RE: Public Information Meeting- Regarding Paving Replacement and Proposed Construction of Sidewalk

Dear Resident/Owner:

The City of La Crosse is working to connect sidewalks for use by pedestrians to safely walk through neighborhoods. By ordinance, we examine every street paving or reconstruction project to determine the needs of pedestrian as well as vehicular traffic. Your street is being repaved in 2016 and the addition of new sidewalk is proposed.

These sidewalks will be built entirely in the City Right of Way. It will be a significant change for you since much of this Right of Way has historically been grass. Please see the enclosed map showing the location of the proposed sidewalks.

The sidewalks are being built entirely with City funds. No special assessment will be charged to the adjacent property owners. It will be the adjacent property owner's responsibility to maintain the sidewalk; including keeping them clear of snow in the winter.

The City is holding a Public Information Meeting and Listening Session to provide information and gather feedback about this and 11 other proposed sidewalk projects in 2016. The meeting is being held in front of the Board of Public Works on:

Monday, February 22nd, 2016, starting at 4:30 P.M.
City Hall, 3rd Floor Conference Room
400 La Crosse Street

This is your time to learn more about the project and/or express your concerns. We look forward to seeing you there. However, if you are unable to attend but would like to submit a written statement to be read aloud at the meeting, please send your letter to:

RE: Public Information Meeting- Regarding the Proposed Construction of New Sidewalk In-fill

Dear Resident/Owner:

The City of La Crosse is working to connect sidewalks for use by pedestrians to safely walk through neighborhoods. This includes installing sidewalks on routes to schools and leading to City bus stops, adjacent to or along any worn path in grass or dirt, and where blocks have partial sidewalks.

An addition of new sidewalk is proposed on your block. These sidewalks will be built entirely in the City Right of Way, but may be a significant change for you if this Right of Way has historically been grass. Please see the enclosed map showing the location of the proposed sidewalks.

The sidewalks are being built entirely with City funds. No special assessment will be charged to the adjacent property owners. It will be the adjacent property owner's responsibility to maintain the sidewalk; including keeping them clear of snow in the winter.

The City is holding a Public Information Meeting and Listening Session to provide information and gather feedback about this and 11 other proposed sidewalk projects in 2016. The meeting is being held in front of the Board of Public Works on:

Monday, February 22nd, 2016, starting at 4:30 P.M.
City Hall, 3rd Floor Conference Room
400 La Crosse Street

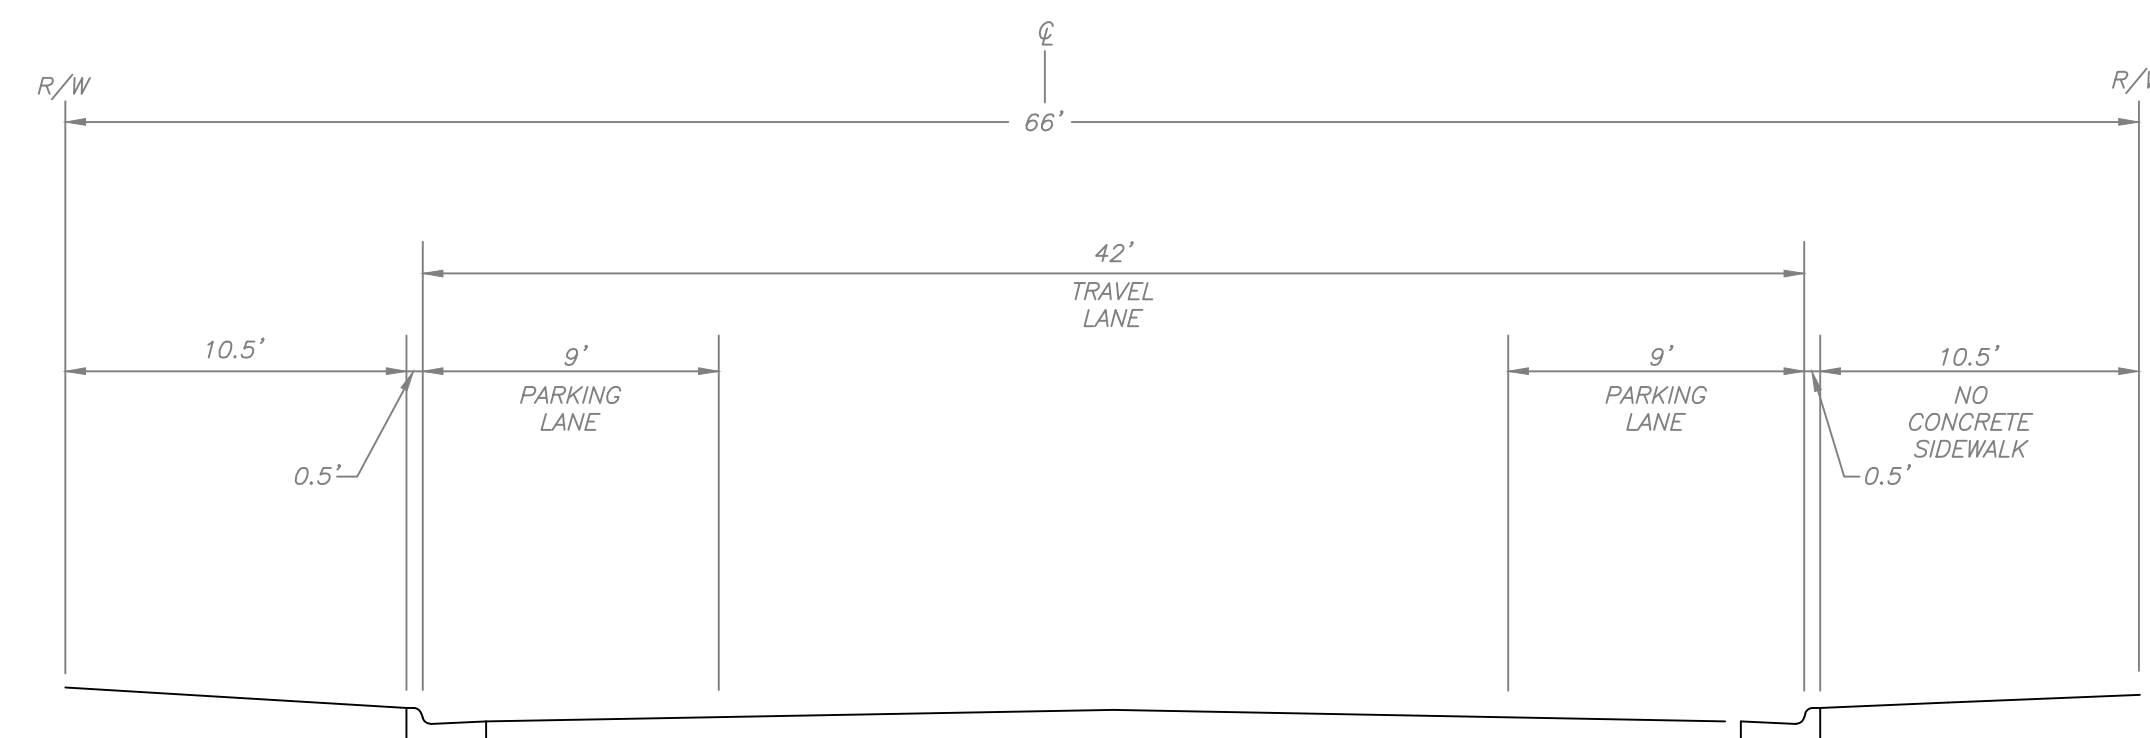

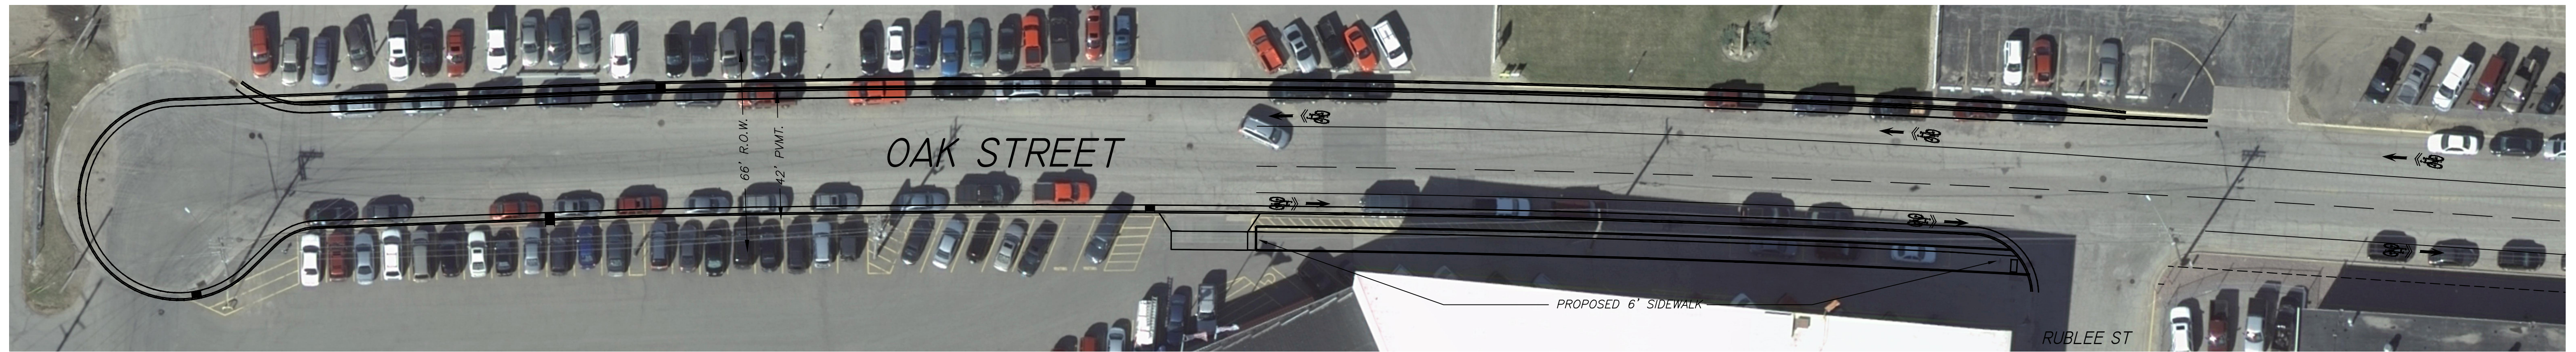

This is your time to learn more about the project and/or express your concerns. We look forward to seeing you there. However, if you are unable to attend but would like to submit a written statement to be read aloud at the meeting, please send your letter to:
