Re: Bethany Lutheran Homes, Inc./Eagle Crest-South Project

Dear Sirs,

I am writing at this time to apply for an exception to Wis. Stat. §62.23(7)(i), in order for the Eagle Crest-South project to be move forward for approval by the City of LaCrosse.

The basis for our waiver request is the general need of this type of Senior Living facility within the City of LaCrosse for the benefit of its aging population. Eagle Crest will provide one location for an elderly person to receive and move from and through a variety of levels of care. They may start out in the apartments with little, if any services, but as needs change, they could end up in the CBRF. This gives them continuity and familiarity of the facility, while at the same time addressing their individual health and safety needs. We have a proven system that is working wonderfully in our Onalaska location and would be a fantastic benefit to the City of LaCrosse. It is due to the substantial benefit that would be received by the residents of the City of LaCrosse, that we ask for the exception to be granted.

Thank you for considering our request.

Sincerely,
Bethany Lutheran Homes, Inc.

Todd D. Wilson, CEO
