Good morning Tim, Gary, and City Council members,

I would like to express support for the Climate Action Plan, item #257 from the budget. It is vital that the City continue to plan for climate change and become a more resilient city. The budget item is important to keep and or expand. We need this for our future, we need this for our families to know what and how to become climate resilient.

Thank you for your efforts and keeping our City a vibrant place to live.
