Good Morning

I'm writing to show support for Item #19 on the 2021 budget proposal by park and Rec department. Having proper lighting onsite immediately upon the completion of the outdoor tennis courts would be critical to the communities ability to maximize it's use and offer increased flexibility to all individuals and organizations using the courts. We know the demand from the community is there it be would a detriment to limit the supply by not having the lighting available to extend the hours of use available.

Thank you for your consideration
