Residents of 1200 block of George Street Frontage,

A request was received to consider options for on-street parking in this block of George Street Frontage. The street currently has a small section of No Parking near Clinton Street. The issue has been raised on availability of tax-based services to owners and residents such as street sweeping, snow plowing, and leaf collection, and whether there is an equitable approach given the current parking conditions.

This matter will be discussed with a public hearing at the **Board of Public Works** meeting on **Monday, May 10, 2021 at 10:00 A.M.** The proposed parking change would be to increase the No Parking Zone on the West side of George Street Frontage from Clinton Street to a distance of 60 feet south.

Your input is valuable, as the daily users of this street, to update conditions to current practical and feasible use. Please feel free to attend the meeting to discuss this issue, if you wish. If you cannot, or do not care to, attend, you may submit comments or concerns in writing to the Engineering Department. All comments and options will be considered.

Sincerely,

Stephanie J. Sward,
Civil Engineer IV
