This one should be attached to the EconoLodge extension legislation from last week.

I had to pick up my grandson near this facility. I was early so I was able to watch what went on. I was astonished, by the people coming and going, I was sure there was drug activity. It's so obvious that this is a bad situation, I was going to call police, but decided not to. You can park there and see for yourself!
city/government starts projects and no one follows up.
Check on yourselves after you make these decisions, you would have known years ago if you had. Surely the police know, open your eyes and ears!
The guy getting your monthly check didn't give a crap, it's not his problem.
