

We the undersigned are very much opposed to rezoning our neighborhood from single family to commercial for the property at 303 Rose St. so they can put a museum and monument on that property. This is a bit ridiculous. What is next, might we get a Northside cemetery dumped in our area? This needs to stop. When we bought our property we felt that we were moving into a decent single family area. Let's keep it that way. Do not rezone. The people living in this neighborhood should have a say in the matter.
