This revision is necessary to change the construction project from a local let to a state let.

Note the cost ratios for each project phase and any federal funding caps which may exist. The Municipality is responsible for the entire cost of non-participating items as well as any costs which exceed the funding caps, if applicable.

An agreement is not considered fully approved unless it has been approved by both the Municipality and the State, and it is not considered fully executed unless a fully approved copy has been returned to the Municipality.

The Municipality and its consultants (or any other parties hired by the Municipality) ***MUST NOT*** begin work on a federal/state-funded project phase until the State has provided notice of project authorization. Any such work would be ineligible for federal/state funding. Authorization will coincide with the currently scheduled year that is stated in the agreement.

If you have any questions regarding the agreement or need an extension to the submittal date, please call me at (608) 789-7879 or e-mail robert.winterton@dot.wi.gov.

Sincerely,

Robert Winterton
