# HOME CHDO Application

## PROPOSAL NARRATIVE

### PROPOSAL SUMMARY

Habitat for Humanity of the Greater La Crosse Region proposes construction of a single-family home at 946 Division Street, La Crosse. Habitat will be purchasing and placing a modular home on a basement on the property. The lot will also include construction of 1.5 car garage on the site. The homes constructed on the property will be sold to income-eligible (under 80% CMI), first-time homeowners. Habitat will partner with Couleecap, Inc, which manages the Coulee Community Land Trust. At the closing with the new homeowner, Habitat will transfer the land, which will be placed in the Coulee Community Land Trust to ensure perpetual affordability of the home.

Habitat for Humanity of the Greater La Crosse Region is a licensed manufactured housing dealer with the State of Wisconsin, and Jeremy Reed, our Construction Director, is a licensed manufactured housing salesperson. We are currently working with Schult Homes out of Redwood Falls, MN, for factory-direct ordering of modular housing. Habitat La Crosse is partnering with the Next Step Network, whose mission is to put sustainable homeownership within reach of everyone, while transforming the manufactured housing industry through consumer education, affordability and energy-efficiency. Habitat La Crosse will utilize modular housing as a cost-effective option for affordable housing development. The use of modular housing will allow our organization to greatly reduce our construction time and costs.

Habitat La Crosse brings people together to provide and preserve affordable housing opportunities and create a community where all feel they belong. We believe that decent, affordable housing should be a matter of conscience and action; we realize that there are people in our community who are living in inadequate conditions and that joining together we can provide a hand up – not a hand out. For over 30 years, Habitat La Crosse has built over 80 homes for families in the Coulee Region.

### PROGRAM DESCRIPTION

#### Timeline

We anticipate breaking ground on the property in summer 2025. Current timeline for delivery of the home is 90 days following order. Set, completion, and sale of the home is anticipated to be complete by June 30, 2026.

<b>Activity</b>	<b>Date</b>
Secure Permits	August 1, 2025
Complete foundation	October 31, 2025
Home delivered	December 31, 2025
Complete home	May 31, 2026
Close on home	June 30, 2026

### Map of the Project Site

Please see attached.

### Budget and Funding Sources

Please see attached.

### Site Control

Habitat La Crosse currently has site control of the property located at 946 Division Street, La Crosse, WI.

### Project Type

The project will be developed as an owner-occupied, first-time homebuyer project.

### Determination of Price

The sale price of the home will be determined by an appraisal completed by a licensed appraiser. The homeowner will purchase the home from Habitat for Humanity of the Greater La Crosse Region for the appraised value of the improvements. The estimated assessed value is \$270,000.

### Unique or Innovative Elements

All homes built by Schult meet or exceed Energy Star standards for new home construction. All previous homes constructed by Habitat for Humanity have met or exceeded Focus on Energy standards.

Habitat La Crosse has received national recognition for our use of modular housing as a low-cost, energy efficient option for affordable housing development. Executive Director, Kahya Fox, presented to over 400 other Habitat affiliates across the nation as part of the "Habitat Innovates" learning series organized by Habitat for Humanity International. She also presented to over 150 attendees at the Habitat for Humanity International conference in 2024. She has also presented at the Habitat Minnesota and Habitat Wisconsin annual conferences, and she is working with Next Step Network to develop a series of national training programs and support papers regarding factory-built housing in partnership with non-profit housing developers. Habitat La Crosse was also recognized by Harvard University's Joint Center for Housing Studies in a series of research papers on the use of factory-built housing as an affordable housing option. Habitat La Crosse was sited as a successful case study in their article entitled, "Overcoming Barriers to Manufactured Housing: Promising Approaches from Five Case Studies." Habitat La Crosse has been approached by dozens of other Habitat affiliates and other affordable housing developers on this housing model.

This project is part of a development partnership with 360 Real Estate, aimed at redeveloping the entire block located at South 10<sup>th</sup> Street and Division Street in the Washburn Neighborhood of La Crosse. 360 Real Estate has already transferred ownership of two parcels of land to Habitat La Crosse as part of this redevelopment. This partnership includes the development of new construction rental units by 360 Real

Estate, the relocation of the home currently occupied by the La Crosse Family Collaborative to one of the Habitat parcels to be used as a home for a future Habitat homeowner, the construction of an additional Habitat home on the other parcel (as referenced in this application), and the redevelopment of designated green space to the north and west of townhomes developed by 360 Real Estate that will become the "Habitat Community Gardens." Habitat will lease the land from Three Sixty long-term for \$1.00 annually.

The CHDO funded home will become a part of the Coulee Community Land Trust (CCLT). The CCLT is a way to ensure permanently affordable housing in our region. The CCLT was established by Couleecap in 2009. There are currently 24 homes in the land trust, including two homes recently constructed on Onalaska Avenue in La Crosse.

The Community Land Trust model allows homeowners to purchase their homes but not the land that the home sits on. The land is purchased by the CCLT, which lowers the purchase price to the homeowner. The homeowners then lease the land from the CCLT by paying a small monthly ground lease fee of \$33.50. The homeowners have the right to use the land that their home sits on for things such as gardening, landscaping, and planting trees. They are responsible for all maintenance and upkeep of the property. There is a 98-year renewable and inheritable ground lease that outlines the terms and conditions of the relationship between the CCLT and the homeowner.

The ground lease specifies that when a homeowner sells their property, they receive 30% of the appreciated value of the home plus anything that they have paid on their mortgage. When the home is resold to the next low- and moderate-income buyer it is sold at a lower price than what it would be on the open market. This resale restriction ensures that the home will remain permanently affordable with every future sale as well as ensuring that the property is sold to an LMI household for all future generations. The subsidies, donations, and volunteer time will continue to benefit future homeowners using this model.

See attached handout, "The Basics of a Coulee Community Land Trust Property," for more information.

### Collaboration

Habitat for Humanity of the Greater La Crosse Region will be partnering with Couleecap and the Coulee Community Land Trust. At project closing, the land will be transferred into the Coulee Community Land Trust. Couleecap will provide land trust education for each homeowner, create and execute all land trust documentation for the closing, maintain ownership of the land, and administer the land trust.

## CHDO CAPACITY AND EXPERIENCE

### Primary Staff

*Jeremy Reed, Construction Director*

Jeremy has been the Construction Director at Habitat for Humanity of the Greater La Crosse Region for over seven years. Jeremy coordinates, leads, trains, develops, and creates low-income housing in 5 counties. Jeremy oversees all Construction, ReClaim, and RePair projects.

Jeremy's accomplishments and certifications include Wisconsin Dwelling Contractor, Lead-Safe Renovation, and Manufactured Home Salesman. He also is a La Crosse Area Builders Association Board Member, Wisconsin Builders Association Board Member, and also serves on numerous committees in the local area.

*Kahya Fox, Executive Director*

For over eight years, Kahya Fox has been the Executive Director for Habitat for Humanity of the Greater La Crosse Region. Before taking on her new role, Kahya was the Housing Assistant Director for Couleecap, Inc. With over twenty years of affordable housing experience, she has worked with a variety of housing and community development programs, including housing rehabilitation, home purchase, weatherization, housing counseling, flood assistance, land trust housing, and new housing construction. Working extensively with low-income families, Kahya has a very strong commitment and understanding of the issues faced by individuals in poverty. With an extensive background in public relations, Kahya brings a strong voice to housing programs. She is also a certified Housing Counselor, Housing Quality Standards Inspector, and HOME Certified Specialist.

Kahya has extensive experience with modular housing, having been a licensed salesperson while employed as the Housing Assistant Director at Couleecap. Kahya also has extensive experience with flood plain construction, having assisted with the elevation of five homes in Gays Mills, WI, as part of the State of Wisconsin's Emergency Assistance Program (EAP).

Organizational Experience

Habitat for Humanity of the Greater La Crosse Region was incorporated in 1992. For over 30 years, we have built or remodeled over 80 homes that were sold to first-time, low-income homeowners.

Habitat La Crosse has partnered with Couleecap in the past, and homes built by Habitat in La Crosse, Holmen, and Viroqua are part of the Coulee Community Land Trust.

Current Budget and Financial Audits

Please see attached.

Accounting System and Internal Controls

Each funding stream is assigned an allocation code with a detailed budget outlining allowed expenditures. Payments are made against each budget line of the allocation

code on an accrual basis. Invoices are reviewed and approved by lead staff and the Executive Director prior to payment issuance.

Payments are reviewed monthly. Requests for reimbursement are issued to the City along with all receipts and proof of payment. All accounting of funds is organized through Quick Books.

No single individual shall have control over two or more phases of a transaction or operation. A double review system shall also be used for all financial transactions. This includes all of the following duties:

1. Authorization
2. Custody
3. Record-keeping
4. Reconciliation

### Organizational Roles

Habitat for Humanity of the Greater La Crosse Region will be acting as both the owner and developer of the projects.

## **The Basics of a Coulee Community Land Trust Property**

Properties sold through the Coulee Community Land Trust are sold using a shared-equity ownership model, which keeps the homes permanently affordable to low- and moderate-income families.

How the program works is that a buyer purchases the improvements only (house and garage) and they lease the land from the land trust each month. They have the full right to use the land, garden, plant trees, landscape as anyone would. They will also be responsible for its maintenance such as lawn care, snow removal and etc. There is a \$33.53 a month administration fee and a \$33.53 a month replacement reserve fee, which is an account for future or emergency capital repairs on land trust properties that homeowners can't afford. We want to ensure that these stay quality homes so we want homeowners to have access to funds for major capital repairs they can't afford to make on their own.

When it comes time for the owner to sell the property, we use the initial appraisal of the property and order a new appraisal, the difference between the appraisals (appreciated equity) is what we look at when a homeowner wants to sell the property. The seller would get 30% of the appreciated equity and that would be used to determine the sales price for the next buyer. The home will always be sold for less than its appraised value, making it permanently affordable to low-income buyers. Owners will not have the ability to set their own sales prices, it is always based on an appraised value. The owners are also responsible for selling their own home either by identifying a buyer on their own or listing the home. Negotiations that would typically take place between a buyer and a seller are still options except for the sales price being more than what the CCLT sets.

This property is not owned or being sold by the CCLT but we must insure that any interested buyers are income qualified, which is required by the program. We will also prepare all the CCLT paperwork that gets signed at closing. Per the CCLT guidelines and ground lease the maximum that the current owners can sell the home for is \$XXX,XXX. Any negotiations between buyer and seller and their responsibility and not the responsibility of the CCLT.

The land trust homeownership model is not well known in our area and many people are unfamiliar with how it works. In order to educate buyers we do a one hour basics class with new buyers to explain to them how the land trust works and to provide examples of the shared equity model. Questions on the land trust can be directed to Ashley Lacenski at 608-632-9147 or [Ashley.Lacenski@couleecap.org](mailto:Ashley.Lacenski@couleecap.org).

Couleecap does not provide the mortgage loan to purchase a CCLT home. Buyers must be eligible for financing through a lending institution. Unfortunately, due to restrictions we can't work with FHA loans at this time. WHEDA and Fannie Mae loans work well with the land trust program.

<b>TOTAL</b>	<b>\$310,100</b>	

March 17, 2025

To Whom It May Concern:

Couleecap, Inc. supports Habitat for Humanity La Crosse Area's application for HOME CHDO funds from the City of La Crosse.

Couleecap agrees to partner with Habitat for Humanity La Crosse Area on both proposed projects at 946 Division Street in La Crosse.

At project closing, the land will be transferred into the Coulee Community Land Trust. Couleecap commits to providing land trust education for each homeowner, creating and executing all land trust documentation for the closing, maintaining ownership of the land, and administering the land trust.

We believe this collaboration will allow for the development of safe and affordable housing for two hard-working families in our community while also providing perpetual affordability for future families.

Sincerely,

Ashley Lacenski

Ashley Lacenski  
Community Development Director
