design and construction phases expeditiously.

BE IT FURTHER RESOLVED that City of La Crosse staff are hereby directed to effectuate this resolution.

Resolution providing course of action to the Wisconsin Department of Transportation with respect to Alternatives for USH 53 Corridor Study, from King Street to La Crosse Street.

RESOLUTION

WHEREAS, the Department of Transportation of the State of Wisconsin (WisDOT) is conducting a corridor planning study on USH 53, including the section known by local designation as 3rd Street and 4th Street, from King Street to La Crosse Street (Downtown);and

WHEREAS, the Public Involvement conducted by WisDOT included has included meetings (with surveys) that incorporated a local Technical Advisory Committee (TAC, June 17), a Local Officials Advisory Committee (LOAC, June 17), a Community Advisory Committee (CAC, July 16), a Public Involvement Meeting (PIM, July 16), and a Downtown Business Owners Meeting (September 3); and

WHEREAS, said meetings with said groups did include discussion, input, and survey regarding two alternatives, which themselves were distilled from a larger number of alternatives through involvement with said groups, and are presented herein as Alternatives 1 and 2; and

WHEREAS, existing adopted citywide plans were referenced and consulted when considering the Alternatives, including, but not limited to, the Comprehensive Plan, Transportation Demand Management Plan, Bicycle and Pedestrian Master Plan, and the Imagine 2040 La Crosse Downtown Plan; and

WHEREAS, discussion of Alternatives has been routed for input to various committees and boards, including the Committee for Citizens with Disabilities, the Bicycle Pedestrian Advisory Committee, and the Board of Public Works; and

WHEREAS, there has been support for each Alternative, without a unanimous consensus emerging; and

WHEREAS, both Alternatives meet the established Purpose and Need of the WisDOT Corridor Study but require final direction to advance the study beyond Alternative selection and into the design phase, and said selection is most properly made as a policy decision by the whole of the Common Council; and

WHEREAS, the selection of a concept as a preferred Alternative is necessary for the creation and approval of State/Municipal Agreements throughout the design and construction process for the USH 53 corridor; and

WHEREAS, aside from their similarities, the differences for the alternatives can be summarized as follows:

Alternative 1 – Keep on-street parking on one side of the street (parking lane funded 100% by City of La Crosse) and install a parking-separated, raised bicycle lane on the same side, between the parking lane and sidewalk, buffered each side with paved terrace space.

Alternative 2 – Keep on-street parking on two sides of the street (parking lanes funded 100% by City of La Crosse) and do not install designated bicycle facilities, but slightly widen sidewalks.

NOW, THEREFORE, BE IT RESOLVED by the Common Council of the City of La Crosse that it hereby provides the course of action to proceed by selecting Alternative _.

BE IT FURTHER RESOLVED that for the selected Alternative, all City and State standard specifications, procedures, and details shall be followed for design and construction, recognizing 3rd and 4th Streets as connecting highways within the jurisdictional maintenance limits of the City of La Crosse.

BE IT FURTHER RESOLVED that the Common Council hereby authorize staff, and request that WisDOT proceeds, to complete the design and construction phases expeditiously.

BE IT FURTHER RESOLVED that City of La Crosse staff are hereby directed to effectuate this resolution.

LEGISLATION STAFF REPORT FOR COUNCIL

File ID: 25-1265

Caption: Resolution providing course of action to the Wisconsin Department of Transportation with respect to Alternatives for USH 53 Corridor Study, from King Street to La Crosse Street.

Staff/Department Responsible for Legislation

Public Works

Requestor of Legislation

Mayor

Location, if applicable

3rd and 4th Streets, from King Street to La Crosse Street

Summary/Purpose

To provides a course of action to WisDOT regarding selection of an Alternative for Downtown on USH 53.

Background

See extensive WHEREAS clauses in Resolution. Public Involvement by WisDOT has resulted in distillation of concepts to two possible Alternatives. The primary issue to be determined is the balance of designated bicycle facilities and on-street parking.

Fiscal Impact

Staff Recommendation

US 53 & US 14/61 Corridor Study – Downtown Alternative Selection

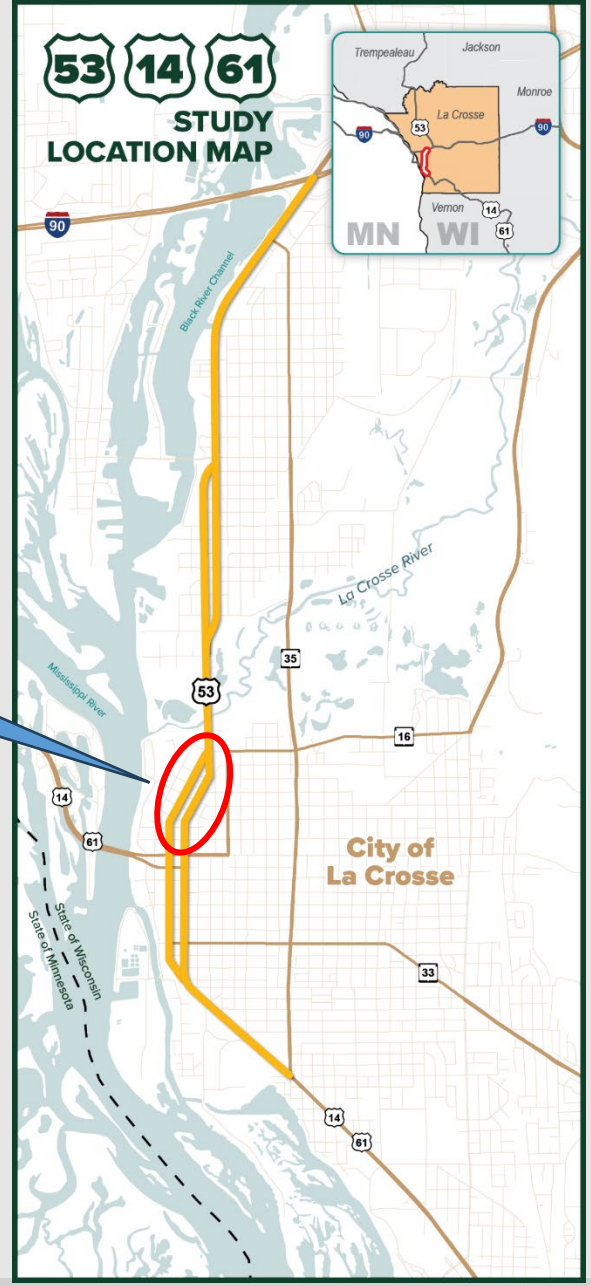

1630-09-01

October 9, 2025

Study Overview

- Study Limits: WIS 35 to I-90
- Length: 4.3 miles
- Scope:
  - Safety Improvements
  - Traffic Operations Improvements
  - Multimodal Improvements
  - Pavement Repair / Replacement / Reconstruction
  - Bridge Maintenance
  - Utility Repair / Replacement

Area of Focus: Downtown (King St – La Crosse St)

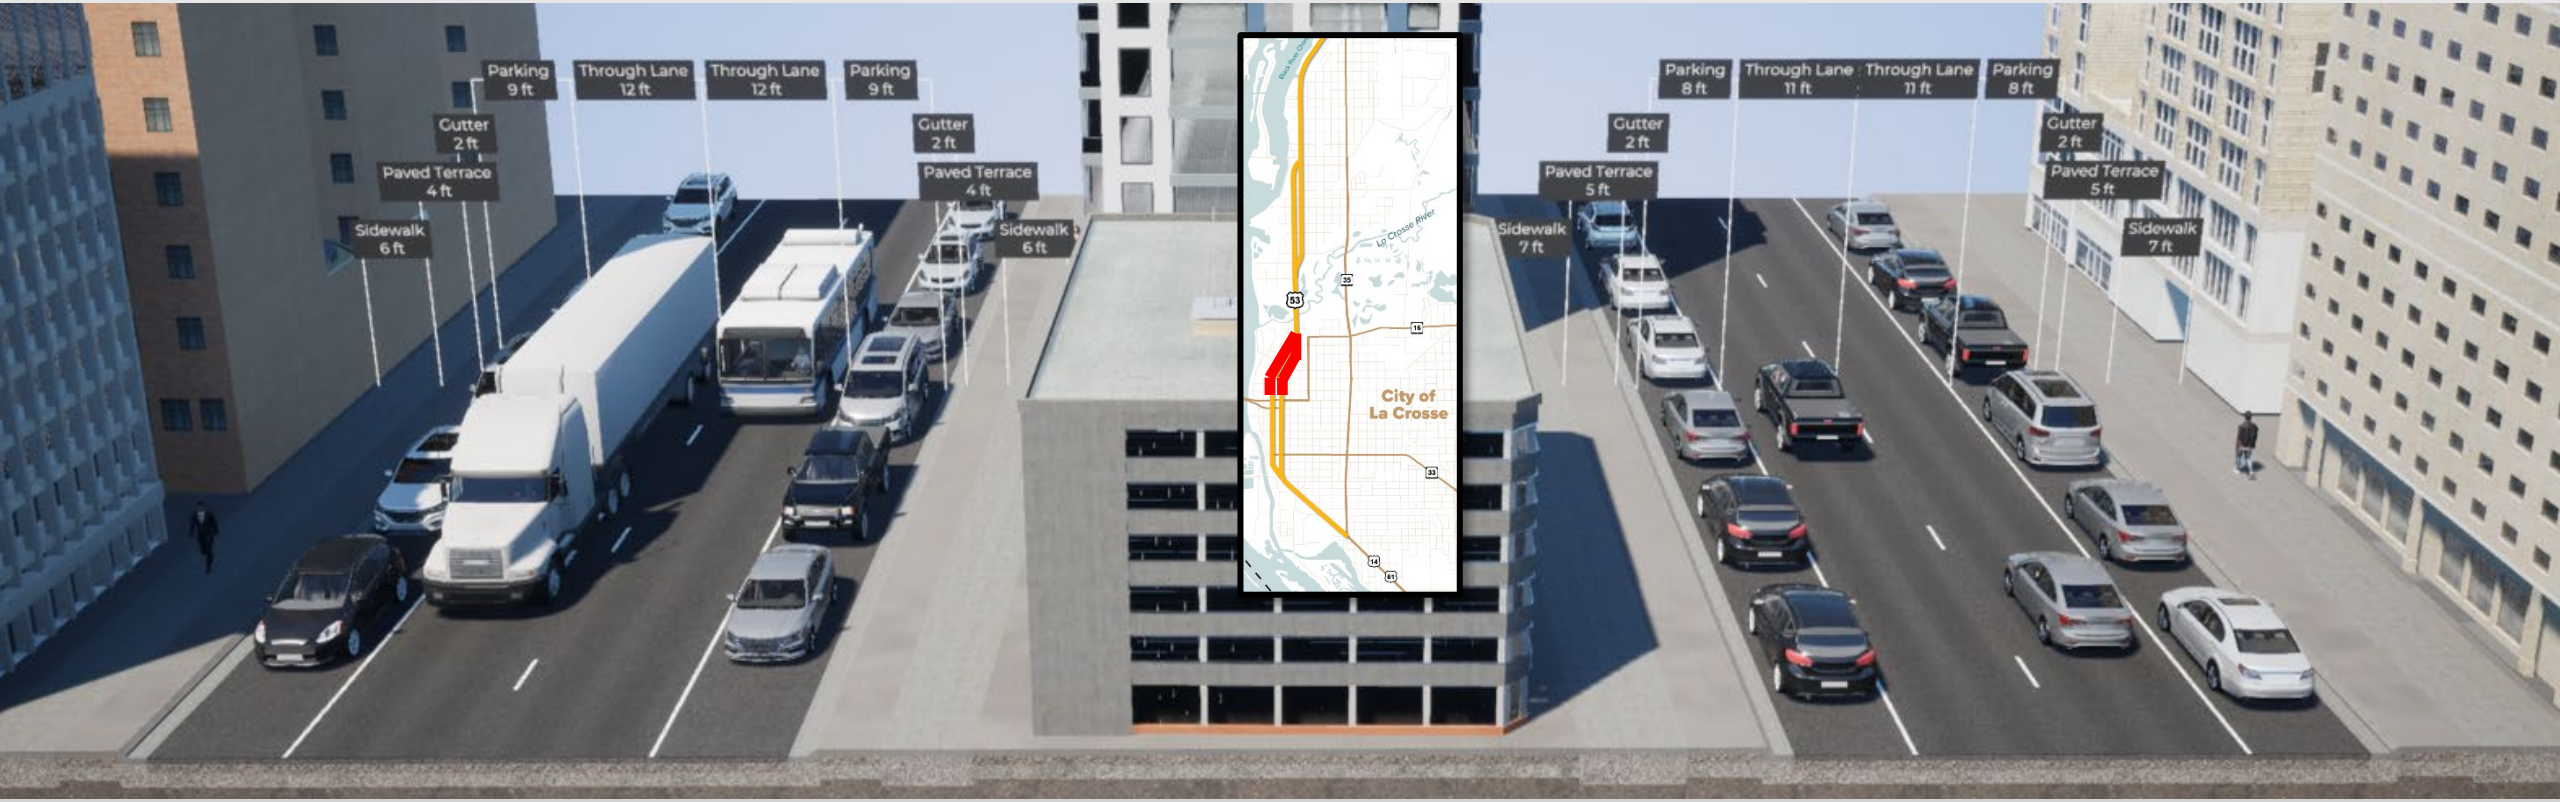

Downtown Alternatives (King St – La Crosse St)

Existing Typical Section

- Improvement Concept
  - Reconstruction

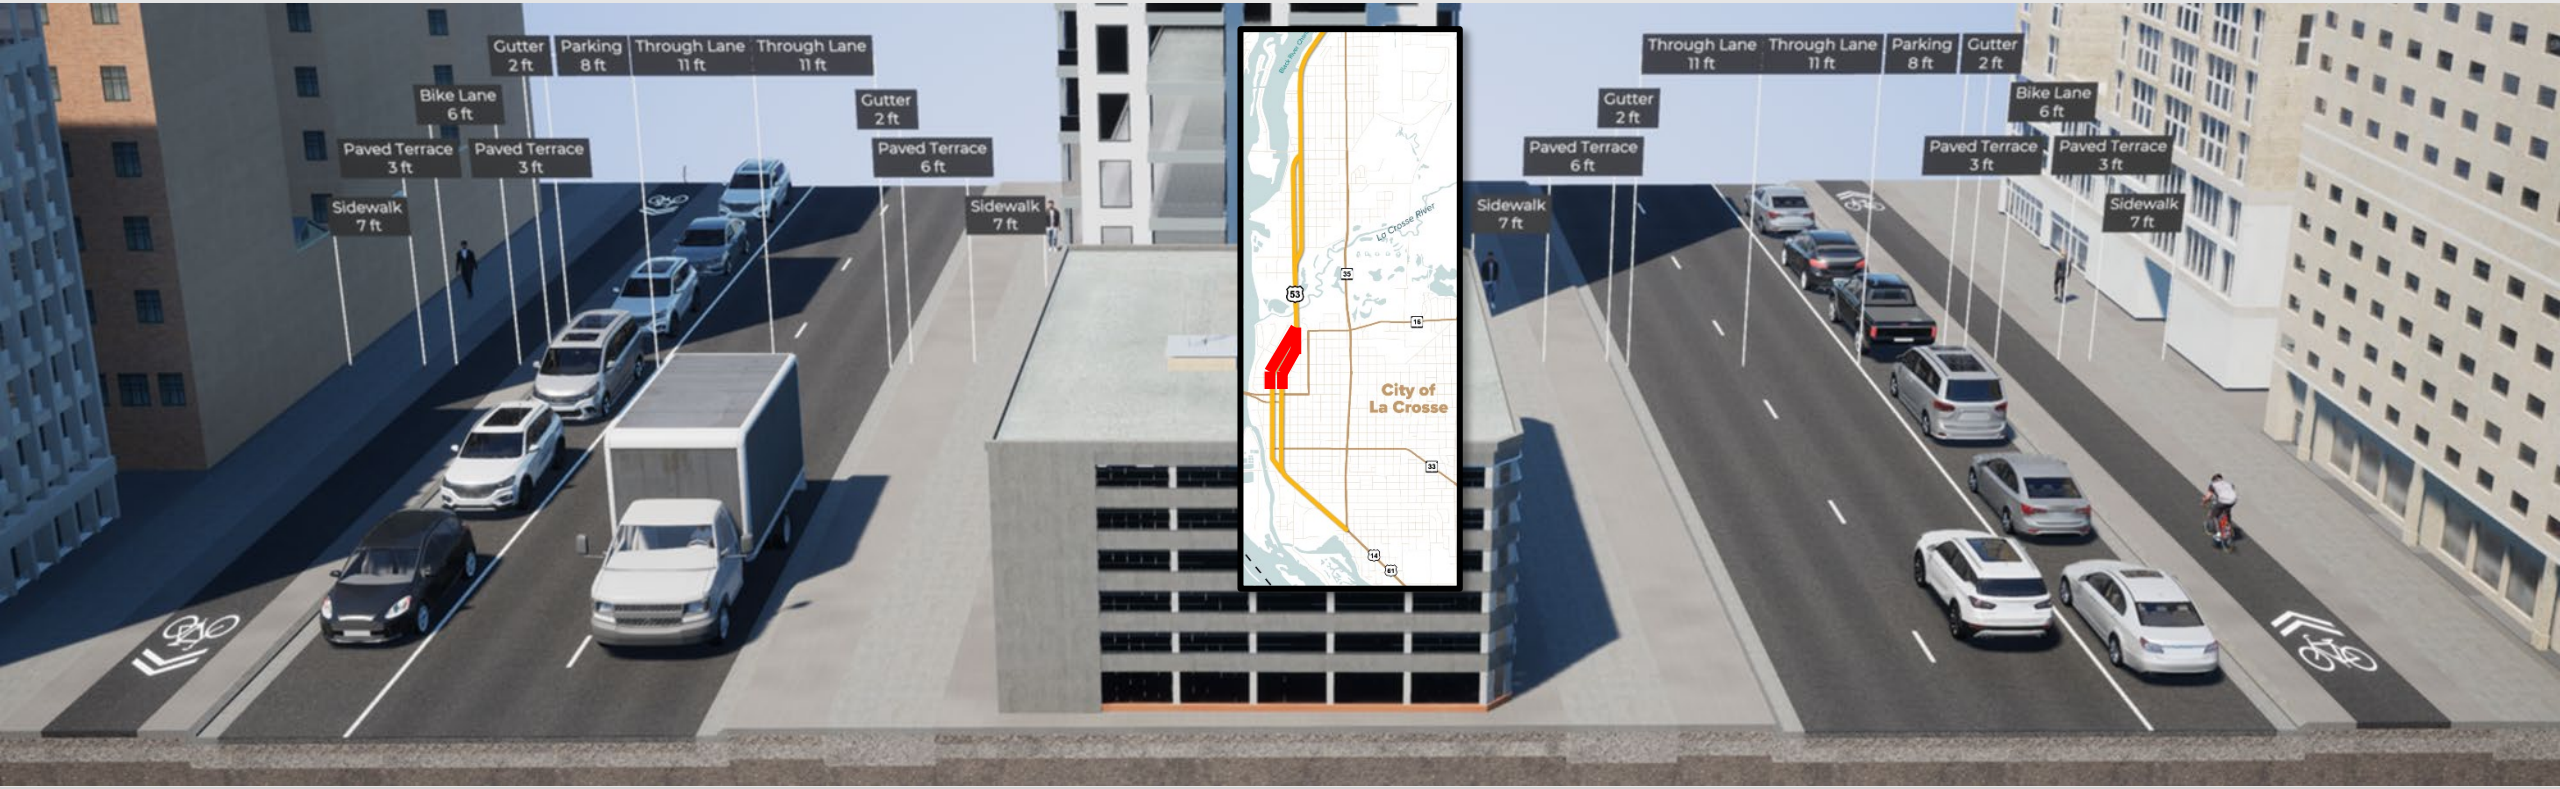

Segment: King St – La Crosse St

Alternative 1

Remove Parking, Parking-Separated Bike Lanes

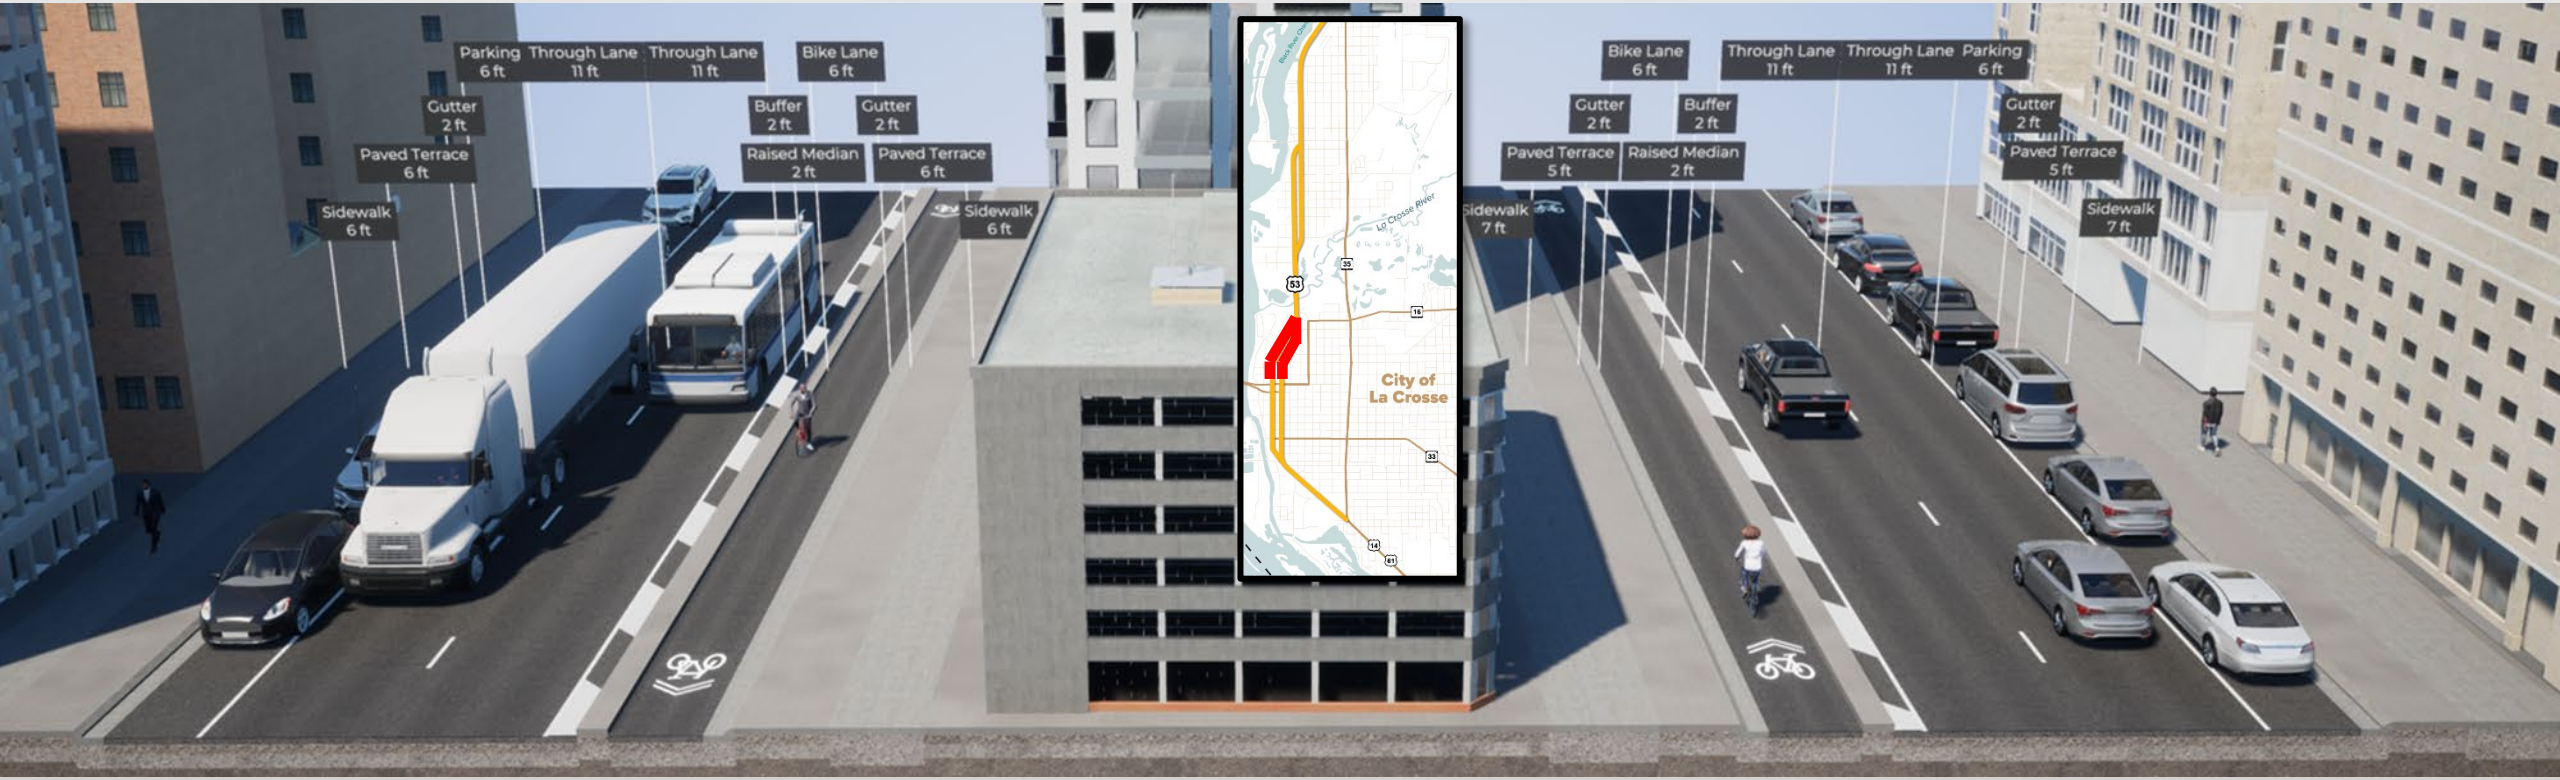

Segment: King St – La Crosse St

Alternative 1a

Remove Parking, Separated Bike Lanes (Left Side)

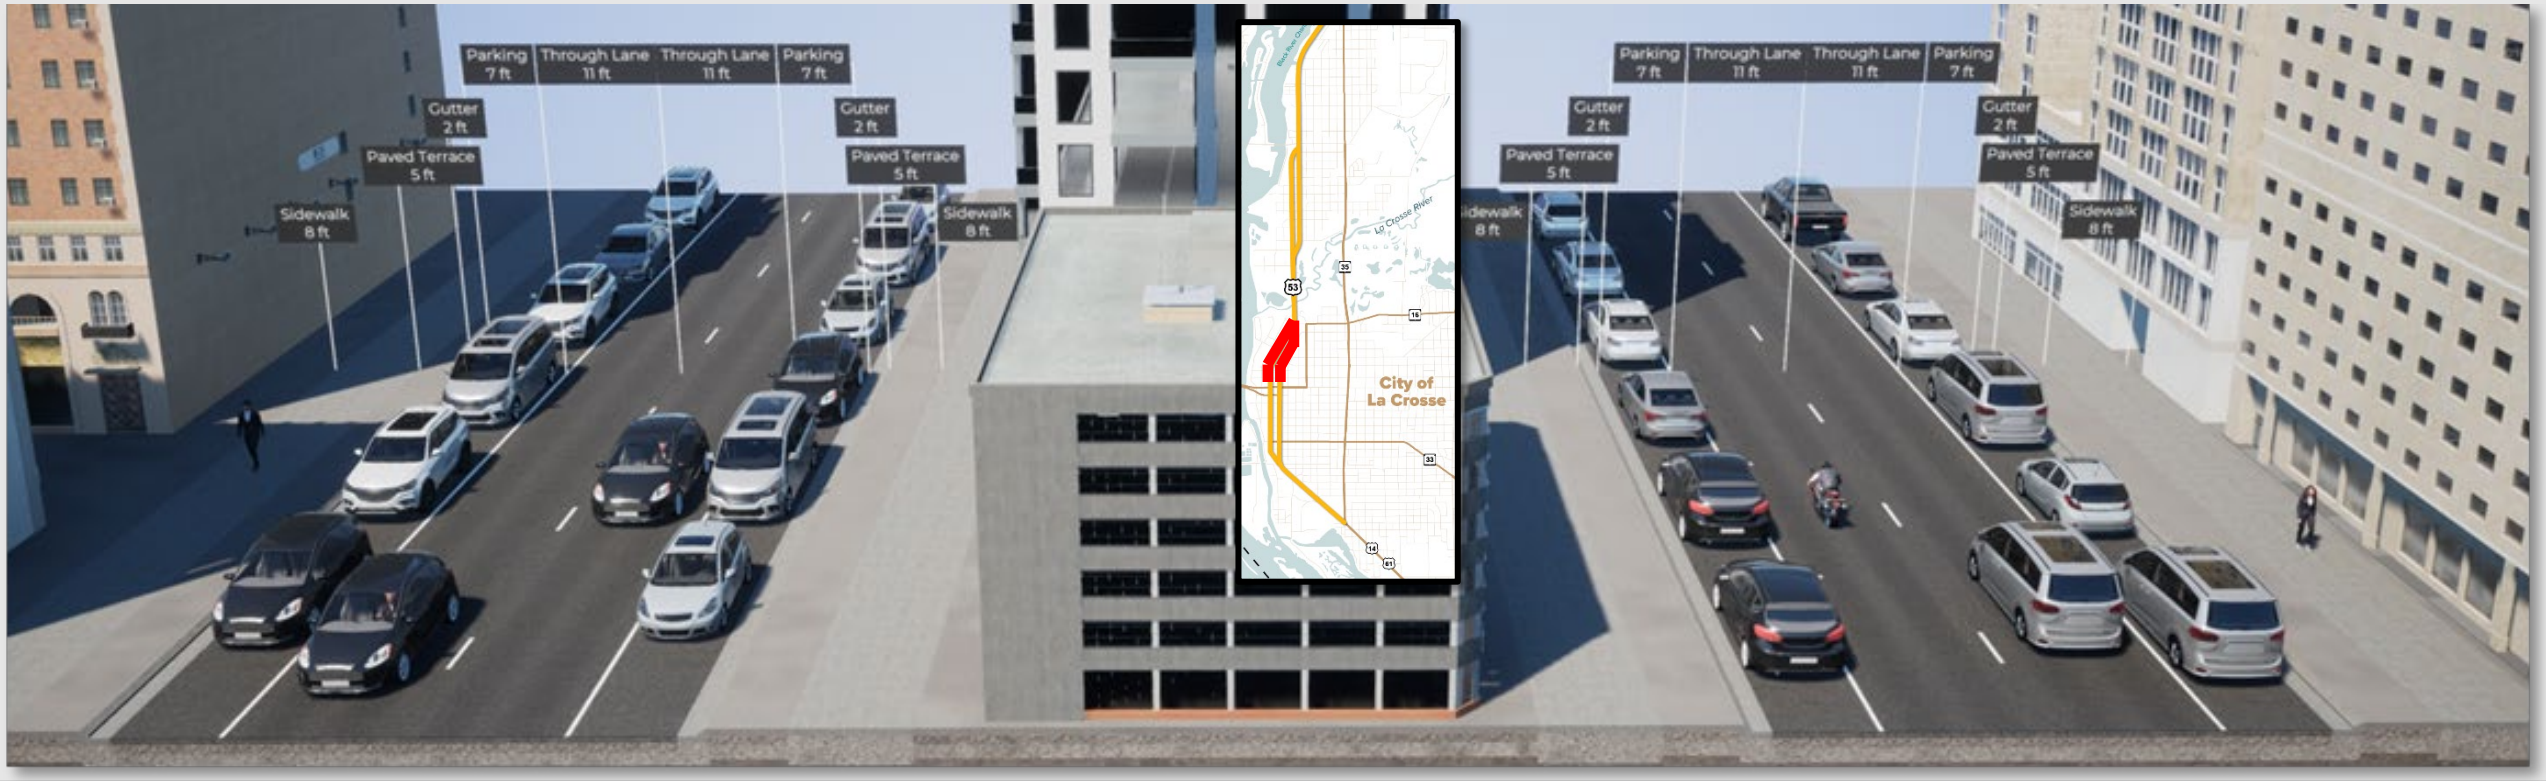

Segment: King St – La Crosse St

Alternative 2

Narrow Parking Lanes, Widen Sidewalk

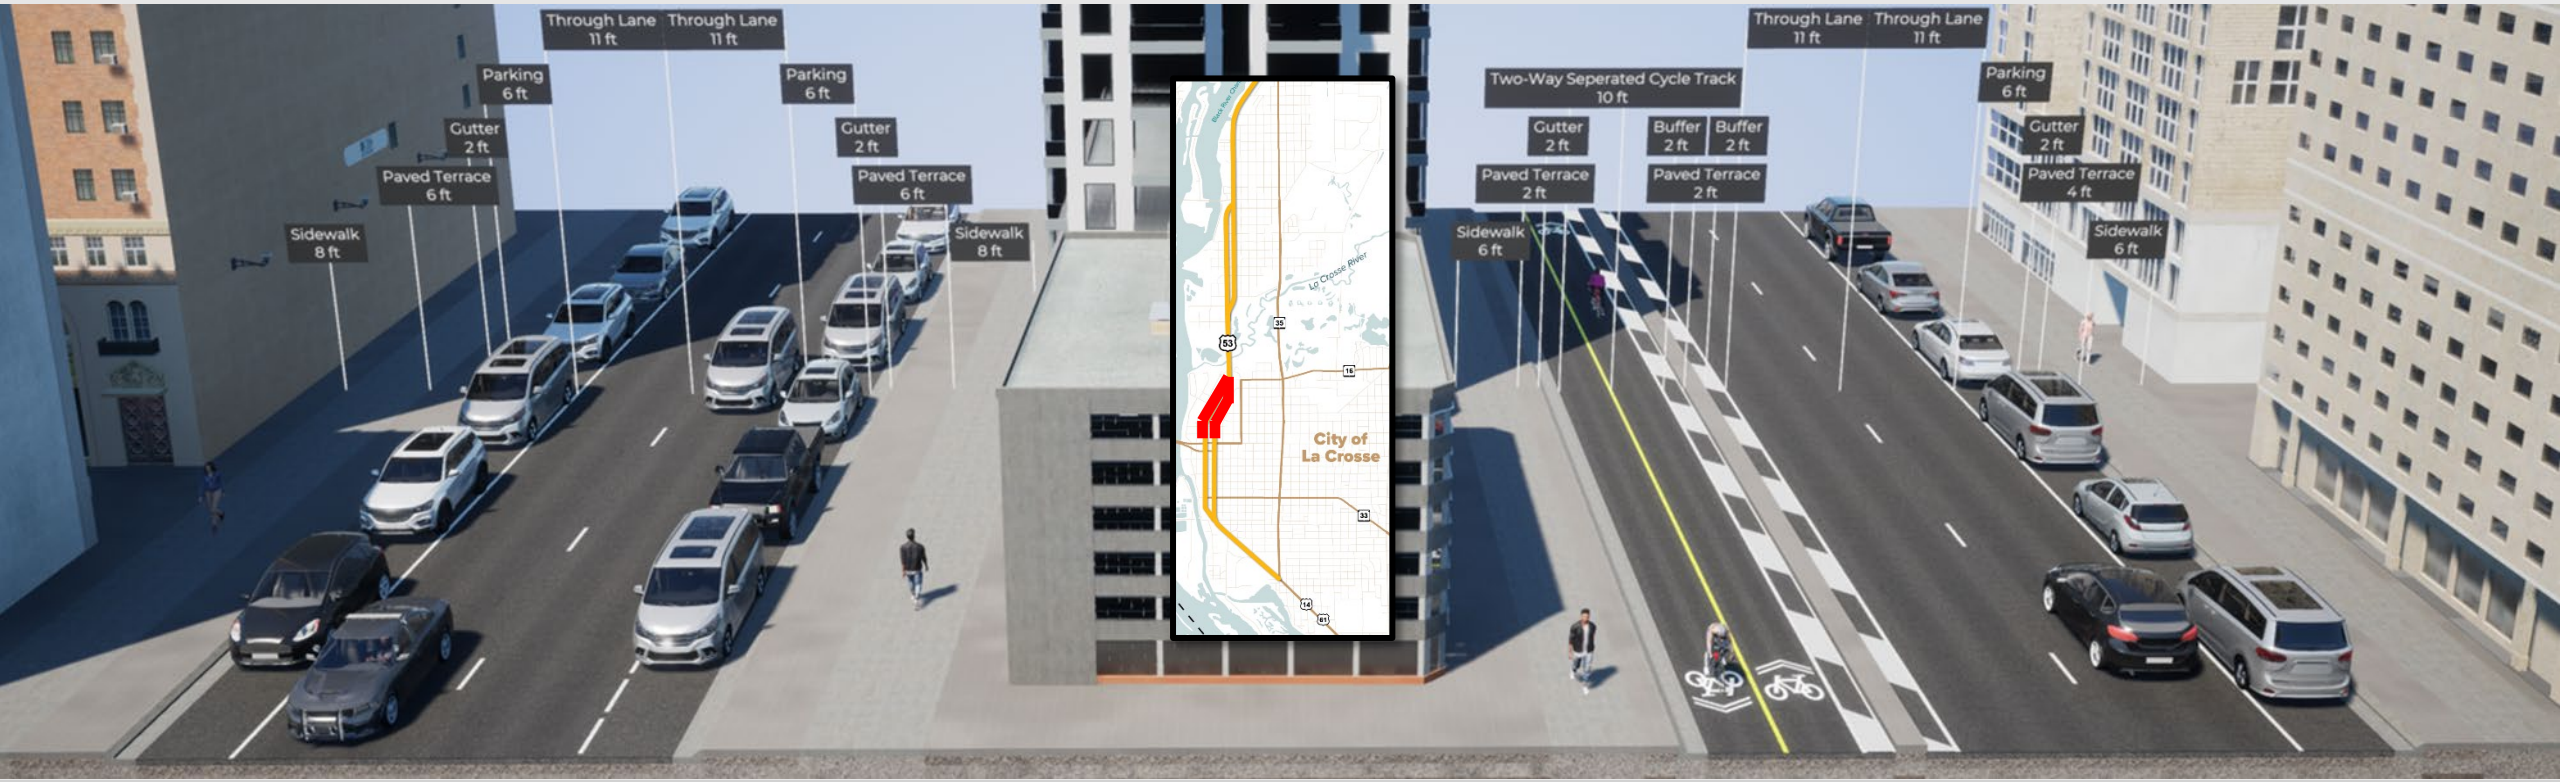

Segment: King St – La Crosse St

Alternative 2a

Remove Parking, Separated Cycle Track (4th St)

Segment: King St – La Crosse St

Public Involvement Summary

Public Involvement Summary

Groups Surveyed:

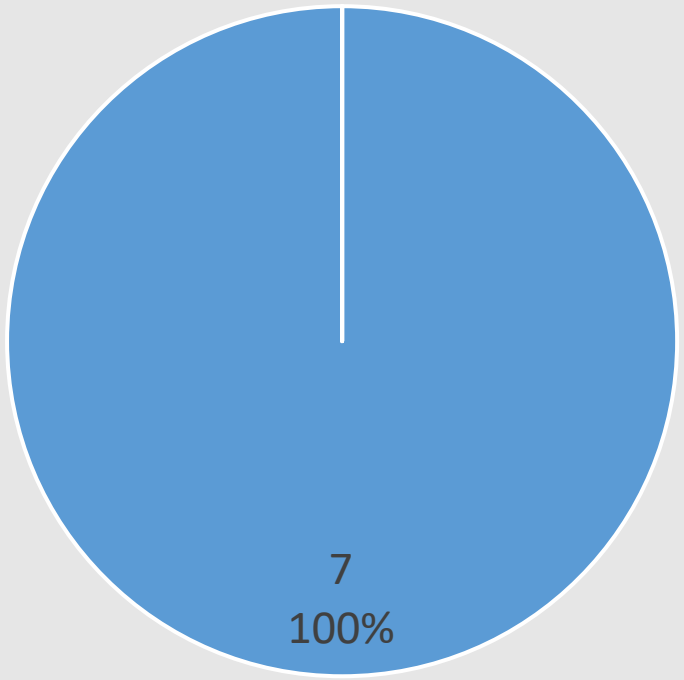

- Technical Advisory Committee (TAC): June 17
- Local Officials Advisory Committee (LOAC): June 17
- Community Advisory Committee (CAC): July 16
- Public Involvement Meeting (PIM): July 16
- Downtown Business Owners Meeting: September 3

Recommendations

1. Remove Alt 1a and Alt 2a from consideration
   - Right-side bike lanes are more intuitive for users
   - Left-side bike lanes and cycle tracks increase traffic signal complexity
   - Survey results agree with this recommendation.
2. Gain City input on Alt 1 vs. Alt 2
   - Both Alternatives meet the Study Purpose & Need
   - Both Alternatives would be acceptable to WisDOT Study Team

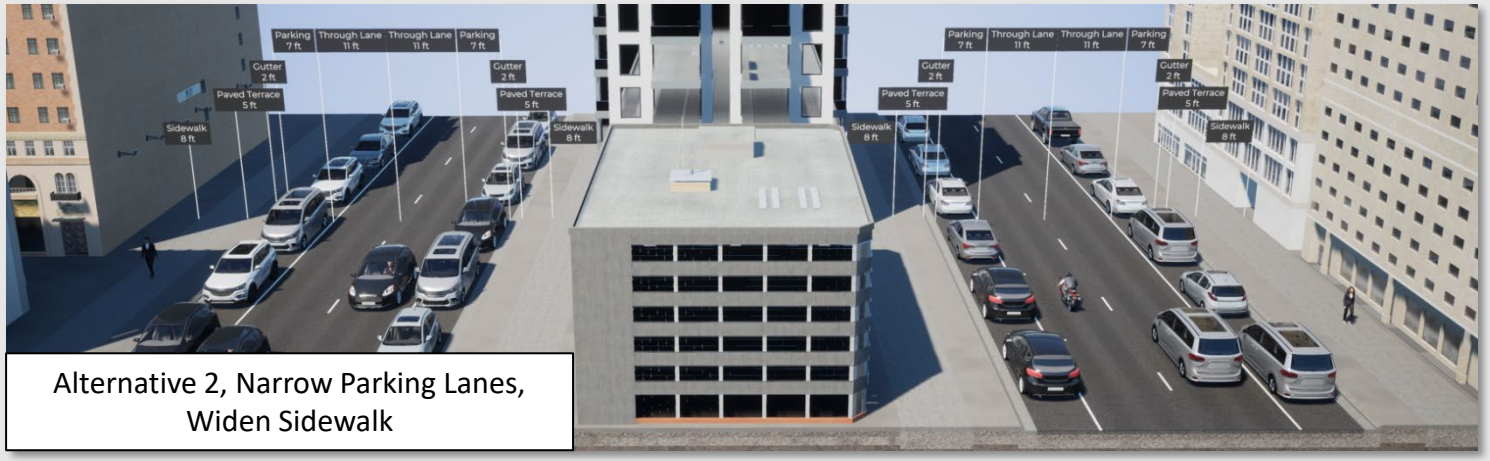

Questions / Discussion

Recommendations

Request: Committee vote on alternative preference

Alternative 1, Remove Parking, Parking-Separated Bike Lanes

Alternative 2, Narrow Parking Lanes, Widen Sidewalk

25-1265
CERTIFIED COPY OF RECOMMENDATION ADOPTED AT A SPECIAL MEETING OF THE *Bicycle and Pedestrian Advisory Committee* OF THE CITY OF LA CROSSE, WISCONSIN

STATE OF WISCONSIN)
) ss.
County of La Crosse, City of La Crosse)

I HEREBY CERTIFY that I am the duly appointed, qualified secretary of the Bicycle and Pedestrian Advisory Committee of the City of La Crosse and State of Wisconsin; that the following is a true and correct copy of a recommendation adopted at the special meeting of the Bicycle and Pedestrian Advisory Committee of the City of La Crosse, State of Wisconsin, held the twenty-eighth day of January, 2026.at one p.m., in a virtual-only meeting, in said City; and that the same has been duly recorded in the minutes of said Committee and has never been rescinded or revoked.

BE IT RESOLVED: The Amended Resolution providing course of action to the Wisconsin Department of Transportation with respect to Alternatives for USH 53 Corridor Study, from King Street to La Crosse Street be recommended as follows with the below attached ranking and memorandum:

1. Alternative 1 (most preferred)
2. Alternative 3 (hybrid proposal)
3. Alternative 2 (least preferred)

IN WITNESS WHEREOF, I have hereunto signed my name at La Crosse, Wisconsin, this twenty-eighth day of January, 2026.

Jenna Dinkel, Associate Planner
Recording Secretary, Bicycle and Pedestrian Advisory Committee
City of La Crosse, Wisconsin

BPAC Ranking of Downtown Corridor Alternatives (King St to La Crosse St)

The Bicycle and Pedestrian Advisory Committee (BPAC) ranks the Wisconsin DOT alternatives for the Downtown Corridor between King Street and La Crosse Street as follows, from highest to lowest preference:

1. **Alternative 1 (most preferred)**
2. **Alternative 3 (hybrid proposal)**
3. **Alternative 2 (least preferred)**

Statement:

The BPAC believes all proposed options will provide meaningful improvements to pedestrian safety, which is downtown's most important constituency. The inclusion of curb bump-outs, leading pedestrian intervals, and targeted spot improvements has the potential to transform several currently high-stress and dangerous intersections into places that better prioritize people walking. These improvements are a clear step in the right direction in creating a safer and more comfortable downtown environment.

The BPAC does have concerns regarding the proposed traffic circle at the La Crosse Street intersection, given pre-existing challenges with pedestrian crossings at previously installed roundabouts in the city. While the committee doesn't recommend against the roundabout, the committee urges WisDOT and the City to prioritize the experience of non-motorized users by following best practices for enhanced crossings, signalization, and geometry that benefits people walking and biking.

BPAC continues to recommend Alternative 1 as the committee's preferred option because it provides continuous, predictable, and comfortable facilities for non-motorized travel through the entire corridor and to key downtown destinations. Continuity is critical to creating a network that works for all ages and abilities. The committee also acknowledges that this alternative is aligned with the City's adopted plans, including the 2015 Transportation Vision, 2040 Comprehensive Plan, Safe Routes to School Plan, Imagine 2040 Downtown Plan, Climate Action Plan, Bicycle and Pedestrian Master Plan, and others.

Because corridor reconstructions of this scale occur only once every several decades, BPAC views this project as a rare opportunity to implement connected facilities now rather than defer links indefinitely. Bicycle and pedestrian accommodations can be included more efficiently during reconstruction than through later local retrofits.

The BPAC recognizes the importance of on-street parking and the concerns expressed by downtown businesses and the public.

The BPAC also acknowledges Alternative 3, presented to the Common Council and BPAC in January, as an attempt to strike a compromise. While this option does not provide continuous accommodation through the full corridor, it improves connectivity relative to Alternative 2 and extends bicycle facilities farther south to connect with existing infrastructure. With a connection to Vine Street, this option would allow users to access downtown and bypass portions of the corridor where facilities are absent. It also requires thoughtful engineering through the La Crosse Street intersection, which BPAC views as preferable to leaving that movement unresolved.

If Alternative 3 is selected by the Common Council, BPAC strongly encourages WisDOT and the City to plan now for how the remaining stretch between Vine Street and King Street could be retrofitted in the future. While the ultimate design may differ from sidewalk-level facilities, it should provide meaningful protection and comfort for people biking.

BPAC Memo drafted by Committee Member Young re: 25-1265 (and 25-1471)

The Bicycle-Pedestrian Advisory Committee serves as an advisory body to the Common Council in implementing the city's Bicycle and Pedestrian Master Plan (updated 2024), as well as the city's "2040 Comprehensive Plan" adopted in 2023 (primarily the Transportation Element), and similar documents (La Crosse Safe Routes to Schools, Climate Action Plan, etc.)

At its October 2025 meeting, the BPAC unanimously recommended that Council approve Alternative One from the US 54-14-61 downtown alternatives presented by WISDOT. That recommendation was attached to item 25-1265.

Recognizing that in the November 13, 2025 meeting the Common Council referred item 25-1265 for 90 days until February 2026, and has requested more information related to bike lanes in downtown and plans for downtown car parking, the committee has drafted this memo. This memo is in response to questions that were raised in discussion in the November common council meeting. There are four areas of discussion: disconnected networks, public demand, accessible parking, and the inclusion of 3rd/4th street in a bike/ped network.

First, to address a concern raised in that meeting, the reason bike lanes seem disconnected, or "go nowhere" is because as a city, we only consider adding mobility infrastructure when roadways come up for reconstruction. That's why La Crosse St bike lanes stop at 7th, and why King St Greenway stops at 6th. Extensions and connections are planned for, but not implemented until a road's time has come. The ultimate goal as laid out in many plans is a connected network, suitable for all ages and abilities. But the only way to create a connected network is by building it in pieces, as individual projects come up. The city's "Green Complete Streets" ordinance (Sec 40-14) directs the city to add connections as each individual project is planned for construction.

Second, while some city councilmembers stated that the public demands roads and parking, in actuality, the demand is for mobility. The public's demand for mobility can be satisfied in many ways. Satisfying it by constructing roads and providing free parking for cars is often not a good thing, because it creates only one way to get around. Designing a more flexible city, that allows for different ways to get someplace, is both cheaper and more responsive to public demand. The amount of investment required to realize all the supposed latent demand for driving is exorbitant and better spent on modes with lower negative externalities.

Third, regarding accessible parking. While councilmembers expressed concerns at the possible removal of accessible parking in the project area, there is little record of demand for accessible parking in the last ten years for that area. Residents and businesses have the ability to submit a request for ADA parking to the city. (https://www.cityoflacrosse.org/your-government/departments/engineering/permits-services/findi

ng-and-order-traffic-and-parking-signage-application) A search of BPW agenda from the last 10+ years found these requests for the downtown area, none of which are in the project area:

- 500 block of King St (2015)
- 300 block of Vine St (2020) - Only 1 of the 2 requested still exists
- 300 block of 3rd St N & Pine (2022) - West side of street, not impacted by proposal
- 400 block of Jay between 5th & 4th (2023) - midblock, on alley

A search along Google Streetview found three ADA spaces in the project area that would be removed: on 3rd at top of Pearl, 4th in front of the old Tribune building, and on 4th in front of La Crosse Bierhaus. If these three spaces are eliminated in the WISDOT plan, new ADA spaces can be added at each of the three cross-streets, resulting in no net loss.

Finally, several council members asked how 3rd and 4th Streets become candidates for inclusion in the bicycle/mobility network? The answer is that north-south active transportation connections were prioritized by WISDOT as a replacement for the long-planned "marsh road." In 2015, as part of the Coulee Region Transportation Study, Planning and Environment Linkages WisDOT held PIM #4 on November 10th and 12th. A stated goal was to "improve reliability and safety for all modes." The City of La Crosse committed to Option H, the "no build" option that would not add a new highway through the La Crosse River Marsh, and would instead "significantly increase biking, walking, carpooling" to achieve the goals of reducing automobile traffic demand by 4%. In 2016, on January 27 and 28th, WisDOT presented at another PIM, and proposed Option H along with other roadway improvements. This evolved into the "Corridor Study" in 2023 which was separated into various N/S corridors.
https://wisconsindot.gov/Pages/projects/by-region/sw/533516-lacrosse/us53us1461.aspx

US 53 and US 14/61 Corridor Study

Public Involvement results from the 53/14/16 portion can be found here.
The study recognizes and points out "There are no bicycle facilities on US 53 or US 14/61 and no continuous alternative north/south routes adjacent to US 53 or US 14/61."
It also points out numerous intersection challenges for people on sidewalks and people riding bikes.
At this point, the DOT sought input on proposed alternatives, they didn't prescribe anything, or "try to shove bike lanes down our throats," they proposed various alternatives for the community and ultimately the council to select.
Bike lanes weren't suggested as an afterthought, nor as a mandatory inclusion. Rather they were considered an option based on community feedback and immense historical support from city plans and guiding documents.

The cost of including parking on 3rd/4th reconstruction

WisDOT will pay for travel lanes construction. Cities are responsible for the installation of parking spaces. The bill comes after construction. There's an estimate shared and approved ahead of time.

Sidewalk Level Bike Lanes – Cost share can vary case by case, but a summary of the policy is below:

- WisDOT will pay for 100% of on-street marked or non-marked bicycle accommodations in locations as recommended by the state's Facilities Development Manual (FDM).
- Where an off-street design…acceptable to WisDOT is installed and on-street accommodations are not provided, a local cost share will be negotiated. The WisDOT share for construction will not exceed the costs to provide on-street accommodations. The municipality will be responsible for real estate costs and utility costs included in off-street design if real estate is not required for the roadway project.

Parking Lanes – 100% local cost for construction. This is per WI State Statute 86.32(4)

Full details from a WisDOT email are included at the end of this document (Appendix A)

Alternative 1 (remove left-side parking, add sidewalk-level bike lanes)

- Bike lane cost: $90,000
- Parking cost: $460,000

Alternative 2 (maintain parking, widen sidewalks)

- Parking cost: $710,000

Community Sensitive Design (CSD)

Federally-funded projects are eligible for Community Sensitive Design (CSD) treatment funding. CSD treatments are selected by the local municipality with community input and typically include aesthetic treatments and/or roadway enhancements. CSD treatments receive federal funds to cover 80% of the cost, while the local municipality is responsible for the remaining 20%. The

total cost for CSD treatments can be up to 1.5% of the total project construction cost. The City has identified desired CSD treatments to include with this project. CSD treatments will be considered and finalized in the next phase of the design process. The desired treatments fall into the following categories:

Category	Examples
Signals and Lighting	• Decorative Light Poles • Pedestrian Scale Lighting
Aesthetic Treatments	• Benches • Public Art/Gateway Monuments • Street Trees • Planters • Landscaping
Bicycle/Pedestrian Treatments	• Bicycle Parking • Wayfinding • Enhanced Pedestrian Crossings

The BPAC submitted a resolution of support for Alternative 1 because we viewed the options through the lens of the last decade of planning and research on city streets, transportation needs, and visions for our downtown. Summarized and highlighted below are most of those data points.

City Plans & Studies

City of La Crosse Transportation Vision: *PDF Link*

2015 [15-0386]

Summary of important findings:

> Toole Design Group hosted a four-day charrette...included ...about 115 members of the public, eight stakeholder interviews, open office hours, and a final vision statement and set of conceptual designs presented to the public. The end result is supposed to be a 100yr transportation vision, a guiding litmus test for every project.
> The visioning process supported goals of safety, walkability, bike friendliness, access, slower driving speeds, fewer vehicle miles traveled, complete streets, and beauty.
> It specifically mentions 3rd and 4th as candidates for bike lanes.
> The city is encouraged to think of streets as both a path and a place. ~60 surplus parking spaces (on 2 streets and from La Crosse to King) exchanged for over 1 mile of protected sidewalk-grade bike lane in the core of our city is a worthwhile investment. Are we building an environment for humans or an environment for cars?

Transportation Demand Management Plan: PDF of Study & City Homepage

2018

Summary of important findings.

> “Provide dedicated facilities for bikes and pedestrians both on and/or off corridors/ Evaluate gaps in infrastructure and amenities for bikes and pedestrians and prioritize these areas for investment”
> “Charge for on-street parking using kiosk system. Reduce Single Occupancy Vehicle (SOV) commuting, idling and parking search driving”

2040 Comprehensive Plan: PDF Link

2023

Summary of important findings:

> Action 2-1: Grow the City’s “All Ages and Abilities” pedestrian and bicycle network through strategic investment in additional routes and infrastructure, especially facilities such as protected bike lanes that provide increased separation between users of non-motorized transportation and cars

Safe Routes to School Plan: PDF Link

2020

Summary of important findings:

> Separated bike lanes are typically used on arterials with speeds over 25 miles per hour and traffic volumes over 6,000 vehicles per day. (3rd and 4th have 9-12,000 AADT) (Implementation of the SRTS Plan is recommended in Climate Action Plan)

Imagine 2040 La Crosse Downtown Plan: PDF Link

2021

> "support a network designed for pedestrians, bicyclists, motorists, and the mobility impaired. Ample opportunity exists to build out the network and make connections to the regional trail systems. This network should encourage travelers to take transit or bike into downtown and become pedestrians once arriving in the core of downtown to create interactive, local streets leading to destinations."
>
> Illustrates a Mobility Framework and even includes 3rd/4th bike lane scenarios on page 84

Downtown Parking Study Update and Analysis of Expanded Areas: PDF Link

2020

Summary of important findings:

Over 9100 total parking spots downtown, 4700+ under city control.

at peak time (12:00 noon – 2:00 pm) that 45 percent of the on-street parking supply was occupied. Off-street/ramp use was between 40 and 45% occupied during peak day hours.

Privately managed parking peaked around 50% occupation.

When the price is free, the demand becomes something like infinite.

City of La Crosse Climate Action Plan: PDF Link

2022/2023

Summary of important findings.

TM 1: Decrease commuter and community-wide VMT by 5% by 2030

TM 5: Improve the comfort and safety of walking and biking within La Crosse.

According to the La Crosse Climate Action Survey, over 65% of respondents indicated they would walk or bike more frequently if they felt safer.

TM 5- 13 Improve City's 'Bicycle Friendly Community' rating by implementing 'Key Steps to Gold' recommendations on report card. [Continue to improve and expand the low-stress bike network for all ages and abilities, and ensure that your community follows a bicycle facility selection criteria that increases separation and protection of bicyclists based on levels of motor vehicle speed and volume]

Downtown La Crosse Retail Market Analysis: PDF Link

2017

Summary of important findings:

The …extension of trail and bike path networks and expansion of wayfinding signage would also facilitate increased evening and weekend consumer activity.

Providing these ‘urban pathways’ which connect to the broader trail network that La Crosse is recognized for will also help decrease automobile use in center city neighborhoods.

Those who do not patronize downtown businesses report a lack of stores offering products they need (or a lack of awareness of store offerings), combined with parking (and conveying goods to vehicles) as the primary reasons.

File # 19-0471 La Crosse Common Council passed a resolution in 2019 setting a goal of reaching carbon neutrality community-wide, in both energy and transportation by 2050. Continuing to enable driving in ever-greater quantities adds pollution and road noise to neighborhoods, and congests infrastructure shared with transit, making greener modes less effective and appealing.

County Plans

Beyond Coulee Vision 2040: LAPC Plan

2020

Summary of important findings:

- "ingrain equity by prioritizing multimodal and transit projects.Incorporate bicycle, pedestrian, and transit considerations in all roadway projects"
- Estimates the cost of the most recent downtown ramp at $317 per spot per month. The newest ramp was purchased by the City at a cost of $17.2 million, plus there is about $13.8 million in outstanding debt on the other 4 structures.
- City's annual cost for parking facilities is about $2.2 M, while revenues are about $1.7Million.
- The document doesn't get down to 3rd and 4th streets specifically, but does highlight that "roadway projects often move forward regardless of federal or state support but bicycle, pedestrian, and transit projects tend to have to wait until federal and state support is obtained." This is important to present context, because bicycle facility inclusion is part of the DOTs budget, they are simply included in construction at no additional cost to the city.
- Calls out the failures of "Sharrows" as infrastructure.
- Parking pricing strategies will lead some users – those who prioritize the lowest cost – to choose transportation alternatives that don't require parking. A shift in parking pricing and usage practices will enable future downtown business growth with a lesser growth of parking spaces and vehicle traffic. This only works if transportation alternatives are available and supported.

County of La Crosse Regional Transit Development Plan: PDF Link

2021

Summary of important findings:

Highlights a need of "first-last mile connections", ie, taking the bus downtown, and being able to walk/bike the last distance to a person's destination.

Table 4-6: Recommended Bicycle Accommodations by Roadway Segment for South La Crosse

Segment	Treatment
Major North-South Connections between North and South La Crosse	
USH 53 (3rd St and 4th St) between La Crosse St and Cass St NOTE: 3rd and 4th Sts are one-way streets. Accommodations will be installed on the right side of the road in the direction of travel.	Install curbside sharrows on 3rd and 4th Sts between La Crosse St and Badger St. Install southbound sharrows with parking on 3rd St between Badger St and Pearl St. Install bike lane on 3rd St between Pearl St and Cass St and on 4th St between Badger St and Vine St. Install northbound sharrows with parking on 4th St between Vine St and Cass St. Install Share the Road signage.
USH 14/61 (3rd and 4th Sts south of Cass St) between Cass St and Hood St NOTE: 3rd and 4th Sts are one-way streets. Accommodations will be installed on the right side of the road in the direction of travel.	Install southbound on 3rd St a bike lane between Cass St and Market St, sharrows with parking between Market St and Jackson St, and a bike lane between Jackson St and Hood St. Install northbound on 4th St curbside sharrows between Hood St and Adams St and sharrows with parking between Adams St and Cass St. Install Share the Road signage.

Economic Impact of Bicycling in La Crosse: PDF Link

2018

Summary of important findings:

Highlights existing and future financial and health benefits of expanding cycling infrastructure

In 2018 there were less than 8 miles of on street bike lanes.

“for every one-mile motor vehicle trip that’s prevented, a municipality saves $0.15” in roadway maintenance costs.

Additional Facts, Information, Results from Similar Cities

The Wagon Wheel Trail will officially come down the Cameron Ave Bridge and empties into 3rd St. It should connect to something.

Bike Lanes are Good for Business - *Business Insider*

The author covers over 30 different studies about the benefits of bike lanes to businesses.

What is the impact of bike lanes on local commerce?
Summary of Research on the Commercial Impact of Road Space Reallocation to Multi Mode Transportation - *Web Link*
2025

The authors explore and summarize 15 different studies and articles about various retail locations following the installation of bike lanes. They (literally) highlight the findings, making it quite easy to skim and digest.

The cars are going to be alright: Examining micromobility infrastructure space allocation and potential improvement scenarios in Montréal *Study Link*

Persistent Car Dominance: Even large-scale improvements to micromobility lanes have only a minor effect on the total space cars occupy.
Extremely succinct findings: cars have 97.68% of the roadway, and micromobility only 2.32%. Presently 95.08% of trips use the car and 4.92% use micromobility, demonstrating a 212% discrepancy.

Local Business Perception vs. Mobility Behavior of Shoppers: A Survey from Berlin (2021) *https://doi.org/10.32866/001c.24497*

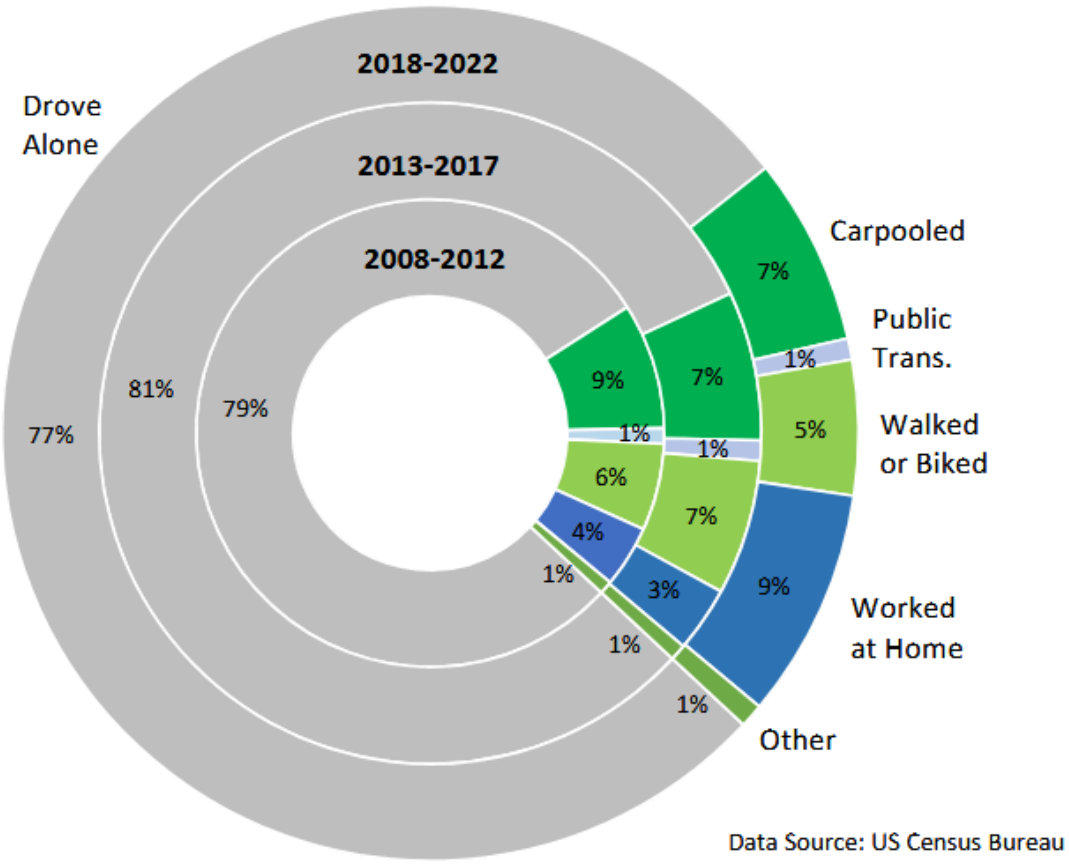

"While only 6.6% of shoppers traveled to the streets by car, on average traders [shopkeepers] estimated 21.6% of their customers use this mode; a discrepancy of 15%… Further they underestimate transit, pedestrian, and bicycle travel by 8.1%, 6.2% and 3% respectively."
Summary: Businesses are unaware of how people arrive to their destination.

Downs-Thomson Paradox
Still Stuck in Traffic: Coping with Peak-Hour Traffic Congestion. Downs, Anthony (2005).

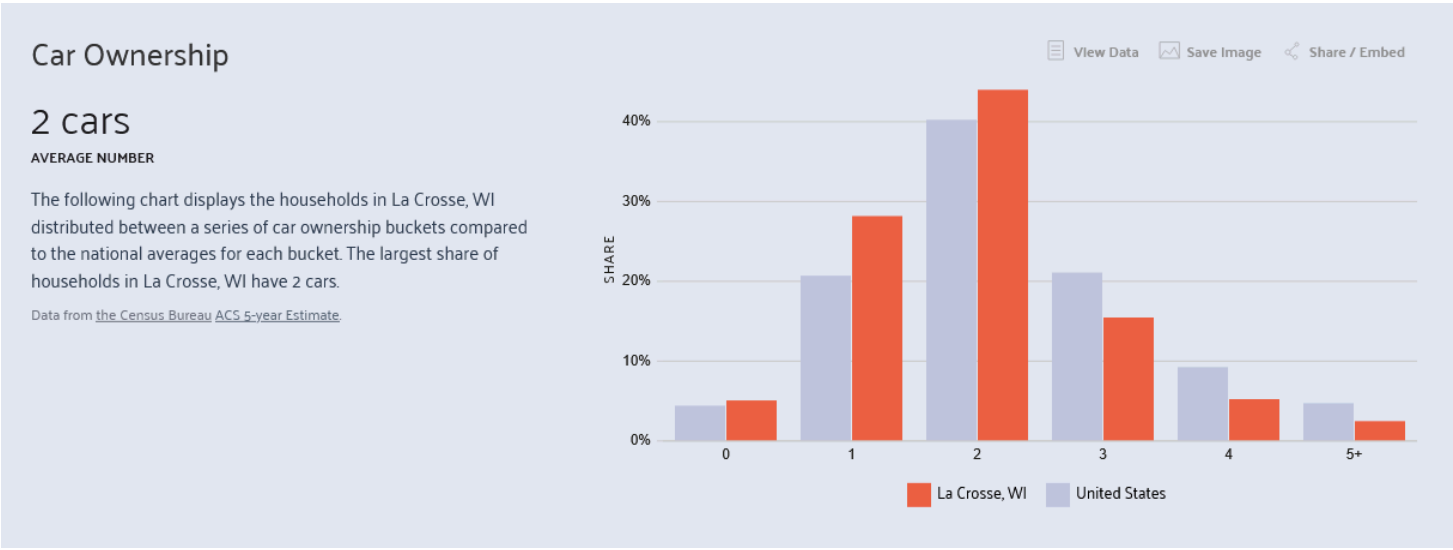

" claims that traffic will increase without limit until the option of public transport (or any other form of transport) becomes faster than the equivalent trip by car. It draws the conclusion that people do not care whether they drive, walk, bike, or take the bus to any location– they just want to get from A to B in the fastest and most convenient way possible."

Lacrosse 3rd and 4th question

Howe, Michelle - DOT <michelle.howe@dot.wi.gov> Tue, Dec 23, 2025 at 10:31 A
To: "robbiexor@gmail.com" <robbiexor@gmail.com>
Cc: "Richardson, Michael J - DOT" <michael.richardson@dot.wi.gov>, "Ellias, Michelle - DOT" <Michelle.Ellias@dot.wi.gov>

Hi Robbie,

Thank you for reaching out to Michael with this question. The state has a cost-share policy that describes who is responsible for the cost of specific items when it comes to construction. Specific costs for major projects, like this corridor, are negotiated once a project moves into design with a State Municipal Financial Agreement (SMFA), but we can share what our policy is and an initial estimate on the local cost share. An SMFA is a contractual agreement between WisDOT and the municipality that covers local participation obligations. The SMFA estimates the construction cost, but it is subject to change based on the actual construction let cost when the construction project is awarded to a contractor.

Related to the items you asked about, there is a cost share policy for both bicycle lanes and parking along state highways. Here is a summary of those two items:

- **Sidewalk Level Bike Lanes** – Cost share can vary case by case, but a summary of the policy is below:
  - WisDOT will pay for 100% of on-street marked or non-marked bicycle accommodations in locations as recommended by the state's Facilities Development Manual (FDM).
  - Where an off-street design of the proposed bicycle accommodation acceptable to WisDOT is installed and on-street accommodations are not provided, a local cost share will be negotiated. The WisDOT share for construction will not exceed the costs to provide on-street accommodations. The municipality will be responsible for real estate costs and utility costs included in off-street design if real estate is not required for the roadway project.
- **Parking Lanes** – 100% local cost for construction. This is per WI State Statute 86.32(4)

At the study stage, we have preliminary estimates for parking and bike lane costs but as noted above the percentage of the bike lane cost is yet to be determined. The local cost for sidewalk level bikes will be offset by a calculated cost if street level bike lanes were constructed and minimal local cost is anticipated for the sidewalk level bike lanes. Here are the preliminary estimates we have for the two alternatives:

Alternative 1 (remove left-side parking, add sidewalk-level bike lanes)

- Bike lane cost: $90,000
- Parking cost: $460,000

Alternative 2 (maintain parking, widen sidewalks)

- Parking cost: $710,000

Please note these cost estimates are for the US 53 corridor from King St to Badger St and do not include the full local participation costs for the entire corridor. We excluded the block of US 53 from Badger St to La Crosse St in this estimate as much of what is done on this block is a result of the roundabout proposed at the La Crosse St intersection. As noted above, these numbers are subject to change as design is refined, inflation, and based on the actual let cost.

Please let Michael or I know if you have any further questions.

Thanks

Michelle

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Common Council,

I wanted to share a few thoughts as you consider the design alternatives for 3rd and 4th Streets.

This project is a once in a generation chance to fully rebuild this corridor. The DOT's timeline means construction probably will not start until 2030 at the earliest, so this decision will shape how people experience our city for decades to come.

From a financial standpoint, the option that includes protected bike lanes is actually the cheaper choice for the city. The DOT requires the city to pay for parking lanes, but not for bike lanes. That makes this both a forward looking and cost effective option.

More importantly, it fits with the direction our Comprehensive Plan lays out for where we want to go as a city. This design makes the road something everyone can use safely, whether they drive, bike, walk, or roll. It does not take away any options, it only adds them.

I understand the concerns about parking, and I share the appreciation for the small and unique businesses that make downtown what it is. Supporting them matters. But the city's parking data has shown for years that we have more than enough capacity downtown (like nearly 3000 surplus parking spots!). That gives us room to think bigger about how our public space can serve everyone.

I hope you will take these thoughts into consideration. I care deeply about this community and want to grow with it. I believe choosing this alternative will move La Crosse closer to the kind of city we all say we want to be.

Thank you for your time and your work on behalf of our community.

Sincerely,

Andrew

Hello All,

Reconstructing 3rd and 4th streets is the only opportunity we and the next generation will have to consider the downtown we want for our city.

Alternative 1 provides the larger sidewalks and a more place-based design for the city of the future. It has the added benefit of being removable. You (or a council down the line) could "remove" the bike paths with some simple signage. Versus other alternatives where bicycle/mobility access could, in theory, be shoe-horned in at great expense and difficulty and result in a less-than-desirable facility.

Please consider that we are planning a city for the future, not the predominant past.

Thanks, and happy to answer questions as a member of the Bike/Ped Committee or as a bike shop business owner, or as a resident of La Crosse who rides all over.

Robbie

I am not in favor of losing parking spaces downtown. Already there is not enough parking, especially for those who are not able to walk distances. Many of my peers and I, myself, do not shop or use restaurants downtown due to difficult parking issues. Anything you approve that takes some of that away would have a negative detriment to businesses downtown as people will go elsewhere.

I am really tired of bikers getting priority over those driving cars. Also, we are a northern state dealing with snow 4-5 months of the year. Most bikers are not using the lanes then.

Thank you .

Dear City Council,

I am writing to ask for your support in choosing Alternative 2 for the future plans of 3rd and 4th St downtown. PLEASE do not remove any street parking.

As a business owner and investor in downtown La Crosse, I have seen the changes over the last couple decades. When we started investing in downtown things were being built and businesses were flourishing. In the last handful of years that momentum has completely vanished. From deferred maintenance to increased homeless issues (with no accountability), downtown is in a tough stretch. We have already started to see once healthy businesses vanish. I fear eliminating street parking will only increase this trend.

As a supporter of La Crosse who is deeply committed to the strength of our downtown, I urge you to reject any proposal that removes on-street parking for bike lanes. Convenient parking is vital to downtown's economic health, accessibility, and overall vitality. Many people, especially older adults, families with children, and those with mobility challenges rely on being able to park close to their destinations. Eliminating on-street parking will both deter and make it harder for people to come downtown and ultimately hurt local commerce, the very heart of our community.

For these reasons, I support Alternative 2, which preserves existing on-street parking and ensures continued accessibility for all while still allowing thoughtful discussion on other improvements. I urge the Council to prioritize decisions that protect downtown businesses and sustain La Crosse's economic future.

Please reach out to me if you would like to continue this conversation or if you have any questions. My cell phone is (608) 317-5353.

Thank you,

Good Morning-

Removal of vital downtown parking for Bike lanes will severely impact local businesses. The 2nd street project lack of usage has proven this is not a must have amenity in our Community. Wisconsin winters can render these bike lanes useless and dangerous. Almost half of the year. The street departments having to navigate the obstructions for snow and ice removal elevates $$$$$$ spent.

Please vote against additional bike lanes.

Regards,

Dear City Council Members,

As someone who cares deeply about the success and vitality of Downtown La Crosse, I urge you to oppose any proposal that removes on-street parking on 3rd and 4th Streets to make way for bike lanes.

Downtown businesses are still recovering from difficult years, and accessible parking remains essential to their survival. Many residents, visitors, and customers—especially older adults, families with children, and those with mobility challenges—depend on the ability to park close to their destinations. Eliminating this convenience will deter visitors, reduce foot traffic, and ultimately harm the economic heartbeat of our community.

For these reasons, I strongly support **Alternative 2**, which preserves existing on-street parking while leaving room for future discussions about thoughtful transportation improvements. I encourage the Council to prioritize the long-term health of downtown businesses and maintain accessibility for everyone.

Thank you for your service and commitment to our city.

Sincerely,

Thanks,

Carrie Staehly

Dear City Council Members,

As a lifelong resident and supporter of La Crosse, who is deeply committed to the strength of our downtown, I urge you to reject any proposal that removes on-street parking for bike lanes. Convenient parking is vital to downtown's economic health, accessibility, and overall vitality. Many people, especially older adults, families with children, and those with mobility challenges rely on being able to park close to their destinations. Eliminating on-street parking will both deter and make it harder for people to come downtown and ultimately hurt local commerce, the very heart of our community. Additionally, the downtown parking ramps often present challenges due to cleanliness/safety issues, unpleasant odors, and a layout that can be difficult to navigate for both parking and payment.

For these reasons, I strongly support Alternative 2, which preserves existing on-street parking and ensures continued accessibility for all while still allowing thoughtful discussion on other improvements. I urge the Council to prioritize decisions that protect downtown businesses and sustain La Crosse's economic future.

Thank you for your time and dedication to our community.

Sincerely,

Hello,

I am very disheartened to hear that there is a consideration even on the table to remove parking downtown to put in bike lanes. The vast majority of lacrosse hates the bike lanes we currently have and the terrible construction that was done on Cass street to allow bikes. Please listen to the citizens and stop the spending on things that don't directly enhance the lives and prosperity in this city. We are facing terrible economic times and don't need more problems.

Thanks.

Dear La Crosse Common Council,

I just wanted to share some things I think should be considered while choosing whether or not to include protected bike lanes on Third and Fourth Streets, through downtown, in the future reconstruction by WisDOT.

• People bicycling deserve the same sort of connectivity that people driving enjoy.

• Business owners have been shown to overestimate the number of people driving to their shops and restaurants and to underestimate the amount that people walking and bicycling there spend. (A collection of article summaries with links can be found here.)

• We have an oversupply of parking with many ramp spaces especially going unused (link to parking study here). (What do we do with all of this expensive infrastructure if we don't use it? Also, there will still be parking on one side of the street.)

• People bicycling will be less likely to attempt to ride on sidewalks downtown. (This is banned, for good reason, but there is no place in the street to safely ride. A separated lane will be more comfortable for people of all ages and abilities.)

These are some of the reasons I think the friendlier future design for downtown La Crosse is Alternative 1.

Thank you for your time and consideration.

Bridget Brown

Dear City Council Members,

As a small business employee of La Crosse, I simply request you to reject any proposal that removes on-street parking for bike lanes. Convenient parking is vital to downtown's economic health, accessibility, and overall vitality. Many people, especially older adults, families with children, and those with mobility challenges rely on being able to park close to their destinations. Eliminating on-street parking will both deter and make it harder for people to come downtown and ultimately hurt local commerce, the very heart of our community. We have already noticed a dip since free ramp parking was reduced and then taken away, I personally have seen the bike lanes on 2nd street be used improperly by cars and fear creating new bike lanes will only cause more accidents.

For these reasons, I strongly support Alternative 2, which preserves existing on-street parking and ensures continued accessibility for all while still allowing thoughtful discussion on other improvements. I urge the Council to prioritize decisions that protect downtown businesses and sustain La Crosse's economic future.

Thank you for your time and dedication to our community.

Sincerely,
Tokata Fate

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Please vote to keep 3rd and 4th streets as they are currently configured and do not add bike lanes to these highly trafficked streets through our city. Small local businesses need on street parking.

Due to brewery truck traffic on 2nd Street and the extra-wide bike lanes, this street has now become much less safe. Once the new apartments are constructed in the space currently occupied by the La Crosse Tribune building, the traffic and safety concerns will only increase.

It's time to pause and re-assess our bike and pedestrian plans.

Respectfully,

Gregg Peppin

Good morning council members! My name is Mark Goede and I have owned and operated The Breakfast Club & Pub in downtown La Crosse for the past 11 years. I am writing in regard to the proposed changes and alternatives to third and fourth streets. I personally think there is enough going on in this city with bike lanes and becoming bike and pedestrian friendly. While I do understand the need for alternate transportation options, but I think taking away even more parking in the downtown area will be another strike against already hurting downtown businesses. Our delivery drivers that already have a difficult time getting us the products that we need to run our businesses will also suffer. If I have to be in favor of an option, I would like to be in favor of alternative #2. I'd also like to mention yet again how embarrassing Main Street and several other downtown streets are and have been looking for a long time. Thank you all for your consideration on this matter and have a great day!

Mark Goede

Dear La Crosse Common Council Members,

I'm writing to share my support for Alternative 1, the option that includes protected bike lanes on 3rd and 4th Streets.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown — whether they drive, walk, or bike — without taking any options away.

Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.
Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Thank you for your time and for considering this important decision.

Sincerely,
Cameron Kiersch

Hello City Council Members

I am writing to tell you that I am in favor of creating more alternative modes of transportation. I think it would be great to have more bike lanes that allow people to safely travel around La Crosse with out a motor vehicle. As someone who works in downtown La Crosse and almost exclusively rides a bike when I commute to work it would be great to have more biking infrastructure that would allow me to safely move around downtown La Crosse separated from motor vehicles.
I believe that creating protected Bike lanes on 3rd/4th Street will be a great thing for the city as it will create safer alternatives for those who would rather ride a bike than drive a car.
Thank you for your time and for considering my view point on this important decision.

Thanks
Sam Steingraeber

Dear La Crosse Common Council Members,

I'm writing to share my support for **Alternative 1**, the option that includes protected bike lanes on 3rd and 4th Streets. I regularly bike from my home in the central part of La Crosse to the downtown area to patronize stores, restaurants, and bars.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown — whether they drive, walk, or bike — without taking any options away.

Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.

Dear La Crosse Common Council Members,

I'm writing to share my support for Alternative 1, the option that includes protected bike lanes on 3rd and 4th Streets.

As a busy mom who is working to reduce my family's dependence on automobiles, adding protected bike lanes throughout downtown is a must! We live in District 10, near Trane Park. I bike to work at The Nature Place when I can and would bike more with my family if there were more safe routes throughout the city. My seven year old learned to ride a bike this summer and I hope to do much more biking with him.

It's clear that downtown has a surplus of parking spaces; when I do drive I make use of the ramps (I love the parking app!) and never have a problem finding a space.

Please help our community make a significant shift toward a more walkable and bikeable downtown!

Thank you for your time and for considering this important decision.

Sincerely,
Rebecca Schwarz

Dear La Crosse Common Council Members,

I'm writing to share my support for **Alternative 1**, the option that includes protected bike lanes on 3rd and 4th Streets.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown — whether they drive, walk, or bike — without taking options away.
Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.
Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.
Thank you for your time and for considering this important decision.

Thank you,
Megan Cole

Subject: Protected bike lanes for a better downtown

[Some people who received this message don't often get email from giebeljustin@yahoo.com. Learn why this is important at https://aka.ms/LearnAboutSenderIdentification]

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Dear La Crosse Common Council members,

My name is Justin Giebel. I'm a graduate student, nurse, cyclist, and traveler. I moved to La Crosse from Madison, where protected bike lanes throughout the city improve traffic congestion, keep the public safer, and bring communities together.

As a graduate student studying nurse anesthesia and a former trauma ICU nurse, I've seen first hand the damage caused by bike vs car collisions. These collisions cause ripple effects through the communities beyond the physical damage caused to those involved. They can be avoided by improving traffic safety with protected bike lanes.

Being a cyclist, my bias is obvious, but here are some things I have observed since adopted bikes as my primary mode of transportation: bike travel allows you to slow down and see your community, cars inherently disconnect people from the world around them in their design, one car takes up the space of roughly 8 bikes despite generally only carry one a few people, and bikes are for everyone regardless of income.

I mentioned in my introduction that I'm a traveler. That is relevant because having been around the world, I've seen what happens when communities invest in bike transportation. I've been to both Houston and Amsterdam, two extremes. Amsterdam had a recognizable sense of community in it. Small shops flourished. The city was easy to navigate.

3rd and 4th street here in La Crosse are some of the most pedestrian heavy within the city. They're also some of the most highly trafficked. Implementing protected bike lanes allows other forms of transportation to access that area where bike racks are already installed, parking ramps for cars already exist, and small businesses count on people for their livelihood.

Considerations to be made include handicap parking access on intersecting streets and over ADA accessibility issues, but looking at cities like Madison present good models for solutions to those issues. La Crosse is a special place, and I'm happy to be here. Let's make it better for everyone.

Thank you,
Justin Giebel, RN

Please add my name to list of La Crosse city resident in support of protected bike lines in the USH 53 Corridor.

I was disheartened to see that the J&A have apparently recommended against protected bike lanes, contrary to the wishes of most groups surveyed as part of the corridor study, *and literally every city resident I have spoken to about the proposal*.

What a great opportunity we have to prioritize bicycles and pedestrians over parking. I have never been wanting for a parking space downtown, but I have certainly wanted a safer way to get downtown. Anyone who spends even a short time in that corridor knows that it is hostile to both cyclists and pedestrians right now, and I cannot imagine why we would not take this opportunity to invest in a greener, more walkable/bikeable downtown.

Thanks very much,
Grant

Dear La Crosse Common Council Members,

Please support adding protected bike lanes on 3rd and 4th Streets. I visit downtown occasionally to shop and eat and play with my family, but I would much more with the addition of protected bike lanes. Frankly, the criticism that existing bike lanes are not used is incorrect, but their usage would increase substantially if it were safe to get to them from other paths and streets - many of the bike routes are broken and disconnected. No wonder they are not used to their full potential.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown — whether they drive, walk, or bike — without taking any options away.

Dear City Council Members,

As a supporter of La Crosse who is deeply committed to the strength of our downtown, I urge you to reject any proposal that removes on-street parking for bike lanes. Convenient parking is vital to downtown's economic health, accessibility, and overall vitality. Many people, especially older adults, families with children, and those with mobility challenges rely on being able to park close to their destinations. Eliminating on-street parking will both deter and make it harder for people to come downtown and ultimately hurt local commerce, the very heart of our community.

For these reasons, I strongly support Alternative 2, which preserves existing on-street parking and ensures continued accessibility for all while still allowing thoughtful discussion on other improvements. I urge the Council to prioritize decisions that protect downtown businesses and sustain La Crosse's economic future.

Thank you for your time and dedication to our community.

Sincerely,

Hello,

I am a downtown business owner. In a perfect world I would LOVE to pay an additional 0.25% sales tax (or something) to make the parking in the ramps free all the time, but I assume the State government jerks do not allow the city council to just implement sales tax add ons at their discretion.

When I tell someone my business is downtown BY FAR the top response I receive is "I don't go downtown", because nobody wants to try to find parking. And like it or not, most red-blooded Americans would rather drive to the next town over than pay for parking. Just to reiterate, as a business owner I would GLADLY be the one who has to pay the price for more potential customers to be able to come downtown to spend money without having to worry about parking (although I would advocate for still writing tickets for folks in the ramps who don't move their cars every 24 hours or something, because I saw how the free parking in the LHI ramp was utilized by people leaving their cars there all the time).

Anyway, as you can imagine, removing the parking along 3rd and 4th Street so we can have yet another unused set of biking lanes seems totally ridiculous. I am an avid bicyclist myself. If I want to bicycle downtown it is literally no big deal to shoot over to 2nd street and use those bike lanes… bicycling 20 miles is no big deal, so I certainly don't think having bicyclists go one block further west is anything they ought to be concerned about.

Parking spaces are customers. Fewer parking spaces are fewer customers, which is less sales tax revenue. To be perfectly honest I would have already moved my business out of downtown if a reasonable option had come to my attention, and fewer parking spaces would just lower the barrier to making that decision.

Thank you for your time and consideration,

Paul Gauquie

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Hello,

I am writing in support for supportive infrastructure for bikes/pedestrians on 3rd and 4th street. As an avid biker myself, I find it challenging to navigate downtown. Cars often drive very fast and biking on the sidewalks are dangerous for pedestrian traffic. I know there is a lot of controversy around the bike lanes downtown (due to 2nd street) however I think providing bike lanes on 3rd and 4th provide safer solutions for all. Taking away one side of parking on 3rd and 4th street will help pedestrians crossing these streets safer. Because of parking, pedestrians often have to stand out on the road to look down the street in order to see if it is clear to park. By reducing parking on one side- you create a better line of vision for people to cross safely.

If the council does not want to recommend bike lanes, I think it would be advantageous to have raised calming tables at crosswalks to slow traffic down and make pedestrians safer when traveling downtown.

Thank you for your consideration.

The downtown businesses are barely getting by. I urge you do NOT add any more bike lanes, especially if they result in fewer parking spaces. I understand that some feel the need to change the complexion of the city, but they cannot and should not force their vision on the majority. Businesses need customers. The majority drive cars. Not everyone can or will use the parking ramps due to mobility issues or just personal preference. City government should support businesses and spend our tax dollars for the good of the majority of its tax paying citizens.

Dear La Crosse Common Council Members,

I'm writing to share my support for Alternative 1, the option that includes protected bike lanes on 3rd and 4th Streets.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown — whether they drive, walk, or bike — without taking any options away.

Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Thank you for your time and for considering this important decision.

Sincerely,
Lauren

Dear La Crosse Common Council Members,

I'm writing to share my support for Alternative 1, the option that includes protected bike lanes on 3rd and 4th Streets. I ride my bike to work on a regular basis, and I wish I had more and better opportunities to patronize businesses downtown.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown — whether they drive, walk, or bike — without taking any options away.

Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets. People will complain about not getting street parking directly in front of the business they want to go to, but that's not a reality anyway.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Thank you for your time and for considering this important decision.

Sincerely,

Subject: Strong Support for 2nd Street Cycle Track Upgrade Proposal

Some people who received this message don't often get email from awaldinger9@gmail.com. Learn why this is important

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Dear La Crosse Common Council,

I'm writing to voice my strong support for the proposed upgrade to the 2nd Street bike lanes in downtown La Crosse.

As someone who regularly bikes downtown for both recreation and transportation, I love this route, but I often feel unsafe when traffic is heavy or when cars encroach into the lane. The planned improvements — especially the added concrete median and better signage will make biking downtown safer and more accessible for everyone.

This project is a smart investment that improves safety, supports sustainability goals, and strengthens connections between trails, neighborhoods, and businesses. I hope the Council moves forward with this important step toward a more bike-friendly La Crosse.

Thank you for your time and consideration.

Best regards,
Arik Waldinger

Subject: Support Alternative 1 - we NEED better bike infrastructure

*** **CAUTION:** This email originated from an external sender. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe. ***

Dear Council Members,

I am emailing to strongly urge you to prefer Alternative 1, the option that provides parking-protected bike lanes (PBLs) on Third and Fourth Streets, as part of the coming WisDOT reconstruction project. This is an amazing opportunity to take a strong step toward actualizing an important part of our city's climate action plan and looking forward to a more sustainable future.

But first, please understand that bicycles are transportation vehicles. They are the most efficient vehicles ever invented. Most people's daily trips are less than five miles. That means, a lot of trips could be made by bike—safer, cleaner, quieter, cheaper, and healthier. Please take a moment to reset; too many decisions are being made from our "car brains" (also called *motonormativity*), "a shared bias whereby people judge motorised mobility differently to other comparable topics." (https://www.sciencedirect.com/science/article/pii/S0959378025000172)

Our climate action plan calls for improved bicycling infrastructure, more people cycling for transportation, and reduced vehicle miles traveled. Of all the sectors, transportation is the worst, with emissions from cars and light duty trucks making up more than half of the total. (https://www.epa.gov/ghgemissions/sources-greenhouse-gas-emissions). We have not moved forward with the urgency required since our climate action plan was completed and certainly not since the 2019 resolution pledging to reduce carbon emissions in steps. We are already behind on those commitments. Supporting PBLs as part of this state highway project is imperative.

Besides being a most important climate action, we know from years of research that PBLs are the best way to encourage more people of all ages and abilities to bicycle - not painted lanes, not sharrows, and certainly not nothing. In fact, PBLs make roads safer for all users.
(https://www.sciencedirect.com/science/article/abs/pii/S2214140518301488)

I know some members of the committee for citizens with disabilities have expressed opposition to this alternative, but I think their fears may be based on their projections and not on facts. In fact, PBLs would reduce the distance pedestrians and wheelchair users would need to travel across motorized vehicle lanes, would provide a virtual pedestrian island part of the way across the streets (the parking buffer), and, if the city would designate the first and last parking space along each block as parking for those with disabilities, it would ensure that needed parking access would be available and might even be increased.

I know that some business owners oppose Alternative 1. But many studies have shown that protected bike lanes are actually good for business. (https://www.kittelson.com/ideas/myth-busters-are-bike-lanes-bad-for-business/ and https://www.businessinsider.com/bike-lanes-good-for-business-studies-better-streets-2024-3). In fact, this 2024 news video reports on business owners who rose up **for** bike lanes when a politician proposed removing them. (https://toronto.citynews.ca/video/2024/10/24/annex-businesses-tell-ford-to-back-off-bloor-bike-lanes)

For people who have not experienced this level of modern, safe, efficient multi-modal design, I recommend watching this very short video about the newly completed PBL on Hennepin Avenue in Minneapolis (https://youtu.be/mM2xkz-syEw?si=ooGwbMCsizItoMN3).

But to me, again, the most important (and I mean MOST. IMPORTANT.) reason to prefer Alternative 1 is that we MUST take climate action NOW. We are supposed to be doing every single step in our climate action plan as quickly as possible, but we are not. Our planet is "on the brink," as described in a major new report (https://us01.z.antigena.com/l/FlHCzbym_ppJRg2Jv0H6g64Oky_MZsL2eVDlx8FmQbX99VaMMS-vkspKt85gAf3Mv4MZFPxqXcUdnz~WU0UzDgorLtpboYa2_PddD5SgT_X5FM7oImToG9kayKLXZm-ue_EMyt_mOI1T4ptuwCLZAm2a~p61ZxeAOUTsuaVaeRHg-NazXp68v1VVdM80P~GK8ns0tWNT1m) "We are hurtling toward climate chaos. The planet's vital signs are flashing red. The consequences of human-driven alterations of the climate are no longer future threats but are here now. This unfolding emergency stems from failed foresight, political inaction, unsustainable economic systems, and misinformation. ,,, The window to prevent the worst outcomes is rapidly closing." To ignore this crisis and the time and money spent to create our robust plan would be, to me, a travesty..

Bicyclists pay taxes, we cause much less wear and tear on roadways, we cause many fewer traffic deaths and injuries, and we emit zero pollution and greenhouse gases. Yet, we are usually relegated to cracked, debris-strewn gutter lanes or poorly designed, useless painted lanes. We are told to take longer, indirect routes on side or back streets that are far from our destinations. Our complete streets ordinance is routinely ignored.

This is a chance to ensure that those choosing to bike to work, to appointments, to social engagements, for shopping, and just to get from A to B are treated more fairly and given due space to travel safely on the public street that we all pay for.

For climate, for safety, for fairness, for future, you must support Alternative 1.

Thank you for listening.

Good Morning

I was curious to see if the following rumors are true concerning additional bike lanes planed for 3rd and 4th Street in downtown La Crosse and also George Street on the Northside.

If so, all 3 of these streets are too busy and congested to add bike lanes into the picture, In addition you are taking away needed parking for businesses , especially when it comes to seniors and the disabled, who do not want to use the parking ramps or have trouble walking.

The costs above would more than cover both the Northside Library and the Pool. Both these facilities offer things for children and adults to do and in turn keep them busy.

Please keep in mind a lot of us grew up and rode our bikes all over town without one single bike lane. We used side streets or sidewalks to get where we were going.

Thank you

Dave Konrath

Dear La Crosse Common Council Members,

I'm writing to express my support for **Alternative 1**, the option that includes protected bike lanes on 3rd and 4th Streets. As a cyclist, pedestrian, AND driver, I am in full support of safer infrastructure for ALL. I also have 3 young children who love to bike in this city, and this would make all the difference in how we get to our favorite places downtown.

This project is a massive opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown — whether they drive, walk, or bike — without taking any options away.

Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Research demonstrates the positive impact these bike lanes will have on small business economics, bike and pedestrian safety, and social capital. These are all major outcomes in welcoming cities.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Thank you for your time and for considering this important decision.

Yours,
Josh Hein

Hello, my name is Kyle Ward, and I am a La Crosse resident... unfortunately. For starters, how are you guys considering more bike lanes downtown? Over the course of my time spent downtown, I have seen a handful of bikers. More so, I have seen them use it incorrectly or not at all. Secondly, bike lanes are pointless if the parking situations are atrocious and parking ramps are unsafe. My worry is the unnecessary spending for this. How are bike lanes a top priority for La Crosse when you guys have two parks shut down as a result of homeless? I fear for the bikers ironically because of the cleanliness and amazing benefits the homeless come with. As "politicians" how do you guys come up with these absurd and idiotic ideas? They are terrible. How many people will use the bike lanes in the fall and winter time? Why would I want money going towards something that can not be used effectively all year around? I mean these are all questions that I have to assume have lingered in your brains discussing this. My opinion, release statistical data showing the amount of bikers in La Crosse and whether or not they see beneficial results of this because I see zero. How embarrassing it is for grown adults who obviously just care about the check that comes in your name over taking pride in making La Crosse great again. Closing thoughts are simple; La Crosse will not prosper with more bike lanes instead focus on the actual problems and fix those. Such as homeless, crime, etc. If you need proper help and guidance in doing the right thing and your jobs please contact me, a 23 year old, who knows nothing about politics and helping the mayor in ruining a city, but retains enough brain cells to know that bike lanes are not the answer the La Crosse residents need.

Hello,

I was made aware recently that there is a vote occurring for the removal of street-side parking along 3rd and 4th street. As someone who already strongly dislikes the addition of the bike lanes along second street and the removal of free parking from the downtown area, I would vehemently oppose the idea of limiting the driving and parking areas of 3rd and 4th as a main thoroughfare of the La Crosse area.

I would much prefer if we did nothing to the width of the street, sidewalks, or parking areas when we redo the roads, but given the options Alternative 2 would be highly preferred.

I believe adding these bikelanes would heavily impact the local small businesses along this stretch with the removal of parking from in front of their establishments and further frustrate and cause hazards to the civilians walking/biking in that area.

Stop with the bike lane madness. They're bareless used as it is and only cause traffic to worsen.

Thank you,

--

Dear City Council Members,

As a supporter of La Crosse who is deeply committed to the strength of our downtown, I urge you to reject any proposal that removes on-street parking for bike lanes. Convenient parking is vital to downtown's economic health, accessibility, and overall vitality. Many people, especially older adults, families with children, and those with mobility challenges rely on being able to park close to their destinations. Eliminating on-street parking will both deter and make it harder for people to come downtown and ultimately hurt local commerce, the very heart of our community.

For these reasons, I strongly support Alternative 2, which preserves existing on-street parking and ensures continued accessibility for all while still allowing thoughtful discussion on other improvements. I urge the Council to prioritize decisions that protect downtown businesses and sustain La Crosse's economic future.

Thank you for your time and dedication to our community.

Sincerely,

Residents and homeowners, Steven and Liza Bodovinitz

Many people, especially older adults, families with children, and those with mobility challenges rely on being able to park close to their destinations. Eliminating on-street parking will both deter and make it harder for people to come downtown and ultimately hurt local commerce, the very heart of our community.

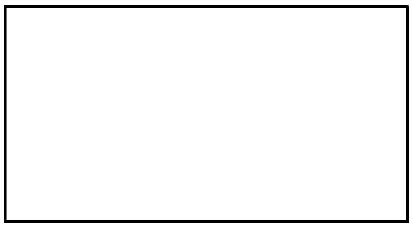

For these reasons, I strongly support Alternative 2, which preserves existing on-street parking and ensures continued accessibility for all while still allowing thoughtful discussion on other improvements. I urge the Council to prioritize decisions that protect downtown businesses and sustain La Crosse's economic future.

Thank you for your time and dedication to our community.

Sincerely,
Jack Sullivan

Dear La Crosse Common Council Members,

I'm writing to share my support for Alternative 1, the option that includes protected bike lanes on 3rd and 4th Streets.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown — whether they drive, walk, or bike — without taking any options away.

Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Thank you for your time and for considering this important decision.

Sincerely,
Benjamin Black

Dear La Crosse Common Council Members,

I'm writing to voice my support for **Alternative 1**, which includes protected bike lanes on 3rd and 4th Streets.

This is a rare chance to reimagine how we move through downtown. Protected bike lanes won't just benefit cyclists — they'll make these streets safer and more predictable for drivers and pedestrians too. With so much unused parking downtown, we have room to design streets that better reflect how our city is growing and changing.

Other cities that have taken this step have seen stronger local businesses and more lively downtowns. I believe La Crosse can, too.

Thank you for your leadership and consideration.

Best regards,
Nathan

The thoughts shared in this email not only represent myself but hundreds of people who have asked that I share their thoughts with all of you. People know that I have been involved in the community for a long time and have asked that I speak for them on the issues below.

It is also a lengthy email so that I can document my credentials with you.

Please understand that I love what has been done with the roundabouts on South Avenue and at 7th and Cass Streets. I believe in progress but I am also concerned about things that are not business friendly. I worked with every mayor of La Crosse from Pat Zielke to Mitch Reynolds.

Credentials:

- A hotel manager in La Crosse for more than ten years
- Food and Beverage Director of the La Crosse Center for two years
- Director of the La Crosse Center for seven years (yes, a City Department Head)
- Business owner and manager for 16 additional years
- Executive Director of Explore La Crosse (tourism) for eleven years
- Treasurer of Friends of Riverside Park Foundation

Myself & others raised the $950,00 to build the bandshell in Riverside Park

The same group raised the $350,000 to build the new bathrooms in Riverside Park

Myself and two others raised the $1.2 million to build the pavilion at Forest Hills Golf Club

If you want a bench in Riverside Park, I am the community volunteer who coordinates this for the Parks Department. I am downtown many times a week for bandshell pavers and benches to coordinate these purchases.

- President & Founder of the Joe Was Just Joe Foundation, for 17 years doing suicide prevention work in the Tri-State Area

- A 41-year home owner in the City of La Crosse. As a City Department Head, I was required to be a City of La Crosse resident at that time. I question how many current Department Heads live in La Crosse right now. I know that many of them DO NOT live in the City.

I traveled into downtown La Crosse twice on Saturday, November 8. Once in the early afternoon and once at 5:30. I drove all around the downtown area checking on the use of the street parking. Both 3rd and 4th Streets were full of vehicles in the entire downtown area. This was a Saturday which means these were consumers and not people working.

The removal of parking from Cass Street to La Crosse Street on 3rd and 4th is a terrible idea and will have an absolutely negative impact on food, beverage and retail business in this area.

There is no logical reason to remove parking from these streets and if you have not spent time in this area reviewing the use of these parking spots you are not doing your job. I represent HUNDREDS of people who agree with these thoughts.

Since I have your attention, I would also point out that the city spent over $42 million to upgrade one of the City's largest investments, the La Crosse Center. I am in downtown La Crosse multiple days a week and I can tell you in the last five years I have seen less than 25 people using these bike lanes.

It's ridiculous that these lanes impact the access to the La Crosse Center. I also question the legality of bike lanes going against traffic with the current design on 2nd Street.

The changes made to Cass Street from West Avenue to 7th Street are a joke. Fire trucks cannot make turns at any of these corners. Additionally, the forcing of sidewalks to the 28th Street area between Cass and Main Streets is an egregious waste of taxpayer dollars and the residents in this area were definitely opposed to their installation.

I am guessing most of you have driven in this area to view what was done to a neighborhood that doesn't want people walking so close to their homes that they can easily view into their living rooms. Plus, now they have sidewalks to shovel all winter long. You could keep the northside library open if this ridiculous change had not happened.

The City Planning Department is totally out of control.

We are the silent majority who continue to pay our property taxes but are constantly being ignored because we are not vocal. You need to know that I represent a large number of homeowners who believe the direction of this City is terrible and you have ignored us for far too long.

Removing parking from downtown streets is a terrible mistake! I would welcome your email at clements.djc@gmail or a phone call to my cell phone at 608-397-3336.

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Hello all,

In regards to resolution 25-1265 I am in support of alternative 1.

Down town La Crosse has 3,000 surplus parking spots car divers are not going to be deterred by a few less spots it is unlikely they will even notice as there are already hug parking garages on 3rd street. While adding a protected bike lane will greatly improve the lives of the many La Crosse residents who bike commute. As someone who has been struck not once but twice by cars while biking on streets with no bike lanes I know first hand the physically and sociological benefits of protected bike lanes alternative 1 will improve the safety of our community members and increase their willingness to bike into our town. Bringing economic, safety, , congestion, and environmental benefits to downtown la crosse by incentivizing more people to choose to bike rather than drive.

As someone who has always been too afraid to bike on 3rd street alternative 1 will bring about the change to change that, making it easier of me to visit some of my favorite shops (Antiques on Main, Big Al's).

Please continue to make La Crosse a bike friendly town, ya'll have been doing a relatively good job and it would be a shame if those efforts ended here.

I appreciate your consideration,
Danny

Dear La Crosse Common Council Members,

I'm writing to share my support for Alternative 1, the option that includes protected bike lanes on 3rd and 4th Streets. I frequently ask college students what would make them feel more comfortable biking to destinations, and protected bike lanes is the number one answer. Promoting a pedestrian-welcoming space encourages us to slow down in town and spend money, while supporting our climate action plan and promoting healthy people.

I understand that we have plenty of parking downtown- more of an issue of how to help people find those spaces. Let's not miss this opportunity to create a city that allows transportation choices for more people.

Sincerely,
Alysa Remsburg (resident of the GENA neighborhood specifically because of pedestrian options)

Dear La Crosse Common Council Members,

I am writing to express my opposition to Alternative 1, the proposal to add protected bike lanes on 3rd and 4th Streets, and voice my support for Alternative 2.

While I understand the intention to make downtown more accessible, this plan would have the opposite effect for most residents and visitors. More bike lanes may sound appealing in theory, but they cannot be used for much of the year due to our long winters. Meanwhile, parking remains one of the biggest reasons people (at least people I know) avoid going downtown, and removing spaces will only make that problem worse.

Downtown La Crosse already has more vacant storefronts than many other Wisconsin cities. Businesses depend on convenient parking for their customers, delivery vehicles, and employees. Reducing that access discourages people from coming downtown and hurts the very businesses that make La Crosse unique.

I urge the Council to reject Alternative 1 and instead pursue Alternative 2 that caters to the beating heart of this wonderful city, the local businesses that keep people going downtown, not passing through it.

Thank you for your time and consideration!

Hi Erin,

Thanks so much for your reply. You were the only council member who took the time to respond, and I really appreciate that.

My partner, Ryan, owns a handful of small businesses downtown, so I see every day how hard our local business owners and taxpayers work and the challenges they face, especially after COVID. Many of the people who used to work downtown and regularly eat or shop there are now working remotely, which has had a big impact. It's easy to grab dinner at a chain restaurant by the mall or order everything online, but doing that chips away at the fabric of our community and what makes it special. Supporting local truly matters and as the granddaughter and daughter of small business owners, I appreciate that more than ever.

I often make quick trips downtown to pick up a pizza from Big Al's or Pizza Dolorosa, get my haircut at 3rd Street Gallery or to pop in and support Touch of Class or the former Willow, which shuttered its doors this summer due to the difficult climate of operating a business, and let alone, in downtown La Crosse. Most often, I just need a convenient place to park for a short while. I recently stopped at UPS to drop off some packages, and the smell of urine coming from the parking ramp was overwhelming. Most definitely due to the homeless that were camped in the now closed Cameron Park. I know I'm not alone in avoiding the area if convenient street parking goes away and especially if parking means having to go into a ramp that feels unpleasant or unsafe.

If we lose our downtown businesses, we lose the very reason people come downtown in the first place and before long, it risks becoming a ghost town. The ongoing homelessness challenges have already driven many people away, and I worry it will only get worse with adverse decisions. While there may be a short term monetary incentive in adding bike lanes, the long term consequences are devastating. It rationally does not make sense.

On a very different note, I learned that you are the Goggin family my dad has mentioned from his childhood growing up on the Northside. I gave him a Storyworth subscription for a couple of years, and one of the prompts asked him to write about what it was like growing up on Caledonia Street. I've attached what he wrote - it might give you a laugh. Just last night he was sharing what wonderful people your parents were.

I also heard you played a key role in helping save the Harry J. Olson Senior Citizen Center. My grandpa Don used to play cards there all the time. It was one of his “third places,” if you’ve read Rick Kyte’s book, and I’m sure that kept him active and sharp for as long as we had him. What a gift to our older community members.

Lastly, even though I didn’t grow up on the Northside, I know how important places like the library and pool are to families in the area. I’m all for keeping those neighborhood resources alive and thriving.

Thanks again for your time and for everything you do for the community. You are making a difference.

Best,

Marissa Dickinson

> Dear City Council Members,

As a lifelong supporter of La Crosse and someone deeply invested in the vitality of our downtown, I urge you to **reject any plan that removes on-street parking to make way for bike lanes**. Accessible and convenient parking is fundamental to the success of downtown businesses. Older adults (like my own parents), families with young children, and individuals with mobility challenges especially depend on being able to park close to their destinations.

Eliminating on-street parking will discourage people from visiting downtown and jeopardize the economic heart of our community. When parking becomes inconvenient, visitors will shop and dine elsewhere, putting local businesses at a steep disadvantage.

The situation on 2nd Street offers a clear warning. The general sentiment has not been positive - valuable parking near the renovated La Crosse Center was removed, and the resulting bike lanes see little use. In a city with a limited biking season, this approach is impractical. As an avid biker myself, it's time to apply common sense.

For these reasons, **I firmly support Alternative 2**, which maintains existing parking and keeps downtown accessible to everyone while still allowing room for future discussions on infrastructure improvements. **Please prioritize policies that safeguard downtown businesses and preserve La Crosse's economic vitality.**

Thank you for your time and your service to our community.

Sincerely,
Marissa Dickinson

Council members-

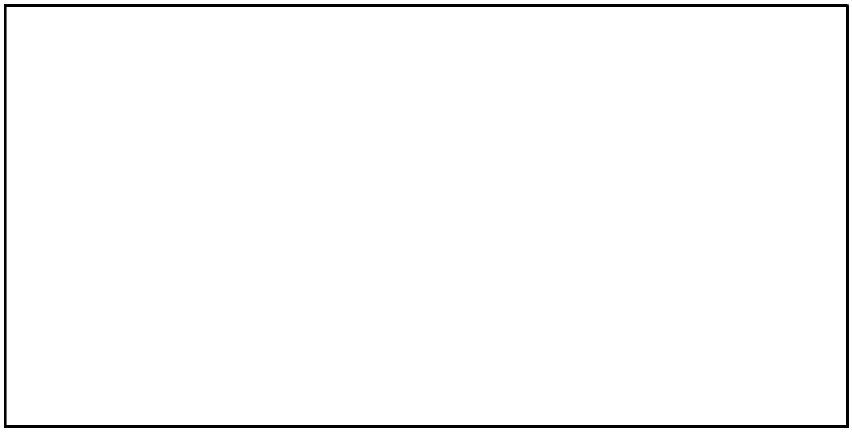

PLEASE vote for option 2 tonight for the parking/bike lanes issue. My personal business is along 4th St downtown, I frequent restaurants and shops downtown often. Parking is already in short supply and the inconvenience for customers to park in ramps away from my business and others will have a catastrophic effect on foot traffic.

As more and more shops and restaurants choose Onalaska over La Crosse, it would be a terrible decision to limit parking. I also believe the increased bike traffic (if they were to actually be utilized, which has proven NOT to be the case on 2nd St) would cause more safety issues.

PLEASE vote for option 2.

Thank you
Josh Neumann

Dear City Council Members,

I'm writing as a concerned resident and supporter of our local downtown businesses and community resources.

First, I strongly urge you to vote for Option 2 in the upcoming parking decision. Reducing parking downtown would significantly harm local businesses, limit accessibility for residents and visitors, and make it harder for our community to thrive. Option 2 provides a balanced approach that supports both growth and convenience.

Second, I ask that you reconsider any major budget cuts to our community library. The library is one of the most valuable resources we have as it supports children's literacy, lifelong learning, and community connection. Its programs reach people of all ages and backgrounds, and reducing its funding would deeply impact the vitality of our town.

Thank you for your time and for the work you do on behalf of our community. Please keep our local businesses and essential public services in mind as you make these important decisions.

Sincerely,
Dodgena Stefanski

Dear council members,

Please consider voting alternative 2 on downtown parking/bike lanes. We are already struggling with adequate parking and I fear downtown will be very negatively impacted by removing more parking. Elderly and disabled individuals can't park in ramps and walk long distances. The most common complaint we hear already is people dont come downtown due to lack of parking.
Decades ago downtown was hurt bad by paid street parking, people started going to Malls and department stores instead. Then they removed paid street parking to revitalize downtown.
Now I feel we are falling right back into the cycle of pushing people away from visiting downtown. As a long time downtown resident and business owner, this worries me.

Thank you for your consideration,

Joe Zenz

Re: I understand that on Thursday the council will take up the question of eliminating off-street parking on portions of 3rd and 4th Street in favor of more bike lanes through some of the most heavily used portions of the downtown business district...If you have any problems in understanding the implications of this **counterintuitive** notion let me suggest you put it to a referendum...my best guess it would be voted down 90-10.

Dear City Council Members,

First of all, thank you for what you do for our community! Your service is valued and appreciated, as it is recognized that often the tasks before you are not always easy to discern in a manner pleasing to all. It comes without a doubt that your choices in representation of your constituents come with the loudest dissent most often when decisions are unpopular! When voices remain silent, how are you to know what the pulse is on issues that affect all of us? Therefore, I will remain brief:

Second, **Please - **NO MORE BIKE LANES****. We recently hosted a wedding at the La Crosse Center and one of the biggest 'complaints' we received from our guests was the difficult & confusing navigation of these - especially downtown. You've likely heard it all by now so I won't dwell, but again - - removing even MORE downtown parking to facilitate MORE bike lanes makes no sense. Adding barricades, signs, road lines is becoming ridiculous AND hazardous in my opinion. I have yet to see any bikers using the bike lanes on Jackson Street (I'm sure there are a few, however the number of cars vs bikes is indisputable, yet so much of this thoroughfare is dedicated to the bike lanes). Why? Squeaky wheel special interest group support? Sorry...rabbit hole I won't go down. All of these supposed and frequent changes 'for the better' give us pause as to whether or not we want to even continue living in La Crosse (and my husband and I both came to La Crosse as college students - and ended up staying to raise our family here)! That was almost 40 years ago. Now, our taxes are astronomical and money is being so disappointedly spent recently - but I digress and promised to be brief.

Third, **Please do not rush this - ****FIND SOLUTIONS TO KEEP THE NORTHSIDE LIBRARY & OUTDOOR LOGAN POOL OPEN****. The fiber and future of this community is sorely at stake in these many, unfortunate regards.

Again, I thank each one of you for your dedication and service. Though I readily admit that I personally posses no creative insights to offer for resolution - I want to trust that ***your*** elected involvement in the community on this

level and your ability to project & craft alternative ways of thinking and approach is why you desired to became a council member - in spite of the large responsibility you have taken on. Thank you for that dedication and listening to my concerns.

Dear La Crosse Common Council Members,
I'm writing to share my support for Alternative 1, the option that includes protected bike lanes on 3rd and 4th Streets.
This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown — whether they drive, walk, or bike — without taking any options away.
Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.
Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.
Thank you for your time and for considering this important decision.
Sincerely,
Emma Buschmann

Subject: Resolution 25-1265 - Support for Alternative 1

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Good morning, Councilmembers,

I am writing in relation to Resolution 25-1265, in support of Alternative 1, which would add protected bike lanes on 3rd and 4th streets. I tuned into last week's Judiciary and Administration meeting where this was discussed, and I heard Councilmember Sleznikow acknowledge that people DO use bike lanes, but they aren't the folks you're getting emails from. So, here I am!

Like most avid cyclists, I navigate around our city both on my bicycle and in my vehicle. Perhaps because I am a cyclist who has been severely injured being hit by the driver of a pick up truck who "didn't see me," I DO notice cyclists in bike lanes when I'm in a car, pretty much any time I am both in my car and in close proximity to a bike lane. I have, on more than one occasion, ridden my bicycle on the 2nd street cycle track from Houska park to near the La Crosse center without encountering a single vehicle, and yet, I understand that doesn't mean "cars never even use that road." The first thing I am asking some of you is to believe us when we tell you, we do use the bike lanes. Regularly. Year-round.

Had the 2nd street cycle track existed in 2017, I would have avoided a bicycle crash that seriously injured me while commuting to my job at Gundersen. I am grateful for and paying attention to the advances La Crosse has made in bicycle infrastructure over the years, and the more I use my bicycle to get around, I also see how much further we have to go to accomplish a truly safe network of bicycle infrastructure.

In addition to being a cyclist, I also love our downtown. Unfortunately, I have never felt safe bicycling on third or fourth street, and as such, I don't frequent the businesses I'd like to support nearly as much as I would if I could more easily access them by bicycle. With protected bike lanes on 3rd and 4th street, I'd be spending a lot more of my dollars with locally owned businesses and a lot less of them with Starbucks and Amazon. I'd be putting a lot less wear and tear on our streets not only on my trips downtown, but my trips across town that are tricky to make both safely and efficiently by bicycle under the current design.

Another hat I wear is that of an advocate for disabled folks in our community. I'm a parent to a disabled child and I take accessibility very seriously. With protected bike lanes, I could feel safe making trips downtown with my disabled teen on the adapted tandem e-trike that makes biking accessible for him. I also hear and share the concern for parking for people with disabilities. As such, I propose that a significant number of the remaining street parking spaces be designated as disability accessible parking spots. Those who don't have mobility concerns and are able to walk a block or two to reach their destination can do so, and those who rely on parking close by their destination can be accommodated.

This is an incredible opportunity to make downtown safer and more accessible for everyone. You have the opportunity to create a downtown that brings together people of all abilities, people on foot, on bikes, and in cars, to create a downtown that works for everyone, reduces our reliance on cars, frees up parking, and allows businesses to thrive with the additional revenue from those who, like me, currently avoid shopping downtown

as much as we'd like to because we can't safely bike there with our families.

Thank you,

Joella Striebel

My sources tell me that there is a strong movement to eliminate parking on 3rd and 4th streets and replace it with bike lanes. This is ridiculous. There are already newly installed bike lanes on 2nd street that don't seem to be used like I think you planned. They are so confusing. It seems that way too much money has been spent on constructing these lanes which are ridiculously huge. Those bike lanes are large enough to handle any bike traffic from 3rd and 4th streets and would be safer option. Those streets are a main thorough fare in La Crosse and many stores, restaurants and bars are located there.

I strongly do not support this.

Also, keep the northbranch library open!

Dear La Crosse Common Council Members,

I'm writing to share my strong support for **Alternative 1**, the plan that includes protected bike lanes on 3rd and 4th Streets.

This is a once-in-a-generation chance to make downtown La Crosse safer, more connected, and ready for the future. Protected bike lanes will make it easier for people to get around — whether they're driving, walking, or biking — and they do it without taking options away from anyone.

This is also about **investing in downtown businesses**. Walkable and bikeable downtowns — especially those with protected bike lanes — have proven time and time again to increase foot traffic, support local shops and restaurants, promote healthier lifestyles, and provide safe routes for everyone. Multiple cities have already made this shift, and I believe La Crosse has an excellent opportunity to do the same.

Downtown already has more than 3,000 parking spaces sitting empty, so we've got room to make space for people. Cities that have made this kind of investment have seen it pay off — with more business activity, safer streets, and places that simply feel better to be in.

Please choose the option that reflects the kind of future we want for La Crosse: one that's built around connection, choice, and people.

Thanks for your time and for considering this important decision.

Dear La Crosse Common Council Members,

I'm writing to share my support for **Alternative 1**, the option that includes protected bike lanes on 3rd and 4th Streets. As a resident that works downtown, more bike lanes are a much needed change to our downtown. More parking means more driving, which means more pollution, noise, and accidents.

We already have three parking garages within a stones throw of most things downtown. Not only will having bike lanes open the city up, it will make it more attractive too. No one looks at street parking and thinks it's more attractive.

So please vote to make La Crosse healthier, safer, and a more attractive location for everyone by giving us more bike lanes!

Thank you!

Dear La Crosse Common Council Members,

I'm writing to share my support for Alternative 1, the option that includes protected bike lanes on 3rd and 4th Streets.

I believe this project is a rare opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will greatly enhance multimodal transportation in La Crosse, and really elevate La Crosse over other communities. I personally have to avoid most of downtown when I'm on my bike due to unsafe riding conditions and lack of infrastructure. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets. I've recently spent a lot of time in Duluth, MN, where there are multiple cross-city bike paths. I've seen all demographics running, biking, and walking. La Crosse has many of the same opportunities that Duluth used to implement these spaces, so I encourage you to support Alternative 1.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Thank you for your time and for considering this important decision.

Sincerely,
Bode Nesler

Dear La Crosse Common Council Members,

As a La Crosse small business owner and a member of the Bicycle-Pedestrian Advisory Committee, I am writing to share my support for **Alternative 1**, the option that includes protected bike lanes on 3rd and 4th Streets.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown whether they drive, walk, or bike, without taking any options away.

Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.

Additionally, the La Crosse Common Council passed a resolution in 2019 setting a goal of reaching carbon neutrality community-wide, in both energy and transportation by 2050. We will not reach that goal if greener alternatives are not instituted NOW.

Please choose the option that reflects the future we want for La Crosse, a city built around connection, choice, and people.

Thank you for your time and for considering this important decision.

Dear La Crosse Common Council Members,

I'm writing to share my support for **Alternative 1**, the option that includes protected bike lanes on 3rd and 4th Streets.

This project is a once-in-a-generation opportunity to make our downtown area safer, more connected, and better prepared for the future. I am someone who doesn't drive, and would bike more frequently if biking were safer in La Crosse. I previously lived in Madison, which has many protected bike lanes that improve getting around for bikers, walkers, and motorists alike.

Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Thank you for your time and for considering this important decision.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Please remember that, even if you don't personally use bike lanes, adding them is a VERY cheap traffic calming measure, as it generally slows down traffic by making lanes appear somewhat narrower than they would be otherwise. And calmer traffic is something we can ALL appreciate!

Thank you for your time and for considering this important decision.

Sincerely,
Josh Miner, 2225 State St, La Crosse, WI 54601

I support wholeheartedly what Dave Clements stated in his email to you earlier below. There have and will continue to be projects sacrificed for the sake of leaning heavily into bump outs, neighborhood traffic circles and a planned overabundance of bike lanes. Please strive to find balance.

Regards,

Brian Harris

330 24th St N

"I have lived in the City of La Crosse for 41 years, owning my home for all those years. Please understand that I love what has been done with the roundabouts on South Avenue and at 7th and Cass Streets. I believe in progress but I am also concerned about things that are not business friendly.

I traveled into downtown La Crosse twice on Saturday, November 8. Once in the early afternoon and once at 5:30. I drove all around the downtown area checking on the use of the street parking. Both 3rd and 4th Streets were full of vehicles in the entire downtown area. This was a Saturday which means these were consumers and not people working.

The removal of parking from Cass Street to La Crosse Street on 3rd and 4th is a terrible idea and will have an absolutely negative impact on food, beverage and retail business in this area.

There is no logical reason to remove parking from these streets and if you have not spent time in this area reviewing the use of these parking spots you are not doing your job.

Since I have your attention, I would also point out that the city spent over $42 million to upgrade one of the City's largest investments, the La Crosse Center. I am in downtown La Crosse multiple days a week and I can tell you in the last five years I have seen less than 25 people using these bike lanes.

It's ridiculous that these lanes impact the access to the La Crosse Center. I also question the legality of bike lanes going against traffic with the current design on 2nd Street.

The changes made to Cass Street from West Avenue to 7th Street are a joke. Fire trucks cannot make turns at any of these corners. Additionally, the forcing of sidewalks to the 28th Street area between Cass and Main Streets is an egregious waste of taxpayer dollars and the residents in this area were definitely opposed to their installation.

I am guessing most of you have not driven in this area to view what was done to a neighborhood that doesn't want people walking so close to their homes that they can easily view into their living rooms. Plus, now they have sidewalks to shovel all winter long. You could keep the northside library open if this ridiculous change had not happened.

The City Planning Department is totally out of control.

We are the silent majority who continue to pay our property taxes but are constantly being ignored because we are not vocal.

Removing parking from downtown streets is a terrible mistake! I would welcome your email at clements.djc@gmail or a phone call to my cell phone at 608-397-3336.

David J. Clements"

Subject: Support for Protected Bike Lanes on 3rd & 4th Streets

Dear La Crosse Common Council Members,

I'm writing to share my support for Alternative 1, the option that includes protected bike lanes on 3rd and 4th Streets.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown — whether they drive, walk, or bike — without taking any options away.

Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets. The economics speak well for adding bike lanes. It has been demonstrated that adding bike infrastructure such as this increases business revenue from 3-49%. Nationally, it has been shown that bicyclists spend more money at retail businesses, including restaurants, then car drivers. They stop more frequently. With the current generation of young people, they are buying 20% fewer cars and deciding to live where use of a car is not a requirement. It is in our best interest to draw these young, bright minds to our city to feed the ranks of our businesses with the best and the brightest by providing alternatives to car travel only. Our own city engineers have identified that the cost of a parking spot along the street is close to $17,000 per space. We have spent more than that in the parking towers to accommodate citizens driving gas powered vehicles into the city. It is prudent that these vehicles pay for this privilege and not expect all of the citizens of the city to pay for it through tax subsidies. It is in our best economic interest to make accommodations for bicyclists commuting into and around our city. Our current trend in fossil fueled transportation is not sustainable. Bicycle infrastructure is the least expensive transportation infrastructure modifications that ultimately provide healthy alternative transportation modes.

Keep in mind, that owning and operating a vehicle in the US is equal in value to the mortgage payment for a $200,000 home at 5% interest over 30 years.($12,000-14,000 annually) According to the NHSA, this is a cost of $0.72 PER MILE. In La Crosse county, 15% of our population is at or below the poverty

line. That amounts to over 17,000 people. Transportation cuts into their household budget at 40%, putting great stress on the ability to cover rent, food, health care, and clothing. Over half of the bicycling commuters in the USA make $25,000 or less. These people need to be considered in these decisions, as they are usually considered the silent users. With the cost of a vehicle now averaging over $51,000, the use of bicycles will continue to grow as a source of transportation.

Please recognize that bike lanes are not for the occasional recreational rider, as much as transportation users. They also will encourage the use of the Drift Bike Share program, which in turn mitigates parking needs, bottlenecking, increases participation in downtown businesses, and promotes a healthier community.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Thank you for your time and for considering this important decision.

Sincerely,
Matthew Christen

Hi. This is Jon Hartfield, a long time resident of the city of la crosse and avid cyclist. For over 30 years, I traveled from my home to work in the trane engineering department by bicycle, year round. I believe biking is a great way to travel about town for the obvious reasons of health, low carbon footprint, getting outside, and engaging on some level with the community. I appreciate the improvements which have been made in provisions for cycling on the streets of la crosse over the years and would strongly encourage you to support the DOT "alternative 1" initiative to enhance 3rd and 4th streets with bicycle lanes.

Best regards,
Jon Hartfield

Dear La Crosse Common Council Members,

Thank you for the time you've given to the issue of bike lanes on 3rd and 4th Street. We really value your attention!

I'm writing to share my support for Alternative 1, the option that includes protected bike lanes on 3rd and 4th Streets. Cities like La Crosse CAN afford this space, and it will make this city better for many more people than just drivers. We're going to love it and it will bring dividends! I live in La Crescent, but I lived in La Crosse for six years and I now work at UWL. I bike to work periodically and aim to do more; bike lanes will help immensely. I will spend more time downtown.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to get to downtown — whether they drive, walk, or bike — without taking any options away.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Thank you for your time and for considering this important decision.

Sincerely,
Lizzy Haywood

Please recognize that bike lanes are not for the occasional recreational rider, as much as transportation users. They also will encourage the use of the Drift Bike Share program, which in turn mitigates parking needs, bottlenecking, increases participation in downtown businesses, and promotes a healthier community.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Thank you for your time and for considering this important decision.

Sincerely,
Sal Sorrentino

Hello council members,

I'm a city resident who bikes, walks and drives to get around La Crosse. I am writing with enthusiastic support for alternative 1 on the WI DOT corridor study which includes parking protected bicycle lanes.

I encourage you all to support this option despite the parking removal, because it increases options for transportation to and through downtown, including by the high proportion of non drivers (up to 40% of city). Unlike the other alternative that continues incentivizing personal automobiles, establishing protected lanes is consistent with our climate action plan.

The chance to put this type of infrastructure in place comes infrequently and I hope you can be forward thinking about the direction the city is heading. Young workers and families want to live in a place where they can walk and bike, both to work and for recreation. This option helps create that type of city in La Crosse.

I would also point out prior studies showing an abundance of parking as is downtown, the fact that alternative two also removes parking and does not add any bicycle facilities, and that there is research that can assure the business community that adding bicycle lanes at the expense of less car parking does not tend to harm revenues. It helps create the downtown we all want to linger in.

Thank you,

Jake Larkin

Dear La Crosse Common Council Members,

I'm writing to share my support for Alternative 1, the option that includes protected bike lanes on 3rd and 4th Streets.
This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown — whether they drive, walk, or bike — without taking any options away.
Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people.
Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.
Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.
Thank you for your time and for considering this important decision.

Sincerely,
Garrett Frey

Dear Council Members,

You're about to make a decision that will shape how La Crosse looks — and feels — for generations. So let's be clear about what's on the table:

Alternative 1: Protected bike lanes. A downtown that works for everyone — people on foot, on bikes, and yes, still in cars. It's vibrant. It's competitive. It's how thriving cities stay ahead.

Alternative 2: The status quo. Same traffic, same empty parking ramps, same missed opportunities while other cities race ahead.

Here's the truth: You're not being asked to give anything up. We have 3,000 surplus parking spaces. This isn't a war between cars and bikes. It's a choice between a downtown that evolves — and one that just coasts.

Protected bike lanes are no longer radical — they're common sense. They boost local business. They make streets safer. They connect neighborhoods. They make cities *work*.

La Crosse has the chance to lead instead of lag. To show we know what a real downtown looks like. To prove we're not just comfortable with where we are — we're excited about where we're going.

Vote for Alternative 1. Show La Crosse you get it.

Thank you,

Scott Rada

Dear La Crosse Common Council Members,

I'm writing to share my support for **Alternative 1**, the option that includes protected bike lanes on 3rd and 4th Streets.

Bike lanes help to keep bikers safer. While some bike lanes are only delineated with a painted line, some areas are including actual barriers between bike lanes, sidewalks, and the road. In a comparison between Europe and North America, cyclists in the USA have a higher risk of injury. Researchers think it may have something to do with bike lanes.

Bike lanes increase the amount of margin on roadways, which means that commuters have a larger visual space for maintaining safety in turning, avoiding fixed obstacles, and more. This space also means that bus stops have more room for picking up riders. Vehicle drivers will no longer need to move into oncoming traffic to go around bicyclists.

The addition of bike lanes helps to improve traffic flow because it gives bikers a place in the roadway. No longer do city bicyclists need to dodge cars or people and vice versa, but they can carry on at a steady speed. This improves traffic flow because everyone knows exactly where they belong.

Once bicycles have a designated space for commuting through the city, the sidewalk becomes safer for pedestrians and individuals with disabilities. Police can then also require bikers to use bike lanes rather than sidewalks.

Every person that feels safe enough to choose biking over driving helps to reduce air pollution and road congestion. Transportation is responsible for more than a quarter of greenhouse gasses. Just choosing to bike for short commutes can help decrease carbon output by 2,000 pounds every year.

The addition of bike lanes creates a feeling of safety for many people who would bike if they felt that it was a safe option. Not only does biking cut down on fuel use, but it also offers commuters the added benefit of exercise. For example, a two-mile bike ride can burn about 100 calories, and this type of cycling can decrease the chances of diabetes, depression, dementia, cardiovascular disease, cancer, and high blood pressure.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Thank you for your time and for considering this important decision.

Sincerely,

Dear La Crosse Council Members,

I am writing to share my strong support for Alternative 1, the option that includes protected bike lanes on 3rd & 4th Streets.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and more vibrant. Adding protected bike lanes will make it easier for people to move through downtown (in any mode!).

I know some people are worried about parking - this seems to be largely based on misinformation, as I know we have more than 3,000 parking spaces in surplus currently. Perhaps we could explore making more parking ramp spaces easier to access or free in conjunction with the bike lane project to support all voices in this matter.

Other cities that have made this kind of investment have seen the return tenfold - it supports local business and creates more vibrant, welcoming streets.

PLEASE choose the option that supports the people living in La Crosse and the future of La Crosse we want to co-create.

Thank you for your time and consideration in this important decision.

Sincerely,
Christa Kiersch (*mother, neighbor, educator*)

Hello, I'm reaching out about resolution (25-1265). As a person who commutes to work by bike everyday (weather permitting), I would love to see more bike lanes in LaCrosse. I think that people would use them to get to work, to run their errands, and to simply enjoy bicycling without the fear of being hit by a car. Bike lanes are great in the practical sense of providing a safe lane for cyclists, but they also represent hope for a better future. Please consider putting bike lanes on 3rd and 4th streets and making La Crosse a safer place for everyone.

Dear La Crosse Common Council Members,

I'm writing to share my support for **Alternative 1**, the option that includes protected bike lanes on 3rd and 4th Streets.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown - whether they drive, walk, or bike - without taking any options away.

Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.

Please choose the option that reflects the future we want for La Crosse - a city built around connection, choice, and people. Thank you for your time and for considering this important decision.

Sincerely,

Bethany Hale

Dear La Crosse Common Council Members,

I'm writing with genuine excitement and urgency today to champion **Alternative 1**, the plan that puts protected bike lanes on 3rd and 4th Streets.

This isn't just a road project; this is about **our community's quality of life**. This project is a chance we won't see again for decades—a true opportunity to knit our downtown together, making it inherently safer, more welcoming, and totally prepared for the future we dream of. Adding those protected bike lanes means people of all ages and abilities will feel confident moving around, whether they're driving to work, biking to a local shop, or simply out for a walk. It elevates *everyone's* experience.

Frankly, we have the room to do this. We know downtown is sitting on a **surplus of over 3,000 parking spaces**, so let's dedicate space to the people who make this city special. Cities that have made this smart, human-centered investment have consistently seen a boost for **local businesses** and watched their streets transform into lively, magnetic destinations.

Please, let's seize this moment. Let's choose the option that truly reflects the kind of place we want La Crosse to be: a city built around genuine **connection, community choice, and the people** who call it home.

Thank you for your time, and for carefully weighing this incredible decision for our future.

Sincerely,

--
Travis Pernsteiner

Dear La Crosse Common Council Members,

I'm writing a regular cyclist who travels between UWL, the downtown business district and home in La Crosse, in support of protected bike lanes being added to 3rd and 4th Streets ("Alternative 1" of two options being considered).

This project is a once-in-a-generation opportunity to make our downtown safer, greener, more connected, and ready for the future. Adding protected bike lanes on these busy streets will make it easier for people to move through downtown — whether they drive, walk, or bike — without taking any options away.

Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Subject: Please support bicycle infrastructure in downtown La Crosse

Some people who received this message don't often get email from edwardohale@gmail.com. Learn why this is important

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Hello,

I have lived in La Crosse all my life and, though I own three cars, I mostly get around town by bike or on foot. I live in the Longfellow neighborhood and ride a bicycle on the 17th Street and King Street Greenways on my way to and from work every weekday. Occasionally I ride the Front Street and Jackson Street bike lanes for variety.

I understand there is a vote coming up regarding protected bike lanes on 3rd and 4th Streets downtown. I ask you to please support these bike lanes. Protected bike lanes would make downtown better for everyone — cyclists, pedestrians and motorists. With good bicycle infrastructure, more people would choose to ride bikes downtown instead of driving a car. Fewer cars would make walking around downtown more pleasant. Fewer cars would even help those who have to drive a car through downtown.

Bicycle infrastructure is people-centered infrastructure. Please build a downtown that will be pleasant for the humans who live, work, and shop there.

Thank you for hearing my concern.

Dear Council Members,

I hope you support Alternative 1 as you provide guidance to the DOT regarding 3rd and 4th Streets.

Bike lanes aren't just for folks who happen to like riding bikes. They're for people who aren't old enough to drive, people who don't have licenses, people who can't afford a motor vehicle, people who get to work on a bike, people who shop and eat and live downtown...I could go on! Bike lanes slow down and reduce car traffic. Bike lanes encourage more people to patronize downtown businesses - not take away business like some might argue. Bike lanes make a better community for all.

You have the data that shows we have ample underutilized parking downtown, and I encourage greater awareness and education around parking options for drivers. We can find a balance between our current car-centric resources with new resources that support alternative modes of transportation.

The number of supportive comments you've already received should show how deeply our community cares about building infrastructure that works for **all**, not just people who drive.

Thank you,
Natalie Heneghan

Dear Council members,

I urge you to choose alternative 1. If the reason for choosing Alternative 2 is to maintain the number of parking spaces downtown, I'd like to point out that there are already MANY unused parking spots downtown. For example, in the Market Street ramp, the two top floors are almost never fully occupied. Usually no more than 3 or 4 cars are parked there.

If the reason for Alternative 2 is to have wider sidewalks, I live downtown and walk the sidewalks frequently, and I believe they are wide enough as they are. It's more important to promote bike use by including safe bike lanes.

Thank you.

Hello, I am Ben Horn, owner of Free Range Exchange. I am highly opposed to removal of parking spaces. Parking options are vital to business on 3rd and 4th St. Recently, Downtown Mainstreet awarded us a Making a Difference Award for Downtown Revitalization. If I would have ever known that 3rd St would face removal of parking, I would probably have never built my business where I did. I am usually an advocate of biking and La Crosse is doing a pretty good job. However, removing parking is a direct assault on business. We already get bikers that make it in safely and I assure you that we and downtown will lose a significant population of other shoppers. If you care about safety, get a dang stoplight at Pearl St. It's been ridiculous for decades.

Thank you,
Benjiman Horn

Dear City of La Crosse,

It has come to my attention that the city wants to take away parking on 3rd and 4th street and put in a bike lane. Are you aware that there are elderly people and handicap people that use that parking? It's hard enough to find a spot down town in the ramps, and now we have to pay to parkin the ramps. This is just going to discourage people from coming to lessons or shop or eat. Parking on those streets is hard as it is but older folks or disabled won't necessarily want to park blocks away and pay for parking ramp parking and then have to walk to places, especially in winter when those sidewalks and streets can be slick. You aready removed parking from the side of Cathedral Church which is where many of the elderly parked when going to church, now they need to walk farther which could be dangerous.

Is this your way of getting rid of DEI? You will be elderly one day. Please show you care about the residents. I already heard a county member say to build on the parking lots because it's just "dead pavement". Well for God sakes not everyone can ride a bike. I know personally I will not be going downtown to shop or eat if you take more parking away.

Thank you for your time.

Dear Councilmembers,

I am writing to express my support for Alternative 1, which will add bike lanes to 3rd and 4th Streets through downtown.

While business owners are rightly concerned about the loss of on-street parking, studies consistently show that greater access by walking and biking outweighs any negative impacts. Bike lanes on these streets have been a recommendation of both of our Bicycle Pedestrian Master Plans, Transportation Vision, and Imagine Downtown Plan. To ignore the recommendations of these plans would be a disservice to those who worked on those plans or provided input to them.

With that said, I strongly encourage the city to choose the option that we as a city have been working towards for years. Thank you for your consideration.

Best,
Samuel Deetz

Councilmembers,

From Drs. Leo & Rachel Malin at Grand River Dental,

Street parking for the downtown area of La Crosse has been an absolute necessity for our 10+ years of business in the area. We know many, if not all businesses on 3rd and 4th street share this sentiment.

Removing an entire side of street parking would create a level of difficulty that is difficult to accurately describe. Oftentimes, it is already a struggle for our patients to find available parking, and they have an easier time than most other customers downtown; being that we are at the south end of 3rd street.

It is abundantly clear that Alt 2 is the sensible route here to support La Crosse's local businesses. New bike lanes in a downtown at the expense of the local economy serve very few. Please choose the route that preserves parking on both 3rd and 4th street.

Regards,
Grand River Dental

Hello,
I'd like to express my support for adding bike lanes downtown. The current traffic flow downtown encourages bicycle riding on sidewalks which is quite unsafe. Dedicated bike lanes would improve predictability and encourage adherence to traffic laws from bicyclists. As a bicyclist and someone who drives downtown frequently, this would be appreciated from either perspective. Also, hopefully by encouraging bicycle traffic over vehicles, the congestion downtown could be partially mitigated.
Thank you,
Hayley Leinss

NO to more bike lanes downtown, especially Third and Fourth Streets!
What do the people do that are handicapped or elderly? They need access to parking spots on Third and Fourth Streets!
Put that 'bike lanes' money towards the Northbranch Library!!

I use six of the businesses on Fourth Street often. ESPECIALLY LEITHOLDS where The Dacap COMMUNITY Band meets! I have had foot surgery. Which has caused ongoing walking issues. I need easy access to 3rd and fourth Streets.
And what a mess it will be to tear up the streets!

The bike riders can lock their bikes up anywhere!
Have them come in on Second Streets.

Honestly! Very poor idea this time.
Keep historical downtown intact!

Please do not eliminate parking on these streets. I do accordion lessons and accordion repairs for Leithold Music and regularly have to load and unload heavy musical instruments, sometimes multiple times during the day. I am 79 years old and cannot carry them from the parking ramp. I have ridden bikes for 70 years in traffic in cities much larger than LaCrosse, without mishap ,and I don"t see that many bikes shopping the downtown area. DON'T DO THIS!!!

Hello,

My name is Alex Fisher and I'm a student and full time resident in lacrosse. I also work downtown at a local coffee shop.

Many times I come to work and cannot find a parking spot with the current parking availability. Also how am I supposed to invite my friends downtown if I can't guarantee parking downtown. Please do not decrease the parking space downtown.

Thanks

Alexander Fisher

Dear La Crosse Common Council Members,

I'm writing to share my support for **Alternative 1**, the option that includes protected bike lanes on 3rd and 4th Streets.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown — whether they drive, walk, or bike — without taking any options away.

Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Thank you for your time and for considering this important decision.

Sincerely,

Andrew Westrich

Hello!

I recently saw that you all will be voting on weather or not to get rid of parking to create bike lanes downtown. I just wanted to email to ask you to consider voting for option 2 and not remove parking from both sides.

Downtown is the heart of La Crosse and ever since Covid it has taken a beating after beating with places not being able to stay a float. Parking has always been an issue downtown and removing more parking will only hurt our downtown more than it will benefit it. I understand having bike lanes is appealing during the Summer months however for over half the year we have snow, freezing temps or rain. Those are not ideal tourist biking seasons.

To note the bike lane that runs downtown currently I have not once seen a person biking on it. If it was much needed when that was added wouldn't we be seeing a lot more bikers utilizing it or even one? I just think it is quite a silly idea to add more bike lanes. Lets talk about fixing the roads and how we can help downtown businesses vs adding bike lanes.

Please consider this email along with the many others you all are probably receiving.

Thank you!

Megan

Dear City Council Members,

As a supporter of La Crosse who is deeply committed to the strength of our downtown (and former business owner downtown), I urge you to reject any proposal that removes on-street parking for bike lanes. Convenient parking is vital to downtown's economic health, accessibility, and overall vitality. Many people, especially older adults, families with children, and those with mobility challenges rely on being able to park close to their destinations. Eliminating on-street parking will both deter and make it harder for people to come downtown and ultimately hurt local commerce, the very heart of our community.

For these reasons, I strongly support Alternative 2, which preserves existing on-street parking and ensures continued accessibility for all while still allowing thoughtful discussion on other improvements. I urge the Council to prioritize decisions that protect downtown businesses and sustain La Crosse's economic future.

Thank you for your time and dedication to our community.

Sincerely,
Ashley Dzurko

Dear La Crosse Common Council Members,

I'm writing to share my support for **Alternative 1**, the option that includes protected bike lanes on 3rd and 4th Streets.
This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown — whether they drive, walk, or bike — without taking any options away.
Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.

Also - action 2-1 in the city's 2023 comprehensive plan states -

Grow the city's "all ages and abilities " pedestrian and bicycle network through strategic investment in additional routes and infrastructure, especially facilities such as protected bike lanes that provide increased separation between users of non-motorized transportation and cars. If we are going to pay for these plans then we need to follow them. Lead actors stated - Planning, Public Works, BPAC, committee for citizens with disabilities.

This is about investing in downtown businesses. Walkable and bikable downtowns (with protected bike lanes) have demonstrated time and time again that they increase downtown foot traffic, promote healthier lifestyles and provide safe routes. Multiple cities are making this shift, and I believe La Crosse has an excellent opportunity to do the same.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.
Thank you for your time and for considering this important decision.
Sincerely,

John Neumann

Dear La Crosse Common Council Members,

I'm writing to share my support for Alternative 1, the option that includes protected bike lanes on 3rd and 4th Streets.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown — whether they drive, walk, or bike — without taking any options away. It's so dangerous to ride bikes on any road in our area! We say we are bike friendly but really we are not. Terrible turning corners, paths that are not kept clean or maintained and trails that that do not connect is not bike friendly. Drivers feel they own the road. I have been spit at, had things thrown at me, splashed by puddles by drivers, yelled at and almost hit at least twice Per week by inattentive (on their phones) and speeding drivers. We need a safe and well maintained path. Plus it is good for our planet!

Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Subject: Bike lanes in downtown La Crosse

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Hello Council members,

I am emailing in support of bike lanes in downtown La Crosse (Option 1). It is important that we support alternative methods of transportation that help keep more cars off the road and encourage people to safely ride their bikes or walk when practical and safe.

Bikes help lower our dependence on oil, pollute less, improve our quality of health, mitigate climate change, relieve stress, and contribute to a more healthy population.

The bike lanes in downtown La Crosse on Second Street are a noble first effort but fall into the category of "continuous improvement." They need design enhancements. They are confusing to both cyclists and motorists. In their present state, they divide us rather than unite us, and they are an accident waiting to happen, if it hasn't already happened. But I applaud the effort. Failure is an essential first step in successfully resolving a mission to share the roads.

Please let me know if I can help.

Sincerely,

Ralph Heath

Esteemed Council Members --

My name is Sam Wood, and I've been a resident of La Crosse for the past 16 years. I wholeheartedly support the addition of protected bike lanes on 3rd and 4th Streets. Moreover, I support (protected) bike lanes just about everywhere in town.

My family is a one-car household, so we do drive, but we own multiple bicycles, and it is our primary form of transportation for work, recreation, and volunteer activities.

While La Crosse has made steps toward improving bicycle infrastructure, it simply isn't enough. Owning and using an automobile is increasingly the provenience of the wealthy. Nearly everyone can afford and safely operate a bicycle; the same is increasingly rare for autos.

Additionally, there is a surfeit of parking downtown. Non-residents hurl hollow threats of avoiding downtown businesses if there isn't immediate and free parking. Nonsense. We have a vibrant downtown, and making is safer for pedestrians and cyclists will only add to that vibrancy.

Please, do the right thing: support non-motorist infrastructure. It's better for all stakeholders.

Sincerely,

Sam Wood

Dear La Crosse Common Council Members,

I'm writing to share my support for Alternative 1, the option that includes protected bike lanes on 3rd and 4th Streets.

As a one-car household, I use my bicycle to travel around La Crosse 90% of the time. The improvements on King Street, the bike lane on 2nd Street, and the like were fantastic and made biking safer and more efficient (oftentimes more efficient than driving!). But they were just stepping stones; this next project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for more people to move through downtown — whether they drive, walk, or bike — without taking any options away.

Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets. My brother lives in Indianapolis, a city that put a lot of investment into such infrastructure. When we visit, we regularly walk and bike the protected lanes connecting neighborhoods near downtown. We stop at restaurants, shops, and parks. If a city with many times the number of people and significantly more traffic can make room for this, La Crosse can too, and will see a substantial benefit.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Thank you for your time and for considering this important decision.

Sincerely,

Laura Meyer
330 21st St. S.

Dear La Crosse Common Council Members,

I am writing as a resident. I urge you to support Alternative 1, the option that includes protected bike lanes on 3rd and 4th Streets.

This project is a once-in-a-generation opportunity. As the leaders entrusted with our city's well-being, you have the power to safeguard the heart of La Crosse, making it safer and more connected for generations to come. This plan respects all residents, improving how we *all* move through downtown—whether driving, walking, or biking—by providing clear, safe, and dedicated spaces for each.

We are fortunate that our downtown's thousands of excess parking spaces would allow us to make this improvement without hardship. The wisdom from other leading cities confirms this path. Time and again, such investments have proven to revitalize business districts. These updated streets would make downtown more vibrant and welcoming.

I believe you have a duty to lead us to a strong, forward-thinking La Crosse. Alternative 1 best upholds that commitment.

Thank you for your time and for your careful consideration.

Dear La Crosse Common Council Members,

I want to express my support for Alternative 1, the option that includes protected bike lanes on 3rd and 4th Streets.

I bike to downtown La Crosse from Onalaska multiple times per week. I prefer to shop, dine and seek entertainment in La Crosse as there are more small business options than anywhere else in the surrounding communities. I stop and spend money at multiple places every time I come to town.

I avoid driving whenever possible. So bicycle infrastructure is very important to me. 3rd and 4th streets are where a majority of the places I frequent are located. Biking on these streets is a risky endeavor with the excess speeds cars travel at and the blind dogleg curve at Pearl Street.
La Crosse has made significant improvements in bicycle infrastructure over the last 10-15 years. I hope that trend continues. As an avid cyclist I feel I am taking risks anytime I ride on these two streets.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown — whether they drive, walk, or bike — without taking any options away.

Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.

Dear Council members, I would like to express my support of option 1 that adds bike lanes on 3rd & 4th streets. More alternative transportation and less car traffic improves the livability of our vibrant downtown, besides being better for the environment. Providing bike lanes will improve safety of biking downtown which I do often. It is a reason I choose to live in La Crosse and near downtown.
Thank you, Celine Donofrio , 527 14th St S, la Crosse, WI 54601

Dear La Crosse Common Council Members,

I'm writing to share my support for , the option that includes protected bike lanes on 3rd and 4th Streets.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown - whether they drive, walk, or bike - without taking any options away.

Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.

Please choose the option that reflects the future we want for La Crosse - a city built around connection, choice, and people. Thank you for your time and for considering this important decision.

Sincerely,
Levi Long

We need parking downtown, to ensure the businesses can survive. Traveling on second street is ridiculous, no parking for businesses, and every time driving or walking in the area, see very few bikes!

Let's not take parking away from the local businesses. Bikers can adapt, they do not need all the main streets.

Thank you!

Subject: Please choose Alt 2 to preserve on street parking downtown

*** **CAUTION:** This email originated from an external sender. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe. ***

Hello Council Members,

As you consider your agenda item on Thursday, please follow the recommendation of the J&A vote and approve Alt 2 to preserve on street parking on 3rd and 4th Streets. Free parking is *essential* to the success of downtown retailers and restaurants. The addition of bike lanes would eliminate precious free on street parking. I understand the desire to create safe spaces for bicyclists, but US Hwy 53 is not the answer. There already is a safe, although largely unused, bicycle corridor on 2nd Street, so adding parallel lanes a block away would be duplication.

As a long time downtown business, our biggest challenge continues to be parking. Yes, there are nearby ramps, but they require a fee and are intimidating to many. We compete *every day* with the big box stores and the ease of purchasing online. We lose customers daily because they find it *difficult* to access our business. Lack of parking may only be a perception, but it is a reality that we deal with daily. Please support your community by preserving on street parking downtown. Bring consumers to our thriving central district to stay, spend and enjoy.

Thank you for reading.

Dear La Crosse Common Council Members,

I'm writing to share my support for Alternative 1, the option that includes protected bike lanes on 3rd and 4th Streets.

This project will advance the City of La Crosse to where it should be with regards to bike infrastructure. This is the future I want to see for La Crosse.

I am a cyclist and love biking downtown. Connecting all our of streets to cyclists will make more people feel safe and only benefit downtown life.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Thank you for your time and for considering this important decision.

Sincerely,

I am emailing about the downtown bike lanes. I have lived in La Crosse most of my life and I primarily get around by bike. I personally rarely go downtown because of how bad it is to bike down there. I also have invited friends downtown and they have refused because of how dangerous they perceive the conditions to be. In fact last night I was talking to someone at a bar about this situation and he said "If people bike on third street they will get killed". The situation needs to be made more safe.

There are certainly other issues with downtown, there is usually no bike parking and we treat the public spaces as a thoroughfare for people from out of town to drive very fast ane be loud. In other cities I have lived in I have often loved their downtowns.and wanted to spend a lot of time there, but I do not feel that way about our downtown. I think this is a great opportunity to improve our downtown into a place we want it to be and improve the value for businesses down there.

Dear Council Members,
I'm writing on behalf of myself and many other downtown business owners supporting keeping street parking in the downtown area. There are already bike lanes just a couple blocks in most directions downtown that losing the street parking, especially on 4th street takes away many many opportunities for downtown customers. Our businesses already have issues with customers finding parking as is that those street spots are vital to us all. Please consider the business owners calls to keep street parking downtown as they are the ones keeping downtown alive and keeping people going there in the first place.

Good evening council members,

I am writing in regards to the upcoming vote about our precious, already limited, parking downtown. To be very clear, adding even more bicycle lanes is the worst idea for the 3rd & 4th Street corridor! Each and every small business downtown already struggles to attract customers. One of the main concerns for customers and potential customers is perceived parking issues, which would only be exacerbated if even more parking is taken away! Compound that with ongoing loading/unloading issues in already cramped areas and it's a recipe for disaster. We do NOT want bike lanes!

I, and EVERY other, small business downtown needs each and every one of you to stop this ongoing attack on our parking! We already pay additional for a special parking district, we certainly more than hope our council members actually listen to us and fully understand without parking there WILL be irreversible damage done to the downtown district!
Just because a number of bicyclist are well organized and continue to try and persuade you all to think more bike lanes are necessary, while we're busy running our businesses rather than spending all day writing emails, making phone calls, going to meetings doesn't mean we don't care. I, and every business owner downtown, implores you to vote for no more bicycle lanes... Or even better, save some money, make everyone downtown happy, and leave it as is and repave what's there already.

Best Regards,

Toby Farley

I would ask these questions..

Who are the people that are supporting bike lanes on 3rd and 4th streets?

Are they residents of La Crosse? How many emails have you gotten from those who DO NOT live in La Crosse. Their voices shouldn't matter. I have paid property taxes on my home in La Crosse for 41 years.

Are they business owners or managers of businesses in downtown La Crosse?

These are the voices that should matter as those are the ones impacted by this decision. Those whose financial success depends on customers are the voices that should resonate with each of you.

Look in a mirror and ask yourself these questions. Honestly answer these questions and you will realize that bike lanes are not the correct decision.

Have you seen the redo of 6th Street from Cass to King Streets? Parking has been eliminated on one side of the street and there are two new bike lanes. The many members of the St. Joseph the Workman Cathedral Church now have lost more than a dozen parking spaces. Senior citizens being forced to walk further to attend Mass.

Your logic with continuing to add unused bike lanes is beyond common sense. I am very involved in numerous projects in La Crosse which keeps me on the move around town on a daily basis. The lanes on Jackson Street are fine but they are never used. The Second Street lanes are never used and make no sense given the high foot traffic on event days at the La Crosse Center.

One council member said in an email to me that bike lanes are "divisive". I would agree because people see they are rarely used. Why do we continue with this pattern of appeasing a small minority? It would be one thing if these lanes were used but they are not.

Removing the parking spaces downtown would really hurt our businesses. We still haven't recovered from the lack of downtown workers since Covid.

Stevens Point added bike lanes on a few of the major streets and it was very costly and nobody uses them just a wast of money.

As a downtown business we have a lot of obstacles to deal with and this one could bury us.

If anything we need more free parking and a more vibrant downtown. I'm sure you can find other neighborhoods without truck traffic or the riverfront is a nice spot to ride a bike.

Thanks

Greetings La Crosse Council members,

I am writing to express my support for the development of protected bicycle lanes on 3rd and 4th streets in downtown La Crosse. Rather than simply express my opinion on the matter, I am including links to empirical research that has been conducted on the economic impact of removing vehicle lanes in lieu of bicycle lanes in other municipalities.

It is my hope that the council bases the final decision on data, rather than the anecdotal viewpoints or opinions of members of our community. This decision should not be about who can shout the loudest, but rather, which decision is best for the economic impact of the businesses downtown, the safety of the community members who patronize the businesses downtown, and the sustainability of the infrastructure in which the city chooses to invest. Regardless of which direction the data point, failure to base such a large decision on anything but empirical data would constitute a dereliction of duty on the part of the council.

I urge the council to examine **empirical** literature on their own, but for the sake of expediency I've included descriptions and links below, including peer-reviewed empirical scientific studies, local qualitative and quantitative analyses on perception and impact, and numerous city case studies and analyses.

Sincerely,
Alex O'Brien

Dear La Crosse Common Council Members,

I'm writing to share my support for **Alternative 1**, the option that includes protected bike lanes on 3rd and 4th Streets.

Protected bike lanes would help make it safer and easier for all folks — drivers, walkers, and bicyclists — to get around downtown.

As downtown already has a surplus of parking spaces, we can afford to let some go in favor of this alternative. It would be a step in the right direction for a more vibrant & welcoming downtown, and safe streets that work for everybody.

Thank you for your time and consideration,

Luke Thering

Hello!

My name is Mary Kulas and I teach at Leithold Music downtown.

I wanted to say removing parking on 3rd and 4th will be a huge detriment to downtown businesses. At all hours of the weekday those parking spots are full, I know because many a student has been late to lessons due to not being able to park anywhere near the building, sometime ls even at 8pm at night. If their grandparents are bringing them or a couple parents are somewhat disabled, it's even harder if they need to park farther away to try and get to the building. Also, I haven't seen hardly any bikes using the designated bike lanes in front of the Center so why would removing the convenience of street parking in favor of bikes be helpful? It would not. Also in winter it is often hard downtown to walk on the sidewalks because they are slippery or not yet shoveled because the snow happened that day, so to make people walk from parking ramps farther away and make it potentially more dangerous to come to lessons or come to shop is just silly. More inconvenience due to bike lanes that likely won't be used and highly likely won't be used half of the year from November-April or May due to snow and ice is just asinine.
It was also ridiculous to remove parking from half of 6th Street so now older people have a hard time getting to church and now you're going to discourage people from shopping or eating downtown and businesses will be forced to close because a very few number of people would like to bike through downtown on two of the busiest streets there when they could easily go a block north to 5th with less traffic or a block south to a bike lane already installed and rarely utilized. It is a ridiculous plan. Please vote to keep parking on the streets to let people come downtown and easily enjoy all it has to offer.

Thank you for reading!

Mary Kulas

Council Members,

As a downtown building owner for over 30 years, I have watched a lot of changes in the downtown happen, some because they were needed, some because overzealous people pushed them through.

As someone who not only owns a downtown building but who works downtown at the LCC, I drive down 2nd Street every day. I have leased a parking spot in the Jay Street ramp for many of my years downtown, and I also street park, and park in the Riverside Ramp near the LCC when I work.

Adding the "bike lanes" (a term which sounds minor but in reality took up a significant amount of the street width and parking) to 2nd Street seemed like a poor idea from the start. Almost every time I drive down 2nd I see confused drivers driving their cars in the bike lanes (!!) because it is so wide that it looks like an access lane for Radisson, 4 Sisters, etc. and a very small amount of bike traffic. Then from Nov-March its virtually no bikes, and the occasional confused car/truck.

Meanwhile in exchange for modifying this vehicular street into 1/3-1/4 bike lanes, most of the truck traffic seems to have switched from this extremely narrowed 2nd St to 4th Street, right through the heart of the historic district, past 140 year old brick buildings. The increase in heavy truck traffic is no doubt causing damage to these buildings, as the fully loaded trucks hit sewer covers and potholes, bouncing, loads tipping, shaking the buildings. Shifting those trucks from 2nd street, where almost none of the buildings are historic and the majority of the street is fronted by parking lots and new-build, to 3rd and 4th St, where the street goes right past the front doors of several blocks of historic architecture, was a poor idea. The heavy traffic is not only damaging buildings, it makes traversing the downtown more challenging for pedestrians.

I think adding a bike lane would be even worse than the increased truck traffic in the big picture. Here on 4th & Pearl, when the sidewalks were bricked, the handicapped parking spot across the street mysteriously disappeared. No handicap parking on either block of Pearl. Or Jay. Or Main. That makes doing business on Pearl difficult for older people, and collectively we have an aging population. I think this happened with handicap parking on other streets downtown as well.
Heavier truck traffic, no handicap parking... and now the idea is to take away half of the street parking, with the goal of helping people who want to come downtown, because they'll be riding bikes? With again, an aging population?

It seems like a very simplistic way to "solve" bike traffic, just throwing bike lanes on the 2 busiest arteries through the downtown, and then say its no big deal because there is "too much open parking in the ramps". Talk to any business owner downtown, especially in the cold months of Nov-Mar, about how important street parking is and how their customers do not want to walk from the 3rd floor of a ramp to get a lightbulb at Kroners, or to get a coffee at Jules, etc. Without street parking they'll just drive to Menards

and park in front, then go to Dunkin Donuts next door for the coffee without having to leave their car, while the business owners downtown get to watch zero bikes pull up to their businesses in the Winter months.

It just seems like a poorly thought out "solution". Perhaps getting the yes/no vote from the building owners along 3rd and 4th, and the business owners as well would give better direction.

Getting rid of half the parking on 3rd and 4th Streets should, at the very least if it has to happen, also be paired with banning (or seriously reducing) trucks on those streets in favor of West Avenue et al. That would help the bike situation downtown—semis side by side on 3rd and 4th run very close to each other and the parked cars.

I think there should be a lot more thought put into this to find a logical compromise, plus elimination of the claim that this is "forward thinking" or that we have 3000 "surplus" parking spaces. We do NOT have 3000 **convenient** parking spaces, but we do have convenient parking spaces already being used all day and night, 365, on 3rd and 4th, that this plan eliminates.

My two cents. Thanks for the read.

Dear City Council,
It has come to my understanding that parking along 3rd and 4th street may be taken away to provide a bike paths. I believe this would negatively effect businesses along those streets, especially in the colder months of the year. Personally, it would sway me to not want to stop at maybe a restaurant or business. I also think it should be taken into consideration the elderly and more disabled of our community. Thank you for your time.

Sincerely,

Jeff Pedretti

Subject: Protected bike lanes on 3rd and 4th

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Hello City Council,

My name is Patrick Kelly and I ama resident of La Crosse. I am writing to voice support for including protected bike lanes on 3rd and 4th streets downtown. The city has already done great work towards making La Crosse transportation more "complete". The transit station downtown has improved access by public transportation throughout the city, the bike lane on 2nd street has significantly improved the ability to move downtown with seamless access to the marsh trail. The improvements on 6th street will no doubt improve walkability and bikeability downtown. As a frequent cycling commuter (I work on French Island), the additional bike lane on Clinton Street has not only greatly improved my commute, but in all likelihood has saved me from injury. My previous trips across the bridge were often fraught with motorists far too close for comfort and too many close calls. On my commute, I frequently see that lane being used by a diversity of folks, including those using mobility assisting devices to get them from point A to point B. I would consider it a massive success.

There are so many reasons to improve 3rd and 4th with bike lanes. For one, it would obviously increase safety when commuting or recreating downtown. Both of those streets are not bike friendly, as traffic moves very quickly around areas with low visibility (the curves near the Bodega and Bennet's especially). This is not only of benefit to the cyclists themselves, but an incredible amount of research has demonstrated that "complete streets", more pedestrian friendly areas, and slower traffic speeds increase the economic viability of downtown businesses (DE0719.pdf). There are so many examples of cities prioritizing walkers and bikers leading to incredible improvements in livability, from towns as small as Lancaster, CA (How Making Cities More Pedestrian-Friendly Can Revitalize Local Economies — EMORY ECONOMICS REVIEW) to massive cities like Paris (How Cities Can Use Paris as a Model for Implementing Safer Street Infrastructure | Urban Institute). I think it would not only do well for the businesses in town, but also for increasing the resident population of our downtown area. In addition, people want to visit places that are easy to navigate by bike.

La Crosse is the perfect community to be the bastion of varied transportation options for the midwest. We have the right population for it, and the opportunity now to improve on the work already being implemented. We should absolutely not let this opportunity go to waste.

Regards,
Patrick Kelly

Subject: Support for Protected Bike Lanes on 3rd & 4th Streets

Dear La Crosse Common Council Members,

I am writing to express support for Alternative 1, which includes protected bike lanes on 3rd and 4th Streets.

This project reflects AARP's transportation policy, which calls on local governments to ensure the safety of all road users—inside and outside vehicles—through road design, infrastructure, and planning. Protected bike lanes are a proven safety countermeasure that make streets safer for people bicycling, walking, and driving. They also advance the principles of Complete Streets, which design roads for people of all ages and abilities.

Older adults face elevated risk in traffic crashes, and fatalities among people age 65-plus have risen in recent years. Lowering speeds and creating safer spaces for biking and walking are essential steps to reduce these risks. Protected bike lanes help calm traffic and provide predictable, separated spaces for people on bikes, reducing conflicts and crash severity.

This investment also supports livable communities by giving residents more transportation choices. Walking and bicycling promote physical and mental health, and when these options are safe and accessible, they reduce dependence on driving and improve quality of life.

Thank you for your time and thoughtful consideration of this important decision.

Sincerely,

Darrin Wasniewski
Senior Associate State Director- Community Outreach

To the Honorable Members of the La Crosse Council,

I am writing to express my strong support for keeping street parking available in the downtown area, specifically 3rd & 4th Streets. As a small business owner of downtown La Crosse, I have seen firsthand how important accessible parking is to the vitality of our local businesses and the overall downtown economy.

Many of our small businesses rely on the convenience of short-term parking for customers who wish to stop in for a meal, pick up an order, or shop locally. If the parking becomes limited or is removed altogether, I fear customers will choose to visit shopping centers or big-box stores with easier access. This will directly impact sales and threatens the survival of the small, independently owned businesses that give our downtown its character and community spirit. My store depends heavily on street parking for customers who typically carry boxes to and from my store, many who are ederly.

I understand the city's goals to promote alternative transportation and improve traffic flow, and I support balanced, forward-thinking planning. However, significantly reducing street parking could unintentionally harm the very businesses that make downtown La Crosse vibrant and unique. I urge the Council to approve Alt 2 and consider solutions that both encourage sustainable mobility and preserve critical parking access—such as shared parking programs, timed parking, or improved signage.

Thank you for your time and for your continued efforts to make La Crosse a thriving, inclusive community. I appreciate your consideration of this issue and your commitment to supporting local businesses.

Sincerely,

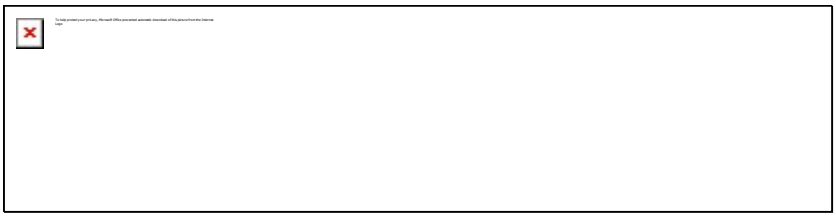

Sharon Seymour

Council members,
I am writing to express my support for Alternative 1 that includes bike paths.
Without a bike a bike path where would the bikes go? A wider sidewalk would invite cycling, but that is not allowed by law, or a good mix w pedestrians. Riding in the street is fraught with dangers.
La Crosse has made Great advancements in the promotion of cycling, which is commendable for both health and environmental concerns. Please keep going on this course.

Hello, I am Kevin Hanson,a lifetime resident of LaCrosse . I ,along with my wife Kari, are also a home and business owner.. The reason for this letter is to ask that you vote no for the bike lanes and removal of parking on 3rd and 4th streets. This city has a population of about 50 thousand give or take at each sencis. That does not justify what is being planned with these bike lanes. They shouldn't even be an option. If there are 200 people in this city that use what lanes are already there, it doesn't justify spending the money .Contrary to what some people believe about this subject, If you build it they will not come. Just repair the streets as they are, Don't remove parking, don't widen the sidewalks, just repair the streets, do the maintenance that is way overdo and leave the size and configuration be as it is. Just as it is in any metropolis, which we are not, a small minority will be the loudest supporters of the proposed updates. If you ask the majority of the property owners of this city, they would vote against it. Anymore people don't even know what is proposed because the media is limited to most. unless you have cable you don't see the local news outlets. And news on the radio anymore is very limited. Thank you..

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Dear Council,

I am writing you as the Executive Director of Downtown Mainstreet, Inc. representing over 150 business owners/operators in our downtown commercial district.

Downtown businesses overwhelmingly DO NOT support bike lanes. This is evident through the WisDOT survey with 108 responses at 88% voting for wider sidewalks.

Please consider the following before making your decision this evening:

1. This response rate is massive (over 20% of total businesses). In comparison and in terms of ratio, a 20% response rate from the public would be 8,000 citizens.
2. Downtown is a commercial corridor. The public response does not consider business function (delivery of goods, takeout food, handicap access, etc).
3. Businesses are currently paying parking assessments.
4. There are existing bike lanes on 2nd and 5th Streets that provide access to downtown.
5. Other than bump-outs, neither alternative has really addressed the 20 high-stress pedestrian crossings pointed out in WisDOT's plans.
6. Businesses are going to struggle during construction and need to operate with better tools/access afterward, not less.
7. Businesses create tax revenue for the City and will close or divest if they aren't making a profit or have too many variables working against them.
8. Brick-and-mortar businesses have enough competition (online, Onalaska big-box stores, etc.) they don't need less support, they need more.
9. Bike Lanes are not working with existing shopping patterns (curbside parking) but sacrificing them for street space that is used seasonally/sparingly.

I know Council is receiving a lot of communication regarding this topic. Ultimately, I believe all of you will use sound judgement and understand that downtown isn't just another set of streets to pave but a functioning business district that needs a variety access points to operate effectively.

Thank you,

Chad Honeycutt
Executive Director
Downtown Mainstreet, Inc.

Hello,

DO NOT VOTE TO REMOVE ANY PARKING DOWNTOWN FOR BIKE LANES.

As an owner of three downtown properties, I have had enough of the city council approving taking more and more on street parking from our properties and tenants. I DO NOT care the city feels there is enough ramp parking. Our customers DO NOT want to use the ramps you have failed to maintain, keep safe, and have also repeatedly changed the process for use and payment every couple years, people don't want to study rules and continually comply with new payment methods, gates, kiosk locations, apps. The lack of planning has been obvious by how long these methods have been kept and replaced. City staff that have made such poor decisions should be fired. Council members that blindly followed their lead should be voted out.

DO NOT VOTE TO REMOVE ANY PARKING DOWNTOWN FOR BIKE LANES.

There is an underused bike lane a block away on 2nd and now also on 6th. Why place them in the path of danger on the busy streets and take parking away.

The City Planning department always preaches "highest and best use". I see few bikes ever on these bike lanes, yet I constantly see cars searching for parking which also generates money for the city via ticketing. How are unused bike lanes that never create revenue a higher use than parking spaces used regularly for business access to generate sales tax and monies from parking tickets.

DO NOT VOTE TO REMOVE ANY PARKING DOWNTOWN FOR BIKE LANES.

Please vote to have the parking removed from in front of your homes and properties and replace them with bike lanes if they are such an amazing value.

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Dear Council Members,

As you prepare to vote this evening, I'm asking you to please support **Alternative 2** and preserve the on-street parking on 3rd and 4th Streets. As a downtown business, I see every day how essential accessible parking is to our customers, our small businesses, and the overall health of our historic district.

These streets are consistently full because residents, workers, and visitors rely on this parking. Removing these stalls would make it significantly harder for people to access downtown shops and restaurants. Many of us already lose customers due to parking challenges. Ramps may exist, but they are not always comfortable or convenient for many visitors. On-street parking is what encourages people to stop, explore, and support local businesses.

I fully understand the desire to create safe bicycle routes, but 2nd Street already provides a dedicated, safe corridor—one that remains largely underused. Adding parallel bike lanes just a block away eliminates critical parking while duplicating existing infrastructure.

We've already seen how removing parking on 2nd Street made that area feel colder and less inviting, diminishing the historic character that makes La Crosse special. We cannot risk that happening to two of our busiest commercial streets.

Supporting Alternative 2 means supporting accessibility, economic vitality, and the unique feel of our downtown. Please stand with your local business community and vote **YES on Alternative 2**.

Thank you for your time and service to our city.

Sincerely,
Dale Berg

Dear Council Members,

My name is Jenny Fisher, and my family and I own Jules Coffee House in downtown La Crosse. As a long-time small business owner and active member of our downtown community, I deeply value thoughtful planning that strengthens our city's accessibility, vibrancy, and economic health.

I am writing regarding the two alternatives being considered tonight for our main downtown streets:

Alternative 1: Remove parking on one side of the street to add a bike lane

Alternative 2: Keep parking and widen the sidewalks.

I respectfully urge you to support Alternative 2, the sidewalk-widening option.

While I appreciate the desire to improve bike infrastructure in La Crosse, removing one entire side of parking downtown would have serious negative consequences for businesses like ours. Our customers rely heavily on accessible parking — older adults, parents with young children, professionals on limited lunch breaks, and individuals picking up larger orders. Eliminating this parking will discourage visits, affect foot traffic, and make it significantly harder for small businesses to thrive.

At the same time, we already have designated bike lanes on 2nd Street and 6th Street. These lanes exist and, in daily observation, are minimally used. Before sacrificing critical parking that directly supports the downtown economy, it would be wise to evaluate usage and demand more fully.

The sidewalk-widening option, however, offers clear benefits without harming local businesses. Wider sidewalks enhance walkability, support outdoor seating and community spaces, improve accessibility, and encourage more foot traffic — all of which strengthen the downtown experience rather than diminish it. This

option allows us to enhance the character and safety of our downtown while preserving the parking that is essential to our daily operation.

Small businesses are the heartbeat of La Crosse's downtown, and decisions like this have real impact on our ability to serve our community and remain viable.

Thank you for considering how this vote will affect the people who live, work, and invest in downtown La Crosse. I encourage you to choose the option that preserves accessibility and supports the long-term health of our local businesses.

Respectfully,

Jenny Fisher

Owner, Jules Coffee House

Dear La Crosse Common Council Members,
I'm writing to share my support for **Alternative 1**, the option that includes protected bike lanes on 3rd and 4th Streets.
This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown — whether they drive, walk, or bike — without taking any options away.
Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.
Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.
Thank you for your time and for considering this important decision.
Sincerely,
Kareena Sheely

Hello La Crosse City Council Members,

I hope this email finds you well. I am writing in concern of the bike lanes that are being proposed downtown to 3rd and 4th street. I have worked downtown for the last 5 years at Jules Coffee House and have seen how our downtown has grown and progressed.

With that being said, adding bike lanes to our two busiests roads will impact my downtown business as that will not encourage customers to park to come in for a quick cup of coffee or food. The intention of this council is to preserve our downtown businesses and economy and I know that this will slowly entice customers to go to an easier option such as chain drive throughs. We have bike lanes and I love them and use them. I do not see why we would need more added. I also see how on 2nd street the bike lanes are seldom used and if anyone spent any time watching you would see this too.

Adding bike lanes will not encourage people to come downtown, it will have the opposite effect. People are not going to change their habits to bike more especially with Wisconsin weather. The lanes will not be utilized as much as the road would be for parking. Please, consider who you are trying to benefit and that is our downtown economy of one of the most amazing places Wisconsin has to offer.

Thank you,
Adeline Fisher

Hello La Crosse Common Council -

On behalf of the businesses on Pearl Street West—including The Pearl, Drift Mercantile, and TJ's La Crosse Shop—I want to share our perspective on the proposed bike lanes along the 3rd and 4th Street corridors. I also wish to note that I served as a member of the steering committee for the City Vision 2040 plan for La Crosse, so I value thoughtful, long-term planning for our community.

I currently operate our shops alongside my sister and our wonderful team of managers and staff. Like many downtown merchants, we've navigated significant challenges in the post-COVID years. The removal of customer parking, especially in such a vital commercial corridor, would have a serious and lasting impact on local businesses that rely on convenient access for residents and visitors alike.

Through my daily presence in our shops, I've heard consistent customer feedback about the 2nd Street bike lanes—many found the project confusing and have observed limited use compared to the parking opportunities that were lost. While I appreciate the intent behind creating safer cycling infrastructure, the data and daily reality suggest that the 2nd Street Cycletrack already fulfills this purpose. Cyclists now have a dedicated, buffered route just one to two blocks from 3rd and 4th Street, along with multiple bike racks downtown to access local shops and restaurants.

According to the City Vision 2040 plan, the only stated purpose for adding protected lanes on 3rd and 4th Streets would be to provide "direct and safe

bicycle access through the downtown core." However, the 2nd Street Cycletrack was built precisely for that reason—and it serves that function today. Given the seasonal nature of cycling in Wisconsin, these additional lanes would go largely unused for nearly half the year, while permanently reducing much-needed customer parking.

At a time when small businesses are already facing rising costs—higher goods, increased labor expenses, and competition from developments in areas with abundant parking, i.e. Valley View Mall area in Onalaska—it's critical that city policy supports downtown accessibility and vibrancy. Wider sidewalks, landscaping, and pedestrian-friendly enhancements would benefit all users year-round, while preserving parking and supporting downtown's economic health.

La Crosse has enormous potential. But realizing that potential requires a balanced approach that strengthens—not limits—our downtown. More bike lanes on 3rd and 4th Streets will not bring the kind of revitalization our community needs. I urge you to consider the wider sidewalk alternative and prioritize accessibility, beauty, and business vitality in this historic part of our city.

Thank you for your time and consideration.

Warm regards,

Dani Peterslie

Dear council members,

It seems our community is coming together to make decisions about how our downtown will function. This is good. I'm not sure that enough letters will be written to say no to a bike lane. I've been observing the bike lane that was built already that runs in front of the Radisson. I honestly have seen more cars turned down that lane than I have bikes. Respectfully, I do not think that it serves the community to have another Bike lane 1 block or even 2 blocks away. The serious bikers can choose take that lane. They do not need to take the lanes on the other roads, reduce parking spots, and constrict traffic to the downtown.

Stenosis to the heart will result in heart failure. Stenosis to our downtown streets will cause business failure.

Our downtown is the heart of the city. Keep it accessible 12 months of the year. Please don't limit it for a fraction of the city at a fraction of the use, given winter is upon us. I haven't seen one biker today, and it's not because they didn't have a bike lane…it's cold.

please don't take away more parking spaces from downtown! It's a small business killer! The BIGGEST reason more people don't shop downtown is because they think they can't find a parking spot. Taking out parking spots in favor of bike lanes costs us shop owners money. That money is money we can't turn around and spend elsewhere in the community.

Bike riding is pretty much a late spring, summer and early fall thing. Loss of income for downtown businesses will have a year round impact.

Hello La Crosse City Council members

It's been brought to my attention that the city has proposed changing the streets of our historic downtown in order to allow for more bike access through 3rd and 4th street. As I've also heard from a few business owners, this seems to be a concern of theirs.

As a La Crosse resident, this is an odd decision from my perspective as well. I want to ask your *why,* what is your conviction in doing this and why you think it's the best course of action for our downtown. Is this part of the plan to brighten up downtown? Is this part of the plan to make La Crosse more accessible? If so, why bike lanes and how do they improve downtown for the *whole* of La Crosse residents and regular downtown contributors (businesses, employees, customers, apartment residents, and so on)?

Would love to hear your response, thank you!

Dear City Council Members,

As a newer but thriving downtown business owner, I urge you to reject any proposal that removes on-street parking in favor of bike lanes. Our primary concern—and the reason we strongly oppose these plans—is that WISDOT has not been able to provide clear answers regarding how these changes would affect our location and city block, which already has very limited parking.

Currently, our business at **115 4th Street N (inside the Rivoli Theater)** has access to only four parking spaces in front of the building, constrained by a city bus stop, the State Bank driveway across the street, and two turn lanes for State Street. If any alternatives besides Alternative 2 were implemented, would we lose all parking in front of our building? Would the State Bank driveway or the bus stop be relocated? These critical questions have gone unanswered, leading us to believe that the proposals and studies were developed without input from downtown businesses as there are other blocks facing the same issues.

We also raised concerns about how delivery drivers and suppliers would access our location. All deliveries for our building occur on 4th Street since we do not have a loading dock—yet again, no one could provide a clear solution.

For these reasons, we respectfully ask that you reject any alternative that removes on-street parking and ensure that future transportation studies and proposals include meaningful input from downtown businesses directly affected by such decisions.

Thank you for your time and consideration.

Dear Council Members,

As a downtown La Crosse business with over 150 years in the community, State Bank Financial is concerned about the proposal being voted on tonight to reduce parking. Employees and customers of downtown businesses already struggle to find parking, often resorting to paying fines.

Reducing available spots will make it harder for people to visit restaurants and retailers and for employees to get to work, which impacts the vitality of our downtown. To support a strong business culture, we urge you to **maintain current parking availability.**

Thank you,

Timothy J. Kotnour

State Bank Financial

President

Hi there!

I just wanted to voice my opinion on the bike lanes issue. As someone who lives downtown and works at 2 downtown businesses, I fear getting rid of on street parking for bike lines is a horrible idea.

We have so many elderly or disabled guests throughout the year that cannot make the walk from either parking ramp nearest to us. We don't have a parking lot either just as many other businesses don't have one. I think bringing in bike lanes will destroy downtown business.

I think taking into consideration the opinions of those who live and work downtown is very important. We rely on these businesses to succeed to make a living.

While I can understand bikes are important and a greener way to live, the reality is that I've seen maybe 5 bikes total in the time we've installed the 2nd street bike lanes. It just doesn't make sense to add more throughout the very busy streets of 3rd and 4th.

Thank you!
Ashley Tweten

Dear City Council Members,

I am writing to express my concern about the proposal to remove on-street parking in downtown La Crosse in favor of bike-only lanes. While I appreciate the effort to make our city more bike-friendly and sustainable, I believe this particular change could have significant negative impacts on the vitality and accessibility of our downtown area.

Downtown businesses rely heavily on the convenience and visibility that on-street parking provides. Many customers—especially seniors, families with young children, and visitors from outside the city—depend on being able to park near their destinations. Eliminating this option risks discouraging them from visiting downtown altogether, which could hurt local shops, restaurants, and service providers that are already navigating a challenging economic climate.

There are also practical concerns. Limited parking can create frustration, congestion on side streets, and increased demand on already-full parking ramps. While supporting cycling infrastructure is important, it should be done in a way that complements—not replaces—vehicle accessibility. A balanced approach, such as designated bike lanes on less congested streets or shared-use paths, could serve both cyclists and drivers without undermining downtown businesses.

I urge the council to consider the broader impact of this decision on downtown commerce, accessibility, and the overall community experience. Please explore solutions that maintain parking availability while continuing to expand safe, well-planned bike infrastructure throughout La Crosse.

Thank you for your time and for your commitment to making thoughtful, inclusive decisions for our city's future.

Sincerely,
Lauren

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Dear La Crosse Common Council Members,

I'm writing to share my support for Alternative 1, the option that includes protected bike lanes on 3rd and 4th Streets.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and better prepared for the future. Adding protected bike lanes will make it easier and safer for everyone – whether they drive, walk, or bike – to move through downtown without taking away existing travel options.

Downtown already has a surplus of more than 3,000 parking spaces, so we can easily afford to dedicate some space to people instead of cars. Cities that have made similar investments have seen clear benefits: stronger local businesses, more vibrant streets, and a more welcoming downtown environment.

The economic case for bicycle infrastructure is compelling. Studies show that adding protected bike lanes can increase business revenue by 3-49%. National data also demonstrate that bicyclists tend to spend more at local businesses and restaurants, because they visit more frequently than drivers. At the same time, younger generations are buying about 20% fewer cars and choosing to live in places where driving isn't a necessity. Providing safe, reliable alternatives to car travel will help attract these young, talented individuals to our community – benefiting our workforce and local economy.

In addition, WisDOT requires that parking lanes be fully funded by the city. Selecting Alternative 2 would double the city's responsibility for constructing and maintaining parking compared to Alternative 1. With the city's budget already stretched thin, we simply can't justify spending more taxpayer money on unnecessary parking subsidies.

Our own city engineers estimate that a single on-street parking space costs roughly $17,000 to construct. We've already spent even more per space in parking ramps for gas-powered vehicles. It's only fair that those who drive and park downtown bear these costs—not all residents through tax subsidies. Investing in bicycle infrastructure is a far more economical and sustainable approach, providing healthy, low-cost transportation options for everyone.

Consider, too, that owning and operating a vehicle in the U.S. costs the equivalent of a mortgage payment on a $200,000 home – roughly $12,000-$14,000 per year, or $0.72 per mile (NHSA). In La Crosse County, 15% of residents – over 17,000 people – live at or below the poverty line. Transportation alone can consume up to 40% of their household budgets, leaving little for rent, food, or healthcare. More than half of America's bicycle commuters earn $25,000 or less annually, and with the average new car now costing over $51,000, the demand for affordable transportation alternatives like bicycling will only continue to grow.

Bike lanes are not just for recreational riders – they are vital for everyday transportation users. They will also encourage greater use of the Drift Bike Share program, which reduces parking demand and congestion while supporting downtown businesses and promoting a healthier, more active community.

Please choose the option that reflects the kind of future we want for La Crosse – a city built around connection, choice, and people.

Thank you for your time and consideration on this important decision.

Sincerely,
Alex Metry

I sat in my office at Second and State for years. (Maybe 30 years) Then one day we lost a traffic and parking lane outside our windows. I waited a month before seeing one cyclist use the bike lane which had been a parking lane for cars, many were our cars saving us parking costs. The use of the lane has increased since then but not by much, very few per day. And some people on bikes still use the sidewalks. Those parking lanes were also used by customers to the stores downtown. Not much anymore. And the cost had to be high with new lights and signs and street painting and hardware to make lanes. Well, we'll talk to the mayor about the problem. That was a waste of time through three or four of them while in office. We were somewhat lucky because we could rent a spot to park across the street in the Cleary lot, and still do. If a shopper wants to buy from a store, it's not easy to find a close spot, almost anywhere downtown with the decreasing number of convenient spots. And still hardly any bikes using the bike lanes.

What a mess! What a slap from city hall! La Crosse is the best city I've ever lived in and I want to be able to say that until I croak.

Please help!

Dick Record

Thank you all for serving our city. I would not want that job. That being said , please do NOT take anymore parking from downtown to accommodate biking lanes. When the north side library was closed, one of the reasons stated was that MANY more people used the main library. Does that not also apply to the fact that many more people use the parking spaces than the few bicycles that may use them (mostly only in good weather months)?

I would like to know much city tax payer money has been spent on bike lanes and cleaning up homeless sites (which I have helped with several times). We have lost so many important city services in the past few years. Also, I would like to know how often people attending 'listening sessions' are actually listened to and have been successful in making any changes. Thank you. JoAnne Schlicht

Hello City Council Members,

I am writing to express my support for the alternative option #2 (narrow parking lanes and widened sidewalks) as presented by DMI.

Widening the sidewalks not only creates a more accessible environment, it also encourages pedestrian traffic by making them feel safer when shopping/dining out downtown.
While narrowing the parking lanes may be disagreeable to some, it would direct more parking traffic to the under-utilized city parking ramps which would take advantage of that infrastructure already in place, while potentially increasing revenue for the city.

Thank you for hearing my thoughts.

Best of luck on the vote!

Hello LaCrosse city council people,

I am writing to you in favor of alternative 2, preserving on street parking downtown. As someone who works downtown and frequents many downtown businesses, I hear the plight of shoppers and business owners alike. Having easily accessible, close proximity parking spaces for customers is a huge benefit and stimulus for downtown businesses. Taking on street, close parking spaces away will deter many shoppers from stopping.

Thank you for your consideration

Good Morning,
Regarding tonight's council meeting concerning the Downtown Area.

PARKING/BIKING:
It has been stated that there is an excess of approximately 1,000 surface lot spaces downtown. Parking is not in excess for everyone. I have mobility issues, so biking/long walks around downtown is not an option. I can't be the only one. As for parking in the ramps, they again present a mobility issue and, frankly, don't feel safe. Between the homeless in the stairwells, and some just camping out in various areas, it presents another whole issue.
As for added bike lanes, while I support the opportunity to be connected, I would not support bike lanes on 3rd or 4th St. Both streets have heavy traffic, including large vehicles such as trucks (semi and box), which make deliveries and pass through, as well as buses. We already have that on 2nd St. Please don't lose sight of the downtown commercial tenants that provide us a vibrant downtown and the residential tenants who call it home. As someone who participated in the HWY 53 corridor study, the options in front of you do not address the actual needs of the people who work and live there every day. Major construction will be yet another layer that these merchants will have to navigate; it will have an impact on their daily business. I am hopeful that a solution can be found that works well for all.
As always, your time and efforts are greatly appreciated. Thank you for all you do.
Best Regards, Elaine

Dear La Crosse Common Council Members,

I'm writing to share my support for **Alternative 1**, the option that includes protected bike lanes on 3rd and 4th Streets.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown — whether they drive, walk, or bike — without taking any options away.

Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Thank you for your time and for considering this important decision.

Kind Regards,

Hello Councilwoman Kahlow,

We would like to voice our concerns about possibly eliminating parking on 3rd and 4th Streets between Cass and La Crosse Streets. We believe that the on-street parking is vital for the businesses to prosper on those streets. On Saturdays, with the change to charging for ramp parking, there are many fewer cars in the ramp and street parking is already full. Eliminating street parking, we believe will reduce the number of people who will want to go downtown to try and run in to pick something up or shop for even 1 hour, especially given how the ramp fees are structured hourly and with a 43% fee added for 1 hour.

When I have ridden my bicycle from Cliffwood Lane to the Gundersen campus, I would take the side streets rather than the bike lanes on State Road/Jackson Street to avoid the heavy car traffic. Going down town, I would avoid Cass Street to go on King Street with the less car traffic. Even with bike lanes, I avoid high car traffic roads. Much safer I believe.

A better plan might be to put a bike lane going south on Front or Second Street and going north on 7th Street.

I hope you will support keeping street parking on 3rd and 4th Streets to support the business on those streets and making it easier for your constituents to keep shopping downtown.

Thank you for your consideration,

Jo and Roger Kwong

District 7, 1015 Cliffwood Lane, La Crosse, WI

Dear Council Members,

Thank you for this opportunity to weigh in on an important matter.

As a downtown "business" which is greatly impacted by a lack of parking due to bike lanes, and can logically only be used for a part of the year given our Wisconsin winters with probably little return on investment (I rarely see the bike lanes being used a lot on second street even in the summertime-- And this is coming from someone who walks in the downtown area a lot since I live downtown), I strongly urge you to choose alternative two in order to maintain as much street parking as possible for the sake of being business friendly. The downtown will only thrive to the degree that we are oriented toward our businesses in whatever shape or form they come in, including religious communities such as the Cathedral.
Parking at the ready increases business foot traffic.

Thank you for this opportunity, and thank you for your consideration in the matter.

Monsignor Richard W Gilles

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Hello council members, although I spoke at the public hearing in favor of preserving ON STREET parking I would like to voice my opinion again. Having a long time small business in downtown La Crosse, I know first hand how critical plentiful ON STREET and free parking in the ramps is. Having easy access to businesses is crucial to our success. Most of the businesses affected by your decision are small, locally owned "Mom & Pop" establishments. We pour our heart, soul and resources into our businesses and are proud to be a part of our thriving downtown community. I believe it is what makes our City unique. We want people to stop, park and patronize our local businesses. Not so long ago downtown was fairly deserted. The mall came in and everyone went there to shop and dine. One of the reasons was plentiful and free parking. The mall is no longer a threat to our downtown but online shopping certainly is. In order to continue to have successful businesses we need to preserve the little ON STREET parking we do have.
During the discussion that followed the public hearing there was a comment made about doubting that any business would go bankrupt due to removal of the parking on 3rd & 4th Streets. I would like to respond to that by saying, first, it is presumptuous to assume that all businesses are successful enough to withstand the removal of parking. Further, with diminished access to parking many businesses may decide not to continue to invest in their downtown locations and either close or move elsewhere.
I urge you to vote for Alt 2 which will preserve ON STREET parking.

Respectfully,

Kim Pretasky

Dear Council Members of La Crosse,

I have lived in La Crosse's 18th District for the past 28 years and had been bike commuting to work(downtown) all seasons.

I appreciate all the bike and pedestrian infrastructure added to the city in the past years. My bike commute became less stressful when the King St rapid flashing beacon made it easier to cross West Ave. I also appreciate the 2nd St bike lane as it makes my ride to downtown from the southside or northside easier.

Through the years, I've seen more people biking. I have seen more people(especially families with kids) bike down the street where I live on 31st St. I believe it's because of all the improved bike infrastructure that's been put into place to improve La Crosse's bicycling culture.

I support the 3rd and 4th St protected bike lanes proposed by the WI DOT because I think this would enhance downtown biking more by making bicycling safer for all. Although it would take away parking, there are plenty of parking spaces in ramps which should be used because they have been developed and maintained with great cost to La Crosse taxpayers. Besides, I think removing 3rd and 4th St parking would improve the flow of traffic as drivers looking for on-street parking would not impede traffic. In my opinion, streets are for transporting people, not just transporting cars and storing them for free.

Sincerely,
Michael Barreyro
La Crosse Resident

Dear Members of the Common Council,

I am writing to urge the Common Council to install protected bicycle lanes on the 3rd and 4th street corridor. My name is Erik Ohlrogge, and I am an Onalaska resident and public health professional who bikes into La Crosse frequently. **I would bike to La Crosse and spend more time walking in the city and spending money if the city moved towards a more cyclist and pedestrian friendly urban design.**

I have seen numerous conflicts and near crashes resulting from infrastructure that is designed primarily for cars. As cities increasingly recognize, connected, low-stress cycling infrastructure delivers not only safety benefits but also significant economic and community gains. **The gains from improved cycling infrastructure are consistent, evidence based, yet contentious to the general public; cycling infrastructure is vital to implement.**

First, protected bike lanes dramatically increase bicycle ridership. Research from Portland State University's Transportation Research & Education Center (TREC) shows that putting in dedicated, protected infrastructure leads to increases in cycling. TREC Connected networks also matter; according to the Urban Institute, safer, well-connected cycling infrastructure helps expand ridership, improves safety, and strengthens access to important local services. Urban Institute **Increased ridership and decreased car use reduces road wear, reduces vehicle fatalities, and is better for the planet and population health.** World Health Organization

Second, **the economic case for protected bike lanes is strong**. In a multi-city study across 14 corridors in six U.S. cities (including Portland, Seattle, Minneapolis, San Francisco, Memphis, and Indianapolis), TREC found that adding bicycle and pedestrian infrastructure had either **positive or insignificant impacts** on both sales and employment. PSU | Portland State University For example, in Minneapolis, after removing a motor-vehicle lane (or parking) to build a protected bike lane, *retail employment increased by 12.64%* and *food sales rose 52.44%*. TREC Similarly, in Seattle, a protected lane correlated with a 30.78% increase in food service employment. TREC The People For Bikes organization reports similar findings: in Salt Lake City, **after a protected bike lane replaced car parking, retail sales rose 8.8%**, and a majority of merchants expressed support for the changes. PeopleForBikes The League of American Bicyclists also highlights that business owners often misjudge the value of car parking: sometimes pedestrian- and bike-friendly designs attract more, or more frequent, customers. League of American Bicyclists

Third, **it is critical to build a *connected* cycling network, not just isolated bike lanes**. When bicycle infrastructure is continuous and well-linked, it becomes more useful and attractive, drawing more people to ride regularly and ensuring the benefits reach the whole city—not only a few stretches. Research consistently shows that connected networks encourage higher ridership and contribute more evenly to economic and community development. Urban Institute The 3rd and 4th Street corridor contributes to creating such a connected network.

I recognize that many residents and business owners may be hesitant. There is often pushback around reallocating road space or removing parking, especially from those who worry about loss of convenience or reduced customer traffic. These concerns are valid and deserve respect. However, the **data show that once the infrastructure is in place, the investment pays off;** not

only do safety and quality of life improve, but local businesses gain more customers, and community vitality grows.

Finally, beyond the economic and mobility benefits, investing in protected, connected cycling infrastructure is an investment in public health, environmental sustainability, and equity. When people feel safe riding, they're more likely to bike for errands, work, school, or recreation—reducing traffic, lowering emissions, and strengthening neighborhood bonds. La Crosse has a once in a generation opportunity to improve the city by adding a bike lane in the 3rd and 4th Street Corridor, and it should not squander the opportunity.

In sum, **removing a lane of parking to install a protected, connected bicycle lane is a smart, evidence-based decision.** It's an investment that brings safety, economic vitality, and long-term community value. I strongly encourage the Common Council to support this initiative.

Thank you for your thoughtful consideration.

Sincerely,

Erik Ohlrogge, MS

Today I met a snowplow on Second Street. It was almost in the literal sense of the word.
There is a wide bike lane, at the sacrifice of a safe roadway. Trucks in particular have to navigate the bumpouts on the corner of 2nd and State. This truck is not an articulated vehicle. The rest of the vehicle follows in a straight line.
Bike lanes on 2nd, 3rd, 4th, and 6th streets do not seem to be necessary. Please reconsider.
You may want to do some bike traffic studies on 2nd street before assuming there are enough bikes to merit such a robust plan. I live very near 2nd street, and seldom see very many bikes on what appears to be a truly excellent bike path.

A LaCrosse resident,
Joan Koosman

Hello!

I'm reaching out because I understand there is some consideration of bike lanes being incorporated into 3rd and 4th street in downtown La Crosse. I think this is a great idea!
I have lived in La Crosse my whole life and downtown has generally always been a heavy traffic area. Putting bike lanes on certain streets would be very beneficial, as it would open up more safe spaces for pedestrian traffic.
I've noticed that because of the sheer amount of cars parked on the street, pedestrian visibility is very low. This makes it a bit difficult to navigate the downtown area on foot, even though we have sidewalks.
This could really benefit businesses downtown as well. If more people are walking or biking through the area, it will be easier for them to stop and check out small businesses or stores.
I personally enjoy cities that are walkable. I live on the southside of La Crosse in a more suburban area, and I am someone who often bikes and uses public transportation to get around, especially to the downtown area.
Adding bike lanes would make La Crosse more of a walkable city! Bike lanes would also encourage people to use their own bikes, which could reduce overall carbon emissions coming from cars.
This idea could really benefit downtown La Crosse.

Thanks for your consideration!

Subject: Re: 90 day referral

Erin,

Thank you for your response. You were also kind enough to take my call before the last meeting. Thank you.

You ask about being a La Crosse tax payer. I am a downtown business owner and investor in the City of La Crosse. I will share with you that my businesses that are directly affected by this plan contribute the following:

Currently, within the district we are currently discussing for parking elimination and bike lanes added, we own 16 tax parcels/properties with over $160,000 in annual property taxes. In addition, we employ over 300 hard working individuals who devote their time and energy to making downtown a great place to visit. Lastly, we offer 16 housing units (approx. 40 beds) that assist in making downtown a great place to live.

I am highly invested and care strongly about the decisions made to the downtown area.

I will also share, the recent WKBT poll came back with the following results:

758 total Votes

671 No bike lanes on 3rd and 4th St.

71 Yes bike lanes on 3rd and 4th St.

16 Unsure

Couple that feedback with DMI's stance against adding bike lanes, The Chamber of Commerce saying they do not support more bike lanes, the Mayor saying we don't need more bike lanes and the overwhelming majoirity of business owners who will be directly affected also do not want it.

Thanks again for you effort to improve this city.

Hi Ryan-

I am using the 90 day referral to talk to my constituents. Also to read and respond to all the emails that the Council is receiving.

I am having a little trouble deciphering who are La Crosse taxpayers in these emails, but I continue to look through. 😊

Dear City Council,

Thank you for your discussion tonight regarding the future plans for 3rd and 4th Streets. Since you have decided to refer the vote for 90 days, I would like to make myself available for any public discussion or meetings you may have to gather further input. I would also like to extend an invitation to each of you to schedule a one-on-one meeting. Please let me know how I can be of further assistance.

Thank you,

Ryan Johnson

Subject: Please vote Alternative 2 (No parking removed).

Dear City Council,

I am writing to ask for your support in choosing Alternative 2 for the future plans of 3rd and 4th St downtown. PLEASE do not remove any street parking.

As a business owner and investor in downtown La Crosse, I have seen the changes over the last couple decades. When we started investing in downtown things were being built and businesses were flourishing. In the last handful of years that momentum has completely vanished. From deferred maintenance to increased homeless issues (with no accountability), downtown is in a tough stretch. We have already started to see once healthy businesses vanish. I fear eliminating street parking will only increase this trend.

As a supporter of La Crosse who is deeply committed to the strength of our downtown, I urge you to reject any proposal that removes on-street parking for bike lanes. Convenient parking is vital to downtown's economic

health, accessibility, and overall vitality. Many people, especially older adults, families with children, and those with mobility challenges rely on being able to park close to their destinations. Eliminating on-street parking will both deter and make it harder for people to come downtown and ultimately hurt local commerce, the very heart of our community.

For these reasons, I support Alternative 2, which preserves existing on-street parking and ensures continued accessibility for all while still allowing thoughtful discussion on other improvements. I urge the Council to prioritize decisions that protect downtown businesses and sustain La Crosse's economic future.

Please reach out to me if you would like to continue this conversation or if you have any questions. My cell phone is (608) 317-5353.

Thank you,

Ryan Johnson

Erin
As a Downtown Business owner since
And an original member of downtown Mainstreet
Let me tell you personally
WE DOWNTOWN MERCHANTS APPRECIATE EVERTHING YOU DO FOR THE LA CROSSE COMMUNITY
My self as a Rotarian and the Originator along with David Amborn (how we lost 4 years ago)of AL'S MUSKY CHALLENGE
That raises over $100,000 a year to support the Youth of the coulee region
We have raises over $1,000,000 in 7 years and our endowment that my wife and I started at the la crosse community foundation with $100,000 has now grown to over $400,000 in 3 years
If our business can continue to thrive I can continue to give
Taking away our parking(people want to stop park and walk right in, not park in a ramp, AND CARRY JEWELRY OR COINS)(NOT SAFE) im worried our business will greatly be hindered.
Al's Musky Challenge Endowments goal is to grow to $1,000,000 on its own
Then the interest & investments earned can support more youth programs to the tune of an additional $50,000+ forever
I have want to continue to give back to this great community
Please help all of our businesses continue
On another note
When we had our devastating fire 3+ years ago that almost took our business and took 3 buildings
We had a choice move to Onalaska or rebuild in downtown
Weiser Brothers did a great job and we were smart enough to carry insurance
So we took all the proceeds and rebuilt
Thank you for hearing me out
AL

Good afternoon Council Members,

My name is Al Louis,
As a business and property owner in Downtown La Crosse for over 43 years with 3 properties on south 4th street I have concerns about todays proposal to add MORE bike lanes on s 4th street in downtown and I wanted to provide input for the new parking alternatives being considered for the downtown business district. It is my understanding that there is a strong desire to remove considerable amounts of parking to create bike lanes downtown. , I cannot stress enough how detrimental this could be for our downtown community. We have many elderly customers who will only stop in if they can find parking on our side of the street. If parking is only available on the opposite side, I fear this will create losses of business, not just for us, but for many downtown businesses. In addition, limited parking space is already an issue in downtown la crosse. Our ra

are consistently filled with excrement and sketchy individuals who scare a lot of people. I strongly urge the city council to consider additional alternatives to creating a safer biking environment downtown. We have a large bike lane on 2nd street, perhaps 5th and 7th would be better alternatives to bring cyclists into our central business district. Bike lanes on every street seems excessive to say the least. Please consider the needs of the elderly and others who want to be able to pull up and shop locally. And as a Downtown Rotarian I believe we should practice the 4 Way Test
One of which is " is it fair to all concerned"
Downtown La Crosse has come a long way since I first opened in 1983 with one of the best downtown Mainstreet's I America . years ago we had boarded up buildings and not much traffic to day we thrive. Please consider leaving our existing street parking and consider the needs of the elderly and others who want to be able to pull up and shop locally.
Putting in bike lanes will take away the ability for people to just park and shop and I believe this will push our thriving downtown backwards not forwards
Thank you for your time,

Al Louis

Dear City Council Members,

As a citizen of La Crosse and Area Sales Manager for Beechwood Sales and Service who works closely with downtown bars and restaurants, I ask you to reject any proposal that removes on-street parking for bike lanes on 3rd and 4th street.

Convenient parking is crucial to the overall vitality of downtown businesses. Eliminating on-street parking will ultimately hurt local commerce and negatively impact our WI business as well.

As an avid cyclist/runner in La Crosse, I appreciate the concern for a safer environment. That said, I do not think it is necessary to add bike lanes on 3rd and 4th street. Beechwood and I strongly support Alternative 2, preserving existing on-street parking and ensuring continued accessibility for everyone to enjoy downtown establishments.

Thank you for your time and consideration.

Sincerely,

Joel Feider

- Dear City Council Member,

I'm writing in opposition of the proposal to remove parking on third and fourth streets in downtown La Crosse for bike lanes. I do not believe that this will increase downtown foot traffic, benefit our downtown bars/restaurants or retail stores, and it does not make the downtown more user friendly.

I am the owner of a small business in La Crosse. We are a family-owned wine and liquor distribution company in La Crosse. We've been a part of this community for almost 100 years. We have semis and other trucks that deliver to us on a weekly basis. After the completion of the 2nd street bike lanes, we've heard nothing but complaints about how difficult it is to either turn onto 2nd street, how narrow the road is now, and the strange poles sticking out of the ground are nothing more than a hazard. Most of the poles were destroyed after the first year of being installed. We cannot afford to have more bike lanes installed to hinder trucks and semis getting in and out of downtown SAFTLEY. Our business is located on Nelson Place behind Gundersen, just a few blocks from downtown. The bike lanes that are now on 2nd Street and Market are useless. No one is biking in that area anyway, and the semis that come in an out of the brewery every day have no where to stage and wait for docks. Because of this, semis are forced to wait in the actual street, making it impossible for cars and pedestrians to get around safely.

The proposed bike lanes on 3rd and 4th street would only be used a few months out of the year, whereas parking is used every day. Snow and cold limit the amount of bikers on the street. This is not a biking community, and installing the bike lanes on 3rd and 4th isn't going to make it a biking community.

Our delivery trucks need somewhere to park on 3rd and 4th street when delivering orders to customers. Where are they supposed to park to make deliveries? It is unreasonable to ask them to park 3-4 blocks away, leave their trucks unattended, and hand cart product in cold weather on icy sidewalks for deliveries. Some of the deliveries are over 100 cases at a time. The alleys are not a solution! Many other distributors deliver at the same time, the alleys would be clogged with trucks. They would still be forced to hand cart hundreds of cases through the alley (each cart weighing between 160-300 pounds), and leave trucks unattended to make deliveries.

Convenient parking is vital to our downtown businesses. This would only drive business north to more convenient locations in Onalaska and Holmen with better parking.

And what about patrons with handicaps, disabilities, or the elderly? Having street parking is extremely important to those customers!

The parking garages in La Crosse are unsafe and it's unreasonable to ask people to park there at night. The homeless crisis in this community (which has also been unresolved and ignored) has moved into the parking garages. We've already had several incidents of harassment.

For these reasons, I strongly support Alternative 2, which preserves existing on-street parking and ensures continued accessibility for all. I urge the Council NOT install anymore bike lanes downtown.

Hello Council Woman Goggin,,
We would like to voice our concerns about possibly eliminating parking on 3rd and 4th Streets between Cass and La Crosse Streets. We believe that the on-street parking is vital for the businesses to prosper on those streets.

On Saturdays, with the change to charging for ramp parking, there are many fewer cars in the ramp and street parking is already full. Eliminating street parking, we believe will reduce the number of people who will want to go downtown to try and run in to pick something up or shop for even 1 hour, especially given how the ramp fees are structured hourly and with a 43% fee added for 1 hour.

When I have ridden my bicycle from Cliffwood Lane to the Gundersen campus, I would take the side streets rather than the bike lanes on State Road/Jackson Street to avoid the heavy car traffic. Going down town, I would avoid Cass Street to go on King Street with the less car traffic. Even with bike lanes, I avoid high car traffic roads. Much safer I believe.

A better plan might be to put a bike lane going south on Front or Second Street and going north on 7th Street. I hope you will support keeping street parking on 3rd and 4th Streets to support the business on those streets and making it easier for your constituents to keep shopping downtown.

On an aside, I appreciate your support of the north side library. Having grown up in St. Paul where it was 3-4 miles to ride my bicycle or take 1-2 buses as a kid to the nearest library, I appreciate La Crosse having neighborhood libraries.

Thank you for your consideration,

Jo and Roger Kwong District 7, 1015 Cliffwood Lane, La Crosse, WI

Good evening La Crosse Common Council,

My name is Jedd Czysz and I am a current student at the University of Wisconsin-La Crosse. I want to advocate for the implementation of protected bike lanes in our community.

Many students rely on bicycles for commuting, and protected bike lanes would significantly enhance safety for cyclists. With increased student traffic, ensuring safe routes can reduce accidents and create a more accessible environment for all. Implementing these lanes aligns with our commitment to sustainability and healthy living, encouraging more students to choose cycling over driving.

I urge the council to consider this important initiative that fosters both safety and community well-being.

Thank you for your time and consideration.

I support the idea of bike lanes on 3rd and 4th street because it would add overall safety and accessibility to the city. While I understand the uncertainty business owners must feel with these plans, I think bike lanes would actually add more spontaneous shopper traffic than most would imagine. I hope the input of the community is heard/read and fully considered but making a lasting decision.

Hello La Crosse City Council,

I am in strong support of making the city safer and more accessible for everybody. I believe the city should prioritize greenways on residential streets and finish the King St. greenway to connect the downtown to residential areas before it starts a brand new project on 3rd and 4th street. I think the city could reconsider adding these bike lanes at a later time, but right now, it should finish the projects that have already been proposed and gain funding for those.

Thank you,
Linsey Meyer

As a citizen of La Crosse who frequents many downtown businesses, I do not agree with adding bike lanes to 3rd & 4th Streets. I am also a sales consultant for Sysco foods and work with many of these downtown businesses who share the same sentiment. Removing parking in that area would create issues for me personally, professionally (for myself and our delivery drivers), the business owners I work with, and the community in general. Please consider this when voting for these changes downtown.

Thank you for your consideration,

Brad Osterman

Dear City Council Members,

As a supporter of La Crosse who is deeply committed to the strength of our downtown, I urge you to reject any proposal that removes on-street parking for bike lanes. Convenient parking is vital to downtown's economic health, accessibility, and overall vitality. Many people, especially older adults, families with children, and those with mobility challenges rely on being able to park close to their destinations. Eliminating on-street parking will both deter and make it harder for people to come downtown and ultimately hurt local commerce, the very heart of our community.

For these reasons, I strongly support Alternative 2, which preserves existing on-street parking and ensures continued accessibility for all while still allowing thoughtful discussion on other improvements. I urge the Council to prioritize decisions that protect downtown businesses and sustain La Crosse's economic future.

Thank you for your time and dedication to our community.

Sincerely,

Nathan Reisbig

Dear La Crosse Common Council Members,

I'm writing to share my support for Alternative 1, the option that includes protected bike lanes on 3rd and 4th Streets.

This project is a once-in-a-generation opportunity to make our downtown safer, healthier, people friendly, and ready for the future. Protected bike lanes will give people more freedom and options for moving through and visiting the downtown.

Downtown already has more than 3,000 parking spaces in surplus, so drivers will be minimally impacted. Studies have shown that bicycle infrastructure improves the business environment and quality of life. The economics speak well for adding bike lanes. It has been demonstrated that adding bike infrastructure such as this increases business revenue from 3-49%. Nationally, it has been shown that bicyclists spend more money at retail businesses, including restaurants, than car drivers as they stop more frequently.

Currently, young adults are less likely than previous generations to own cars or even have a driver's license. Many people who fall into this category choose to then live in places where a car is not necessary for transportation. This is contributed to by economic factors and lifestyle preference. The protected bike lanes will help make La Crosse such a place.

La Crosse's city engineers have identified that the cost of a parking spot along the street is close to $17,000 per space. We have spent more than that in the parking towers to accommodate drivers. Furthermore, the weight of cars and trucks causes many thousands of times of damage to roads and contributes to rising road maintenance costs (see the graph in this link: https://streets.mn/2016/07/07/chart-of-the-day-vehicle-weight-vs-road-damage-levels/). Making bicycling in city better and more welcoming can reduce the number of cars causing wear and cost to the city and may even reduce the number of potholes that need to be addressed. Cars and trucks are expensive to the city for many reasons. Bicycles and infrastructure for them are in the best interest of the city's budgets and economy. Increasing bicycle infrastructure will make progress toward sustainability goals for the city.

The bike lanes will support the use of the Drift Bike Share program, which in turn mitigates parking needs, bottlenecking, increases participation in downtown businesses, and promotes a healthier community. For tourists visiting La Crosse, the bike share program coupled with good bicycle infrastructure can promote tourists movement throughout downtown and stopping at more businesses.

Bicycling is good exercise and promotes physical health. Cars emit not just the carbon dioxide we have heard about from climate change, but they also emit a great deal of carbon monoxide. Though we are not exposed to lethal concentrations of carbon monoxide when in downtown, a growing body of evidence indicates that the exposure to carbon monoxide does have negative health consequences. Bicycle infrastructure is the least expensive transportation infrastructure modifications that ultimately provide healthy alternative transportation modes.

Automobile costs are rising as the cost of cars themselves grow, fewer and fewer car loans are only five years, and more are trending to 7 or more years. Car loan interest rates for prime to non-prime lenders ranges from 6.78% to 9.97% for new cars and 9.39% to 13.95% for used cars. The average cost of a new car is over $50,000. In La Crosse county, 15% of our population, or approximately 17,000 people, is at or below the poverty line. Transportation is a significant cost, reducing the ability to cover rent, food, health care, and clothing. Over half of the bicycling commuters in the USA make $25,000 or less. Bicycle infrastructure improves access for people to reach employment, services, and businesses. These members of our communities are less likely to be considered in these decisions.

Speaking for myself, my husband and I were able to reduce the number of cars we owned due to job changes but this was also enabled by the existing bicycle infrastructure in La Crosse. However, there are many areas where the infrastructure and safety for bicyclists could be improved. Having infrastructure that would improve our safety on bicycles would be so, so welcome. My husband's co-workers have expressed to him violent opinions of bicyclists and a desire to see them injured. Protected bicycle lanes reduces interactions and conflicts between drivers and bicyclists.

Please recognize that protected bicycle lanes are for users of so many backgrounds, interests, and needs.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, freedom, and people.

Thank you for your time and for considering this important decision.

Sincerely,

Elizabeth Leighton

You have received this feedback from Sara Hart < sjanehart@hotmail.com > for the following page:

https://www.cityoflacrosse.org/your-government/city-council/city-council-members

The poposal of having a bike lane on 3rd street I am against it. First you are taking all the street parking places away making it harder for seniors and handicapped people and also for buying a bigger purchase. Next the car traffic is getting more complicated and harder to get around thus making people not to go downtown for shopping. Also I hear that they are making a bike lane on Lose Blvd. and one lane both ways which will tie up traffic and people will avoid coming into LaCrosse other than work. There are plenty of bike paths around LaCrosse than on the city streets. There is Myrick park and Pammel street bike paths. You are making it harder for cars and bikes. I hardly see anyone using the bike lanes on second street or Jackson street.

La Crosse Common Council Members,

I'm a PA working in emergency medicine at Emplify health by Gundersen. I see patients injured when cyclists and automobiles do not have infrastructure that keeps them safe. I'm writing to share my strong support for **Alternative 1**, the option that includes protected bike lanes on 3rd and 4th Streets.

I have travelled to other cities with this type of biking infrastructure and it is incredible! Safer for pedestrians, cyclists, and drivers. It also creates a more vibrant feel to a downtown area and connects communities of people and neighborhoods.

Thank you for your time and for considering this important decision.

Regards,

Tom Davey - La Crosse, WI

To whom it concerns,

My name is Felicia Ritzke, and I am a student at the University of Wisconsin–La Crosse. My primary form of transportation is bicycling, and I am also currently enrolled in a bicycling course at UWL, where I've had the opportunity to learn about safe and effective transportation planning. Due to both personal experience and course concepts, I strongly support the proposal to add protected bike lanes to 3rd and 4th Street.

Protected bike lanes would significantly improve both perceived safety and actual safety for cyclists. Research we've seen in class shows that separated and protected biking infrastructure greatly reduces collision risks for bikers and cars, and encourages more people to choose biking over driving, especially beginners, hesitant riders, and families. This could contribute to benefits like reduced traffic congestion and a more efficient and inclusive transportation network.

Additionally, creating streets that are welcoming to cyclists and pedestrians fosters a more connected, vibrant, and equitable city. This proposal also supports La Crosse's sustainability goals. Increasing bicycle transportation decreases emissions, improves public health, and contributes to a more livable city, all concepts we discussed in class when examining sustainable and active transportation systems.

For these reasons, I strongly encourage adopting the proposed protected bike lanes on 3rd and 4th Street. This investment would make our city safer, healthier, and more accessible for everyone.

Thank you for your time and consideration.

Sincerely,

Felicia Ritzke

Good Afternoon,

I am a concerned college student at UWL who has recently become aware of the proposed bike lanes on 3rd and 4th street downtown. While I am all for more sustainable transportation and better ways to get around the city than by car, I don't know if the main street of La Crosse is quite the place for that yet. While I am in no way, anti-biking, there are just too many drunk drivers downtown, especially on 3rd street, and I don't believe cyclists would be safe at night, even with protected lanes.

I understand that things move slow in the urban planning world, but I think having a conversation or proposal about connecting a protected bike lane on La Crosse St to 2nd St would be easier, and safer. Not to mention helpful for the thousands of college kids that could get to downtown much more safely and sustainably this way.

Thank you for your time,

Caroline Zanon

Hello,

I am a senior at UW-La Crosse who is invested and experienced in biking all over La Crosse. I got through the first three years of my college education independently without a car. I traveled a lot, consistently working two jobs that I would commute towards on bike nearly daily. One of these jobs was located downtown. I have learned recently I am not allowed to bike on the sidewalks downtown, but I have never biked on the streets after crossing 5th avenue. Its far too dangerous and cramped. Even with no cars in situations like at night, I still feel unsafe. Instead, I would have to join the pedestrian traffic on the sidewalk which never went well with the tight corners and pedestrians downtown. I can recall plenty of times where I've nearly hit someone coming out of a business or around a corner. A separated bike lane downtown would be something that makes me want to go downtown. Imaging downtown as a safe throughway through La Crosse is insane to me, it would've introduced me to so much more that La Crosse has to offer. Instead, I would avoid biking downtown La Crosse and very rarely feel curious or exploratory if I had to go bike through. I want La Crosse to be a better place to bike for all the people I see biking in it, and all my friends who want to bike but don't really feel like it.

Sincerely,

Matthew Hillstrom

Dear La Crosse Common Council Members,

I'm writing to share my support for **Alternative 1**, the option that includes protected bike lanes on 3rd and 4th Streets.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. We we live at 410 23rd St N and often bike to piano lessons at Leithold Navigating the last bit is always tricky. Anything that would help link up to the King St corridor would be great.

Downtown already has plenty of parking spaces, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Thank you for your time and for considering this important decision.

Sincerely,
Martin Riese

Some actual evidence that elimating free street parking BOOSTS small business revenue. And La Crosse fits the parameters well with "abundant nearby ramp parking."

https://www.businessinsider.com/downtowns-cities-holiday-shopping-eliminating-street-parking-spots-boosts-retail-2023-10

Please make decisions based on empirical evidence, NOT based on the voiced concerns of residents.

Josh Miner
2225 State St, La Crosse, WI 54601

On Thu, Nov 13, 2025 at 2:01 PM Josh Miner <jwminer@gmail.com> wrote:

I neglected to mention that, despite many people's concern over "lost street parking" with the installation of bike lanes, my experience as a La Crosse resident who drives and parks downtown often is that there is SO MUCH PARKING! We have how many ramps, with how many spaces, built at what cost to city taxpayers?

I understand that it is sometimes difficult as elected leaders to tell your constituents that their concerns are unfounded, or somewhat silly, but assuming accommodations for those with mobility issues, there would no doubt be PLENTY of parking downtown even if 100% of street parking were eliminated. That's literally what the ramps are for, no? Is it really every resident's right to find a spot immediately in front of their destination at all times? I think not.

Thanks!

Josh Miner
2225 State St, La Crosse, WI 54601

Hello Lisa,

Thank you for the reply.

I would also like to thank Gary Padesky for his reply in a separate email.

Leaves me wondering where the actual downtown council member is at?

I think you are choosing to look at part of this in a light favorable to your opinion as opposed to say the opinion that was expressed in a Channel 8 survey where nearly some 90% of the voters did NOT want more bike lanes on downtown streets. That seem pretty clear, not much gets that clear these days.

Next, you say there is an abundance of parking downtown. Well maybe over all but not where it's most convenient for most people. The ramps are not near as convenient and unfortunately due to the city mishandling them for so many years they have a very negative feeling to most people not to mention inconvenience to register and pay especially for elderly people as well as visitors who don't need that payment app for any other purpose. I'd suggest the city councel park in the city overflow lot by the Octoberfest grounds for a few meetings as it's apparently fine to walk a block or two, cross a few streets, and hope it isn't raining or icy on your way. I'll wait to see the council members prove how convenient that all is.

Also, downtown properties are taxed specifically for the ramps and that was in place of the old parking meters. Then we had to recently fight DMI and the police and the previous mayor to not add on street paid parking. Now we fight to keep parking constantly being taken for bike lanes and bump outs. Where is our reduced tax for the special assessments as we continue to have what we are supposedly paying for taken from us block by block street by street?

I would also like to say your interpretation that this is not part of the city budget is not only short sighted but basically a lie in my opinion. You added 'currently' well maybe the state pays for round one. Who pays for round two like just happened on second street. Will the state be coming to replace, repair, clean the damaged white posts constantly run over on second street once they line "historic downtown 3rd and 4th Streets? There's mention of protected bike lanes? What's the protection method and who will be again paying to maintain those? Will the DOT be funding this forever. I bet not. So to say what you did that it's not budgeting related is very short cited and why we are where we are because this city spends everything and more continually with no look to the future. I also find it interesting that you even added that comment as if to try to appease tax payers it won't cost money which just is not true. Maybe it won't this year. Or next. But just wait.

Your last comment included the idea we need to meet broad needs. Well now do we really? 1. A poll said nearly 90% disagree with the bike lanes downtown. Seems the broad opinion of need has been spoken. 2. This will cost the city money in a few years if not sooner just from making snow removal more difficult and costly working around all the lane dividers. 3. If there is a concern we meet broad needs everywhere then where is the city meeting my broad needs to park in the marsh by the bike trails? Where is the city meeting broad needs to help build properties in those locations also? You and many seem to forget the bikers have been given large funds in certain areas for very specific purposes with absolutely no broad use. Only one specific use. To bike or walk. Why aren't we adding driving lanes and parking lanes in those areas? Now I agree my comment and suggestion here is a stupid idea but it's proof the city makes no attempt to meet broad needs everywhere, your just supporting your position on the subject and neglecting polls showing near 90% DIS approval of bike lanes on 3rd and 4th.

90% against these new bike lanes. Any politician aka city council member who votes against that majority and instead in their own favor and opinion is why this country, much less this city, is such a mess. You all claim to represent then you ignore the obvious that's wanted by a massive majority of those who gave you your chair.

You know, there's a small percentage of residents of La Crosse that would appreciate drug and meth house legalization also, will we be broadening our horizons to meet those folks needs also? Just a thought.

>
> Few things seem to be as decisive for our community as bike lanes. In general, I don't like to refer votes and prefer to gather the info I need prior to the vote. I did vote to refer this decision for 90 days. I refuse to believe that the options presented by the DOT are the only options we can explore. Furthermore, my hope is that those strong biking advocates spend some time connecting with downtown business owners and others who feel strongly that parking should not be replaced with bike lanes to explore options that meet both needs.
>
> I am aware we have an abundance of parking downtown, but the perception that removing parking will have an impact on business will certainly influence current and potential downtown business owners. I support bike lanes, but do not believe they are needed on every street. Those who are the strongest advocates for bike lanes also acknowledge that we need downtown businesses.
>
> As there is also some confusion out there, I do want to clarify that this is a Wisconsin DOT project and not one that is impacting the current conversation on the La Crosse City Operating Budget. The two issues (bike lanes and budget) are separate issues currently.

My hope is that those who feel strongly continue to reach out to those who feel differently while looking for options that meet broad needs. Let's hope a better option can be found and presented.

Hello,

DO NOT VOTE TO REMOVE ANY PARKING DOWNTOWN FOR BIKE LANES.

As an owner of three downtown properties, I have had enough of the city council approving taking more and more on street parking from our properties and tenants. I DO NOT care the city feels there is enough ramp parking. Our customers DO NOT want to use the ramps you have failed to maintain, keep safe, and have also repeatedly changed the process for use and payment every couple years, people don't want to study rules and continually comply with new payment methods, gates, kiosk locations, apps. The lack of planning has been obvious by how long these methods have been kept and replaced. City staff that have made such poor decisions should be fired. Council members that blindly followed their lead should be voted out.

DO NOT VOTE TO REMOVE ANY PARKING DOWNTOWN FOR BIKE LANES.

There is an underused bike lane a block away on 2nd and now also on 6th. Why place them in the path of danger on the busy streets and take parking away.

The City Planning department always preaches "highest and best use". I see few bikes ever on these bike lanes, yet I constantly see cars searching for parking which also generates money for the city via ticketing. How are unused bike lanes that never create revenue a higher use than parking spaces used regularly for business access to generate sales tax and monies from parking tickets.

DO NOT VOTE TO REMOVE ANY PARKING DOWNTOWN FOR BIKE LANES.

Please vote to have the parking removed from in front of your homes and properties and replace them with bike lanes if they are such an amazing value.

Hi Lisa -
We are Ed & Eileen Przytarski at 3229 E Fairchild Street and we would like to share our opinion about the proposal to remove parking spots and create additional bike lanes on Third and Fourth Streets in La Crosse.

We strongly oppose this proposal for a number of reasons.

Eliminating parking spots would make it nearly impossible for anyone, especially the elderly, to patronize downtown businesses. It is very difficult for businesses to get people to shop in person as it is, and this would only make it harder for them.

Traffic flow through La Crosse is very difficult now, and adding bike lanes on the two main routes will only make things worse.

The City has already created bike lanes on Second Street, which are hardly ever used, and have created a nightmare for drivers. If bicyclists want to go through La Crosse, they should start utilizing the existing Second Street bike lanes.

If people are insistent that we need more bike routes, we should be looking at less traveled streets, like Seventh or Eighth Streets.

Thank you for listening to our concerns, and we hope you will consider them in your upcoming discussions and votes on this matter.

Ed & Eileen Przytarski

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Dear Council Member,

As a downtown business owner, I am writing to emphasize the importance of preserving free on-street parking on 3rd and 4th Streets rather than replacing it with dedicated bike lanes.

I want to be clear that I have nothing against bicycles or cyclists. Many of my close friends ride regularly, and I fully respect their right to do so. However, when making decisions that affect the entire downtown district, it is important that we maintain perspective on how these streets are used and who depends on them.

1. On-street parking provides year-round value.
Parking spaces are used every day—rain, snow, or shine. Bike lanes, by contrast, are largely seasonal. While a few dedicated riders may cycle in winter, most cyclists simply do not use bike lanes during colder months. Parking, however, remains essential to customers throughout the entire year.

2. Many customers cannot rely on bicycles for transportation.
Shoppers often carry purchases, bring children, or travel with elderly family members or individuals with disabilities. These groups are not likely to bike downtown, and many also cannot walk long distances or navigate parking ramps. Eliminating on-street parking effectively restricts access for people who have no practical alternative.

3. Parking supports local commerce.
On-street parking invites people to stop, browse, dine, shop, and engage with downtown businesses. Bike lanes, by design, facilitate movement *through* the area rather than stopping within it. Customers are not likely to come by bicycle for a dinner date, a cello lesson, a recital, or other activities that require carrying items or traveling with family.

4. Street parking signals that visitors are welcome.
Visible, convenient parking gives the public confidence that downtown is accessible. When parking becomes scarce or inconvenient, potential customers often choose to shop elsewhere.

5. Removing parking limits access for key customer groups.
Elderly patrons, families, and those with mobility challenges rely heavily on street-level parking. Removing these spaces diminishes their ability to visit and support downtown establishments.

My family and I have invested heavily in renovating our building so it can continue to contribute to the vibrancy and economic health of downtown La Crosse. I am concerned that many well-meaning advocates may not fully understand how critical on-street parking is to the downtown business community and how its removal could negatively affect local commerce.

For these reasons, I respectfully urge you to support **Alternative 2**, which preserves the essential parking that downtown businesses—and our customers—depend on.

Thank you for your time and consideration.

Sincerely,

Paul Leithold

To: The La Crosse Common Council

It's been brought to my attention that the city is giving consideration to removing parking spaces in favor of bike lanes on 3rd and 4th Streets.
In regards to this proposal, I would ask the following question:
Does it make sense to remove parking for businesses and residents who are downtown year round in a commercial and residential area in favor of recreational bike lanes that can't be used over winter or when it rains?
We have bike lanes that appear to see light use on 2nd, and that would seem to make the most logical sense for their placement. There's less traffic there, and fewer vehicles unloading and loading for businesses. In addition bikes coming from 2nd have easy access to the rest of downtown, as well as the riverside park area and trails that run through the marsh.
As someone who lives downtown and has worked and run a business on 4th Street for 28 years, the number one complaint I've heard and consistently still hear is the lack of convenient parking. Removing any of the on-street parking that currently exists, especially in front of local businesses would be detrimental to the downtown, and I would ask that you reject this proposal.
Thank you for your consideration.

Sincerely,
Jason Mills

Dear City Council Members,

I urge you **not to support the addition of bike lanes on Third and Fourth Street**. These streets provide essential parking for many of our clients visiting Belle Square or Viaro Primary care and fitness for healthcare and therapeutic services—many of whom are elderly, handicapped, or recovering from injuries. Losing this parking would create significant accessibility challenges for those who need it most.

Given that there are already bike lanes just one block west toward the river, this proposal seems excessive and unnecessary. Please help us preserve parking access for those who rely on these vital services.

Thank you for your consideration

Dear La Crosse Common Council Members,

I'm writing to share my support for **Alternative 1**, the option that includes protected bike lanes on 3rd and 4th Streets.

This project is a once-in-a-generation opportunity to make our downtown safer, more connected, and ready for the future. Adding protected bike lanes will make it easier for people to move through downtown — whether they drive, walk, or bike — without taking any options away.

Downtown already has more than 3,000 parking spaces in surplus, so we can afford to make space for people. Cities that have made this kind of investment have seen it support local business and create more vibrant, welcoming streets.

Please choose the option that reflects the future we want for La Crosse — a city built around connection, choice, and people.

Thank you for your time and for considering this important decision.

Sincerely,

Bill Walters

Hello,

I want to weigh in on the bike lane issue. I don't like having more bike lanes in place of parking on 3rd and 4th streets. I like being able to park near the store where I plan on going.

My son also takes guitar lessons at Leithhold and we park in 4th street. It would be inconvenient to have to find a parking garage and walk there with a guitar and a binder full of music.

There are already bike lanes already on 2nd street and we have to pay $350,000 for baracades. Where is this money coming from?

I think a lot of people have similar feelings, but don't think you consider opinions from the public. I don't see the advantage of taking away parking from paying customers for people who barely spend money downtown.

>
> - TM-1: Decrease commuter and community-wide Vehicle Miles Traveled
> - TM 5: Improve the comfort and safety of walking and biking within La Crosse
>
> These action steps are not part of a wish list to make things happier and nicer in our city. These are specific required actions to reduce our community-wide carbon emissions. These are actions that we have committed to by approving the comprehensive climate action plan and that you, as our representatives, need to take seriously. They must be done to even have a chance to get where we need to be.
>
> I have heard that some council members may not vote for the WisDOT Alternative 1, with bike lanes, because of concerns from some citizens with disabilities.
>
> I have many friends within that community and have learned from them about their frustrations with continual second class/afterthought treatment and their fears about yet more obstacles to endure. As a transportation equity advocate who helped organize the recently completed Week Without Driving, I have seen and learned about the inequities that result when those with disabilities are left out of the discussion, planning, and decision-making.

I also know that if ALL of us don't speed up and strengthen our climate action right now, NONE of us will be better off as global temperatures continue to rise and severe weather events continue to devastate communities and drain community infrastructure funds. And, it's not something that will get worse and then fix itself. It will get worse and worse and worse. We are baking in the worst by ignoring the actions that must be taken today.

There are ways to include and incorporate the voices and needs of those with disabilities into good bicycle infrastructure design as described in this article: https://sf.streetsblog.org/2020/03/19/protected-bike-lanes-seniors-and-the-disabled and laid out in these resources from city governments - https://walksf.org/wp-content/uploads/2019/12/getting-to-the-curb-report-final-walk-sf-2019.pdf and https://cmap.illinois.gov/news-updates/accessibility-considerations-for-bike-lanes/ I'm sure there are other examples and resources. We can ensure the concerns, suggestions, and needs of those with disabilities are built in to this project.

A thoughtful, collaborative approach to designing this project might actually improve access for those with mobility and vision impairments and be a model for future projects state-wide. We have some new WisDOT experts who seem very eager to look at modern, inclusive solutions and updated possibilities. We are also bound by PROWAG to ensure projects are accessible and ADA compliant.

In other words, adding bike infrastructure does not automatically lead to worsening the experiences of those with disabilities.

BUT if we fail, over and over again, to take the actions REQUIRED to be taken by our climate action plan, which we spent many thousands of dollars and many citizen hours preparing, honing, and finalizing, it is pretty much certain that we are baking in an uninhabitable near future for our children, young people, and maybe even ourselves.

I urge you to read just the introduction to the recently published 2025 Stare of the Climate Report. https://iefworld.org/climate 2025. This is not some crazy theory from a guy on the internet. This is the official conclusion by global experts on the state of the disaster that we all must address right away.

"**We are hurtling toward climate chaos.** The planet's vital signs are flashing red. The consequences of human-driven alterations of the climate are no longer future threats but are here now. **This unfolding emergency stems from failed foresight, political inaction, unsustainable economic systems, and misinformation.** ... The window to prevent the worst outcomes is rapidly closing." [emphasis mine]

Really, it's **not** an either-or decision. It **must** be BOTH-AND. ALL citizens must have the ability to get around our city AND we must take strong climate action now.

We can do both. We have to do both. Please vote for Alternative 1 with bike lanes. Please call me if you have questions or need more information. (And please excuse typos – no matter how many times I spell check and proof read, there's always at least one.)

Thank you for listening.

Dear City Council Members,

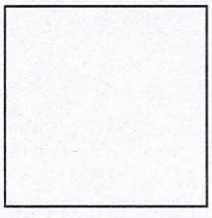

As a supporter of La Crosse who is deeply committed to the strength of our downtown, I urge you to reject any proposal that removes on-street parking for bike lanes. Convenient parking is vital to downtown's economic health, accessibility, and overall vitality. Many people, especially older adults, families with children, and those with mobility challenges rely on being able to park close to their destinations. Eliminating on-street parking will both deter and make it harder for people to come downtown and ultimately hurt local commerce, the very heart of our community.

For these reasons, I strongly support Alternative 2, which preserves existing on-street parking and ensures continued accessibility for all while still allowing thoughtful discussion on other improvements. I urge the Council to prioritize decisions that protect downtown businesses and sustain La Crosse's economic future.

Thank you for your time and dedication to our community.

Sincerely,
Lexi Gunderson

Removing parking from downtown is not a good idea for small businesses or shoppers. I have a rare perspective. I split time between Green Bay and La Crosse and have an apartment downtown Green Bay in addition to my home in La Crosse. City of Green Bay removed/made street parking difficult and expensive and it hurts the downtown merchants. The parking garages go unused and people go elsewhere for commerce. This despite a lot of money invested in making downtown Green Bay an enticing place for shoppers and small businesses. Downtown Green Bay is dead, with the exception of people who live downtown or when there is a major event. A ton of downtown Green Bay real estate is vacant. Drive down Washington Street and tell me I'm wrong.

Don't remove downtown street parking.

We do not need bikes lanes on 3rd and 4th Street! Unsafe, the retailers need parking in front of their stores and there is a bike lane through Riverside Park - more beautiful and safe! The one you put in on 2nd Street is terrible - makes traffic so tight and dangerous and hardly anybody uses it! Please do not spend money on this - it will ruin our downtown and is not necessary. I am an avid bike rider and would not use them!

Dear Members of the La Crosse City Council and Mayor of La Crosse,

I am writing to formally express my strong opposition to the proposal of adding bicycle lanes to 3rd and 4th Streets in downtown La Crosse.

As a concerned constituent, I believe that removing driving lanes or parking spaces on these primary north-south corridors will negatively impact our city in several ways. This email is being sent to be part of the public record in opposition to any ongoing consideration for bicycle lanes on either 3rd or 4th streets downtown La Crosse. Below are just a few of the reasons to stop considering these unnecessary and unwanted bicycle lanes on either street, in addition to the public simply doesn't want them.

Traffic Congestion: 3rd and 4th Streets are essential arteries for vehicle traffic. Reducing capacity will lead to increased congestion and longer commute times for residents and visitors.

Economic Impact on Small Businesses: Local businesses depend on convenient parking and easy access for customers. Eliminating parking or complicating navigation will hurt the vibrancy of our downtown economy.

Public Safety: Mixing high-volume vehicular traffic with bicycle lanes on these specific narrow corridors creates unnecessary risks for both drivers and cyclists AND the handicapped, elderly, and others that rely on parking close to their destinations.

Alternative Routes: There are safer, more suitable parallel streets that can accommodate bicycle infrastructure without disrupting the main commercial and transit flow of the downtown area.
I urge you to prioritize the existing infrastructure and the needs of the business community by voting against any bicycle lane expansion on 3rd and 4th Streets.

Thank you for your time and for your service to our community. I look forward to hearing when this topic is no longer is in consideration.

Thank you,

Amanda Luedtke

Good morning,

The process of gathering options for road changes from the professionals who know what they're doing is an involved one. It takes time to do, and I respect the experience and research that goes into it. The DOT, the city, the bike/ped committee, and many other groups work hard to give the information in a clear and timely manner. These organizations hold public input sessions, meetings, send out surveys to collect public input, only to get a limited amount of feedback through the process.

But now that we're down to a decision and vote, everybody has an opinion and many people feel as if they have not been informed of a huge project affecting their city. Many people will use their own anecdotes and experiences as the primary and only source for their opinion of how 3rd and 4th street should be rebuilt.
A simple fact is yes it is important to get public input and build this project according to the residents expectations, and yes we should use the professional research done by people much more experienced than all of us to say "Studies show that....".

Simply allowing downtown business owners or city residents to say "I NEVER see anybody using the bike lanes, why build them" is not a justification for eliminating the cycle track or separated bike lanes as options from this project because that statement is not true. I myself along with many fellow bikers use the bike lanes on Second Street on a weekly basis during favorable weather, and would like to expand the season in which I feel comfortable riding during the winter. Here I go using "my own anecdotes" as my primary source :-) but I also appreciate all of the research that has been done on bike-friendly towns around the state and US.

Please keep the options with the bike lanes on the table for the 3rd/4th St project.

Thanks for reading,

--

Traffic Congestion: 3rd and 4th Streets are essential arteries for vehicle traffic. Reducing capacity will lead to increased congestion and longer commute times for residents and visitors.

Economic Impact on Small Businesses: Local businesses depend on convenient parking and easy access for customers. Eliminating parking or complicating navigation will hurt the vibrancy of our downtown economy.

Public Safety: Mixing high-volume vehicular traffic with bicycle lanes on these specific narrow corridors creates unnecessary risks for both drivers and cyclists AND the handicapped, elderly, and others that rely on parking close to their destinations.

Alternative Routes: There are safer, more suitable parallel streets that can accommodate bicycle infrastructure without disrupting the main commercial and transit flow of the downtown area.
I urge you to prioritize the existing infrastructure and the needs of the business community by voting against any bicycle lane expansion on 3rd and 4th Streets.

Thank you for your time and for your service to our community. I look forward to hearing when this topic is no longer is in consideration.

Thank you,

James Craig

Mayor and Members of the La Crosse City Council,

I am writing to formally express my strong opposition to the proposal of adding bicycle lanes to 3rd and 4th Streets in downtown La Crosse. And if it should arise any bicycle lanes on George Street. I am a biker myself, so do not oppose biking in the city, but I think there are better alternatives. There is already a bicycle lane on 2nd Street in downtown La Crosse. Truthfully, I do not believe another is necessary or if one is necessary why not put on a quieter, less congested street.

As a concerned citizen, I believe that removing driving lanes or parking spaces on 3rd and 4th street, primary north-south corridors, will negatively impact our city in several ways. This email is being sent to be part of the public record in opposition to any ongoing consideration for bicycle lanes on either 3rd or 4th streets downtown La Crosse. Below are just a few of the reasons to stop considering these unnecessary and unwanted bicycle lanes on 3rd and 4th Street

Traffic Congestion: 3rd and 4th Streets are essential arteries for vehicle traffic. Reducing capacity will lead to increased congestion and longer commute times for residents and visitors.

Economic Impact on Small Businesses: Local businesses depend on convenient parking and easy access for customers. Eliminating parking

or complicating navigation will hurt the vibrancy of our downtown economy.

Public Safety: Mixing high-volume vehicular traffic with bicycle lanes on these specific narrow corridors creates unnecessary risks for both drivers and cyclists and the handicapped, elderly, and others that rely on parking close to their destinations. Getting up in years myself and often having difficulty walking, being able to park near downtown, businesses is extremely helpful.

Alternative Routes: There are safer, more suitable parallel streets that can accommodate bicycle infrastructure without disrupting the main commercial and transit flow of the downtown area.
I urge you to prioritize the existing infrastructure and the needs of the business community by voting against any bicycle lane expansion on 3rd and 4th Streets.

Thank you for your time and for your service to our community. I look forward to hearing when this topic is no longer is in consideration.

Thank you,

Dear Members of the La Crosse City Council and Mayor of La Crosse,

I am writing to formally express my strong opposition to the proposal of adding bicycle lanes to 3rd and 4th Streets in downtown La Crosse. I value the small businesses that are on these streets- that help make up the downtown area. I value the time and commitment that business owners pour into having their doors open in these hard times, and want to see them thrive and not fail. I also would like to see the current bike lane being utilized and monitored before installing more lanes.

As a concerned constituent, I believe that removing driving lanes or parking spaces on these primary north-south corridors will negatively impact our city in several ways. This email is being sent to be part of the public record in opposition to any ongoing consideration for bicycle lanes on either 3rd or 4th streets downtown La Crosse. Below are just a few of the reasons to stop considering these unnecessary and unwanted bicycle lanes on either street, in addition to the public simply doesn't want them.

Dear Members of the La Crosse City Council and Mayor of La Crosse,

I am writing to formally express my strong opposition to the proposal removing any on-street parking on 3rd and 4th Streets in downtown La Crosse.

As a concerned downtown property and business owner, I hope you will understand that this will cause harm to our business! The vast majority of people who shop with us downtown absolutely want and use on street parking. This is not hypothetical – this is real life. Please support us! We are your downtown! Removing this parking – any of it – would be intentionally harming your own downtown!

We are here every day- we talk to people- please trust me when I say that I know how important this street parking is. Please believe business owners know what is best for their business.

I urge you to prioritize the existing infrastructure and the needs of the business community by voting against any bicycle lane expansion on 3rd and 4th Streets. Put bike lanes on alternate streets, and put bike parking in the ramps- people who bike can easily walk to downtown stores.

Bike lanes are only used a few months out of the year, by a very small number of people. Parking is needed all year, every day – for people who come downtown to do business. Most come from distances that are too far to bike. That is just fact.
The talking point assertion that there are "3,000 parking spaces downtown" is a red herring. Parking ramps are a nice addition, but not a substitute for on-street parking. Drivers frequently have children, mobility concerns, or large packages to carry—making proximity far more important.

A truly vibrant downtown must be built on the foundation of strong, sustainable businesses. Let's not be short-sighted. Decisions like this risk doing long-term damage. The result will be vacant storefronts and a weaker downtown core.

Sincerely,
Paul Leithold

Good Afternoon,

I'm reaching out in regards to the bike lanes being proposed on 3rd and 4th Streets. Working off of 2nd Street this has been an immense challenge for many. Daily Semi's do not have enough room to turn onto other streets, people turning onto 2nd Street have issues with blind spots and can't see oncoming traffic along with semis halting traffic. Homeless camp out in the big lane, elderly and out of downers drug in the bike lane, you have business with seating areas outdoors that I've witnessed almost getting clipped. I'm greatly concerned with the proposal of bike lanes in even more narrow areas on 3rd and 4th Streets as it's already tight with parking and when semi's come through. Not to mention the parking issue this will cause for many businesses and patrons. Please don't let these concerns fall on deaf ears. I appreciate your time.

Dear Members of the La Crosse City Council and Mayor of La Crosse,

I am writing to formally express my strong opposition to the proposal of adding bicycle lanes to 3rd and 4th Streets in downtown La Crosse.

As a concerned constituent, I believe that removing driving lanes or parking spaces on these primary north-south corridors will negatively impact our city in several ways. This email is being sent to be part of the public record in opposition to any ongoing consideration for bicycle lanes on either 3rd or 4th streets downtown La Crosse. Below are just a few of the reasons to stop considering these unnecessary and unwanted bicycle lanes on either street, in addition to the public simply doesn't want them.

Traffic Congestion: 3rd and 4th Streets are essential arteries for vehicle traffic. Reducing capacity will lead to increased congestion and longer commute times for residents and visitors.

Economic Impact on Small Businesses: Local businesses depend on convenient parking and easy access for customers. Eliminating parking or complicating navigation will hurt the vibrancy of our downtown economy.

Public Safety: Mixing high-volume vehicular traffic with bicycle lanes on these specific narrow corridors creates unnecessary risks for both drivers and cyclists AND the handicapped, elderly, and others that rely on parking close to their destinations.

Alternative Routes: There are safer, more suitable parallel streets that can accommodate bicycle infrastructure without disrupting the main commercial and transit flow of the downtown area. I urge you to prioritize the existing infrastructure and the needs of the business community by voting against any bicycle lane expansion on 3rd and 4th Streets.

Thank you for your time and for your service to our community. I look forward to hearing when this topic is no longer is in consideration.

Thank you,

Sara Gray

Subject: Bike Lanes Downtown

Some people who received this message don't often get email from rasmusse.evan@gmail.com. Learn why this is important

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Good morning,

The process of gathering options for road changes from the professionals who know what they're doing is an involved one. It takes time to do, and I respect the experience and research that goes into it. The DOT, the city, the bike/ped committee, and many other groups work hard to give the information in a clear and timely manner. These organizations hold public input sessions, meetings, send out surveys to collect public input, only to get a limited amount of feedback through the process.

But now that we're down to a decision and vote, everybody has an opinion and many people feel as if they have not been informed of a huge project affecting their city. Many people will use their own anecdotes and experiences as the primary and only source for their opinion of how 3rd and 4th street should be rebuilt.
A simple fact is yes it is important to get public input and build this project according to the residents expectations, and yes we should use the professional research done by people much more experienced than all of us to say "Studies show that....".

Simply allowing downtown business owners or city residents to say "I NEVER see anybody using the bike lanes, why build them" is not a justification for eliminating the cycle track or separated bike lanes as options from this project because that statement is not true. I myself along with many fellow bikers use the bike lanes on Second Street on a weekly basis during favorable weather, and would like to expand the season in which I feel comfortable riding during the winter. Here I go using "my own anecdotes" as my primary source :-) but I also appreciate all of the research that has been done on bike-friendly towns around the state and US.

Please keep the options with the bike lanes on the table for the 3rd/4th St project.

Thanks for reading,

--

Dear Members of the City Council and Mayor of La Crosse,

I am writing to you today regarding the ongoing discussions concerning the implementation of bicycle lanes on **3rd and 4th Streets**.

While I want to be clear that I/we support bicycling as a mode of transportation and recreation in our city, I am writing to strongly urge the Council and the Mayor's office to **cease further consideration of bike lanes for these specific 3rd and 4th street corridors.**

The opposition to this proposal is significant and well-documented. Please consider the following points:

- **Public Consensus:** Nearly **4,000 individuals** have signed a recent petition opposing this project, accompanied by numerous public comments expressing concern.
- A member of the council has recently publicly stated that social media is not the place to voice our opinions (though somehow ongoing radio discussions is?), that is unfortunately a very limited antiquated view. Social media is precisely the place for public discourse in many instances, this subject being one of them. You need simply look at recent social media in our area to view the MANY comments strongly opposing adding bicycle lanes to 3rd or 4th street.
- **Business Impact:** I have attached the official statement from **Downtown Mainstreet**, which outlines the serious concerns of the local business community. To ignore the voices of the affected property owners and merchants who drive our local economy would be a disservice to the district.
- **Redundancy:** There are already established bicycle lanes within two blocks of both 3rd and 4th Streets. Adding more lanes to these specific streets is redundant and an inefficient use of limited municipal financial resources.
- **Representation:** City leadership has a responsibility to represent the broad will of the public. Continuing to push this initiative/narrative at the request of a few vocal individuals—some of whom may have a vested interest—while ignoring the clear majority of residents and stakeholders is irresponsible.

The voices of your constituents are clear: the majority of the public does not want bicycle lanes on 3rd and/or 4th streets in any way shape or form. We implore you to listen to the people you represent and put an end to the ongoing attempt to add bicycle lanes to 3rd or 4th Streets. I/we certainly hope individuals are not pursuing personal passion projects instead of listening to the will of their constituents and what is truly in the

best interest of the public at large. There are a significant number of issues that deserve attention and monies spent on vastly more than more bicycle lanes on unnecessary roads.

Thank you for your time and for your service to the City of La Crosse. Below my signature AND attached are the nearly 4,000 signatures opposing the bicycle lanes on 3rd and 4th, the Downtown Mainstreet statement, and the comments from numerous individuals that commented on the petition. The link to the petition is here so you can view for yourself exactly what they/we signed: https://c.org/zhnLG4sTRC

Sincerely,

Toby Farley

Falls WI 54615 United States 11/30/2025
"The Traffic is Slow Enough On 3rd & 4th Street, People
Can Ride With The Traffic. Also Parking On The Street
Would Be Cut Out, For People On Bicycles... How
About NO ! This is A Horible Idea, People Riding Bikes
John Loizzi La Crosse WI 54601 United States 11/30/2025
"Blind adherence to the “Complete Streets” agenda has
already cost businesses and residents alike. These plans
get proposed by zealous folks that ignore the negative
impacts to all our activities. Some plans gets pushed
jody simpson Madison WI 53719 United States 11/30/2025
"This is just ridiculous when then added the bike lanes
to 2nd st in front of the La Crosse Center. Its a sore eye
already. The bike lanes should have been added on 1st
st. Everyone already has drove down the bike lane
accidentally & it looks horrible. Why do they need that
much space. And be is biking in the winter right now
anyways? Then to take away from small businesses.
This is not necessary & is a waste of tax payers money
Trisha Wessel Lacrescent MN 55947 United States 11/30/2025
"We already have bike lanes taking up driving lanes.
The bike lanes aren't even getting used that often.
Down town business are suffering as it is if you make
people pay to park to shop locally we will loose money
chatham moe Lacrosse WI 54603 United States 11/30/2025
"Bike lanes on 3rd and 4th street is the stupidest thing
they could do in down town 2nd street already has a
Emily jeffers Bangor WI 54614 United States 11/30/2025
"We need parking down there!! There's tons of shops
and restaurants down that it is already congested
enough as it is !! We need all the parking!! No one rides
Dayna
Ellenbecker San Jose CA 95113 United States 11/30/2025 "Businesses downtown will suffer!!!!"
Jacob
Sargeant Alexandria MN 56308 United States 11/30/2025
"I drive through town everyday and hardly ever see any
bikers but I always see cars filling the street. There is no
Eva V La Crosse WI 54601 United States 11/30/2025
"I am all for bike safety however this is already a
cramped area, and getting rid of vital street parking
Benjamin
Bachim La Crosse WI 54603 United States 11/30/2025
"I bike around La Crosse all the time, and I can
guarantee adding bike lanes on these streets will do
nothing for the people of La Crosse. All it will do is add
more dangerous congestion and strangle the already
struggling businesses downtown. I love biking, and I
Brian Feils La Crosse WI 54603 United States 12/1/2025
"There is only so much room on the streets of

downtown La Crosse. Between the cars and semi trucks that utilize these roads to commute and service our local businesses, this is essential to keep downtown thriving. Bike lanes do not need to take up the limited amount of space in our downtown. Further more, the 2nd street bike lanes need to me removed and relocate through riverside park which is a more appropriate route for bike traffic. It's shameful that as the weather
Joshua
Knetter La Crosse WI 54601 United States 12/1/2025
"There is much need for the parking that exists on those streets. Too many businesses that rely on entertainers who are often transporting their own equipment. The change would be devastating. Additionally, safety is a valid concern. Encouraging more bicycle traffic on these busy roads in crowded downtown is negligent. It seems more like the reason the city wants to get rid of all this parking is so that more people are using the parking ramp. But there are employees responsible for making downtown LA crosse what it is who get paid very little to begin with,
Jonathan
McKenzie La Crosse WI 54601 United States 12/1/2025
"My family and I make choices of what we do based in part on the total cost, as costs can add up quickly. We participate in the local economy as we are able to, not to mention the property taxes we also already pay. Costly or inconvenient barriers like this proposal will simply keep us from participating and enjoying the parts of our city where it currently is accessible. While I do not have all the answers for city budgeting, I do believe that parking should be free and accessible to all downtown. Bicycles are already considered "vehicles" that must use existing infrastructure equally as any
Kyle Cross Stoddard WI 54658 United States 12/1/2025
"This is one of many idiodic ideas coming from our political leaders in the area. I understand that the lack of accountability at the higher level kind of makes it harder to have a stable understanding of what is going on beneath you. But its bad enough already that parking is almost unreasonable downtown. I am not parking half way accross downtown just to go out to eat. That is not what I pay local tax for, let alone that road all the way through downtown ruining my vehicles. You have bigger fish to fry and you are worrying about bycicles needing to go through downtown? Through the busiest area? I think you must have stepped on one of the many needles sitting downtown as well. I am not meaning to be condesending as much as I can, but one terrible

decision after the next. I could do a better job at running this city than you are at this very moment. You are affixiating the wrong things. You need to focus on the needs of the community. That may be what your wealthy elites that fund the city need, but not what we,
Dylan Chapes La Crosse WI 54601 United States 12/1/2025
"There are enough bike lanes. Keep downtown parking so businesses and consumers aren't impacted."
Oliver Krett Onalaska WI 54650 United States 12/1/2025
"La Crosse's north/south corridors are already very stressed. Focus on solutions that serve everybody, not the minority of people who bike through downtown during the months when it is possible. There are plenty
Elizabeth
Mitchell United States 12/1/2025
"We just lost parking on 6th st downtown with a bike lane added. And on 2nd. People can bike. But downtown is losing storefronts. Look how many now.
Quentin
Kathan La Crescent MN 55947 United States 12/1/2025
"What's wrong with just fixing the roads as they are and using it as it is intended? The bikers who follow the rules of the road do not need a bike path showing them what they already know. The rest of the bikers do not
Bob Covey La Crosse WI 54601 United States 12/1/2025
"Bicyclists can go one block over and use Second Street Bike Lane which is super wide for crying out loud. How about using this money for the proposed bike Lanes and put it towards fixing 3rd and 4th Street roads. They
Randy
Bakkestuen La Crosse WI 54601 United States 12/1/2025
"I've been in this city for over 30 years and a home owner for almost 25. I've raised children and still have young children that I take bicycle rides with. We don't need to be riding bicycles in the downtown area. It
Megan K La Crosse WI 54603 United States 12/1/2025
"Enough with the bike lane obsession. Taking away street parking just to force people to pay for parking ramps that are often filled with unhinged homeless people is greedy and unsafe. None of this is conducive to bringing business downtown. And there cannot
Martin `
Holub La Crescent MN 55947 United States 12/1/2025
"The second street bike lane has reduced access to businesses for those who have Mobility challenges it has also hurt businesses for spontaneous clients that may patronize a business that in the cold winter aren't going to walk to a parking ramp but they'll stop over for a quick visit into a business. the bike Lanes have also reduced access to the La Crosse Center and made it less

accessible and it has reduced parking downtown on the street which helps make downtown more vibrant and businesses more supported... the reality is people don't necessarily want to park in parking ramps if they're downtown for a short time so we are hurting our businesses and putting bike lanes on 3rd and 4th Street will kill downtown. It's unbelievable that the city council and Mayor in La Crosse would rather destroy the city based on fallacies of bike lanes in the Upper
Aaron
Thompson Onalaska WI 54650 United States 12/1/2025
"We do not need additional bike lanes in downtown La Crosse. The congestion is bad enough, and parking would be even worse than it currently is. Work on fixing
Leo Pedretti Albert Lea MN 56007 United States 12/1/2025
"I have never seen anyone use that bike lane, ever. Feels wasteful we've literally boarded up our parks. Can we put the money into policing our community and
Shelby
Phillips La Crosse WI 54601 United States 12/1/2025
"We aren't in Copenhagen—this isn't a town or climate where year-round biking is feasible. They already have a 2nd Street bike lane that 99.99% of people opposed anyway—3rd and 4th Streets are congested enough without bicyclists complicating that. Where bike lanes go up, traffic flow goes down, and berms make roads less safe for emergency vehicles to get by, and more
Kae Deal La Crosse WI 54601 United States 12/1/2025 "I haven't seen anyone using them bike lanes. It
Janell Hull La Crosse WI 54601 United States 12/1/2025
"There is a bike lane on second street, (west side) which is seldom used. Makes it almost impossible for guests to park and deliveries have to park on the east
Neil Bolstad la crosse WI 54603 United States 12/1/2025
"LaCrosse has a bunch of bike lanes that no one uses already. Plus there is a bike path downtown that no one
Alycia Bilbrey Minot ND 58701 United States 12/2/2025 "I agree with this make it happen"
Dane Melby La Crosse WI 54601 United States 12/2/2025
"There is questionable need/use for this. Personally I think they should do away with parking on Front St and make that a "bike boulevard" sharing it with cars...that can't park there or possibly only on the west(river) side. Keep the ramps affordable 24/7 and 3rd st should only have parking on the east side and 4th st only on the
James Hass La Crosse WI 54601 United States 12/2/2025
"This is by far the dumbest thing city of La crosse is trying to do... not only will it make it harder for people to park down town but it will congested the roads downtown, making it more difficult for big truck drivers to navigate downtown and that will drastically hurt
Patricia

Ottum Westby WI 54667 United States 12/2/2025
"It is always a challenge to find parking on these streets. Removing parking would eventually remove
Chandler
Mathis La Crosse WI 54601 United States 12/2/2025
"Because we need parking and we're not going to be forced to pay for it."
Derek
Andrjeski La Crosse WI 54601 United States 12/2/2025
"Bike lanes on 3rd and 4th Streets are a foolish proposition... almost as 'useful' as the ones on 2nd St, where I've seen a handful of bikes over the last two
Patricia
Emery Onalaska WI 54650 United States 12/2/2025
"Having bike lanes on 2nd St and 6th St is a safe way for bikes to navigate downtown and allow auto traffic to flow smoother on 3rd and 4th and keep the parking
Pam Tarjeson
Trempealea
u WI 54661 United States 12/2/2025
"Adding bike lanes on 3rd and 4th reduces the number of parking spaces and will negativity impact the businesses. Parking downtown is already an issues. There have been multiple occassion where I had planned to stop at a downtown shop and couldn't find a
Dawson
Goodness West Salem WI 54669 United States 12/2/2025
"Another bike lane is ridiculous. No need for it whatsoever!"
Jennifer
Geisinger Roseville MN 55113 United States 12/2/2025
"I have been going to Jules coffee since I was a student in 1993. I currently live in Seattle and whenever I am back in Wisconsin we always visit downtown, and parking had always been an issue. I am also disabled, and having a reduced amount of street parking makes shopping downtown less accessible for everyone. This bike lane proposal seems to be nonsensical, and will
Justin Walsh West Salem WI 54669 United States 12/2/2025
"The current bike lanes aren't even being used! Why must the city constantly waste tax payers money?"
Scott
Bradford Onalaska WI 54650 United States 12/2/2025
"Already narrow streets and limited convenient parking continues to strangle downtown businesses. While I love downtown, I am hesitant to move my office due to
Richard
Beirne LaCrosse WI 54601 United States 12/3/2025
"Downtown is now more important than ever. Why damage those businesses that have survived? We

already have a ridiculous bike lane on Second street
Alex Vidal West Salem WI 54669 United States 12/3/2025 "Enough with the bike lanes. Work on adding park.
Tracy
Monahan Holmen WI 54636 United States 12/3/2025
"Absolutely ridiculous idea. Downtown streets need to
be torn up and re-done. Completely dangerous to add
bike lanes on 3rd and 4th. Add them to 2nd and 5th if
Jeffrey
Hotson La Crosse WI 54601 United States 12/3/2025 "very little gain for high cost"
Stacy Steinke Bangor WI 54614 United States 12/3/2025
"Adding another bike lane is ridiculous. This is already a
difficult road for truckers or any driver to navigate and
now with the dumb bump outs, it's even more difficult.
I thankfully don't live in La Crosse but work downtown.
I go to work and I leave and try to avoid coming back
downtown on the weekends because of lack of parking
and I don't feel safe parking in the ramps. Maybe
Darren Kinder La Crosse WI 54603 United States 12/3/2025
"Unless my map skills are off, I think 3rd and 4th Sts
north of Cass are US Hwy 53. There is no need to cause
residential, commercial, pedestrian, and bicycle
bottleneck non-sense when the motor vehicle traffic far
exceeds that of bicycle traffic. Cyclists have the right to
Martin `
Holub La Crescent MN 55947 United States 12/4/2025
"Bike lanes hurt small businesses and mobility
challenged! They are going to kill downtown. Remove
Bill Sanderson La Crosse WI 54603 United States 12/4/2025
"Maybe we need to fix these streets so we can drive on
them without worrying about knocking the front end
alignment out before we worry about bike lanes. These
Christian
Pytlik La Crosse WI 54601 United States 12/4/2025 "No bike lane!"
Jan Grapes La Crosse WI 54601 United States 12/4/2025
"All though I bike around LaCrosse, I don't believe bike
lanes on 3rd & 4th Street is necessary. For one it will
reduce parking for cars; which I do drive downtown and
already sometimes I can't fine parking close to where I
Sue Lassig La Crosse WI 54601 United States 12/4/2025
"Bikers aren't even using the designated lanes now, so
why would we approve seen more. 2nd street is
designated and I have seen a bike 1 time in the lane and
Leah Prentice La Crosse WI 54603 United States 12/5/2025
"I feel that a bike lane would damage the businesses
down town. The parking is very hard to find now. The
delivery drivers Would have a problem getting the
products to the establishments. On the other side of
this bike lane Our roads are unsafe for pedestrians,
drivers, vehicles, traffic control and the traffic lights are
all not timed properly. You can't have the community

be improved or the environment improved if we don't have safe driving conditions and not enough parking, The roads need to be maintained for our businesses
Matthew
Weiske La Crosse WI 54601 United States 12/5/2025
"as if crossing 3rd & 4th Streets in my wheelchair isn't hard enough already. Let's add bike lanes to make it
Joe Rox la crosse WI 54601 United States 12/5/2025
"We do not need bike lanes on 3rd and 4th street. There are plenty of other places to add bike
Sierra Kliscz Onalaska WI 54650 United States 12/12/2025
"As a small business owner downtown one of the biggest issue is parking. Being the existing bike lanes are massively underused I feel the issue is a mute point and
Olivia
Catherine La Crosse WI 54601 United States 12/15/2025
"Parking is limited enough. Bike lanes are a waste of tax dollars, I've never in all my time of seeing the new bike lanes, EVER have seen any bikers use it, they just ride in the road like everyone does downtown. Making issues like this important over community gathering spaces or

Downtown Mainstreet statement:

Dear Council,
I am writing you as the Executive Director of Downtown Mainstreet, Inc. representing over 150 business owners/operators in our downtown commercial district.
Downtown businesses overwhelmingly DO NOT support bike lanes. This is evident through the WisDOT survey with 108 responses at 82% voting for wider sidewalks.
Please consider the following before making your decision this evening:
1. This response rate is massive (over 20% of total businesses). In comparison and in terms of ratio, a 20% response rate from the public would be 8,000 citizens.
2. Downtown is a commercial corridor. The public response does not consider business function (delivery of goods, takeout food, handicap access, etc).
3. Businesses are currently paying parking assessments.
4. There are existing bike lanes on 2nd and 6th Streets that provide access to downtown.
5. Other than bump-outs, neither alternative has really addressed the 20 high-stress pedestrian crossings pointed out in WisDOT's plans.
6. Businesses are going to struggle during construction and need to operate with better tools/access afterward, not less.
7. Businesses create tax revenue for the City and will close or divest if they aren't making a profit or have too many variables working against them.
8. Brick-and-mortar businesses have enough competition (online, Onalaska big-box stores, etc.) they don't need less support, they need more.
9. Bike Lanes are not working with existing shopping patterns (curbside parking) but sacrificing them for street space that is used seasonally/sparingly.
I know Council is receiving a lot of communication regarding this topic. Ultimately, I believe all of you will use sound judgement and understand that downtown isn't just another set of streets

to pave but a functioning business district that needs a variety of access points to operate effectively.
Thank you,
Chad Honeycutt
Executive Director
Downtown Mainstreet, Inc.

Name	City	State	Postal Code	Country	Commented Date	Comment
Maggie Justice	Rochester	MN	55901	United Sta	11/26/2025	"Downtown parking is already scarce and expensive. Leep the roadways uncomplicated. Many drivers struggle with going the wrong way down the one-way
Michael Margulis	st. charles	MO	63303	United Sta	11/26/2025	"Downtown businesses have suffered enough. Suburbs die if the Downtown dies."
Michelle Arttus	Sparta	WI	54656	United Sta	11/27/2025	"I had not been downtown lacrosse in awhile, went on 2nd st recently, so bizarre with the bike lanes and very kaotic and not needed. I could not imagine them on 3rd and 4th. I agree about the impact it could take on the businesses. Also, as a biker myself, I like the freedom of
Cody Connelly	Black River Falls	WI	54615	United Sta	11/30/2025	"The Traffic is Slow Enough On 3rd & 4th Street, People Can Ride With The Traffic. Also Parking On The Street Would Be Cut Out, For People On Bicycles... How About NO ! This is A Horible Idea, People Riding Bikes
John Loizzi	La Crosse	WI	54601	United Sta	11/30/2025	"Blind adherence to the “Complete Streets” agenda has already cost businesses and residents alike. These plans get proposed by zealous folks that ignore the negative impacts to all our activities. Some plans gets pushed
jody simpson	Madison	WI	53719	United Sta	11/30/2025	"This is just ridiculous when then added the bike lanes to 2nd st in front of the La Crosse Center. Its a sore eye already. The bike lanes should have been added on 1st st. Everyone already has drove down the bike lane accidentally & it looks horrible. Why do they need that much space. And be is biking in the winter right now anyways? Then to take away from small businesses. This is not necessary & is a waste of tax payers money
Trisha Wessel	Lacrescent	MN	55947	United Sta	11/30/2025	"We already have bike lanes taking up driving lanes. The bike lanes aren't even getting used that often. Down town business are suffering as it is if you make people pay to park to shop locally we will loose money
chatham moe	Lacrosse	WI	54603	United Sta	11/30/2025	"Bike lanes on 3rd and 4th street is the stupidest thing they could do in down town 2nd street already has a
Emily jeffers	Bangor	WI	54614	United Sta	11/30/2025	"We need parking down there!! There's tons of shops and restaurants down that it is already congested enough as it is !! We need all the parking!! No one rides
Dayna Ellenbecker	San Jose	CA	95113	United Sta	11/30/2025	"Businesses downtown will suffer!!!!"
Jacob Sargeant	Alexandria	MN	56308	United Sta	11/30/2025	"I drive through town everyday and hardly ever see any bikers but I always see cars filling the street. There is no
Eva V	La Crosse	WI	54601	United Sta	11/30/2025	"I am all for bike safety however this is already a cramped area, and getting rid of vital street parking

Benjamin Bachim	La Crosse	WI	54603	United Sta	11/30/2025	"I bike around La Crosse all the time, and I can guarantee adding bike lanes on these streets will do nothing for the people of La Crosse. All it will do is add more dangerous congestion and strangle the already struggling businesses downtown. I love biking, and I
Brian Feils	La Crosse	WI	54603	United Sta	12/1/2025	"There is only so much room on the streets of downtown La Crosse. Between the cars and semi trucks that utilize these roads to commute and service our local businesses, this is essential to keep downtown thriving. Bike lanes do not need to take up the limited amount of space in our downtown. Further more, the 2nd street bike lanes need to me removed and relocate through riverside park which is a more appropriate route for bike traffic. It's shameful that as the weather
Joshua Knetter	La Crosse	WI	54601	United Sta	12/1/2025	"There is much need for the parking that exists on those streets. Too many businesses that rely on entertainers who are often transporting their own equipment. The change would be devastating. Additionally, safety is a valid concern. Encouraging more bicycle traffic on these busy roads in crowded downtown is negligent. It seems more like the reason the city wants to get rid of all this parking is so that more people are using the parking ramp. But there are employees responsible for making downtown LA crosse what it is who get paid very little to begin with,
Jonathan McKenzie	La Crosse	WI	54601	United Sta	12/1/2025	"My family and I make choices of what we do based in part on the total cost, as costs can add up quickly. We participate in the local economy as we are able to, not to mention the property taxes we also already pay. Costly or inconvenient barriers like this proposal will simply keep us from participating and enjoying the parts of our city where it currently is accessible. While I do not have all the answers for city budgeting, I do believe that parking should be free and accessible to all downtown. Bicycles are already considered "vehicles" that must use existing infrastructure equally as any

Kyle Cross	Stoddard	WI	54658	United Sta	12/1/2025	"This is one of many idiodic ideas coming from our political leaders in the area. I understand that the lack of accountability at the higher level kind of makes it harder to have a stable understanding of what is going on beneath you. But its bad enough already that parking is almost unreasonable downtown. I am not parking half way accross downtown just to go out to eat. That is not what I pay local tax for, let alone that road all the way through downtown ruining my vehicles. You have bigger fish to fry and you are worrying about bycicles needing to go through downtown? Through the busiest area? I think you must have stepped on one of the many needles sitting downtown as well. I am not meaning to be condesending as much as I can, but one terrible decision after the next. I could do a better job at running this city than you are at this very moment. You are affixiating the wrong things. You need to focus on the needs of the community. That may be what your wealthy elites that fund the city need, but not what we,
Dylan Chapes	La Crosse	WI	54601	United Sta	12/1/2025	"There are enough bike lanes. Keep downtown parking so businesses and consumers aren't impacted."
Oliver Krett	Onalaska	WI	54650	United Sta	12/1/2025	"La Crosse's north/south corridors are already very stressed. Focus on solutions that serve everybody, not the minority of people who bike through downtown during the months when it is possible. There are plenty
Elizabeth Mitchell				United Sta	12/1/2025	"We just lost parking on 6th st downtown with a bike lane added. And on 2nd. People can bike. But downtown is losing storefronts. Look how many now.
Quentin Kathan	La Crescent	MN	55947	United Sta	12/1/2025	"What's wrong with just fixing the roads as they are and using it as it is intended? The bikers who follow the rules of the road do not need a bike path showing them what they already know. The rest of the bikers do not
Bob Covey	La Crosse	WI	54601	United Sta	12/1/2025	"Bicyclists can go one block over and use Second Street Bike Lane which is super wide for crying out loud. How about using this money for the proposed bike Lanes and put it towards fixing 3rd and 4th Street roads. They
Randy Bakkestuen	La Crosse	WI	54601	United Sta	12/1/2025	"I've been in this city for over 30 years and a home owner for almost 25. I've raised children and still have young children that I take bicycle rides with. We don't need to be riding bicycles in the downtown area. It
Megan K	La Crosse	WI	54603	United Sta	12/1/2025	"Enough with the bike lane obsession. Taking away street parking just to force people to pay for parking ramps that are often filled with unhinged homeless people is greedy and unsafe. None of this is conducive to bringing business downtown. And there cannot

Martin ` Holub	La Crescent	MN	55947	United Sta	12/1/2025	"The second street bike lane has reduced access to businesses for those who have Mobility challenges it has also hurt businesses for spontaneous clients that may patronize a business that in the cold winter aren't going to walk to a parking ramp but they'll stop over for a quick visit into a business. the bike Lanes have also reduced access to the La Crosse Center and made it less accessible and it has reduced parking downtown on the street which helps make downtown more vibrant and businesses more supported... the reality is people don't necessarily want to park in parking ramps if they're downtown for a short time so we are hurting our businesses and putting bike lanes on 3rd and 4th Street will kill downtown. It's unbelievable that the city council and Mayor in La Crosse would rather destroy the city based on fallacies of bike lanes in the Upper
Aaron Thompson	Onalaska	WI	54650	United Sta	12/1/2025	"We do not need additional bike lanes in downtown La Crosse. The congestion is bad enough, and parking would be even worse than it currently is. Work on fixing
Leo Pedretti	Albert Lea	MN	56007	United Sta	12/1/2025	"I have never seen anyone use that bike lane, ever. Feels wasteful we've literally boarded up our parks. Can we put the money into policing our community and
Shelby Phillips	La Crosse	WI	54601	United Sta	12/1/2025	"We aren't in Copenhagen—this isn't a town or climate where year-round biking is feasible. They already have a 2nd Street bike lane that 99.99% of people opposed anyway—3rd and 4th Streets are congested enough without bicyclists complicating that. Where bike lanes go up, traffic flow goes down, and berms make roads less safe for emergency vehicles to get by, and more
Kae Deal	La Crosse	WI	54601	United Sta	12/1/2025	"I haven't seen anyone using them bike lanes. It
Janell Hull	La Crosse	WI	54601	United Sta	12/1/2025	"There is a bike lane on second street, (west side) which is seldom used. Makes it almost impossible for guests to park and deliveries have to park on the east
Neil Bolstad	la crosse	WI	54603	United Sta	12/1/2025	"LaCrosse has a bunch of bike lanes that no one uses already. Plus there is a bike path downtown that no one
Alycia Bilbrey	Minot	ND	58701	United Sta	12/2/2025	"I agree with this make it happen"
Dane Melby	La Crosse	WI	54601	United Sta	12/2/2025	"There is questionable need/use for this. Personally I think they should do away with parking on Front St and make that a "bike boulevard" sharing it with cars...that can't park there or possibly only on the west(river) side. Keep the ramps affordable 24/7 and 3rd st should only have parking on the east side and 4th st only on the
James Hass	La Crosse	WI	54601	United Sta	12/2/2025	"This is by far the dumbest thing city of La crosse is trying to do... not only will it make it harder for people to park down town but it will congested the roads downtown, making it more difficult for big truck drivers to navigate downtown and that will drastically hurt

Patricia Ottum	Westby	WI	54667	United Sta	12/2/2025	"It is always a challenge to find parking on these streets. Removing parking would eventually remove
Chandler Mathis	La Crosse	WI	54601	United Sta	12/2/2025	"Because we need parking and we're not going to be forced to pay for it."
Derek Andrjeski	La Crosse	WI	54601	United Sta	12/2/2025	"Bike lanes on 3rd and 4th Streets are a foolish proposition... almost as 'useful' as the ones on 2nd St, where I've seen a handful of bikes over the last two
Patricia Emery	Onalaska	WI	54650	United Sta	12/2/2025	"Having bike lanes on 2nd St and 6th St is a safe way for bikes to navigate downtown and allow auto traffic to flow smoother on 3rd and 4th and keep the parking
Pam Tarjeson	Trempealeau	WI	54661	United Sta	12/2/2025	"Adding bike lanes on 3rd and 4th reduces the number of parking spaces and will negativity impact the businesses. Parking downtown is already an issues. There have been multiple occassion where I had planned to stop at a downtown shop and couldn't find a
Dawson Goodness	West Salem	WI	54669	United Sta	12/2/2025	"Another bike lane is ridiculous. No need for it whatsoever!"
Jennifer Geisinger	Roseville	MN	55113	United Sta	12/2/2025	"I have been going to Jules coffee since I was a student in 1993. I currently live in Seattle and whenever I am back in Wisconsin we always visit downtown, and parking had always been an issue. I am also disabled, and having a reduced amount of street parking makes shopping downtown less accessible for everyone. This bike lane proposal seems to be nonsensical, and will
Justin Walsh	West Salem	WI	54669	United Sta	12/2/2025	"The current bike lanes aren't even being used! Why must the city constantly waste tax payers money?"
Scott Bradford	Onalaska	WI	54650	United Sta	12/2/2025	"Already narrow streets and limited convenient parking continues to strangle downtown businesses. While I love downtown, I am hesitant to move my office due to
Richard Beirne	LaCrosse	WI	54601	United Sta	12/3/2025	"Downtown is now more important than ever. Why damage those businesses that have survived? We already have a ridiculous bike lane on Second street
Alex Vidal	West Salem	WI	54669	United Sta	12/3/2025	"Enough with the bike lanes. Work on adding park.
Tracy Monahan	Holmen	WI	54636	United Sta	12/3/2025	"Absolutely ridiculous idea. Downtown streets need to be torn up and re-done. Completely dangerous to add bike lanes on 3rd and 4th. Add them to 2nd and 5th if
Jeffrey Hotson	La Crosse	WI	54601	United Sta	12/3/2025	"very little gain for high cost"
Stacy Steinke	Bangor	WI	54614	United Sta	12/3/2025	"Adding another bike lane is ridiculous. This is already a difficult road for truckers or any driver to navigate and now with the dumb bump outs, it's even more difficult. I thankfully don't live in La Crosse but work downtown. I go to work and I leave and try to avoid coming back downtown on the weekends because of lack of parking and I don't feel safe parking in the ramps. Maybe

Darren Kinder	La Crosse	WI	54603	United Sta	12/3/2025	"Unless my map skills are off, I think 3rd and 4th Sts north of Cass are US Hwy 53. There is no need to cause residential, commercial, pedestrian, and bicycle bottleneck non-sense when the motor vehicle traffic far exceeds that of bicycle traffic. Cyclists have the right to
Martin ` Holub	La Crescent	MN	55947	United Sta	12/4/2025	"Bike lanes hurt small businesses and mobility challenged! They are going to kill downtown. Remove
Bill Sanderson	La Crosse	WI	54603	United Sta	12/4/2025	"Maybe we need to fix these streets so we can drive on them without worrying about knocking the front end alignment out before we worry about bike lanes. These
Christian Pytlik	La Crosse	WI	54601	United Sta	12/4/2025	"No bike lane!"
Jan Grapes	La Crosse	WI	54601	United Sta	12/4/2025	"All though I bike around LaCrosse, I don't believe bike lanes on 3rd & 4th Street is necessary. For one it will reduce parking for cars; which I do drive downtown and already sometimes I can't fine parking close to where I
Sue Lassig	La Crosse	WI	54601	United Sta	12/4/2025	"Bikers aren't even using the designated lanes now, so why would we approve seen more. 2nd street is designated and I have seen a bike 1 time in the lane and
Leah Prentice	La Crosse	WI	54603	United Sta	12/5/2025	"I feel that a bike lane would damage the businesses down town. The parking is very hard to find now. The delivery drivers Would have a problem getting the products to the establishments. On the other side of this bike lane Our roads are unsafe for pedestrians, drivers, vehicles, traffic control and the traffic lights are all not timed properly. You can't have the community be improved or the environment improved if we don't have safe driving conditions and not enough parking, The roads need to be maintained for our businesses
Matthew Weiske	La Crosse	WI	54601	United Sta	12/5/2025	"as if crossing 3rd & 4th Streets in my wheelchair isn't hard enough already. Let's add bike lanes to make it
Joe Rox	la crosse	WI	54601	United Sta	12/5/2025	"We do not need bike lanes on 3rd and 4th street. There are plenty of other places to add bike
Sierra Kliscz	Onalaska	WI	54650	United Sta	12/12/2025	"As a small business owner downtown one of the biggest issue is parking. Being the existing bike lanes are massively underused I feel the issue is a mute point and
Olivia Catherine	La Crosse	WI	54601	United Sta	12/15/2025	"Parking is limited enough. Bike lanes are a waste of tax dollars, I've never in all my time of seeing the new bike lanes, EVER have seen any bikers use it, they just ride in the road like everyone does downtown. Making issues like this important over community gathering spaces or

DOWNTOWN LACROSSE
DOWNTOWN MAINSTREET, INC.

Dear Council,

I am writing you as the Executive Director of Downtown Mainstreet, Inc. representing over 150 business owners/operators in our downtown commercial district.

Downtown businesses overwhelmingly DO NOT support bike lanes. This is evident through the WisDOT survey with 108 responses at 82% voting for wider sidewalks.

Please consider the following before making your decision this evening:

1. This response rate is massive (over 20% of total businesses). In comparison and in terms of ratio, a 20% response rate from the public would be 8,000 citizens.
2. Downtown is a commercial corridor. The public response does not consider business function (delivery of goods, takeout food, handicap access, etc).
3. Businesses are currently paying parking assessments.
4. There are existing bike lanes on 2nd and 6th Streets that provide access to downtown.
5. Other than bump-outs, neither alternative has really addressed the 20 high-stress pedestrian crossings pointed out in WisDOT's plans.
6. Businesses are going to struggle during construction and need to operate with better tools/access afterward, not less.
7. Businesses create tax revenue for the City and will close or divest if they aren't making a profit or have too many variables working against them.
8. Brick-and-mortar businesses have enough competition (online, Onalaska big-box stores, etc.) they don't need less support, they need more.
9. Bike Lanes are not working with existing shopping patterns (curbside parking) but sacrificing them for street space that is used seasonally/sparingly.

I know Council is receiving a lot of communication regarding this topic. Ultimately, I believe all of you will use sound judgement and understand that downtown isn't just another set of streets

to pave but a functioning business district that needs a variety of access points to operate effectively.

Thank you,

Chad Honeycutt
Executive Director
Downtown Mainstreet, Inc.

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Dear Council members and Tim,

I am a concerned business owner. We own our building in the heart of downtown La Crosse. We have invested a lot of our money in significant renovations. We are here every day. For 137 years our family's life's work has been this business in downtown La Crosse. We invest in and care about the community. We know our business and care about our customers.

Believe me when I tell you that removing street parking on 3rd and 4th streets will hurt our business in a big way. And the crazy thing is, it doesn't have to happen!

More than half of our customers travel to us in downtown La Crosse from outlying areas. La Crescent, West Salem, Onalaska, Westby, Holmen, Bangor, Sparta, Cashton, Winona et al. We are their destination, not a result of foot-traffic browsing. This is a good thing – bringing people to downtown La Crosse.

The talking point assertion that there are "3,000 parking spaces downtown" is a red herring. Parking ramps are a nice addition, but not a substitute for on-street parking. Why don't we create dedicated places in the parking ramps for bicycles? Someone physically able to bike downtown is certainly able to walk from a ramp to their destination. Drivers frequently have children, mobility concerns, or large packages to carry—making proximity far more important.

I do not understand why the idea of removing parking on these two streets is even being considered – it defies common sense. Just repave the streets!
The claim that bike lanes will be used year-round is not honest. While a very small number of hardy cyclists may ride a bit during winter months, the practical reality is that these lanes will be largely unused for a significant portion of the year. Meanwhile, the loss of parking will be permanent.

The harm this change will cause to our business—and to surrounding businesses—is undeniable, yet it appears to be ignored or dismissed. Long-standing businesses are being asked to absorb real, measurable losses to accommodate the vision of a very small, well-organized group. Either the consequences are not understood, or they are being disregarded.

A truly vibrant downtown must be built on the foundation of strong, sustainable businesses. Let's not be short-sighted. Decisions like this risk doing long-term damage. The result will be vacant storefronts and a weaker downtown core.

Sincerely,
Paul Leithold

Compelling evidence and research demonstrates that the benefits to bike lane installation and use are quite positive. In the following article from Sportworks, the robust response economically stands out.

Dear Members of the La Crosse City Council and Mayor of La Crosse,

I am writing to formally express my strong opposition to the proposal of adding bicycle lanes to 3rd and 4th Streets in downtown La Crosse.

As a concerned constituent, I believe that removing driving lanes or parking spaces on these primary north-south corridors will negatively impact our city in several ways. This email is being sent to be part of the public record in opposition to any ongoing consideration for bicycle lanes on either 3rd or 4th streets downtown La Crosse. Below are just a few of the reasons to stop considering these unnecessary and unwanted bicycle lanes on either street, in addition to the public simply doesn't want them.

Traffic Congestion: 3rd and 4th Streets are essential arteries for vehicle traffic. Reducing capacity will lead to increased congestion and longer commute times for residents and visitors.

Economic Impact on Small Businesses: Local businesses depend on convenient parking and easy access for customers. Eliminating parking or complicating navigation will hurt the vibrancy of our downtown economy.

Public Safety: Mixing high-volume vehicular traffic with bicycle lanes on these specific narrow corridors creates unnecessary risks for both drivers and cyclists AND the handicapped, elderly, and others that rely on parking close to their destinations.

Alternative Routes: There are safer, more suitable parallel streets that can accommodate bicycle infrastructure without disrupting the main commercial and transit flow of the downtown area. I urge you to prioritize the existing infrastructure and the needs of the business community by voting against any bicycle lane expansion on 3rd and 4th Streets.

Thank you for your time and for your service to our community. I look forward to hearing when this topic is no longer is in consideration.

Thank you,

Thomas Lane

Parking downtown is already hopeless. I dread trying to shop there. Have one street thru the downtown with a designated bike lane. And make it a street that is not the shopping district. You cannot widen most of the streets-especially 3rd and 4th. You

took away one whole side of 6th street. It was always parked full for church parking during mass. Did you ever check how many bikes were actually using 6th street? How many bikes use 6th street now!

Dear Members of the La Crosse City Council and Mayor of La Crosse,

I am writing to formally express my strong opposition to the proposal of adding bicycle lanes to 3rd and 4th Streets in downtown La Crosse.

As a concerned area resident, I believe that removing driving lanes or parking spaces on these busy and primary north-south corridors will negatively impact the city in several ways. I have already seen the disruption these lanes are causing on 2nd St. It is a challenge diving there these days and I NEVER see bikes down there on those designated lanes.

Below are just a few of the reasons to stop considering these unnecessary and unwanted bicycle lanes on either 3rd or 4th street.

Traffic Congestion: Both 3rd and 4th Streets are essential arteries for vehicle traffic. Reducing capacity will lead to increased congestion and longer commute times for residents and visitors.

Economic Impact on Small Businesses: Local businesses depend on convenient parking and easy access for customers. Eliminating parking or complicating navigation will hurt the vibrancy of our downtown economy. If you are looking for ways to negatively impact businesses downtown- this is the way. We should be looking for ways to support our downtown businesses.

Public Safety: Mixing high-volume vehicular traffic with bicycle lanes on these specific narrow corridors creates unnecessary risks for both drivers and cyclists.
You also put the handicapped, elderly, and others that rely on parking close to their destinations at a disadvantage. So now we risk having accessibility for those who need those downtown parking spaces removed or limited.

Alternative Routes: Even I know there are safer, more suitable parallel streets that can accommodate bicycle routes without disrupting the main traffic flow of the downtown area.

Lastly- The majority of the public simply does not want them.

I urge you to prioritize the needs and support of the business community by voting against any bicycle lane expansion on 3rd and 4th Streets.
Thank you for your time and for your service to our community. I look forward to hearing when this topic is no longer on the table of consideration.

This email is being sent to be part of the public record in opposition to any ongoing consideration for bicycle lanes on either 3rd or 4th streets downtown La Crosse.

Thank you,
Anna Fleming

Thesestreets are busy north/south Stare highwats.. for all climate vehicles.
Bicycles are a good weather recreational vehicle that doesn't control Hwator Cold etc.
Front Street is good for bikes connect trails a d scenic and safer...
Sidewalks... business entrances... doors are ordinance to open within building walls ... not into
Walkway... as Grand River Station 6 doors a d Belle Sq bank door does. Walkers safer.
Parking on both sides is nessasary for business to exist!
This just hits some reasons.
Thank You.

Dear Mayor and Council Members,

I am writing to express my opposition to the proposed bicycle lanes on 3rd and 4th. These streets are already tight and busy, and adding bike lanes would make them even more congested for residents, drivers, and local businesses.

I understand the desire to add a personal touch to the community and support cyclists, but I do not believe rerouting traffic or altering these particular streets is necessary. There are adjacent streets that are less busy and would be more suitable for bicycle traffic.

Additionally, many cyclists do not consistently follow traffic laws, which raises safety concerns when mixing them with heavy vehicle flow on these already crowded roads.

I hope you will consider the concerns of constituents who rely on these streets daily and reconsider this plan.

Thank you for your time and attention.

Sincerely, Kristin Fremstad

I am not in favor of our city spending any more money on bike lanes that so few people use to begin with. Regarding financials, if there is such a deficit, there should not be any more spending being done. You are bleeding the taxpayers dry! When are you going to understand that?

Hello Council members and Happy New Year. I'm writing to you today about the choice you have in the future of parking in downtown La Crosse. As you know from previous communications, I am very much opposed to the removal of any parking spaces in the downtown business district. The small businesses, of all types, that make up our downtown need these spaces to help make their business successful.

It has been noted that potentially 73 spaces will be removed. Some people think this is a small number. However when you consider these spaces, conservatively, turn over 3 times every single day, the parking opportunities lost are actually much, much greater. When parking becomes difficult or inconvenient consumers will simply stop supporting our downtown. I believe this is a very real threat to many of our locally owned establishments.

I know the time to vote is coming soon and once again I'm urging you to vote to maintain all parking on 3rd and 4th Streets.

Respectfully,

Kim Pretasky

Please do not put in bike lanes on 3rd or 4th street, I strongly oppose. If u want them downtown so bad put on 5th avenue, 2nd street bike lanes aren't used much and neither are other ones in this town. They are a hazard. Bikers don't usually stop at intersections and at this time of year I've seen many crawling on their routes with winter roads. They need
The parking downtown. Not everyone can walk distance from ramps to where they want with health issues.

Please don't do it. Thank you!

*** **CAUTION:** This email originated from an external sender. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe. ***

Hello my name is Cody. I've lived in West Salem & La Crosse my whole life. La Crosse/West Salem are my hometowns. I am writing this email to send my opinions and disagreements on the DOT proposed bike lanes downtown. Although some people might use them during oktoberfest and other city holidays, I do not feel we need to remove important parking spots along both sides of the street to accommodate the very small majority of people who would possibly use a bike lane. I think the city and DOT should keep ALL street parking currently downtown and make some handicap parking and widen the sidewalks for any bike traffic along with adding bike racks in parking ramps for any bikers to place and lock bikes when not using instead. We [citizens] do not want more bike lanes or want to be like New York City where parking and trying to get around town is harder.

I know I'm only one person among thousands, but opinions matter and I feel I should express my thoughts. Keep all on street parking and widen the sidewalks.

Thank you, Cody

Subject: Bike lanes on 3rd and 4th Street are bad for business

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Dear Members of the La Crosse City Council,

I am writing to express my concerns regarding the proposed addition of bike lanes on 3rd and 4th Streets in downtown La Crosse. While I support thoughtful infrastructure planning and recognize the value of bicycling in our community, I strongly believe that adding bike lanes on these particular streets would have unintended negative consequences for small businesses, parking availability, and overall downtown accessibility.

3rd and 4th Streets serve as critical north–south corridors through downtown and are heavily relied upon by residents, visitors, delivery vehicles, and local businesses. These streets are not only transportation routes but also essential access points for customers who depend on convenient, nearby parking. The proposed removal of on-street parking to accommodate bike lanes would significantly reduce access for patrons, particularly those making short visits, older residents, individuals with mobility challenges, and those traveling from outside the downtown area.

Small businesses in the downtown corridor depend heavily on visible, close-proximity parking to remain viable. Unlike large retailers with expansive parking lots, downtown shops and restaurants rely on customers being able to park nearby, run an errand, attend a meeting, or stop in briefly. Reducing or eliminating this parking risks discouraging customers and diverting business away from downtown, negatively impacting local economic activity.

Additionally, narrowing travel lanes or reconfiguring these streets could increase traffic congestion, complicate deliveries, and reduce overall efficiency for vehicles that must access downtown daily. 3rd and 4th Streets already carry a significant volume of traffic, and further constraints may make downtown less accessible and less inviting for residents and visitors alike.

It is also important to note that there are existing and alternative bike routes in close proximity that already provide access to downtown without requiring major changes to these primary corridors. Expanding or improving bicycle infrastructure on streets better suited for that purpose would allow the city to support cycling while preserving the functionality and economic health of our downtown core.

For these reasons, I respectfully urge the City Council to reconsider adding bike lanes on 3rd and 4th Streets and instead prioritize solutions that maintain on-street parking, support small businesses, and preserve easy access to downtown La Crosse. A balanced approach that meets transportation goals without harming local commerce and accessibility is essential.

Thank you for your time, consideration, and continued service to our community.

Sincerely,

Robert A Spencer

Subject: Bike Lane Update

*** **CAUTION:** This email originated from an external sender. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe. ***

Good afternoon everyone,

I'm writing in hopes that you can provide an update on this proposal. I looked on the City of La Crosse website, but didn't see any notes or agenda notes on this issue.

I was curious what the DOT came back with, are the 3rd and 4th street bike lanes officially off the table?

I cannot express enough my opposition to this. We are a local wine and liquor distributor in La Crosse, we've been doing business in La Crosse for almost 100 years. In order to service the downtown establishments that use our product, it is imperative that we have SAFE parking and accessibility to these establishments for our drivers. In order to do deliveries with large trucks, we need the street to park out front of the establishments to do deliveries, and the alleys are not an option. There isn't enough room to maneuver, turn the trucks around, or safely pull out a ramp. If 3rd and 4th street parking is not accessible for delivery drivers, they would be forced to park many blocks away, how are they supposed to deliver product to these establishments? They have to load over 300 pounds at a time onto a hand cart, they cannot walk that for multiple blocks in the snow, ice, rain, etc. and leave the trucks unattended (theft would be a big problem), sometimes they have over 100 cases to deliver. What would be your solution to that?

After the completion of the 2nd street bike lanes, we've heard nothing but complaints from our delivery drivers, semi drivers, and other folks about how difficult it is to either turn onto 2nd street, how narrow the road is now, and the strange poles sticking out of the ground are nothing more than a hazard. We cannot afford to have more bike lanes installed to hinder trucks and semis getting in and out of downtown SAFTLEY. Our business is located on Nelson Place behind Gundersen, just a few blocks from downtown. The bike lanes that are now on 2nd Street and Market are useless, I drive on 2nd street multiple times a day, and I very rarely see anyone on the bike lanes, even during the spring and winter months. The staging area for semis at 2nd and Market was completely taken away, and now they are staging in the street, which is extremely dangerous! Cars cannot see around them, pedestrians cannot see around the cars or the semis. Where are they supposed to wait to get into a dock?

Honestly, this seems like it's a proposal to indulge a few bicyclists so that they can enjoy their hobby. It's an expensive and very unnecessary project, I still haven't heard how this is supposed to make the businesses downtown more profitable and get more customers in the door? A large majority of the citizens seem very much against this. Aren't the bicycle lanes on 2nd street and 5th street enough for the very small amount of cyclists that we have?

Convenient parking is vital to our downtown businesses. This would only drive business north to more convenient locations in Onalaska and Holmen with better parking.

There is a large group of us that would like to come in and speak to the council about this issue, we are extremely concerned about how this would affect our day to day lives of doing business, I'm very worried about the safety of my employees, my trucks, my product, and theft.

Is there a meeting set up in February where we can come and be heard?

Thank you for your time,

Stephanie

Hello,
Please do not vote to put in bike lanes on 3rd and 4th. The businesses downtown on those streets need that parking! Elderly people and people with disabilities cannot park at the parking ramps and walk. If you want to revitalize it, fix the roads, don't add bike lanes. I work downtown and our clients often have a hard time finding parking. I know it's a WisDOT project so if there's someone there that I need to contact, I will. Please. A majority of the people in this city do NOT want more bike lanes. It's just not a good idea, especially on those major roads.
Thank you,
Cassie

Hello,
My thoughts on the proposed bike lanes downtown. Since La Crosse doesn't have a dedicated north south highway dedicated for traffic, I think your prosed changes to 3rd and 4th Streets for bike lanes are dangerous.
I do think the changes be addressed on a less busy street (closer to the college area could be changed to a one way with lane) connecting the 2nd street north south with an east west between the two.
Please dont mess with parking for your businesses downtown. Thanks for considering my thoughts.

Thanks and have a great day,
Elizabeth Douglas

*** CAUTION: This email originated from an external sender. DO NOT click links or open attachments unless you recognize the sender and know the content is safe. ***

Hi Lisa:

As a resident that lives 6 blocks from downtown and drives, bikes and walks downtown frequently. I cannot express enough how a round-a-bout (which are also getting a little excessive) and the bike lanes will hinder traffic on 3rd and 4th Street. Also, all parking downtown is turning into paid parking. It is already hard enough for out of town people and our older population to find parking that is not blocks from their preferred shopping location, but the Council is moving forward to removing even more parking which, as you stated, local businesses depend on convenient parking and easy access for customers.

The Council has already voted to raise our water bills (mine personally went from $76 to $123). Our property taxes due to delays (mine personally rose nearly $300), closing our parks without a solid solution or information, the City Administrator position that no one wants except the Mayor (for whom I voted for but not sure if that was a good decision) and now to move forward and now with the proposal of these improvements that do not benefit the City of La Crosse and I have spoken to numerous parties that do not approve this idea. It makes it hard to see what this City Council is actually doing for its citizens. I have yet to see any benefits in recent developments.

As with our current administration I feel most of these decision are politically charged and no one actually cares how the residents feel. This distrust in politics as a whole does not create a trust in any council, board, administration if the people who pay taxes do not see any benefit, whether that is being heard or to see a benefit to us for how are tax dollars are being spent.

Thank you for your consideration and time you take to serve these councils, however, maybe the focus should be on what the people want instead of decisions made in small groups to benefit only some in our community or to push an agenda that is only beneficial for status and power.

Sincerely,
Abigail Wojahn

It absolutely makes a difference for Council Members when deciding how to vote on a particular issue.
>
> While I appreciate the WI DOT taking time to create additional options regarding bike lanes, parking, and car lanes, I am not sure that any of the presented options feel adequate to meet all needs.

We are looking at updating an old corridor to attempt to meet new and future needs. At some point, I feel we must acknowledge it cannot be everything to everyone.

While I know there are numerous reasons to create and maintain bike lanes (climate friendly future, supporting additional modes of transportation, strong voices from bike advocates), I ultimately believe that in this specific route, I need to prioritize local businesses and their voices.

I understand the newest plan decreases parking by only a few spaces. Parking is not the only consideration. I recently met with local trade union representatives who spoke about the need for easier access for their vehicles who need to get to downtown for construction or renovation or delivery.

Perception is important to local businesses. If those current or potential future businesses believe that their physical presence in downtown La Crosse is making business difficult, they will relocate or look elsewhere. This would have an incredible impact on our tax base, tourism, and downtown visibility. This is not in the best interest of the overall community. I am aware of studies that some have shared, stating that bike access increases business, and for that reason, I am supportive of bike lanes on other downtown streets. But attempting to put them in on 3rd and 4th street does not feel like the right decision.

My vote will reflect this perspective.

Again, thank you for sharing your perspective.

Lisa Weston

Some people who received this message don't often get email from butterfly421amo@gmail.com. Learn why this is important

*** **CAUTION:** This email originated from an external sender. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe. ***

Dear Members of the La Crosse City Council and Mayor of La Crosse,

I am writing to formally express my strong opposition to the proposal of adding bicycle lanes to 3rd and 4th Streets in downtown La Crosse.

As a concerned constituent, I believe that removing driving lanes or parking spaces on these primary north-south corridors will negatively impact our city in several ways. This email is being sent to be part of the public record in opposition to any ongoing consideration for bicycle lanes on either 3rd or 4th streets downtown La Crosse. Below are just a few of the reasons to stop considering these unnecessary and unwanted bicycle lanes on either street, in addition to the public simply doesn't want them.

Traffic Congestion: 3rd and 4th Streets are essential arteries for vehicle traffic. Reducing capacity will lead to increased congestion and longer commute times for residents and visitors.

Economic Impact on Small Businesses: Local businesses depend on convenient parking and easy access for customers. Eliminating parking or complicating navigation will hurt the vibrancy of our downtown economy.

Public Safety: Mixing high-volume vehicular traffic with bicycle lanes on these specific narrow corridors creates unnecessary risks for both drivers and cyclists AND the handicapped, elderly, and others that rely on parking close to their destinations.

Alternative Routes: There are safer, more suitable parallel streets that can accommodate bicycle infrastructure without disrupting the main commercial and transit flow of the downtown area.
I urge you to prioritize the existing infrastructure and the needs of the business community by voting against any bicycle lane expansion on 3rd and 4th Streets.

Thank you for your time and for your service to our community. I look forward to hearing when this topic is no longer is in consideration.

Thank you,

Abigail Wojahn

Subject: US 53 Corridor Project -- Thank you!

*** **CAUTION:** This email originated from an external sender. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe. ***

Dear La Crosse City Council Members,

TL;DR: Thank you for your work advocating for citizens' wants and needs in the downtown! The new alternative presented by WisDOT seems to be a promising solution for all road users.

If this new alternative is selected, please express to WisDOT that it must come with robust intersection protections for bikers and pedestrians at the would-be transitional crossings at Vine St and King St. These intersections should be protected/Dutch-style intersections,* or otherwise protect bikers (perhaps with a dedicated bicycle signal phase) during dangerous turns onto and off of these bicycle facilities (i.e. left turns).

Additionally, if the new alternative proceeds, it would be interesting to hear from WisDOT about the **feasibility of a retrofit of 3rd and 4th streets** from Vine to King given future political will for bicycle facilities along that corridor materializes (i.e. removing parking for on-street protected bicycle facility).

Help make La Crosse a leader in multimodal infrastructure that the State looks to as an example!

*I will note that protected/Dutch intersections do not only help bicyclists, but pedestrians and drivers also by facilitating slower turning with more visibility and providing protective bump outs for pedestrian and bicyclist protection.

==========

Full Message:

Thank you: I want to thank all City Council Members for their commitment to making downtown better for all who use it. Though the US 53 corridor project has, regrettably, turned into a heated and emotional matter, I commend the City Council for remaining level-headed and seeing through the fog of the partisan public discourse.

I also commend the council for responding to and dispelling the many myths and specious links that have been drawn between bike lanes and traffic congestion, safety, and business success. Many citizens seem to believe that adding improved pedestrian and bicycle facilities in place of a few dozen parking spaces will paradoxically worsen traffic and starve businesses of customers. While research remains mixed on the effect of bicycle lanes and their impact on traffic and business success (effect varies greatly by type of intervention), we know that they increase accessibility in the downtown and are an integral part of the transportation network in a dense area like downtown.

Regarding commitments: I would like to push for council members to **not forget the recommendations established in the city's Climate Action Plan and Bicycle and Pedestrian Master Plan which promote separated cycling facilities along high-use corridors** and not the shunting of these facilities onto side streets. Particularly, I want to draw attention to the inclusion of 3rd and 4th street bikeways in the Bike and Ped Master Plan. The newest alternative

proposal is a good marriage of priorities, but **it should not be considered a lasting solution with respect to the city's overall goals as described in its own planning documents.**

Regarding parking, as you are all aware, the results from the city's parking study showed an excess of parking in the downtown core even when excluding private parking. If WisDOT Alternative 1 is selected, residents may *feel* that parking is inadequate because they may not be able to find a parking space immediately adjacent to their destination. This does not mean, however, that parking is *actually* insufficient for demand. There seems to have been a capitulation to this framing...**Why conduct a parking study if the results will not be applied to local projects?**

Capitulation to parking concerns also signals the city's transportation priorities. City planning documents state a desire for more sustainable modes of transportation (both from a climate and space perspective) and a reduction in automobile trips. This means, to some degree, adding friction to driving (by removing parking, for example) and lessening friction for walking, cycling, and transit. Cars are a fantastic technology and incredibly useful outside the city, but from a space perspective, we cannot accommodate everyone wanting to drive into our beautiful downtown. Reducing automobile trips through viable alternatives to driving is the only way forward and this must be reflected along our main thoroughfares.

Regarding the new WisDOT alternative: The new alternative presented by WisDOT looks promising for all road users. **If this new alternative is selected, please express to WisDOT that it must come with robust intersection protections for bikers and pedestrians at the would-be transitional crossings at Vine St and King St.** These intersections should be protected/Dutch-style intersections, or otherwise protect bikers (perhaps with a dedicated bicycle signal phase) during dangerous turns onto and off of these bicycle facilities (i.e. left turns).

Additionally, if the new alternative proceeds, it would be interesting to hear from WisDOT about the **feasibility of a retrofit of 3rd and 4th streets** from Vine to King given future political will for bicycle facilities along that corridor materializes (i.e. removing parking for on-street protected bicycle facility).

Call to action: Council members, this is your chance to exercise your discretion as city leaders and take action to secure a bold new future for the City of La Crosse! You understand that much of the public discourse around this project has been filled with misconceptions and outright falsehoods. Do not bow to a misguided Change.org petition signed in outrage against a not yet realized inconvenience and help make La Crosse a leader in multimodal infrastructure that the State looks to as an example!

Thank you for your time,

John Herath

Agenda item number:

Subject: Support for proposed downtown roundabout

Dear City Council Members,

I am writing in support of the proposed downtown roundabout and street redesign as a long-term investment in the success of local businesses and health of downtown La Crosse.

As a small business owner in downtown La Crosse, I understand concerns about change and about managing traffic during large events like Oktoberfest. A more walkable and safer downtown are proven to help businesses by encouraging people to spend more time shopping and visiting. Designing downtown for people not just cars passing through strengthens the local economy over time and I believe that could be achieved by slowing down the traffic before it passes through downtown.

With thoughtful event-specific traffic planning and continued coordination with business owners, I believe this project can succeed both day-to-day and during major events. I encourage the Council to look beyond short-term discomfort and focus on the long-term benefits for safety, accessibility, and downtown vitality.

Thank you for your consideration.

Sincerely,
Ashley Williams

January 20, 2026

To the Members of the La Crosse Common Council:

I am a resident of Onalaska who regularly enjoyed (note the past tense) trips to La Crosse to eat at the many restaurants, shop at the lovely, independently owned stores, attend the La Crosse Community Theater and the Holiday Fair for the 32 years we have lived here. In the last few years, these activities have greatly decreased due to poor parking situation in this beautiful, downtown city and all the confusing new bike lanes. Street parking is almost impossible and the parking decks are inconvenient and frustrating to use. I find myself no longer going into La Crosse unless I'm going to Nissan to have my oil changed or to Gundersen for an appointment. I love all the little shops down there, but the congestion and the inadequate parking make it not very appealing/inviting.

Today for example, I was meeting friends at Three Rivers. The bike lanes make it so confusing, I turned into the wrong entry, as I have done multiple times before. It makes me not want to eat at this very nice restaurant. I have never seen a bike on that lane. I'm not saying there are never any, I just haven't seen any on 2nd St. when I am there, which tells me it's not heavily used. I have seen cars traveling in this particular bike lane because it is so wide, too wide for a bike lane and not clearly identified as one. It's an accident waiting to happen.

I have often wondered why there have not been more complaints about these added bike lanes and poor parking in La Crosse. I have seen an occasional letter to the editor, but nothing compares to this well-written letter in today's La Crosse Tribune by Dave Pretasky, "Parking is more critical for downtown than additional bike lanes." I am hoping members of the Council saw his letter and take it seriously, otherwise, all the hard work that has gone into making La Crosse a city people enjoy visiting is all for nothing. If the parking is not convenient and plentiful our wonderful businesses will suffer. So as Mr. Pretasky stated, please consider the "importance of parking for our seniors (which I am one), handicapped, tourists and everyday shoppers (I would like to be one of those again, too)."

Thank you for listening. I think if you put this up for a vote, you would find more people than not would support Mr. Pretasky's ideas. Maybe he should join the Council.

Sincerely,
Denise Linton

Parking is more critical for downtown than additional bike lanes

Dear Members of the La Crosse Common Council: First, a thank you for your efforts to keep our city moving forward.

As we all are aware, in the near future a decision needs to be made regarding on-street parking for Highway 53, which is 3rd and 4th street in our downtown district. In reviewing the various proposals, it would seem to make sense to consider the following key points:

- Third and 4th streets are in a high-capacity traffic district that is not ideal for bike traffic.
- Currently, both 2nd and 6th streets have north/south bike lanes, which sure seems adequate.
- Many of us drive 2nd Street on a regular basis and rarely see any bike traffic.
- The current parking has 72 spaces on 3rd and 4th streets that could be removed under some of the proposals.
- These parking spaces are essential and closer for senior citizens and the handicapped to get to their destination.
- A very conservative estimate is these 72 parking spaces turn at least five times per day, equaling 360 per day.
- Downtown business owners would suggest a much higher number.
- Five turns equals 360 turns per day, meaning that for 365 days per year, it equals a usage of 131,400 per year for these 72 spaces.
- 131,400 times a year these spaces accommodate our community's needs.
- Common sense would tell us these 72 spaces are vital to keeping our downtown robust.
- Taking away parking will definitely hurt our solid tourism that is essential for our entire community.

As you consider this, does it make sense to eliminate these spaces, knowing the parking is important for seniors, handicapped, tourists and everyday shoppers, versus accommodating a bike lane that will have minimum usage for only 6 months a year.

I truly appreciate your considering these key points to arrive at the right decision, a decision that is best for all the citizens of La Crosse.

Dave Pretasky, La Crosse

This poll (see attached) says it all. Stop wasting tax payer money and space and resources on bike lanes that are barely used by barely anyone for barely half the year and are barely safe. Btw ... I ride my bike around town (not a lot) just fine without the need for dedicated bike lanes. In fact, I wouldn't use the recently created bike lanes because they are on busy streets and therefore less safe than using side-streets. For those who don't have a car and must get around, they can take a bus/taxi/Uber/Lyft, or car pool, or walk.

*** **CAUTION:** This email originated from an external sender. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe. ***

Dear Council Members and Mayor,

I am again writing to urge you to follow our myriad city and county plans, the research and facts, and the needs of all our communities to reduce transportation-related carbon emissions, and to endorse Alternative 1, parking-protected bike lanes, for Third and Fourth Streets.

I realize there's an online petition and a bunch of form letters opposing this option, but the opposition seems to misstate or not be aware of facts, include unsubstantiated assumptions, and ignore our Transportation Demand Management plan, our Comprehensive Plan, our Complete Streets ordinance, our Bike-ped Master Plan, county plans to improve transportation options and road safety, and, most importantly, our Climate Action plan.

The facts are that

- bike lanes and better bike-ped access are promised in our myriad plans,
- WisDOT endorses and will pay for this upgrade,
- a substantial number of city residents don't drive (or park) cars,
- we already have lots of excess parking close by,
- public transit, accessible to all, well-serves these streets,
- research shows protected bike lanes improve access and safety *for all road users*, reduce air pollution, lower carbon emissions, increase numbers of cyclists, shift short-trip travel away from cars, and improve or do not change business outcomes.

Some details:

We have promised to substantially reduce carbon emissions (50% by 2030) in our now three year old Climate Action Plan to act on a 6 1/2 year old city council pledge. Little to no progress has been made on the Transportation and Mobility section of that plan beyond updating the Bike-Ped Plan, in part because the city seems to be waiting for grants to save us. In this instance WisDOT will pay for a major action step in our Climate Action Plan. Every day we delay taking those action steps the goals become harder to reach. We are already well behind.

Improved bicycle access to places people--young, old, and in between--actually want to go is in our plans. Diverting bikes around shops, restaurants, hang outs, and services (as Alternative 3 does) ignores the role of bikes as transportation and of bike lanes as road safety infrastructure.

Anyone concerned about safety should jump at this chance to add bike lanes since the proof is overwhelming that improving bicycle and pedestrian infrastructure increases safety for *all* road users.

Anyone concerned about the health of our neighbors should be in favor of bike lanes. They encourage more to cycle and walk which improves health outcomes and they reduce air pollution.

I know some of those with disabilities are afraid they will lose access to parking, but that can be addressed by reclassifying remaining spaces. Bike lanes, by reducing crossing distances and improving sight lines, increase safety for pedestrians. In other communities with protected bike lanes, wheelchair and scooter users often prefer to use those lanes where pavement is smoother and there's less need to dodge pedestrians or sidewalk obstructions.

We have way more than enough parking spaces in this area as noted by the city on its Transportation Demand Management page.

This area is well-served by public transit, a service available to everyone, not just non-drivers, with stops along the affected sections.

Forty percent or more of city residents do not drive according to WisDOT's own research, and many more would prefer not to when possible if only there were safer places to walk and bike. Young adults, particularly, are seeking living places with good active transportation options and prefer to not have to spend nearly $1,000 per month to own and operate a car.

The streets are public spaces that the whole public pays for, and yet we consistently prioritize cars, even excess car storage, over those who don't or don't want to drive. That isn't fair or equitable.

Even concerns of business owners are not borne out by the research. In fact, there is a lot of proof that bike lanes *increase* business, improve foot traffic in shopping and entertainment areas, and encourage more transactions by creating a more pleasant space to be and inviting a bigger universe of customers. (There are several studies that show this outcome.)

Alternative 1 retains both movement lanes of traffic and has been planned and endorsed by the congestion-averse WisDOT. Concerns about "more congestion" are unsubstantiated.

We don't have an obligation to prioritize excess car parking over equitable access, public health and safety, environmental sustainability, and climate action. Just the opposite.

I have heard from some, "Thanks for writing, but we will just have to disagree." I'm not sure what that means in light of the city's plans and facts that lead directly to bike lanes. I must conclude that it means we disagree that plans and facts should matter if the well-connected, vocal few want something different.

Plans and facts and climate actions do matter. Please endorse Alternative 1.

Subject: Additional comments on 3rd/4th lane (25-1265 and 25-1471)

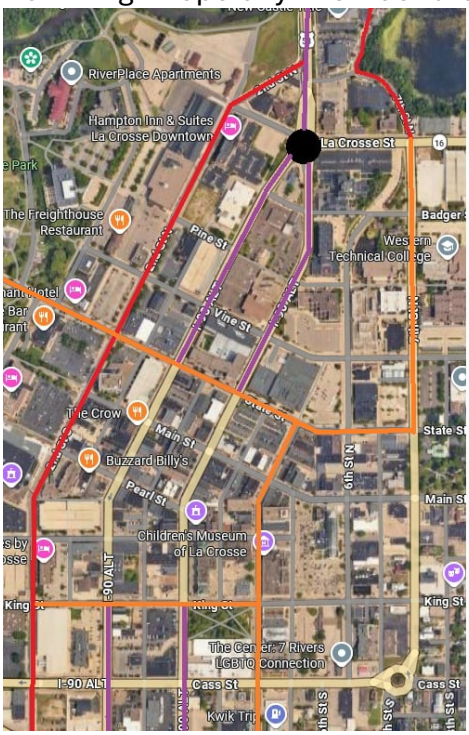

*** **CAUTION:** This email originated from an external sender. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe. ***

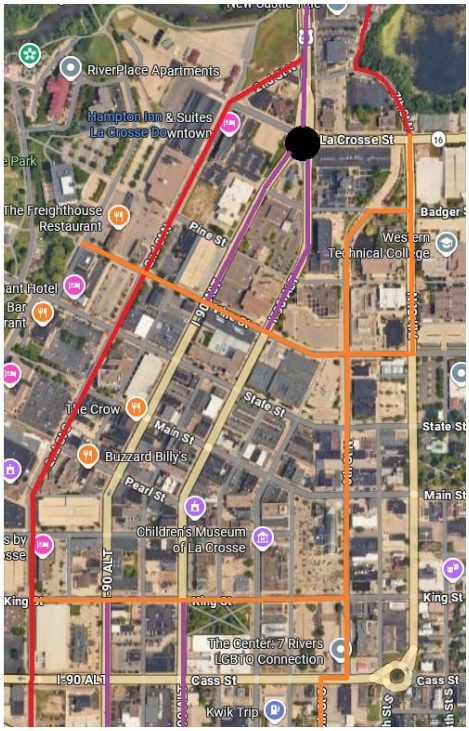

Although I voted for the BPAC resolution recommending Alternative 1, I did so mainly due to the inclusion of Andrew Ericson's amendment ranking Alternative 1 first and the hybrid proposal second. I encourage all of you to try to find time to read our writeups on our perspectives in the Legistar item for our debate today: https://cityoflacrosse.legistar.com/LegislationDetail.aspx?ID=7799351&GUID=11D4088F-3162-4C2E-84E1-3532E5BD3602
(I also have several suggestions in my document which I believe would improve parking and traffic for everyone, drivers and multimodal travelers alike, although they are beyond the scope of this proposal).

That said, I considered introducing an amendment calling for the hybrid proposal to be adjusted to have the northern bike lanes terminate at State rather than Vine, but we ran out of time in the meeting. I asked the DOT representatives present about it, and they said it would be technically possible, with the only issue being the loss of a handful of parking spots. I don't think that's much of a problem, because the block in question is flanked by parking ramps on both sides, and there is abundant off-street parking.

I have several reasons for calling for an extension to State St.

First, using State rather than Vine would allow a shorter detour past downtown for bicyclists trying to get north from King. Hopefully this illustrates my point:

(red = 2nd and 7th st bike-friendly routes, purple = hybrid plan, orange = other routes, black circle = roundabout)

On the left, with the State Street terminus. To get from 4th & King to 4th & Vine would require a detour of one block east, three blocks north, one block west, and one block north (six blocks total). Because there's no option to go north at 5th & State, this would also facilitate a natural traffic flow to 7th St at a stoplight, from which a left turn goes to the bike trail (which has a connection back to Hwy 53 just south of the bridge, allowing cyclists to avoid the roundabout entirely).

On the right, with the Vine Street terminus. The Post Office is in the way of a connection along 5th, so 6th would have to be used. The same start and end points would require going two and a half blocks east, three and a half blocks north, one and a half blocks west (seven and a half blocks total). Also, there is no stoplight at 7th & Vine, so anyone turning left either there or at Badger would have to wait for a break in traffic, which is frustrating and dangerous.

South of the Post Office, with the Vine Street plan we could either stay on 6th or wrap around the Post Office to backtrack to 5th. Assuming traffic is kept to 6th in order to avoid confusing extraneous turns, this would take bike traffic a block farther away from the heart of downtown on Main, and introduces the Cathedral as an obstacle to reaching downtown via Jay. 5th also continues to the south from Cass through a stop light, whereas 6th would require a left turn across a busy street, without a stoplight.

Extending the bike lanes to State would also shorten the distance of adding bike lanes on 3rd and 4th in the future, if that eventually happens.

A Vine Street Bikeway is listed in the 2024 Bike-Ped Master Plan. However, it is listed as a "connection [from] Front St to 7th St" (pg A-110, #43). This purpose would be equally served by putting it on State rather than Vine. The Bike-Ped Plan does not elaborate on whether State was considered or why Vine was chosen. A State Street route would also more directly lead into Riverside Park, and there is once again an existing stoplight at 2nd & State but not at 2nd & Vine. The lack of stoplights at 2nd and 7th & Vine makes that route particularly questionable.

To summarize: if the hybrid route is chosen, I suggest in the strongest possible terms requesting that the DOT adjust the northern bike lanes to terminate at State rather than Vine.

Agenda item number:

Subject: Opposition to Bike Lanes on 3rd and 4th Streets

Dear Mayor Washington-Spivey and Members of the La Crosse City Council,

I am writing to formally oppose any proposal to add bicycle lanes to 3rd and 4th Streets.

These streets are the backbone of downtown La Crosse. They serve as a major traffic corridor, provide critical access for deliveries and emergency vehicles, and support the small businesses that drive our local economy. Removing on-street parking or narrowing these roads will make downtown less accessible at a time when many businesses are already struggling.

Accessible parking, and just as importantly, the perception of available parking, is essential. Even brief inconvenience can deter visitors. Just last week, a friend planned to meet us at Starlite but, not immediately seeing a parking spot as he drove by, continued on to Onalaska instead.

Public sentiment on this issue is clear. Recent News 8000 polls and community feedback show that a strong majority of local constituents do not support adding additional bike lanes downtown.

As an avid cyclist, I support bike infrastructure where it is safe and appropriate. La Crosse has bike access downtown, including on 2nd and 6th Streets, and our biking season is limited. Expanding bike lanes on narrow, high-traffic commercial corridors is impractical and creates unnecessary safety risks, particularly given the volume of semis, delivery vehicles, and those who rely on close parking access, including older adults (as you heard from Mr. Paul Leithold earlier this month), families with small kids and individuals with disabilities. Additionally, the Friday before that, I observed multiple vehicles driving in the bike lane on 2nd Street, highlighting ongoing enforcement and safety concerns.

If additional bicycle infrastructure is ultimately pursued, the most reasonable approach would be the hybrid option presented by the DOT in January 2026, which minimizes disruption to parking, traffic flow, and downtown businesses.

For these reasons, I strongly urge you to reject bicycle lane expansion on 3rd and 4th Streets and to prioritize accessibility, public safety, and the economic health of downtown La Crosse.

Thank you for your time and service to our community. I look forward to being at the meetings next week in

support of local businesses, downtown customers and all the workers who rely on the street and parking accessibility.

Sincerely,
Marissa Dickinson

Dear Council Member Olivia Stine.

I am writing to express my opposition to Alt 1, which would remove parking downtown, and want to express my support for (choose one;
Hyrid option or Alt 2).

I want to express my support for ALT 2

I feel the removal of parking downtown will be detrimental to the success of businesses. Downtown parking is highly valuable and turns over many times a day making one space a highly convenient and accessible option for a variety of downtown visitors. One space can easily turn over 5-10 times a day. As someone who chooses to work downtown and make it a better place for people to visit, I hope you will support downtown businesses, their team members and the guests who choose to come downtown.

Thank you for working to make La Crosse a better place

Subject: Support Alternative 1, parking plus micromobility lanes

I'd like to voice my support for Alternative 1, keeping parking on one side of the street and adding raised, protected micromobility lanes.

This would allow nondrivers (whether by choice or necessity) access to downtown without having to choose between endangering themselves in automobile traffic or endangering others on sidewalks.

It would accommodate not only bicycling, but other affordable and low-impact forms of micromobility such as skateboards, e-scooters, and whatever other options the future might bring.

Thank you.

Craig, Sondra

Agenda item number: 25-1265

Subject: Support for Protected Bike Lanes on 3rd & 4th Streets

Dear La Crosse Common Council Members,

I am writing to express my support for Alternative 1, the option that includes protected bike lanes on 3rd and 4th Streets.

This project is a once-in-a-generation opportunity to make downtown La Crosse safer, more connected, and better prepared for the future. Alternative 1 offers the strongest long-term value for the city by improving safety and accessibility for all users – whether traveling by car, on foot, or by bike – while preserving existing travel options. It enhances multimodal connectivity downtown while limiting new financial obligations at a time when city resources remain constrained.

There is a clear fiscal advantage to selecting Alternative 1. Under WisDOT's funding structure, the city is responsible for 100% of the costs associated with parking lanes. As a result, Alternatives 2 or 3, which retain more on-street parking, would substantially increase the city's share of project costs compared to Alternative 1. Given current budget pressures, it would be imprudent to assume additional long-term capital and maintenance expenses for parking when downtown already has a surplus of more than 3,000 parking spaces.

City engineers estimate that a single on-street parking space costs approximately $17,000 to construct, with even higher per-space costs in parking ramps. These represent significant public subsidies for a single mode of transportation. In contrast, protected bike lanes are a comparatively low-cost investment that serve a wider range of users, reduce wear on city streets, and provide transportation options that do not require ongoing parking infrastructure.

Alternative 1 also aligns with broader economic and demographic trends. Younger residents are purchasing fewer vehicles and increasingly choosing to live in communities where safe, reliable alternatives to driving exist. Cities that invest in high-quality bicycle infrastructure consistently see benefits such as increased local business activity, more vibrant streets, and more welcoming downtown environments – all of which support La Crosse's long-term economic development goals.

Equity considerations further support this choice. In La Crosse County, 12% of residents live at or below the poverty line, and transportation costs can consume a disproportionate share of household income. Providing safe, affordable transportation options helps reduce that bruden and ensures our transportation system serves

residents of all incomes and abilities – not only those who own and operate motor vehicles.

Ample parking already exists downtown, and visitors do not reasonably expect a parking space directly in front of every destination, as they might at a big-box store or other low-density development. Parking convenience alone should not dictate how we allocate limited public right-of-way. Our streets should serve residents who choose to walk, bike, and use other modes of transportation, in addition to those who drive. By including protected bike lanes throughout the downtown corridor, La Crosse can become a more vibrant and inclusive place for everyone.

Ultimately, this decision reflects responsible stewardship of public funds and the kind of city we are planning for decades to come. Alternative 1 delivers safety improvements, economic resilience, and transportation choice while avoiding unnecessary parking expenditures. It is the option that best balances fiscal responsibility with community benefit. Investing in cycling infrastructure also promotes environmental sustainability, supports public health, and encourages active transportation.

Bike lanes are not merely recreational amenities; they are essential transportation infrastructure. They will also support increased use of the Drift Bike Share program, helping reduce parking demand and congestion while benefiting downtown businesses and fostering a healthier, more active community.

I urge you to select the option that best reflects the future we want for La Crosse – a city built around connection, choice, and people.

Thank you for your time and for considering the long-term impacts of this important decision.

Sincerely,
Alex Metry

*** **CAUTION:** This email originated from an external sender. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe. ***

Dear La Crosse City Council Members,

First, I need to express some annoyance with WisDOT for designing something that I think could actually improve life for people moving through and within the city by means other than driving. It's like they've taken away a wall I'm used to banging my head against and it's destabilizing to find myself saying, "Come on, this is great. Look at what they're actually offering us."

Alternative 1, with its raised, parking- and curb-protected bike lanes, is a real chance to legitimize bicycling as a form of transportation and access by giving it its own space, right in the heart of downtown.

This, however, is not without potential dangers.

Beyond taking more trips by bicycle, some people might begin to question whether they actually need to own a car (or a second car) altogether.

Recklessness could ensue. Citizens might blow the money they save on fancy local beer or restaurant meals, attend shows, buy art, or take up a musical instrument.

(Granted, there would likely be some cases where it might just mean they'll be able pay their rent, save for emergencies, or afford healthcare.)

Children and seniors might feel comfortable bicycling downtown and who knows where that could lead.

There's also the risk of people mistaking our city for some place they've traveled long distances to on vacation, maybe Europe, and come here instead. Some might even consider relocating here.

So maybe forget it. We wouldn't want any of this. Just save the 70 parking spaces.

Thank you.

Subject: Bike Lanes questions

Hello -
Can you provide me the answers to these basic questions regarding bicycle usage throughout the city?

1) How many bikes are registered/licensed at the La Crosse Police Department? How many bikes are registered to people who live in the downtown area?

2) On a daily average, how many kids ride their bikes to the various schools in the district? How about the high schools and WTC, Viterbo and UWL? Do these riders follow the existing bike routes to get to these venues? Or are they too busy or inconvenient for younger riders to use = La Crosse Street, Jackson Street, and back a few years, the Sharrows painted on Main Street... How many of them venture downtown?

3) How many bike clubs are in La Crosse, and what bike routes do they generally use when they are riding around throughout the city?

4) How many people ride bikes from the North Side to the South Side of the city on a daily basis, and what route do they generally take? 3rd/4th Street? Lang Drive, Highway 16?

5) How many people on a daily basis commute on bikes to work downtown, and what directions are they coming from? What streets or designated bike routes do they use? How many commute downtown year round? How many people venture into the downtown area on a bike to shop/conduct business, or get their exercise? (Why do people come into the downtown area on a bike if they aren't commuting to work?)

6) How many people use the bike lane on 2nd Street on a daily basis? Why are they using that particular route? Is this bike lane used year round?

7) How many city council members own bikes, ride then to work or for recreation, and would ride downtown on 2nd Street and proposed lanes on 3rd and 4th streets downtown? How many would follow the sharrows on Main Street, or travel on La Crosse or Jackson streets on bikes?

8) How many of your constituents who ride bikes have actually advocated for these proposed lanes?

9) How many of the 75 bikes available for rent at the 15 docking stations throughout the city are rented on a daily basis? How much revenue has been generated annually from these rentals?

10) How many people on a daily basis utilize the bike racks on the front of the MTU buses?

11) What have the owners of the bike shops in the Coulee Region said about these proposed bike lanes? Will their customers be using them?

12) What do the downtown business owners say are pros and cons about this proposal? What input has the La Crosse Poilce Department offered?

13) How many bike/vehicle accidents have occurred annually in the city over the last few years? Where, and who has been to blame or cited?

Thanks,
Mark Larson

Agenda item number:

Subject: WisDOT proposal for 3rd and 4th streets

I am writing to express my support for the latest proposal for 3rd and 4th streets that has been produced by WisDOT. There is minimal loss of parking, and from what I can tell, no loss of parking in the core commercial areas. The added bike lanes with greater connectivity are key - we need to make downtown accessible and approachable for all modes of transport. Sidewalk level bike lanes will also be a game changer for safety, as it is vital to create separation from car and truck traffic in busy areas like this, so vehicles can't easily wander into the bike lane or park illegally as is common on the Cass and Jackson street bike lines.

With regards to business concerns about loss of parking, it is minuscule, and likely to make it easier for those on bikes to visit their establishments. My two greatest concerns with riding downtown are safety, and bike rack availability. The latter must improve too but is outside the scope of WisDOT's reconstruction plans and honestly doesn't need to wait for this work to start in 2030.

Subject: 3rd and 4th St Bike Lanes

Please, please do not support the new 3rd and 4th street project as approved by the Bicycle and Pedestrian Committee. Our downtown businesses are too precious, and parking is at a premium as it is. Yes, we have lots of ramps to park in, but why are malls dying? A big part of that is close available parking. People do not want to and will not walk from a ramp to run into a store such as Duluth Trading to pick up an item.

We have spent thousands dollars to promote and get new businesses into downtown. Let's not stop the progress.

Subject: 3rd/4th St Options

Council members;

I appreciate the amount of discourse over an important adjustment to our city. Whatever the outcome, this is a vital part of our membership in this community.

My background in which I share my views includes the following: In the past 20 years I have bicycled over 27,000 miles throughout the area as a commuter to work, events, appointments, meetings, and shopping. I spent 5 years championing the bike share program, which includes co-authoring the Bike Share Feasibility Study adopted by the City of La Crosse. I am a previous bike shop owner, Wrench & Roll Collective shop on La Crosses' Northside. I run a non-profit in town called Everybody Bikes, UA with the mission to equip the under-resourced with bike equipment necessary for transportation purposes. I am a nationally certified Cycling Instructor through the League of American Bicyclists. I organized the first (ever in the midwest) Midwest Active Transportation Conference held on the campus of UW-L a Crosse. I provide services to train people to ride from 3 yrs of age to 53 yrs of age for the past 17 years in our area. I am dedicated to the education of community members on all aspects of bicycling and have conducted workshops in a variety of capacities from the school district staff to parents and youth.

With that said, I want to state very specifically that there is NO RESEARCH that supports the statement that removing parking and installing a bike lane will negatively impact businesses along the proposed routes. You can google this yourself. In fact most research supports the opposite, a 3-49% net gain in profits. I understand change challenges us. You can find many instances where jurisdictions instituted bicycle infrastructure changes that brought out similar unrest as we have here over the proposed options, that have proceeded to provide positive results. We will not be losing something but gaining. We are looking at an improvement that will have an impact in our community for decades. If we keep the status quo, we are being short sighted in missing an opportunity to adjust for our future. That future will see much change in the world of fossil fuels, and especially cars. With the current established fact that young adults are buying fewer cars, 20% or more less than previous generations, they are looking to live where they do not need a car. If we want to attract the best and brightest to our city, we must make provision for this aspect of their decision making for employment. The current cost of operating a car in the US, according to the NHSA, is 72 cents a mile. That figure is not going to go down but up. People are going to be costed out of car ownership as housing increases as well. They are going to continue to look for alternatives to transportation. It is in our best interest to strategically plan alternatives to cars for the health and welfare of our downtown. If parking makes or breaks a business, Valleyview mall should

be going gangbusters.

When Covid 19 hit, our city of La Crosse was well positioned to handle the increase in bicycle traffic. Our city planning department and leaders should be congratulated for their foresight in developing bike infrastructure that provided a great opportunity for its citizens. If we had said, parking was more important or other resistance to change, we would not have been in that position. La Crosse has long been at the forefront of alternative transportation with it being the first in the state to have bike racks on bussing. The first to have a Safe Routes to School Program in place. These things do not happen when the status quo becomes the standard.

Please do not let uninformed perspectives rule the day. When we removed smoking from our businesses, the cry from businesses was that they would be ruined. We came through that change with great success. We can do that again to make a brighter future for our community. We can be more proud and put out a more positive image of our city if we plan for a broader inclusion of transportation users.

Thank you for your service to our great city.

Craig, Sondra

Subject: Resolution #25-1265. Support Alternative 1

*** **CAUTION:** This email originated from an external sender. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe. ***

Dear Council Members,

I write in support of Alternative 1 as you consider the downtown corridor study for US53. I grew up in this country. I am an avid motorist and many of my best friends are drivers. As a driver, I feel my needs are well served. When it snows, the streets are plowed, the potholes filled (sometimes), and the roads are constantly resurfaced. Without ever needing to leave the comfort of my car I can do my banking, my dining, my karaoke.

I am also a bicyclist and transit rider. I'm downtown patronizing retailers almost daily. I don't drive as much as I used to. La Crosse is a relatively decent city to get around in without a car, but it could be improved. As a cyclist and transit rider, my needs are often overlooked or treated as an afterthought. The proposal to add bike lanes on Third and Fourth Streets in downtown is a surprising recommendation of the Wisconsin Department of Transportation. This turn toward multimodal transit by WisDOT should be encouraged. The bike lanes will improve safety downtown for everyone.

Some of the argument against the bike lanes (and the removal of some on-street parking) has been that it will be bad for downtown retailers. I'd like to point out that downtown has been struggling for generations, but it wasn't the bicyclists riding out to the bypass to shop at the mall and big-box stores who abandoned downtown. After decades of pandering to the fears of the parking lobby, maybe it's time we try something else.

If we were truly concerned about helping local businesses, maybe the city should consider taxing the Amazon delivery trucks cluttering our streets and parking spaces all over the city.

Thank you,

Kevin Ducey
La Crosse resident

Agenda item number:

Subject: WisDOT Bike Lanes Plan

Hello, Council Members,

I am writing to encourage you to vote for WisDOT plans that involve bike lanes in downtown La Crosse.

My family prioritizes biking and walking to, from, and in downtown La Crosse over using our car. We regularly use the King Street corridor and the 2nd St track. There have been many times where we have gone out of our way, zigzagging through neighborhood streets, in order to reach destinations north and south of downtown because there were no safe ways to bike. All this to say, I am highly in favor of Alternative 1 to bring more safe bicycle and pedestrian infrastructure downtown, especially as that would allow direct connections to further bike lane improvements on either side of downtown.

I have to say that when I do drive downtown, I have never had a problem finding parking within a block of my destination; I would gladly park two or more blocks away if it meant more bike lanes. If downtown businesses can't see how more bicycle and pedestrian traffic is good for their businesses, and ultimately the Council can't agree to support Alternative 1, please then consider Alternative 3 (hybrid) that at least allows for some bicycle improvements and leaves room for more growth in the future.

La Crosse will only benefit from improved safe cycling opportunities; locals and tourists alike regularly seek out bicycle-friendly communities. Please make downtown La Crosse more bicycle friendly!

Thank you for your time,
Laura Meyer

ORDINANCE NO. ____

AN ORDINANCE to amend section 103-104 of the Code of Ordinances of the City of La Crosse to clarify code language regarding value of the building to be used.

THE COMMON COUNCIL of the City of La Crosse do ordain as follows:

SECTION I: Section 103-104. is hereby amended to read as follows:

When an existing building is damaged by fire or other cause, or if alterations ~~and repairs~~ are made to an extent of 50 percent or more of the ~~physical value~~ equalized assessed value of the building before such damage or alteration, the entire building or structure shall be made to comply with the requirements of this article for new buildings. ~~If the cost of such alterations or repairs is less than physical value equalized assessed value of the building, the Fire Department - Division of Fire Prevention and Building Safety Chief Building Inspector or their designee shall determine to what degree the portions so altered or repaired shall be made to conform to the requirements of this Code.~~

SECTION II: Should any portion of this ordinance be declared unconstitutional or invalid by a court of competent jurisdiction, the remainder of this division shall not be affected.

SECTION III: This ordinance shall take effect and be in force from and after its passage and publication.

Caption AN ORDINANCE to amend section 103-104. of the Code of Ordinances of the City of La Crosse to clarify code language regarding value of the building to be used.

Staff/Department Responsible for Legislation

Planning and Development - Building & Inspections

Requestor of Legislation

Planning and Development; Legal Department

Location, if applicable

City-wide

Summary/Purpose

This legislation would clarify what value of a building should be used for extensive repairs.

Background

The existing legislation was questioned during a Board of Building and Housing appeal meeting. This change would clarify the questions during that meeting and be consistent with other parts of the code and the definition of substantial improvement.

Fiscal Impact

None.

Staff Recommendation

Recommend to adopt.

2. Are charges for any offenses pending against the business? Exclude traffic offenses unless related to alcohol beverages. ☐ Yes ☑ No

If yes, describe the nature and status of pending charges using the space below. Attach additional sheets as needed.

3. Is the applicant business or any of its officers, directors, members, agent, employees, owners, or other related individuals or entities a restricted investor with any interest in an alcohol beverage producer or distributor? ☐ Yes ☑ No
If yes, provide the name of the restricted investor and describe the nature of the interest.

4. Is the applicant business owned by another business entity? ☐ Yes ☑ No
If yes, provide the name(s) and FEIN(s) of the business entity owners below. Attach additional sheets as needed.

4a. Name of Business Entity	4b. Business Entity FEIN

5. Have the partners, agent, or sole proprietor satisfied the responsible beverage server training requirement for this license period? Submit proof of completion. ☑ Yes ☐ No

6. Is the applicant business indebted to any wholesaler beyond 15 days for beer or 30 days for liquor/wine? ☐ Yes ☑ No

7. Does the applicant business owe past due municipal property taxes, assessments, or other fees? ☐ Yes ☑ No

Part C: Individual Information

List the name, title, and phone number for each person or entity holding the following positions in the applicant business or businesses listed in Part B, Question 4: sole proprietor, all officers, directors, and agent of a corporation or nonprofit organization, all partners of a partnership, and all members, managers, and agent of a limited liability company. Attach additional sheets if necessary.

Include Form AB-100 for each person listed below. Corporations and LLCs must appoint an agent by including Form AB-101.

Last Name	First Name	Title	Phone
Cumbe	Edison		[redacted]
Vasquez	Diego		
Chavarria	Yuvy		

Part D: Attestation

One of the following must sign and attest to this application:

• sole proprietor • one general partner of a partnership • one corporate officer • one member of an LLC

READ CAREFULLY BEFORE SIGNING: Under penalty of law, I have answered each of the above questions completely and truthfully. I agree that I am acting solely on behalf of the applicant business and not on behalf of any other individual or entity seeking the license. Further, I agree that the rights and responsibilities conferred by the license(s), if granted, will not be assigned to another individual or entity. I agree to operate this business according to the law, including but not limited to, purchasing alcohol beverages from state authorized wholesalers. I understand that lack of access to any portion of a licensed premises during inspection will be deemed a refusal to allow inspection. Such refusal is a misdemeanor and grounds for revocation of this license. I understand that any license issued contrary to Wis. Stat. Chapter 125 shall be void under penalty of state law. I further understand that I may be prosecuted for submitting false statements and affidavits in connection with this application, and that any person who knowingly provides materially false information on this application may be required to forfeit not more than $1,000 if convicted.

NOTICE OF APPLICATION FOR BEER GARDEN LICENSE IN THE CITY OF LA CROSSE

This is to notify you that the following business has applied for a **Class "B" Beer Garden** license under Chapter 10, Article III of the Code of Ordinances of the City of La Crosse to allow consumption of alcoholic beverages in a designated outdoor area, as described below and on the attached drawing.

Pursuant to sec. 10-77, property owners within 200 feet of the proposed premises for a Beer Garden License shall receive notice of an original application.

Fiesta Mexicana LLC dba Fiesta Mexicana
at 5200 Mormon Coulee Rd, La Crosse WI 54601

Beer Garden description: Approximate 35ft by 25ft fenced-in concrete area on west side of building.

This application will be considered at the following meetings which are held in the Council Chambers of La Crosse City Hall, 400 La Crosse Street:

- **Judiciary and Administration Committee – Tuesday, February 3, 2026 at 6:00 p.m.**
- **Common Council – Thursday, February 12, 2026 at 6:00 p.m.**

The meeting can be viewed (no participation) by visiting the Legislative Information Center Meetings calendar (https://cityoflacrosse.legistar.com/Calendar.aspx) - find the scheduled meeting and click on the "In Progress" video link to the far right in the meeting list.

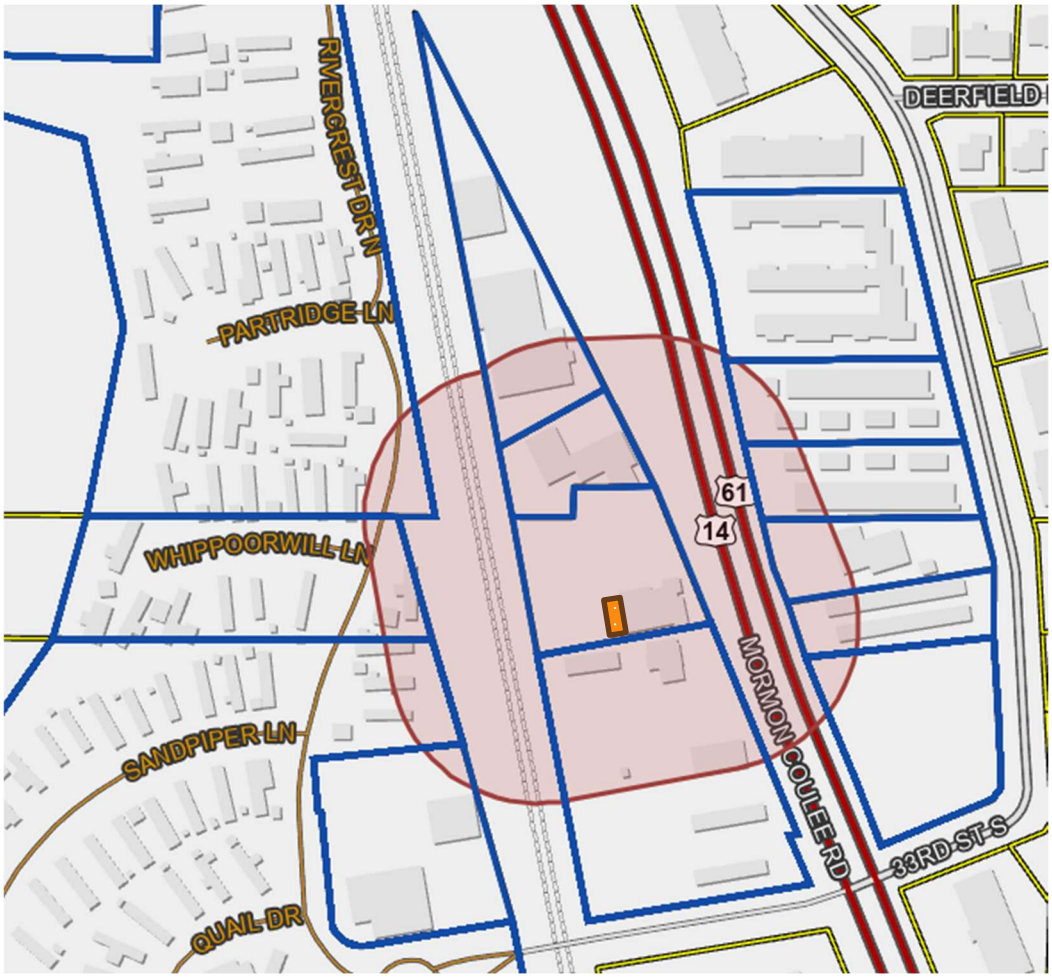

Written comments may be submitted to the City Clerk's Office by emailing cityclerk@cityoflacrosse.org, by delivery or mail to City Clerk, 400 La Crosse Street, La Crosse WI 54601 or by deposit in the green drop box on the north side of City Hall.

This notice is given pursuant to the order of the Common Council of the City of La Crosse.

Dated this 20th day of January 2025

Nikki M. Elsen, WCMC
City Clerk

Please note:
Beer Garden area shown in orange.
Properties within 200 feet of the beer garden are shown outlined in blue.

City of La Crosse, Wisconsin

ORIGINAL ALCOHOL LICENSE APPLICATION INFORMATION SUBMITTAL

Rev. 10/2025

(Ch. 4, secs. 4-72 & 4-142)

All new applicants for an alcohol license pursuant to Chapter 4 of the La Crosse Municipal Code shall submit the following information with the original alcohol applications. Any false statement contained in such application shall automatically nullify any license issued pursuant thereto.

Applications will not be accepted until all of the information is complete and necessary documents provided.

TYPE OF LICENSE(S) REQUESTED

Class A: ☐ Beer, ☐ Liquor
Class B: ☒ Beer, ☒ Liquor
Class C: ☐ Wine

APPLICANT

Legal Business Name *(Corporation, LLC, Sole Proprietor, Partnership)*: Rivoli 21

Trade Name: Rivoli Theatre and Pizzeria

Address: Street: 123 4th St. North; Suites 205-209, 213-216; City: LaCrosse; State: WI; Zip Code: 54601

Telephone Number: [redacted]

Email: [redacted]

Website: rivoli.net

ACTIVE USE OF LICENSE

☒ *I understand that if a license is granted, said license* ***must be activated within 90 days of being granted*** *pursuant to Municipal Code secs. 4-43 and 4-108. This means open for business with stock and equipment.*

Anticipated Date of Opening: 05/01/2026

☒ *I understand that if a license is granted, said license shall be actively utilized pursuant to Municipal Code sec. 4-12. Actively utilized shall mean open for business with regular and consistent operating hours. If a license is not actively used throughout any 90-day period, the license shall be subject to revocation or suspension pursuant to sec. 4-82.*

☒ *I understand that* ***if there is any change to the license or licensee information****, including but not limited to change in officers/members/directors or agent or their address/phone number, change in hours of operation, etc.,* ***the City Clerk will be notified within 30 days*** *pursuant to Wis. Stat. sec. 125.04(3)(h).*

CORPORATIONS/LLCs – AGENT QUALIFICATIONS & RESPONSIBILITIES
(N/A for Sole Proprietors and Partnerships)

☒ *I understand that as an officer of the applicant corporation or member of the applicant limited liability company, the appointed alcohol license agent shall meet the requirements of Wis. Stat. Ch. 125 and, in addition, shall have resided within the State of Wisconsin continuously for 90 days prior to the date of application and shall reside within a 25-mile radius of the City limits at the time of application and at all times such individual shall be the appointed agent. Further, the appointed agent is an individual who is regularly involved in the actual conduct of the business and has full authority and control of the premises described and of the conduct of all business on the premises relative to alcohol beverages.*

BUSINESS PLAN

Type of Establishment:

☐ Tavern ☐ Nightclub ☐ Restaurant ☐ Liquor Store ☐ Grocery Store
☐ Convenience Store with gas pumps ☐ Convenience Store without gas pumps
☒ Other Movie Theater

Hours of Operation: M-F 4:00PM-10:00PM
SAT-SUN: 12:00-11:00PM

Anticipated Number of Employees: 20

Method for training employees in alcohol beverage laws and requirements for employees to hold a beverage operator license: Online training courses

Other Business to Be Conducted on Premise: Showing Movies, Serving Pizza and concessions

Estimated gross receipts for food and alcohol beverage sales by percentage.
(Note: Non-alcoholic drinks are classified as "Food.")

_____ % Alcohol _____ % Food 35 % Other

If applicable, describe "Other": Movie ticket sales

Estimated capacity (Class B and Class C licenses only):

Indoor 75 Outdoor, if applicable _____

Will there be any outdoor sales/service or consumption of alcohol? If yes, explain.
If yes, a beer garden license or outdoor dining permit is required. NO

Will there be live entertainment (music or dancing) on premise? If yes, explain.
If yes, a cabaret license is required.

Live music and stand-up comedy are options

Do you have off-street parking? ☐ Yes ☒ No

If yes, how many parking spaces? _____

If no, how will parking be accommodated.

Provide a sketch of the floor plan showing overall dimensions, the areas of sales, consumption and storage, seating arrangements, location of coolers, and location where records are kept (invoices for purchase of alcohol).

Provide a site plan showing building location, any outside areas where alcohol beverages may be sold or consumed, off-street parking, ingress and egress, and existing or proposed screening.

The information provided is true and correct to the best of my knowledge, I have reviewed the Alcohol Beverage Submittal Requirements and Information page and will comply with necessary requirements.

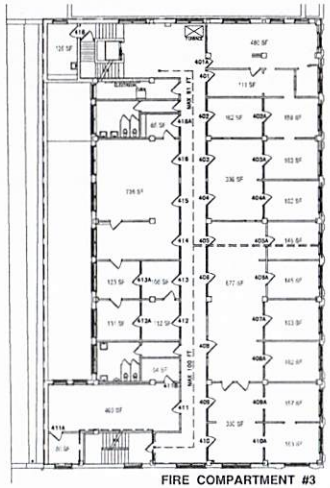

Signature **Date** 1/9/2026

January 20, 2026

ATTN: CLARA GELATT
RIVOLI 21 LLC DBA RIVOLI THEATRE/PIZZA DOLOROSA
117 4th ST N
LA CROSSE WI 54601

Dear Clara,

Our office is in receipt of the application for the Original Combination "Class B" Beer & Liquor, Indoor Cabaret, and Theatre Licenses for Rivoli 21 LLC at 123 4th St N, Suites 205, 206, 207, 208, 209, 213, 214, 215, & 216.

The application will be considered at the following meetings:

Judiciary & Administration Committee	**Tuesday, February 3, 2026, 6:00 p.m.** **Council Chambers, City Hall – 400 La Crosse St.**
Common Council	**Thursday, February 12, 2026, 6:00 p.m.** **Council Chambers, City Hall – 400 La Crosse St.**

It is recommended that someone attend the J&A meetings where public hearing is allowed; there may be questions or comments from a committee or council member or another citizen. Public hearing is generally not allowed at the Council meeting although there may be questions of Council Members. The applications will appear as part of the Various Licenses agenda item, which is a grouping of all of the licenses submitted for approval for February (File # 26-0038).

Attendance is allowed either in person or virtually. I will also be sending you an email with the dates listed above and the Zoom link for the J&A meeting. If you have any questions, comments, or concerns; do not hesitate to contact me.

Sincerely,

Sondra Craig

Sondra Craig, Deputy Clerk

Office of City Clerk

NOTICE OF APPLICATION FOR INDOOR CABARET LICENSE IN THE CITY OF LA CROSSE

This is to notify you that the following business has applied for an **Indoor Cabaret** license under Chapter 10, Article IV of the Code of Ordinances of the City of La Crosse to allow live entertainment in a designated indoor area, as described below.

Pursuant to sec. 10-140, property owners within 100 feet of the proposed premises for an Indoor Cabaret License shall receive notice of an original application.

Rivoli 21 LLC dba Rivoli Theatre / Pizza Dolorosa
at 123 4th St N STE 205-209, 213-216, La Crosse, WI 54601

Indoor Cabaret description: Small comedy and live music shows on the 2nd floor in theater room spaces.

This application will be considered at the following meetings which are held in the Council Chambers of La Crosse City Hall, 400 La Crosse Street:

Judiciary and Administration Committee – Tuesday, February 3, 2026 at 6:00 p.m.
Common Council – Thursday, February 12, 2026 at 6:00 p.m.

The meeting can be viewed (no participation) by visiting the Legislative Information Center Meetings calendar (https://cityoflacrosse.legistar.com/Calendar.aspx) - find the scheduled meeting and click on the "In Progress" video link to the far right in the meeting list.

Written comments may be submitted to the City Clerk's Office by emailing cityclerk@cityoflacrosse.org, by delivery or mail to City Clerk, 400 La Crosse Street, La Crosse WI 54601 or by deposit in the green drop box on the north side of City Hall.

This notice is given pursuant to the order of the Common Council of the City of La Crosse.

Dated this 20th day of January 2026.

Nikki M. Elsen, WCMC
City Clerk

Alicia Smithburg
Assistant Clerk

Agenda Date: 2/3/2026 **Version:** 1 **Status:** New Business

In Control: Judiciary & Administration Committee **File Type:** Ordinance

Agenda Number:

ORDINANCE NO. _____

AN ORDINANCE to amend Subsection 40-13(a), adding two definitions to Section 40-103, to create Section 40-106(11), to renumber Section 40-106(11) to 40-106(12), and to amend Section 2.2(b)(4) of the Code of Ordinances of the City of La Crosse regarding dumpster permits.

THE COMMON COUNCIL of the City of La Crosse do ordain as follows:

SECTION I: Section 40-13(a) is hereby amended to read as follows:

(a) *Permit required.* Unless a permit is obtained and maintained under Article IV of this chapter, it shall be unlawful for any person engaged in the business of leasing dumpsters or refuse or storage containers for the storage of materials discarded or used in the process of construction or alteration of buildings, or moving activities, to place or allow for placement of such dumpsters or containers in any street, highway, sidewalk or other public way within the City without first obtaining a permit from the City Engineer's Office. Any person engaged in the business of leasing dumpsters or refuse containers for the storage of materials discarded or used in the process of construction or alteration of buildings under Section 40-106(11) of this Code, shall obtain a permit from the City Engineer's Office prior to placing any dumpster or refuse container.

SECTION II: Section 40-103 is hereby amended to add the definitions below. All other definitions shall remain as is.

Cart or *garbage cart* means a wheeled, lidded 65 or 95-gallon container, usually plastic, designed for automated collection from a motorized waste-hauling vehicle.

Dumpster or *garbage dumpster* means a 2, 4, or 6-yard, mobile trash container designed for automated collection from a motorized waste-hauling vehicle.

SECTION III: Section 40-106(11) is hereby created to read as follows, with the original section (11) being relabeled as (12).

(11) *Garbage Dumpsters and Carts.* The Board may grant a street privilege permit for dumpsters and carts. In addition to those conditions outlined in this article, the following minimum conditions shall apply, unless greater restrictions are imposed by the Board:
   a. Applicant must demonstrate, and the Board must determine that the dumpster or cart cannot reasonably be located on applicant's property rather than in the public right-of-way.
   b. The dumpster or cart must be located immediately adjacent to applicant's property, unless the applicant is able to share a dumpster with another applicant. Sharing of carts is prohibited.
   c. The dumpster or cart must not exceed the following dimensional requirements:

DUMPSTER AND CART DIMENSIONS			
	Length	Width	Height
65 Gallon Cart	2'2"	2'2"	3'3"
95 Gallon Cart	2'4"	2'4"	3'7"
2 Yard Dumpster	6'	3'	3'
4 Yard Dumpster	6'	4'	4'2"
6 Yard Dumpster	6'	6'	6'3"
• Dumpster Fee shall be ½ the cost if shared by more than one party.			
Used Cooking Oil	5'	3'5"	3'

d. The City's Chief of the Fire Department must determine that the dumpster or cart does not violate any applicable fire code, regulation or other authority.
e. The applicant must post a bond as provided in Section 2-3.
f. The applicant must provide and maintain insurance as provided in Section 2-2.
g. The applicant must have a valid bona fide contract with a waste hauler to periodically remove and dispose of waste if City service is not available.

SECTION IV: Section 2.2(b)(4) is hereby amended to read as follows:

(4) *Permit to place dumpster in street (§ 40-13 and 40-106(11))*. Prior to the issuance of a permit for the placement of a dumpster or cart in the street, the permit applicant must furnish the City Engineer satisfactory written evidence that the applicant has in force and will maintain during the term of the permit, public liability insurance in not less than $200,000.00 for one person, $500,000.00 for one accident, and property damage insurance of not less than $100,000.00. Each such applicant shall also furnish to the City a certificate of insurance naming the City of La Crosse as additional insured and evidence of the same shall be on file with the City Engineer's office at all times during the terms of the permit.

SECTION V: Section 2.3(6) is hereby amended to read as follows:

(6) *Placement of dumpsters in streets (§ 40-13 and 40-106(11)).* Each holder of a permit to place a dumpster in the street shall provide a bond in the sum of not less than $3,000.00 issued by an approved insurance or security company or letter of credit meeting the approval of the City Attorney in order to ensure removal of any dumpster, cart or refuse container ordered removed by the City Engineer's office and to cover any damages to any street, alley, highway, sidewalk, or other public way that may be damaged by the permittee's placement of a dumpster, cart or refuse container.

SECTION VI: Should any portion of this ordinance be declared unconstitutional or invalid by a court of competent jurisdiction, the remainder of this division shall not be affected.

SECTION VII: This ordinance shall take effect and be in force from and after its passage and publication.

ORDINANCE NO. _____

AN ORDINANCE to create Chapter 6, Article I, Section 20 of the Code of Ordinances of the City of La Crosse regarding harassment of service animals.

THE COMMON COUNCIL of the City of La Crosse do ordain as follows:

SECTION I: Section 6-20 is created to read as follows:

Sec. 6-20. Harassment of Service Animals

(a) Definitions. The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Service animal means an animal that is trained for the purpose of assisting a person with a sensory, mental, or physical disability or accommodating such a disability.

(b) Harassment prohibited. Knowing the victim is a service animal, no person may do or allow his or her animal to do any of the following:

(1) Obstruct or interfere with the use of a service animal;

(2) Jeopardize the safety of the service animal or its user;

(3) Injure a service animal; or

(4) Deprive another of the use of a service animal without consent.

SECTION II: Should any portion of this ordinance be declared unconstitutional or invalid by a court of competent jurisdiction, the remainder of this division shall not be affected.

SECTION III: This ordinance shall take effect and be in force from and after its passage and publication.

Agenda Number:

CHARTER ORDINANCE NO.: _____

A CHARTER ORDINANCE to create Section 20 of Appendix A of the Code of Ordinances of the City of La Crosse creating the position, duties and responsibilities of the Office of the City Administrator and removing duties from the Office of the Mayor.

The COMMON COUNCIL of the City of La Crosse do ordain as follows:

Sec. 20. – Office of the City Administrator

(a) OFFICE OF THE CITY ADMINISTRATOR. In order to provide the City of La Crosse with a more efficient, effective and responsible government under a system of a full-time Mayor and a part-time Common Council at a time when City government is becoming increasingly complex, there is hereby created the Office of City Administrator for the City of La Crosse.

(b) APPOINTMENT, TERM OF OFFICE AND REMOVAL. The Administrator shall be appointed on the basis of merit with due regard to training, experience, administrative ability and general fitness for the office, by a majority vote of those present and voting of the Common Council. The Administrator shall serve under a contract of three to five years as determined by the Council, with option to renew. The Administrator may be removed at any time, with or without cause, by an affirmative vote of three-fourths (3/4) of all the members of the Council. Removal shall be pursuant to the terms of the employment contract.

(c) EVALUATION. The Administrator shall be evaluated by the Common Council and Mayor using performance metrics established jointly by the Council and Mayor. The Council may establish other employment terms and conditions in the employment contract consistent with the provisions of this ordinance or the Municipal Code of the City of La Crosse.

(d) RESIDENCY. The Administrator shall reside within 15 miles of the judicial boundaries of the City of La Crosse within three (3) months following the date of appointment.

(e) QUALIFICATIONS. The Administrator shall possess a bachelor's degree from an accredited university and a minimum of five (5) years of progressively responsible municipal or county government experience in a senior leadership role. A master's degree in public administration, public policy, public finance, business administration, or a closely related field is preferred. The Common Council may establish additional qualifications consistent with professional standards for municipal management.

(f) FUNCTIONS AND DUTIES OF THE ADMINISTRATOR. The Administrator, subject to the limitations defined in resolutions and ordinances of the City of La Crosse and Wisconsin State Statutes, shall be the chief administrative officer of the City, responsible to the Common Council for proper administration of the business affairs of the City.

The Administrator shall have the following powers and duties:

1. Supervise all city department heads, excluding elected officials, the Police Chief, Fire Chief and Library Director. The Administrator shall collaborate with the Police Chief, Fire Chief and Library Director on matters of city-wide coordination and planning.
2. <u>Manage the recruitment and selection process for department head positions, recommend candidates to the appropriate appointing authority as specified in applicable charter ordinances, and supervise,</u>

evaluate, and discipline department heads consistent with the statutes of the State of Wisconsin, City charter ordinances, and City policies. Recommend removal of department heads to the appropriate authority.

~~Hire, evaluate, discipline and remove department heads consistent with the statutes of the State of Wisconsin and City policies.~~

3. Prepare and submit the annual budget to the Common Council for adoption.
4. Execute the adopted budget and ensure fiscal responsibility.
5. Implement ordinance, resolutions and policies adopted by the Mayor and Common Council.
6. Serve as the City's Public Information Officer or designate a department head to serve in this capacity.
7. Keep the Common Council and Mayor regularly informed about City operations through oral or written reports.
8. Perform such other duties as may be prescribed by the Common Council in the employment contract.

(g) ROLE OF THE MAYOR. The Mayor and City Administrator have complementary roles that must be clearly defined to ensure effective governance. While the Administrator serves as chief administrative officer responsible for day-to-day operations, the Mayor remains the City's chief political executive with the following responsibilities:

1. Serve as the City's chief public representative and spokesperson on matters of policy.
2. Set strategic vision and policy priorities for the City.
3. Introduce initiatives and legislation to the Common Council.
4. Serve as lead negotiator with other governments, institutions, and stakeholders.
5. Participate in the City Administrator search process and joint evaluation of the City Administrator.
6. Retain all emergency powers provided by law and charter.

(h) LINES OF AUTHORITY.

1. Single Chain of Command. To ensure effective administration and clear accountability, neither the Mayor nor any individual Council Member, nor any member thereof, shall direct, supervise, or give orders to City staff or department heads except through the City Administrator.
2. Access and Communication. Individual Council Members and the Mayor may communicate with the City Administrator at any time to request information, ask questions, provide input or discuss City matters. The City Administrator shall be responsible for such communications and shall provide requested information in a timely manner.
3. Council Direction. The Common Council, acting as a body, may direct the City Administrator to take specific actions through duly adopted resolutions or ordinances, through direction provided during Council meetings, or through consensus expressed by the Council. Individual Council Members may request that the Administrator consider specific actions but may not direct the Administrator or staff to act.

4. Emergency Exception. Nothing in this section shall prevent the Mayor from exercising emergency powers as provided by law and charter.

SECTION II: The provisions of this ordinance shall be deemed severable and it is expressly declared that the Common Council of the City of La Crosse would have passed the other provisions of this ordinance irrespective of whether or not one or more provisions may be declared invalid; and if any persons or circumstances is held invalid, the remainder of the ordinance and the application of such provision of other persons or circumstances shall not be affected thereby.

SECTION III: This charter ordinance specifically removes those duties from the Office of Mayor to oversee the day-to-day operations, management and administration of the City of La Crosse that are found under § 62.09 (8) (a), Wis. Stat. Any charter provision or any previously enacted ordinance or charter ordinance inconsistent or in conflict with this ordinance is expressly repealed.

SECTION IV: Pursuant to Wis. Stat § 66.0503, the Common Council finds and determines that the City Administrator is emergency personnel.

SECTION V: EFFECTIVE DATE: This charter ordinance shall take effect sixty (60) days after its passage and publication subject to the provisions of Section 66.0101(5) Wis. Stat.

SECTION VI: TRANSITION AND ACTING ADMINISTRATOR.

(a) Upon the effective date of this ordinance, the Common Council shall immediately appoint an Acting City Administrator to serve until a permanent City Administrator is hired and assumes office. The Acting City Administrator shall have full authority to exercise all powers and duties specified in Section (f).
(b) Upon the effective date of this ordinance, the City shall immediately initiate a transparent, professional search for a permanent City Administrator. The search process shall include participation by the Mayor and shall be conducted in accordance with best practices for municipal executive recruitment.

SECTION VII: NON-RETROACTIVITY. Nothing in this charter ordinance shall alter the term, compensation or benefits of the current Mayor during the remainder of the current term of office ending in April 2029.

DETAILED BRIEFING: CITY ADMINISTRATOR CHARTER ORDINANCE

Prepared for La Crosse City Council
February 1, 2026

BACKGROUND

In October 2024, the Council began reviewing a City Administrator charter ordinance originally drafted in 2024. In November 2024, the Council created a City Administrator Working Group to conduct community engagement and report back by May 2025. In May 2025, the Council voted to extend the review period to February 2026 to allow additional time for community input and expert consultation.

Over the past 15 months, the Council has engaged in an extensive review process that included:

- Community input sessions led by the Working Group
- UW-Extension consultant analysis and presentation (December 2025)
- Chamber of Commerce panel discussion with two local city administrators/managers and a WCMA representative
- Department heads' review and feedback memo (January 2026)
- Wisconsin City/County Management Association (WCMA) review and recommendations (February 2026)
- Legal review by the City Attorney (ongoing through January 2026)
- HR Department consultation
- Public comment (including written submissions)

Initially, I attempted to amend the 2024 ordinance to address concerns raised during this process. However, the number and scope of necessary changes made amendments impractical, and the revised document became unclear and confusing. Rather than produce a heavily marked-up document that would be difficult to understand, implement, and communicate to the public, I introduced new legislation (File 26-0071) that provides a clean, comprehensive structure addressing all identified concerns while maintaining clarity and legal compliance.

ISSUES IDENTIFIED WITH THE 2024 ORDINANCE

Source: UW-Extension Consultant (December 2025 presentation)

- Indefinite contract term: Creates instability and uncertainty for both the Administrator and the City
- Unclear authority over department heads: Ambiguous language about hiring/firing authority ("Is firing clear?")

- No public engagement provisions: No process defined for public participation in hiring
- No transition plan: Presentation ended with "What does the transition look like ??" (literal question marks)
- Overly detailed job description: 26+ specific duties more appropriate for an employment contract than charter legislation
- Budget preparation vacuum: Unclear who is responsible for preparing the annual budget
- No Mayor role definition: Creates governance gap about Mayor's responsibilities

Source: Department Heads (January 2026 memo)

- Unclear reporting structure: Who does Administrator report to day-to-day?
- Undefined decision-making authority: How are overlapping responsibilities between Mayor and Administrator delineated?
- Transition concerns: How is continuity maintained during search period?
- No evaluation process: How is Administrator held accountable?
- Fiscal impact questions: What is the budgetary impact on existing department resources?

HOW THE NEW ORDINANCE ADDRESSES THESE ISSUES

Contract and Employment Terms

- Establishes 3-5 year contract term with option to renew (addresses UW-Extension concern about indefinite term; note: WCMA recommends 1-3 years as more typical)
- Clear removal process: ¾ vote of all Council members (addresses City Attorney legal compliance concern with Wis. Stat.)
- Joint evaluation by Council and Mayor using performance metrics (addresses Department Heads' accountability concern)
- Council may establish additional employment terms through contract (addresses operational flexibility)

Governance Structure

- High-level governance focus rather than detailed job description (addresses UW-Extension concern about overly prescriptive duties)
- Clear reporting structure: Administrator reports to Council as a body (addresses Department Heads' concern)
- Explicit Mayor role definition (Section I(g)): Chief political executive with strategic vision, policy priorities, external representation, emergency powers (addresses governance vacuum in 2024 version)
- Clear lines of authority (Section I(h)): Neither Mayor nor individual Council members can direct staff; Council acts as a body; elected officials retain information access (addresses Department Heads' concern about overlapping authority)

AMENDMENTS EXPECTED AT FEBRUARY 3RD J&A HEARING

Based on expert feedback, the following amendments are expected:

1. Clarify department head hiring authority (Section I(f)(2)) - Change from "Hire, evaluate, discipline and remove department heads" to "Manage the recruitment and selection process for department head positions, recommend candidates to the appropriate appointing authority as specified in applicable charter ordinances, and supervise, evaluate, discipline, and recommend removal of department heads"
2. Add subordinate staff authority (Section I(f)(2)) - Add "and all subordinate officers and employees in such departments" per WCMA recommendation
3. Add Council subcommittee to search process (Section VI(b)) - Add "participation by the Mayor and a subcommittee of the Common Council in the preliminary screening before bringing finalists to the entire Council for interviews"
4. Correct typo (Section VI(a)) - Change final reference to read "Section I(f)"

QUESTIONS THAT ARE IMPLEMENTATION DETAILS (NOT CHARTER-LEVEL)

Department Heads raised important questions about cost, budget impact, physical space, and ROI data. These are legitimate implementation concerns that will be addressed during:

- Budget development process
- Administrator search and hiring
- Employment contract negotiation
- Transition planning
- 2026 workforce study (approved by Council to evaluate operational efficiencies)

These questions are not appropriate for charter-level legislation, which establishes governance structure rather than operational details. The charter creates the position and defines its role; the employment contract and budget process will address compensation, benefits, office space, support staff, and other operational matters.

VALIDATION FROM COMPARABLE CITIES

According to UW-Extension research and the Chamber panel:

- 64% of Wisconsin municipalities over 20,000 population use professional management (City Manager or Administrator)
- Among comparable Wisconsin cities: Eau Claire, Janesville, Oshkosh, Fond du Lac, Beloit, Waukesha, West Allis, Kenosha, Racine, Sheboygan, Wauwatosa all use this model

- West Allis and Waukesha both have full-time mayors AND administrators, proving this model works with La Crosse's governance structure
- Local administrators from neighboring jurisdictions confirmed best practices reflected in new ordinance
- WCMA (Wisconsin City/County Management Association) strongly endorsed the ordinance structure and provided technical recommendations for improvement

CONCLUSION

The 15-month review process, including the Working Group's community engagement, UW-Extension consultant analysis, Chamber panel discussion, Department Heads' feedback, WCMA review, legal review, HR consultation, and public comment, identified significant structural, legal, and governance gaps in the 2024 ordinance. The new ordinance addresses these concerns with a modern, legally compliant governance structure that:

- Creates clear accountability through professional management
- Defines complementary roles for Mayor and Administrator
- Establishes realistic contract terms and evaluation processes
- Provides for orderly transition and implementation
- Protects the current Mayor's role and compensation
- Aligns with best practices in comparable Wisconsin cities
- Responds directly to expert feedback from multiple sources
- Resolves legal conflicts with existing charter ordinances
- Incorporates WCMA's professional management standards
- Addresses Department Heads' governance and accountability concerns

This ordinance is the product of the thorough review process the Council initiated in 2024. It represents a culmination of community input, expert consultation, and careful consideration of La Crosse's unique needs and governance structure.

Key Operational Details to be Determined Later:

Many operational details, including specific compensation, benefits, office arrangements, support staff requirements, detailed performance metrics, and day-to-day working relationships, will be negotiated in the Administrator's employment contract rather than specified in the charter ordinance. The charter establishes governance structure and accountability; the employment contract will establish operational expectations and working arrangements. Additional operational questions will be addressed through the 2026 workforce study, budget development process, and transition planning.

Expert Validation:

This ordinance has been reviewed and endorsed by:

- Wisconsin City/County Management Association (WCMA) - professional association for city and county administrators
- UW-Extension Local Government Center - academic experts in municipal governance

- City Attorney - legal compliance review
- Chamber of Commerce panel - including practicing administrators from comparable cities
- HR Department - recruitment and employment practices

The ordinance incorporates best practices from 64% of Wisconsin municipalities over 20,000 population that use professional management, and aligns with governance structures in comparable cities including Eau Claire, Janesville, Oshkosh, Waukesha, and West Allis.

Prepared by Council Member Aron Newberry
February 1, 2026

LINE-BY-LINE JUSTIFICATION

CITY ADMINISTRATOR CHARTER ORDINANCE (FILE 26-0071)

Prepared: February 1, 2026

This document explains the source, rationale, and expert input for each provision of the proposed charter ordinance. Where experts offered differing recommendations, those differences are noted along with how conflicts were resolved. Items identified as suitable for immediate amendment are clearly labeled.

AMENDMENTS EXPECTED AT FEBRUARY 3RD J&A HEARING:

1. Broaden qualifications (Section I(e)) to include military, nonprofit, private sector experience
2. Clarify department head hiring authority (Section I(f)(2)) to respect existing charter ordinances
3. Add WCMA language on subordinate staff authority (Section I(f)(2))
4. Add Council subcommittee to search process (Section VI(b))
5. Correct typo in Section VI(a) - change reference to "Section I(f)"

TITLE

Provision
"A CHARTER ORDINANCE to create Section 20 of Appendix A of the Code of Ordinances of the City of La Crosse creating the position, duties and responsibilities of the Office of the City Administrator and removing duties from the Office of the Mayor."

Source
City Attorney (Stephen Matty)

Rationale
Charter ordinances must follow specific statutory formatting requirements under Wis. Stat.. The title must clearly state both what is being created and what is being removed. This language satisfies that requirement.

Expert Input / Recommendation
No disagreement.

SECTION I(a): OFFICE OF THE CITY ADMINISTRATOR

Provision
Creates the Office of City Administrator to ensure efficient, effective, and responsible government in a context of increasing municipal complexity, while acknowledging La Crosse's structure of a full-time Mayor and part-time Common Council.

Source
UW-Extension presentation (December 2025); consistent with 2024 charter amendment language

Rationale
Establishes the "why" of the ordinance. UW-Extension identified that La Crosse's operational scope has outgrown its current governance structure. The provision explicitly recognizes the city's unique institutional setup.

Expert Input

- UW-Extension: Emphasized administrative complexity as the core justification.
- Department Heads: Questioned whether this was the specific problem being solved

Resolution
Retained UW-Extension framing as it provides clear policy rationale.

SECTION I(b): APPOINTMENT, TERM OF OFFICE, AND REMOVAL

Appointment

Provision
Administrator appointed by majority vote of those present and voting, based on merit and professional qualifications.

Source
Standard municipal management language; validated by WCMA

Rationale
Ensures merit-based hiring using standard Council voting thresholds.

Recommendation
No disagreement.

Term of Office

Provision
Administrator serves under a renewable contract of three (3) to five (5) years.

Source
WCMA best practices; UW-Extension presentation

Rationale
Addresses concerns raised about the 2024 ordinance's indefinite term, which created instability. A fixed contract balances accountability with continuity.

Expert Input

- 2024 Ordinance: Indefinite term
- UW-Extension: Flagged indefinite term as problematic
- WCMA: Typical contracts range from 1–3 years

Recommendation:
A 3–5 year term provides greater stability than WCMA's minimum while avoiding an indefinite appointment.

Removal

Provision
Administrator may be removed by a three-fourths (3/4) vote of the full Council, consistent with contract terms.

Source
City Attorney (Wis. Stat. compliance)

Rationale
2024 ordinance's "Mayor with approval of ¾ of Council" language violated Wis. Stat. This version complies with statute by making removal a Council-only action.

Expert Input

- 2024 Ordinance: "Mayor with approval of ¾ of Council" (legally non-compliant)
- City Attorney: Must be Council-only removal to comply with Wis. Stat.

Recommendation
No disagreement.

SECTION I(c): EVALUATION

Provision
Administrator evaluated jointly by the Common Council and Mayor using agreed-upon performance metrics.

Source
Original drafting, responding to Department Heads' memo (January 2026)

Rationale
Directly addresses the question "How is the Administrator held accountable?" Joint evaluation preserves accountability while ensuring the Mayor has a meaningful role.

Expert Input

- 2024 Ordinance: No evaluation provision
- Department Heads: Requested clarity on accountability
- WCMA: Recommends annual evaluation

Recommendation
No disagreement.

Provision
Council may establish additional employment terms through the Administrator's contract.

Source
Standard municipal practice

Rationale
Clarifies that compensation, benefits, and similar terms are contract-level decisions, not ordinance-level details. Addresses Department Heads' questions about these operational matters.

Recommendation
No disagreement.

SECTION I(d): RESIDENCY

Provision
Administrator must reside within 15 miles of the city within three months of appointment.

Source
City Attorney (Wis. Stat.)
Residency language was provided to ensure statutory compliance. The 15-mile standard mirrors common emergency-personnel requirements.

Expert Input

- 2024 Ordinance: No residency requirement
- City Attorney: Required if residency is imposed; must comply with Wis. Stat.
- Municipal Administrators (informal): Residency requirements can limit candidate pool
- League of Wisconsin Municipalities: Question pending on whether this is advisable

⚠ AMENDMENT-READY NOTE
This provision remains under review pending League of Wisconsin Municipalities guidance.

SECTION I(e): QUALIFICATIONS

Minimum Qualifications

Provision
Bachelor's degree and five (5) years of progressively responsible senior-level municipal or county government experience.

Source
Original drafting

Rationale
Sets a professional baseline while maintaining specificity around public-sector leadership experience.

Expert Input

- 2024 Ordinance: Required prior Administrator/Manager title, which severely limited candidate pool
- Chamber panel & public comment (James Szymalak): Current language may still be too restrictive and exclude qualified candidates from military, nonprofit, state, or private-sector backgrounds. Screening should focus on competencies, not just credential pathways

⚠ AMENDMENT-READY RECOMMENDATION
Broaden qualifications from "municipal or county government experience" to "progressively responsible senior leadership experience in public administration, military, nonprofit, or private sector management" to expand candidate pool while maintaining professional standards.

Preferred Qualifications

Provision
Master's degree preferred (MPA, public finance, business administration, or related field).

Source
Standard professional qualification language

Rationale
Signals professional expectations without disqualifying strong candidates.

Recommendation
No disagreement.

Additional Qualifications

Provision
Council may establish additional qualifications consistent with professional standards.

Source
Original drafting

Rationale
Allows flexibility to tailor searches to evolving city needs without amending the ordinance.

Recommendation
No disagreement.

SECTION I(f): FUNCTIONS AND DUTIES OF THE ADMINISTRATOR

Provision
Administrator serves as the City's chief administrative officer, responsible to the Common Council.

Source
WCMA best practices; standard municipal administrator language

Rationale
Clarifies reporting structure and resolves prior ambiguity about who Administrator reports to.

Expert Input

- UW-Extension: Asked "Who does Administrator report to?"
- Department Heads: Asked "Who does Administrator report to day-to-day?"
- Comparable Cities: Most have Administrator report to Council as body

Resolution
Administrator reports to Council as body (standard practice).

Key Duties (Summary)

1. Supervise department heads (excluding Police, Fire, Library Directors) and collaborate with protected departments

Source
City Attorney (statutory protections) and original drafting

Rationale
Police Chief, Fire Chief, and Library Director have statutory protections under Wisconsin law that limit Administrator's direct supervisory authority. "Collaborate" language ensures coordination without violating statutes.

Expert Input

- 2024 Ordinance: Unclear about authority over department heads
- City Attorney: Must respect statutory protections for Police, Fire, Library
- WCMA: Warned that excluding department heads from Administrator supervision "can lead to issues" - they may circumvent Administrator and go directly to Council

Recommendation:
Excluded Police/Fire/Library per statute, but included "collaborate" language to maintain coordination. Acknowledged WCMA concern but prioritized legal compliance. Will address coordination through employment contract and administrative policies.

2. Hire, evaluate, discipline, and remove department heads

Source
Standard administrator authority; addresses UW-Extension concern, Approved by City Attorney amendment proposed by Neberry on 2/2/26

Rationale
UW-Extension asked "Is firing clear?" in 2024 ordinance. This makes authority explicit.

Expert Input

- City Attorney (January 2026): Identified conflict with existing charter ordinances governing department head appointments. Some department heads are appointed by Mayor and confirmed by Council; some by Council directly; some by other bodies and

confirmed by Council. Administrator cannot "hire" department heads without amending those individual charter ordinances.

- WCMA: Recommends adding language clarifying Administrator's authority over "all subordinate officers and employees in such departments"

⚠ AMENDMENT-READY
Revise to: "Manage the recruitment and selection process for department head positions, recommend candidates to the appropriate appointing authority as specified in applicable charter ordinances, and supervise, evaluate, discipline, and recommend removal of department heads and all subordinate officers and employees in such departments, consistent with the statutes of the State of Wisconsin, City charter ordinances, and City policies." Newberry submitted ammendment 2/2/26

3. Prepare and submit the annual budget

Source
Standard administrator duty; addresses City Attorney concern

Rationale
City Attorney noted 2024 ordinance had "budget preparation vacuum" - didn't clearly assign responsibility. This makes it explicit.

Recommendation
No disagreement.

4. Execute the adopted budget and ensure fiscal responsibility

Source
Standard administrator duty

Rationale
Administrator implements budget Council adopts.

Recommendation
No disagreement.

5. Implement ordinances, resolutions and policies adopted by the Mayor and Common Council

Source
Standard administrator duty

Rationale
Administrator implements policy set by elected officials.

Recommendation
No disagreement.

6. Serve as the City's Public Information Officer or designate a department head

Source
Addresses City Attorney concern about 2024 ordinance

Rationale
City Attorney noted 2024 ordinance assigned PIO role to Administrator but "creates practical problems." "Or designate" language provides flexibility.

Recommendation
No disagreement.

7. Keep the Common Council and Mayor regularly informed about City operations

Source
Standard administrator duty

Rationale
Ensures transparency and accountability to elected officials.

Recommendation
No disagreement.

8. Perform such other duties as may be prescribed by the Common Council in the employment contract

Source
Standard flexibility provision

Rationale
Allows Council to assign additional duties through contract without amending ordinance.

Recommendation
No disagreement.

SECTION I(g): ROLE OF THE MAYOR

Purpose
Explicitly defines the Mayor's political and strategic role, which was absent in the 2024 ordinance.

Source
Original drafting, addressing Department Heads' and UW-Extension concerns

Rationale
2024 ordinance had no Mayor role definition, creating governance vacuum. Department Heads asked "What is Mayor's role?" and "What powers will remain with Mayor and Common Council collectively?" This section addresses those concerns by explicitly defining Mayor's political/strategic role as distinct from Administrator's operational role.

Expert Input

- 2024 Ordinance: No Mayor role definition
- UW-Extension: Noted absence of Mayor role definition as significant gap
- Department Heads: Asked "What powers will remain with Mayor and Common Council collectively?"

Recommendation:
Created explicit Mayor role definition to fill governance gap.

Mayor Responsibilities

1. Serve as the City's chief public representative and spokesperson on matters of policy
    - Mayor remains public face of city on policy matters; Administrator handles operational communications
2. Set strategic vision and policy priorities for the City
    - Mayor is elected official who sets direction; Administrator implements that direction
3. Introduce initiatives and legislation to the Common Council
    - Existing Mayor power under La Crosse charter; made explicit that Mayor retains this authority
4. Serve as lead negotiator with other governments, institutions, and stakeholders
    - Mayor is political executive who represents city in external relationships
5. Participate in the City Administrator search process and joint evaluation of the City Administrator
    - Ensures Mayor has meaningful role in Administrator selection and accountability even though Council formally appoints
6. Retain all emergency powers provided by law and charter
    - Makes explicit that Mayor retains statutory emergency powers
    - WCMA Note: Recommended policies and procedures document to clarify operational roles during emergencies, as ordinance language alone may be impractical. Will be addressed through administrative policies after Administrator is hired.

Overall Recommendation
No disagreement on substance; WCMA noted need for emergency operations policies.

SECTION I(h): LINES OF AUTHORITY

Purpose
Creates a single chain of command to prevent operational interference and confusion.

Source
Standard council-manager governance principle; WCMA best practices

Rationale
Addresses Department Heads' question "How will decision-making authorities be delineated in areas where responsibilities may overlap?" Creates clear chain of command to prevent confusion and political interference in operations.

Expert Input

- 2024 Ordinance: No lines of authority provision
- Department Heads: Asked about decision-making authority delineation

- WCMA: Emphasized importance of Mayor and Council being "aligned in their support for the city administrator and remain firm in letting folks know that they need to work through that person"

Key Provisions

(h)(1) Single Chain of Command
Neither Mayor nor individual Council Members shall direct, supervise, or give orders to City staff or department heads except through the City Administrator.

Rationale
Prevents confusion and political interference in operations.

(h)(2) Access and Communication
Individual Council Members and Mayor may communicate with Administrator at any time to request information, ask questions, provide input or discuss City matters. Administrator shall provide requested information in a timely manner.

Rationale
Ensures elected officials can get information they need without violating chain of command. Administrator is responsive to elected officials while maintaining operational authority.

(h)(3) Council Direction
Common Council, acting as a body, may direct Administrator to take specific actions through duly adopted resolutions or ordinances, through direction provided during Council meetings, or through consensus expressed by the Council. Individual Council Members may request that Administrator consider specific actions but may not direct Administrator or staff to act.

Rationale
Clarifies that Council as body (not individual members) directs Administrator. Allows flexibility for Council direction through formal and informal means while preventing individual Council members from giving orders.

(h)(4) Emergency Exception
Nothing in this section shall prevent the Mayor from exercising emergency powers as provided by law and charter.

Rationale
Ensures lines of authority don't interfere with Mayor's statutory emergency powers.

Overall Recommendation
Strong expert consensus; WCMA emphasized importance of this section.

SECTION II: SEVERABILITY

Provision
Standard severability clause ensuring that if one provision is found legally invalid, the remainder of the ordinance remains in effect.

Source
City Attorney - standard legal language

Rationale
Standard severability clause protects ordinance from complete invalidation if one provision is challenged.

Recommendation
No disagreement - this is boilerplate legal language.

SECTION III: REMOVAL OF MAYOR DUTIES

Provision
"This charter ordinance specifically removes those duties from the Office of Mayor to oversee the day-to-day operations, management and administration of the City of La Crosse that are found under, Wis. Stat. Any charter provision or any previously enacted ordinance or charter ordinance inconsistent or in conflict with this ordinance is expressly repealed."

Source
City Attorney - legal requirement

Rationale
Wisconsin statute gives Mayor authority over day-to-day operations. Charter ordinance must explicitly remove those duties and transfer them to Administrator. Second sentence ensures this ordinance supersedes any conflicting provisions.

Recommendation
No disagreement - this is legally required language.

SECTION IV: EMERGENCY PERSONNEL DESIGNATION

Provision
"Pursuant to Wis. Stat, the Common Council finds and determines that the City Administrator is emergency personnel."

Source
City Attorney

Rationale
City Attorney provided this language as legal basis for residency requirement in Section I(d). Wis. Stat. allows municipalities to require residency for "emergency personnel."

Expert Input

- City Attorney: Provided this language to enable residency requirement
- Municipal Administrators (informal feedback): Questioned whether emergency personnel designation is necessary or advisable

- League of Wisconsin Municipalities: Question pending on whether designation is required or optional, and whether residency requirement is advisable

⚠ AMENDMENT-READY NOTE
This provision remains under review pending League of Wisconsin Municipalities guidance.

SECTION V: EFFECTIVE DATE

Provision
"This charter ordinance shall take effect sixty (60) days after its passage and publication subject to the provisions of Wis. Stat."

Source
City Attorney - statutory requirement

Rationale
Wis. Stat. requires 60-day waiting period for charter ordinances to allow for referendum petition. Reference to statute ensures compliance with referendum provisions.

Expert Input

- League of Wisconsin Municipalities: Question pending on whether charter ordinance can have contingent effective date tied to Administrator hire

Resolution
Used standard 60-day effective date per statute. Awaiting League guidance on whether effective date can be contingent on Administrator hire.

Recommendation
No disagreement on current language; may consider amendment if League confirms contingent effective date is permissible.

SECTION VI: TRANSITION AND ACTING ADMINISTRATOR

Section VI(a): Acting Administrator

Provision
"Upon the effective date of this ordinance, the Common Council shall immediately appoint an Acting City Administrator to serve until a permanent City Administrator is hired and assumes office. The Acting City Administrator shall have full authority to exercise all powers and duties specified in Section (f)."

Source
Original drafting, addresses UW-Extension and Department Heads concerns

Rationale
UW-Extension presentation ended with "What does the transition look like ??" (literal question marks). Department Heads asked "How will continuity of operations be maintained during a

transition period?" This provision addresses both concerns by ensuring immediate appointment of Acting Administrator.

Expert Input

- 2024 Ordinance: No transition provision
- UW-Extension: Raised transition as major unanswered question
- Department Heads: Asked about continuity during transition
- City Attorney: Noted that under Wis. Stat., Mayor is likely prohibited from serving as Acting Administrator
- Municipal Administrators (informal feedback): Warned that appointing Acting Administrator immediately could create disruption if they make changes the permanent hire later reverses

Resolution
Included immediate Acting Administrator appointment to ensure continuity. Acting Administrator will likely be internal candidate (Finance Director or similar) who maintains status quo rather than making major changes during search period.

⚠ TECHNICAL AMENDMENT
WCMA identified typo: Last reference should read "Section I(f)" not "Section (f)"

Section VI(b): Search Process

Provision
"Upon the effective date of this ordinance, the City shall immediately initiate a transparent, professional search for a permanent City Administrator. The search process shall include participation by the Mayor and shall be conducted in accordance with best practices for municipal executive recruitment."

Source
Original drafting, addresses UW-Extension concern

Rationale
UW-Extension noted 2024 ordinance had "No public engagement provisions" and "No process defined for public participation in hiring." This provision addresses that concern.

Expert Input

- 2024 Ordinance: No search process provisions
- UW-Extension: Noted absence of public engagement provisions as significant gap
- WCMA: Recommended adding "participation by the Mayor and a subcommittee of the Common Council in the preliminary screening before bringing finalists to the entire Council for interviews"

⚠ AMENDMENT-READY
Add WCMA-recommended language: "The search process shall include participation by the Mayor and a subcommittee of the Common Council in the preliminary screening before bringing finalists to the entire Council for interviews, and shall be conducted in accordance with best practices for municipal executive recruitment."

SECTION VII: NON-RETROACTIVITY

Provision
"Nothing in this charter ordinance shall alter the term, compensation or benefits of the current Mayor during the remainder of the current term of office ending in April 2029."

Source
Original drafting - political protection provision

Rationale
Intended to demonstrate that ordinance is about governance structure, not about current Mayor. Protects Mayor's term, compensation, and benefits to remove "power grab" argument.

Expert Input

- 2024 Ordinance: No such provision
- City Attorney: Believes this section is legally redundant - ordinance doesn't affect Mayor's term, compensation, or benefits anyway, so stating it is unnecessary

No Recomendation:

SUMMARY OF KEY SOURCES

Primary Sources:

- UW-Extension Presentation (December 2025) - identified gaps in 2024 ordinance
- City Attorney Legal Review (December 2025-January 2026) - ensured statutory compliance
- Department Heads Memo (January 2026) - raised governance and implementation questions
- WCMA Best Practices Report (January 2026) - provided professional management standards
- Municipal Administrator feedback (Chamber panel, informal consultations) - provided practitioner perspective
- League of Wisconsin Municipalities (questions pending) - legal guidance on residency, emergency personnel, contingent effective date

Key Improvements Over 2024 Ordinance:

- Fixed contract term (3-5 years) instead of indefinite
- Joint evaluation by Council and Mayor
- Explicit Mayor role definition
- Clear lines of authority
- Transition provisions
- Legal compliance with Wis. Stat. (removal), (Mayor duties), (succession)
- Broader qualifications (pending amendment)
- Clearer department head authority (pending amendment)

Document prepared by Council Member Aron Newberry
February 1, 2026

CHARTER ORDINANCE NO.: _____

A CHARTER ORDINANCE to create Section 20 of Appendix A of the Code of Ordinances of the City of La Crosse creating the position, duties and responsibilities of the Office of the City Administrator and removing duties from the Office of the Mayor.

The COMMON COUNCIL of the City of La Crosse do ordain as follows:

Sec. 20. – Office of the City Administrator

(a) OFFICE OF THE CITY ADMINISTRATOR. In order to provide the City of La Crosse with a more efficient, effective and responsible government under a system of a full-time Mayor and a part-time Common Council at a time when City government is becoming increasingly complex, there is hereby created the Office of City Administrator for the City of La Crosse.

(b) APPOINTMENT, TERM OF OFFICE AND REMOVAL. The Administrator shall be appointed on the basis of merit with due regard to training, experience, administrative ability and general fitness for the office, by a majority vote of those present and voting of the Common Council. The Administrator shall serve under a contract of three to five years as determined by the Council, with option to renew. The Administrator may be removed at any time, with or without cause, by an affirmative vote of three-fourths (3/4) of all the members of the Council. Removal shall be pursuant to the terms of the employment contract.

(c) EVALUATION. The Administrator shall be evaluated by the Common Council and Mayor using performance metrics established jointly by the Council and Mayor. The Council may establish other employment terms and conditions in the employment contract consistent with the provisions of this ordinance or the Municipal Code of the City of La Crosse.

(d) RESIDENCY. The Administrator shall reside within 15 miles of the judicial boundaries of the City of La Crosse within three (3) months following the date of appointment.

(e) QUALIFICATIONS. The Administrator shall possess a bachelor's degree from an accredited university and a minimum of five (5) years of progressively responsible municipal or county government experience in a senior leadership role. A master's degree in public administration, public policy, public finance, business administration, or a closely related field is preferred. The Common Council may establish additional qualifications consistent with professional standards for municipal management.

(f) FUNCTIONS AND DUTIES OF THE ADMINISTRATOR. The Administrator, subject to the limitations defined in resolutions and ordinances of the City of La Crosse and Wisconsin State Statutes, shall be the chief administrative officer of the City, responsible to the Common Council for proper administration of the business affairs of the City.

The Administrator shall have the following powers and duties:

1. Supervise all city department heads, excluding elected officials, the Police Chief, Fire Chief and Library Director. The Administrator shall collaborate with the Police Chief, Fire Chief and Library Director on matters of city-wide coordination and planning.
2. Hire, evaluate, discipline and remove department heads consistent with the statutes of the State of Wisconsin and City policies.
3. Prepare and submit the annual budget to the Common Council for adoption.
4. Execute the adopted budget and ensure fiscal responsibility.

5. Implement ordinance, resolutions and policies adopted by the Mayor and Common Council.
6. Serve as the City's Public Information Officer or designate a department head to serve in this capacity.
7. Keep the Common Council and Mayor regularly informed about City operations through oral or written reports.
8. Perform such other duties as may be prescribed by the Common Council in the employment contract.

(g) ROLE OF THE MAYOR. The Mayor and City Administrator have complementary roles that must be clearly defined to ensure effective governance. While the Administrator serves as chief administrative officer responsible for day-to-day operations, the Mayor remains the City's chief political executive with the following responsibilities:

1. Serve as the City's chief public representative and spokesperson on matters of policy.
2. Set strategic vision and policy priorities for the City.
3. Introduce initiatives and legislation to the Common Council.
4. Serve as lead negotiator with other governments, institutions, and stakeholders.
5. Participate in the City Administrator search process and joint evaluation of the City Administrator.
6. Retain all emergency powers provided by law and charter.

(h) LINES OF AUTHORITY.

1. Single Chain of Command. To ensure effective administration and clear accountability, neither the Mayor nor any individual Council Member, nor any member thereof, shall direct, supervise, or give orders to City staff or department heads except through the City Administrator.
2. Access and Communication. Individual Council Members and the Mayor may communicate with the City Administrator at any time to request information, ask questions, provide input or discuss City matters. The City Administrator shall be responsible for such communications and shall provide requested information in a timely manner.
3. Council Direction. The Common Council, acting as a body, may direct the City Administrator to take specific actions through duly adopted resolutions or ordinances, through direction provided during Council meetings, or through consensus expressed by the Council. Individual Council Members may request that the Administrator consider specific actions but may not direct the Administrator or staff to act.
4. Emergency Exception. Nothing in this section shall prevent the Mayor from exercising emergency powers as provided by law and charter.

SECTION II: The provisions of this ordinance shall be deemed severable and it is expressly declared that the Common Council of the City of La Crosse would have passed the other provisions of this ordinance irrespective of whether or not one or more provisions may be declared invalid; and if any persons or circumstances is held invalid, the remainder of the ordinance and the application of such provision of other persons or circumstances shall not be affected thereby.

SECTION III: This charter ordinance specifically removes those duties from the Office of Mayor to oversee the day-to-day operations, management and administration of the City of La Crosse that are found under § 62.09 (8) (a), Wis. Stat. Any charter provision or any previously enacted ordinance or charter ordinance inconsistent or in conflict with this ordinance is expressly repealed.

SECTION IV: Pursuant to Wis. Stat § 66.0503, the Common Council finds and determines that the City Administrator is emergency personnel.

SECTION V: EFFECTIVE DATE: This charter ordinance shall take effect sixty (60) days after its passage and publication subject to the provisions of Section 66.0101(5) Wis. Stat.

SECTION VI: TRANSITION AND ACTING ADMINISTRATOR.

(a) Upon the effective date of this ordinance, the Common Council shall immediately appoint an Acting City Administrator to serve until a permanent City Administrator is hired and assumes office. The Acting City Administrator shall have full authority to exercise all powers and duties specified in Section (f).
(b) Upon the effective date of this ordinance, the City shall immediately initiate a transparent, professional search for a permanent City Administrator. The search process shall include participation by the Mayor and shall be conducted in accordance with best practices for municipal executive recruitment.

SECTION VII: NON-RETROACTIVITY. Nothing in this charter ordinance shall alter the term, compensation or benefits of the current Mayor during the remainder of the current term of office ending in April 2029.

LEGISLATION STAFF REPORT FOR COUNCIL

File ID 26-0071

Caption: A CHARTER ORDINANCE to create Section 20 of Appendix A of the Code of Ordinances of the City of La Crosse creating the position, duties and responsibilities of the Office of the City Administrator and removing duties from the Office of the Mayor.

Staff/Department Responsible for Legislation

Requestor of Legislation

Council Member Aron Newberry

Location, if applicable

Summary/Purpose

This charter ordinance creates the position of City Administrator to provide professional management of day-to-day city operations. The Administrator will serve as chief administrative officer responsible for budget preparation, department supervision, and policy implementation, while the Mayor retains authority as chief political executive responsible for strategic vision, policy priorities, and external representation. The ordinance establishes clear lines of authority, includes transition provisions, and explicitly protects the current Mayor's term and compensation.

Background

La Crosse operates under a mayor-council system where the Mayor serves as both chief executive and chief administrative officer. As city government has grown more complex, this dual role has created operational challenges.

Mayor Washington-Spivey and several Council members campaigned on professional city management in 2025. The Council established a City Administrator Working Group that conducted community engagement and presented findings in December 2025.

This ordinance is intended to replace the 2011 version City Administrator ordinance (File 24-1287) currently under review. Legal and structural issues identified require a new ordinance rather than amendments.

Key differences from 2011 version:

- High-level governance structure vs. detailed job duties
- 3-5 year contract term (not indefinite)
- Joint evaluation by Council and Mayor
- 15-mile residency (not city limits only)
- Broader qualifications
- Explicit Mayor and Administrator role definitions
- Clear lines of authority and transition provisions
- Explicit protection of current Mayor's term and compensation

A majority of comparable Wisconsin cities use professional city management.

Fiscal Impact

Subject*
26-0071 Statement in Support of City Administrator Charter Ordinance

Message*
Dear Common Council:

I submit this in my personal capacity, and as a retired professor of public administration with two decades personnel policy legal experience at the Pentagon. I strongly support this charter ordinance and believe it is long overdue.

Through greater fiscal oversight and administration, professional management will generate cost savings many multiples greater than the personnel cost. In fact, I would advocate for inclusion of a deputy administrator position to match that of other similarly sized municipalities.

In addition to cost savings, this ordinance also ensures proper lines of control by limiting direct contact and tasking of department heads by political officials. This greatly reduces outside influence not transparent to residents, thus facilitating efficient and effective administration. This was a much needed addition to prior ordinance iterations.

There is, however, a significant fault within the draft that must be corrected before passage. As written, only those with five years of municipal/county experience can apply — such a a screening prerequisite is uncommon, and not necessary. It may, unfortunately, disqualify highly qualified candidates while pushing through the mediocre. The screening panel should be looking at competencies held, not where they were obtained. No one would view a former Army garrison commander having guided personnel, programs, and employees for a 30,000 person installation to not be exceptionally qualified. Or a senior executive within a state agency. Or someone leaving the corporate world having managed major operations. None of these individuals would be considered minimally qualified, while a town leader of just a few hundred residents is deemed better qualified and forwarded for consideration.

The screening panel will be more than capable of identifying qualified candidates without a mechanical disqualifier, especially one that believes only local government employees could perform the job. Though I strongly disagree, if you find it necessary to put qualifications in an ordinance, I recommend deleting "shall" language and inserting language to the effect: "Typically, ideal candidates will possess. . .."

I commend the Council for taking this on as it will have lasting benefit to the City of La Crosse, especially in the very trying budgetary times ahead where extremely impactful decisions will need to be made. Professional management will help ensure that these decisions are prudent, necessary, and equitable. I encourage swift passage of this draft charter ordinance.

Subject: City Charter Ordinance City Administor

Council members,

You are tasked to consider something that has not happened in our city in the past century, changing the structure in which our city government works. I implore you to consider all the options then move forward in a careful, detailed manner.

When I attended a public listening session it was repeatedly stated that the City Administrator Working Group was charged with the sole purpose of considering the former Mayor's proposed ordinance and no other options. A city manager option was not discussed and there was still confusion as to who the new administrator would report to as well as what role the mayor would play. These are very important details that need to be debated and clearly defined before moving forward.

Recently the La Crosse County Board experienced conflict with the role of their administrator. Monies approved by the Board for one purpose were shifted to another program without consulting or getting approval of the full board. This dissent led to four members voting not to renew the County Administrators contract. This appeared to be a disagreement about the governmental process of authority and not with the actual performance of the person. This is a recent, local example of the importance of clearly spelling out the details and processes of this new position.

I believe the charter ordinance put forward by our prior mayor, currently being considered, is woefully inadequate and so poorly written that trying to amend it into a coherent plan is not possible and will only create confusion with many future problems.

The Newberry charter ordinance appears to be a bit cleaner framework to work with, clearly defining the role of mayor, council and lines of authority. I would however eliminate the limiting subsection e QUALIFICATIONS and let subsection b APPOINTMENT language guide the hiring process.

Due to the fact this is a once in a century structural change this body will debate, I think taking the time to consider all possibilities and details is necessary. As much as postponing a decision is frustrating, this is one that needs to be done right the first time. Under this potential change, the role of Council will become focusing on the big picture and no longer micromanaging the details. Stepping back and taking the 30,000-foot view to consider all options now is the best approach before finalizing the details of this endeavor.

Thank you and good luck to you all,

Mike Kiefer
City of La Crosse resident since 1987

Wisconsin City/County Management Association

City of La Crosse, WI
ATTN: City Council Members
400 La Crosse Street
La Crosse, WI 54601

Dear Councilman Newberry and Council Members:

It is our understanding that you will be asked to vote on adding the position of Administrator to your City Staff. On behalf of the Wisconsin City/County Management Association (ILCMA), we strongly encourage you to vote "yes" on this matter to ensure accountability, professionalism, and effective governance as outlined below. WCMA is a professional association whose mission is "… to promote professional and ethical local government management by providing an inclusive, collegial environment for its members' pursuit of public service excellence."

City Administrators deliver tangible results. The city administrators help to ensure that local government operates efficiently, fairly, and in alignment with the needs of residents. Professional city administrators are tasked with implementing policies set by the city council and mayor and transforming their decisions into tangible benefits for the community. Decades of success in many Wisconsin communities demonstrate the effectiveness of this model.

City Administrators strengthen accountability. Under this structure, the city council, elected by the people, hires a professional administrator to oversee daily operations and serve as CAO of the government operation. This ensures that governance remains focused on serving the public, with the administrator directly accountable to elected officials. If expectations are not met, the board is empowered to make a change.

City Administrators uphold integrity and transparency. A city administrator does not have the power to override board decisions, advance personal agendas, or withhold critical information. Their sole responsibility is to implement policies in a manner that serves the best interests of the entire community.

City Administrators adhere to a strong Code of Ethics. Since 1924, professional municipal managers and administrators have adhered to rigorous ethical standards set forth by the International City/County Management Association (ICMA). These guidelines reinforce their duty to act with integrity, impartiality, and commitment to the public good. And they are peer-enforced, ensuring thoughtful adherence. Because governments with professional administrators limit the potential for political interference, they have a stronger track record of fiscal responsibility, fairness, and transparency.

Good governance requires both leadership and structure. While the effectiveness of any government ultimately depends on the individuals serving within it, a strong and structured system enhances accountability, efficiency, and fairness. A city administrator is the best framework to ensure that local leadership can meet the needs of residents today and in the future. This model has proven successful in communities across Wisconsin, the United States, and beyond.

Councilman Newberry approached us with a few specific questions that we want to address to the full council:

1. **Does the ordinance structure make sense from an operational standpoint?**

We do think that this ordinance makes sense in terms of the appointment of the administrator, the transition plan and the enumeration of duties. There are some items we would recommend be added or changed as indicated in 2 and 3 below.

2. **Are the role definitions clear enough, or are there areas that will create confusion?**

There are three areas where there should be further discussion about roles.

First is the fact that the new administrator does not appoint three key department directors – the Police Chief, the Fire Chief and the Library Director. A number of communities do operate in this fashion and perhaps La Crosse wishes to have these staff members appointed by the Mayor or Council. It is however a plan that can lead to issues in the future. Sometimes these department directors believe that they have special access to the Mayor and Council and do not work cooperatively with the administrator. For example, if one of the departments wants to submit a budget request that will negatively impact the general fund, the administrator (charged with fiscal responsibility) may decide that this request is imprudent in a given year and choose not to put it in the budget submitted to council. This can set the Council up for choosing sides in the public discussion about the budget, picking winners and losers and possibly engendering ongoing conflict in the organization.

The second area is with regard to what happens in an emergency. Clearly, the mayor has retained emergency powers here. What happens in a true emergency is that an emergency operations center is established. Usually, a public safety official is the lead commander of the emergency and in charge of logistics and conducting on the ground response. Many staff members will have roles to perform during the emergency – social services, volunteers, animal shelters, utilities infrastructure, communications, debris removal, the list is long. The city administrator is in the best position to direct these ancillary efforts while the Mayor is in the best position to speak with the public about the emergency and the city's response. There should be a policy committee consisting of the mayor, administrator, city attorney and public safety personnel. The way this ordinance is written it seems as though the Mayor is in charge of everything. In reality that is impractical. Perhaps there can be a policies and procedures document to more fully explain what roles the different staff members will play so there is more clarity.

The third area is with regard to city staff. This ordinance says that the city administrator shall "hire, evaluate, discipline and remove department heads. . . ." It would be clearer for staff members and Human Resources if it said "hire, evaluate, discipline and remove department heads and all subordinate officers and employees in such departments . . ." This would make it

clear that the city administrator is responsible for implementing a consistent city culture around employee hiring and discipline, not leaving it to individual department directors to have their own cultural norms.

3. **Anything you'd do differently if you were drafting this?**

    - The city administrator should be evaluated annually. This could be added to Section I(c) or included in the employment agreement.
    - Consider if it is wise to have three department directors who are not responsible to the city administrator.
    - Include responsibility for all city employees as part of the administrator's duties.
    - Clarify the role of the city administrator during times of emergency. This could be in a different document.
    - In Section VI(a) , there is a slight typo. The last reference should read "Section **I**(f)"
    - In Section VI(b), add that the search process shall include "participation by the Mayor and a subcommittee of the Common Council." The exact language is not important here, just that a member or two of the Common Council should be part of the preliminary search process before bringing the finalists to the entire Council for interviews.

4. **What are the biggest implementation challenges La Crosse should anticipate?**

This depends on the organizational and community culture. Staff members may be used to working more closely with the Mayor and Council members. Some may have a hard time reporting to a new leader and may want to continue their special relationships with the Mayor and/or council. This will be true for community members as well. The Mayor and Council need to be aligned in their support for the city administrator and remain firm in letting folks know that they need to work through that person and that office to get things done.

We fully support the move to hire a local government professional administrator in La Crosse and see many benefits to it as outlined above. We urge La Crosse City Council Members to vote "yes" in support of this effort.

Rachel Gorsuch Sorensen

Subject: City Administrator

The office of the Mayor is three jobs- administrator, legislator, and city leader. It's too much for one person, and I agree with other commenters that city operations have suffered for it. A professional City Administrator would be a good thing for La Crosse.

This updated City Administrator proposal is an improvement in that it is more fleshed-out than the previous version. However, my main question remains unaddressed: why, specifically, does this need to be a charter amendment? When I have asked City Council members, they didn't know. When I asked the City Clerk, my question was forwarded to the City Attorney, who never replied. The best guess I've heard from Council members is that it removes the Mayoral powers decreed by State law, specifically Wis. Stats. § 62.09(8)(a) "The mayor shall be the chief executive officer. The mayor shall take care that city ordinances and state laws are observed and enforced and that all city officers and employees discharge their duties.". Section III of this charter ordinance explicitly removes these duties and transfers them to the City Administrator. The reason for this as stated in CM Newberry's Line-By-Line Justification document is that the City Attorney said "Charter ordinance must explicitly remove those duties and transfer them to Administrator."

Well... why? "Must" is not, by itself, a reason.

If the goal is for the Administrator to have EXCLUSIVE power over the city government, then yes, this would be necessary. However, I still don't see why that's obligatory. If we simply remove this provision, then nothing would change except that the Mayor would have the ability to override Administrator directives.

This would be a good thing!

The Mayor, whether the current or future one, would essentially never do this, as it would be a waste of their time. However, the OPTION for a Mayor to do so would reassure the public that the operation of the city government is still fundamentally in the hands of someone who is directly elected by the people. This also solves the problems of trying to find an Acting City Administrator, whether upon adoption of this ordinance or when the Administrator is absent- the Mayor would automatically be the default Acting City Administrator. The chain of command would also be clear: city staff and department heads would obey the Administrator unless given specific contradictory directives by the Mayor, which would take precedent.

There is a question of whether this would fulfill the Statutory requirement that "The mayor shall take care that

city ordinances and state laws are observed and enforced and that all city officers and employees discharge their duties.". I have no familiarity with the City of Onalaska's system, but their website states "As chief executive officer of the City, the Mayor has a statutory duty to “take care that city ordinances and state laws are observed and enforced and that all city officers and employees discharge their duties.” Sec. 62.09(8)(a) Wis. Stats. The Mayor works with the City Administrator to ensure the fluid operation of the City." so it seems to work for them. They describe the Administrator as "Chief Operating Officer".

If this provision is removed, I strongly suspect that this would no longer need to be a Charter Ordinance. This would ease passage through the Common Council, and eliminate the possibility of a derailing and potentially highly divisive referendum by petition under Wis. Stats. § 66.0101(5) (which, it should be noted, also states "A charter ordinance does not take effect until 60 days after its passage and publication.").

Office of City Clerk

NOTICE OF APPLICATION FOR JUNK DEALER LICENSE IN THE CITY OF LA CROSSE

This is to notify you that the following business has applied for a **Junk Dealer** license under Chapter 10, Article XI of the Code of Ordinances of the City of La Crosse.

Pursuant to sec. 10-460 of the Municipal Code, no Junk Dealer license shall be granted for premises located within 1,000 feet of lands zoned residential land zoned for single-family residence district, residence district, multiple dwelling district, special multiple dwelling district, or low-density multiple dwelling district without property owners receiving notification.

Green Circle Recovery LLC dba Green Circle Recovery
at 3019 Commerce St

This application will be considered at the following meetings which are held in the Council Chambers of La Crosse City Hall, 400 La Crosse Street:

- **Judiciary and Administration Committee – Tuesday, February 3, 2026 at 6:00 p.m.**
- **Common Council – Thursday, February 12, 2026 at 6:00 p.m.**

If you wish to attend and participate in the meetings virtually, please email the City Clerk's office (cityclerk@cityoflacrosse.org) for links to the Zoom meetings. The meeting can be viewed (no participation) by visiting the Legislative Information Center Meetings calendar (https://cityoflacrosse.legistar.com/Calendar.aspx) - find the scheduled meeting and click on the "In Progress" video link to the far right in the meeting list.

Written comments may be submitted to the City Clerk's Office by emailing cityclerk@cityoflacrosse.org, by delivery or mail to City Clerk, 400 La Crosse Street, La Crosse WI 54601 or by deposit in the green drop box on the north side of City Hall.

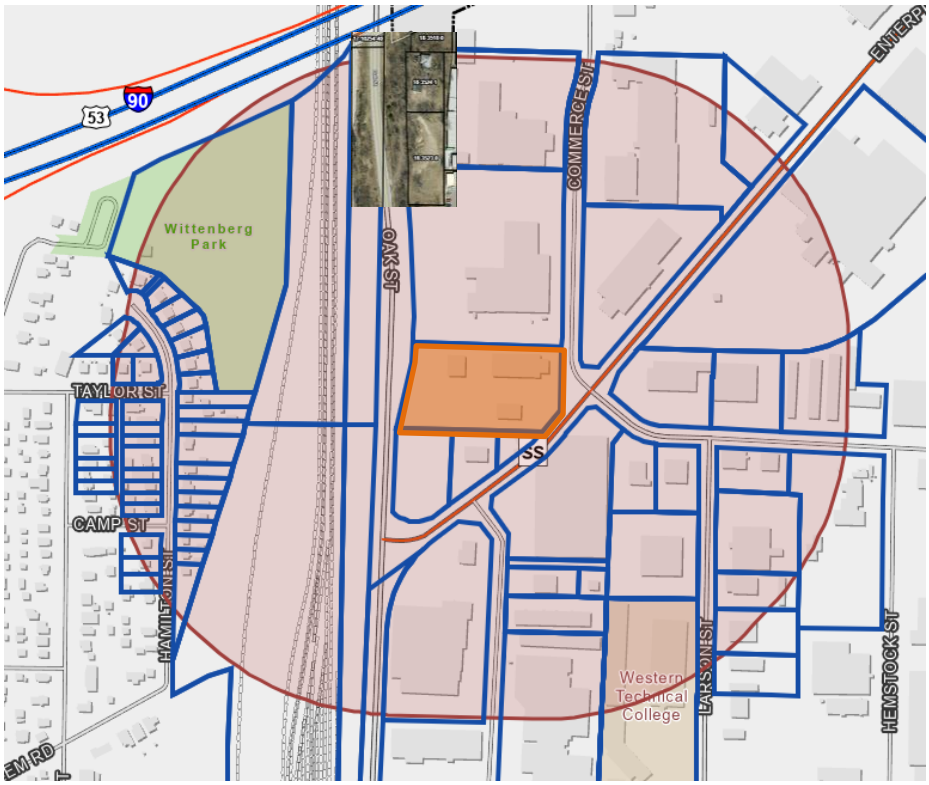

This notice is given pursuant to the order of the Common Council of the City of La Crosse.

Dated this 14 day of January, 2026.

Nikki M. Elsen, WCMC
City Clerk

Please note:
Junk Dealer location shown in orange.

Office of City Clerk

January 20, 2026

ATTN: ZACHARIAH HARTER
GREEN CIRCLE RECOVERY LLC DBA GREEN CIRCLE RECOVERY
2800 LARSON ST
LA CROSSE WI 54603

Dear Zach,

Our office is in receipt of the application of Green Circle Recovery LLC for Junk Dealer License at 3019 Commerce Street and request for waiver of the 1,000 foot requirement.

The application will be considered at the following meetings:

Judiciary & Administration Committee	**Tuesday, February 3, 2026, 6:00 p.m.** **Council Chambers, City Hall – 400 La Crosse St.**
Common Council	**Thursday, February 12, 2026, 6:00 p.m.** **Council Chambers, City Hall – 400 La Crosse St.**

It is recommended that someone attend the J&A meetings where public hearing is allowed; there may be questions or comments from a committee or council member or another citizen. Public hearing is generally not allowed at the Council meeting although there may be questions of Council Members. The application will appear on the agendas item 26-0081.

Attendance is allowed either in person or virtually. I will also be sending you an email with the dates listed above and the Zoom link for the J&A meeting. If you have any questions, comments, or concerns; do not hesitate to contact me.

Sincerely,

Sondra Craig

GREAT LAKES CHEESE

City of La Crosse Common Council
400 La Crosse Street
La Crosse, WI 54601

Honorable Members of the City of La Crosse Common Council,

I am writing on behalf of Great Lakes Cheese, Co., Inc. and its wholly owned subsidiary, Great Lakes Cheese of LaCrosse WI, Inc., to express our opposition to Green Circle Recovery LLC d/b/a Green Circle Recovery's application to operate a junk dealing operation at 3019 Commerce Street pursuant to Section 10-460 of the Code of Ordinances of the City of La Crosse.

Our facility located at 2200 Enterprise Avenue is a cheese manufacturing and packaging operation located in a light industrial and residential area. As a food manufacturing business, we are subject to stringent local, state, and federal regulations governing facility sanitation, environmental control, pest management, and overall operational cleanliness. The nature of our business requires a surrounding environment which supports these standards to protect the public health and ensure the continued safe production of food products.

We are concerned that the operation of a junk dealer in close proximity to our facility would pose challenges that are incompatible with both these regulatory requirements, in addition to our company's commitment to the health and safety of our employees, customers, end consumers across the United States, and the products we make. Additionally, given the understanding of impacts associated with junkyards and corresponding risks, our national retail and food service customers, along with state & federal inspectors, will have legitimate concerns with a junk dealer in such proximity to a food manufacturing facility. Junk dealing operations often involve the storage and processing of scrap materials and regulated materials that may attract rodents or insects, generate dust or airborne contaminants, impact human health and the environment, and increase noise and truck traffic; all of which results in a cumulative impact and risk to the surrounding community. Although we have no doubt Green Circle Recovery would operate with only the best of intentions, such a business runs the risk of unintended impacts, such as spills and releases, that are specifically detrimental to food manufacturing operations such as ours.

Beyond our own facility, we believe that the licensing of the proposed facility would have negative impacts on our neighbors. Increased heavy vehicle traffic and the accumulation of materials associated with junk dealing operations raises concerns relating to public safety, impacts to environmental quality, and the overall public health and welfare. Given the proposed facility's proximity to both residential developments and other businesses, these impacts could have even broader impacts to nearby residents and other businesses which rely on a clean, orderly, and safe environment.

We therefore oppose the licensing of a junk dealing operation in our neighborhood and respectfully ask that the Common Council consider the concerns expressed herein when reviewing Green Circle Recovery's application. I am happy to discuss any questions the Common Council may have regarding this submission.

Sincerely,

Matt Wilkinson, Vice President
