Subject: 12" Storm Pipe at Existing Edwardos Pizza Site
Attachments: Request to City.pdf

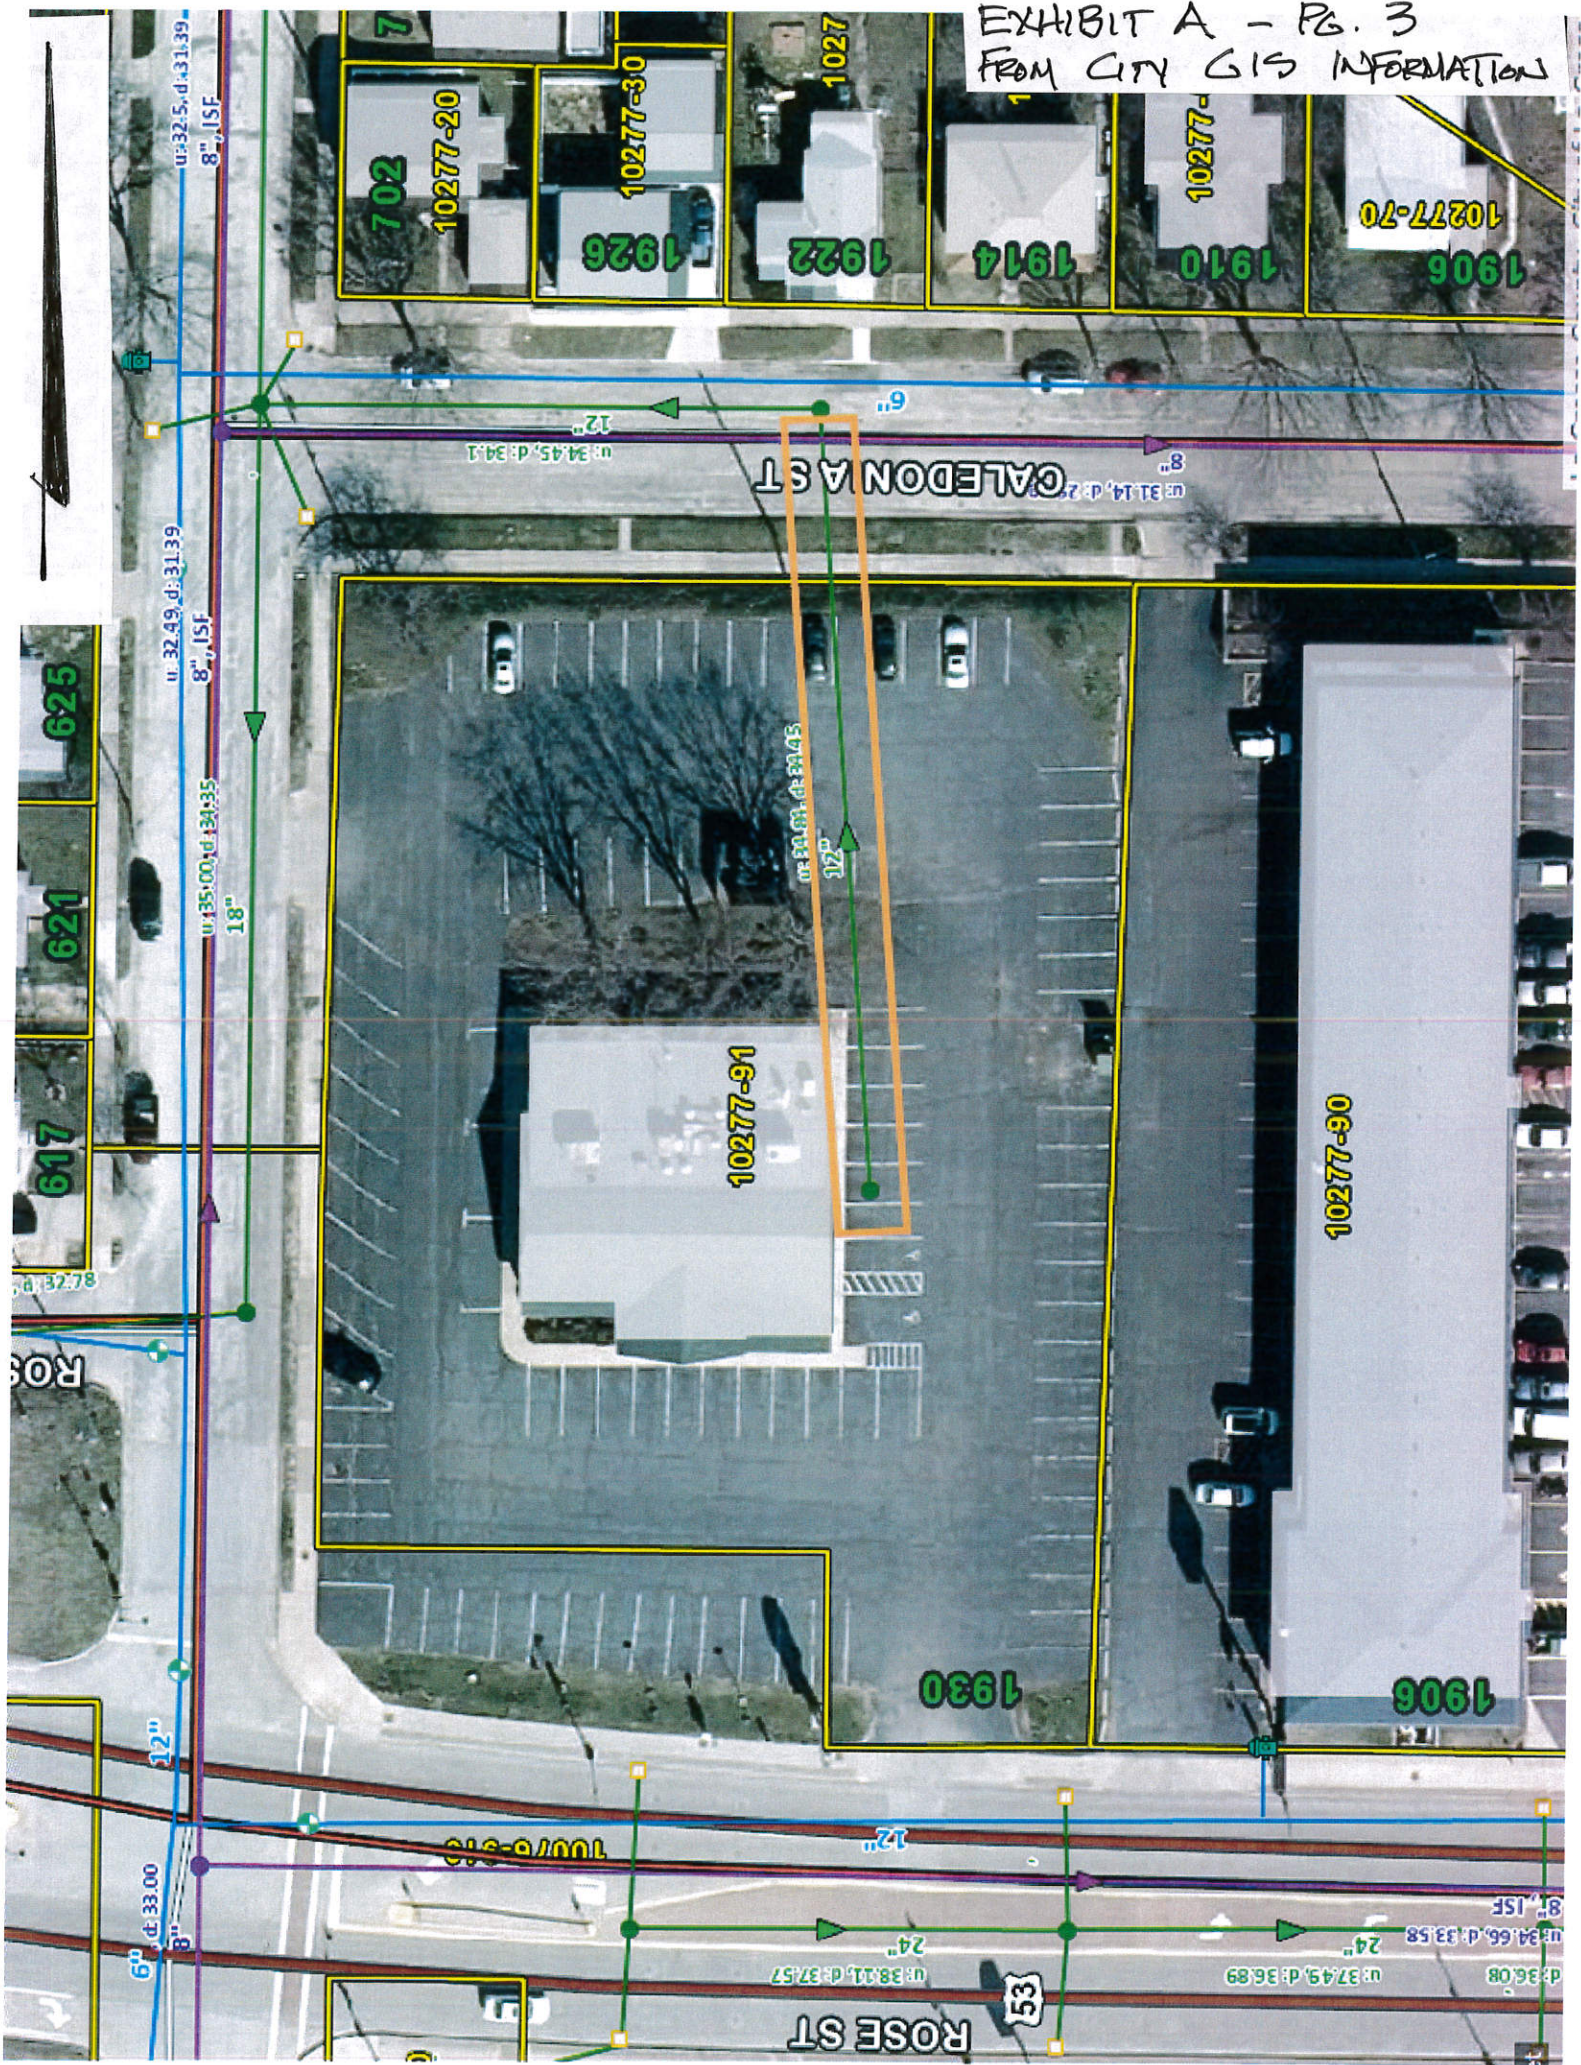

Mark,

I am sending you this email as a request to the city to transfer ownership of the existing 12" Storm Pipe currently located on the old Edwardos Pizza lot to Good Steward (the new occupants of this lot). It was discovered that the city currently owns this pipe, but does not have any further use for it. The Good Steward owners can utilize this pipe in the design of their new building site, and would like to obtain ownership of it from the city. The pipe can be seen on the attached drawing.

Thanks,

Treavor Millin | Project Manager | LEED Green Associate | Wieser Brothers General Contractor, Inc.
