RE: An appeal regarding the requirement to provide 1.5 parking spaces for each dwelling unit; provided, however, should any dwelling unit contain three or more bedrooms there shall be provided one addition parking space for each additional bedroom or enclosed room which may be utilized for sleeping purposes, whichever number is larger.

Dear KARUNA INC.,

We have received the permit application to turn a R-5 zoned duplex into a rooming house that does not meet the minimum requirements set forth in the Municipal Code of Ordinances of the City of La Crosse (Code) regarding required off-street parking.

The project as proposed is in direct violation of the following subparagraph of the Code:

Sec. 115-393.-Off Street Parking

(a)(10)(i) Uses, minimum parking requirements, units of measurement:

One-family Dwellings and Mobile Homes, two parking spaces for each dwelling unit. Two-family Dwellings, two parking spaces for each dwelling unit; provided, however, should any dwelling unit contain three or more bedrooms there shall be provided one additional parking space for each additional bedroom or enclosed room which may be utilized for sleeping purposes, whichever number is larger. Multifamily Dwellings, 1.5 parking spaces for each dwelling unit; provided, however, should any dwelling unit contain three or more bedrooms there shall be provided one additional parking space for each additional bedroom or enclosed room which may be utilized for sleeping purposes, whichever number is larger; provided, however, the maximum number of parking spaces required for Multifamily Dwellings shall not exceed four per dwelling unit.

Therefore, if upon consideration of all of the facts surrounding this appeal in a public hearing, the Board of Zoning Appeals determines that this appeal meets all of the criteria established by the Legislature of the State of Wisconsin, as interpreted by the Supreme Court of the State of Wisconsin for the granting of variances, the Board of Zoning Appeals would have to grant a variance allowing only one parking space to the required 10 parking spaces for this project to proceed as proposed.

CAUTIONARY STATEMENT TO OWNERS OBTAINING BUILDING PERMITS

101.65(lr) of the Wisconsin Statutes requires municipalities that enforce the Uniform Dwelling Code to provide an owner who applies for a building permit with a statement advising the owner that:

If the owner hires a contractor to perform work under the building permit and the contractor is not bonded or insured as required under s. 101.654 (2) (a), the following consequences might occur:

- (a) The owner may be held liable for any bodily injury to or death of others or for any damage to the property of others that arises out of the work performed under the building permit or that is caused by any negligence by the contractor that occurs in connection with the work performed under the building permit.
- (b) The owner may not be able to collect from the contractor damages for any loss sustained by the owner because of a violation by the contractor of the one- and two- family dwelling code or an ordinance enacted under sub. (1) (a), because of any bodily injury to or death of others or damage to the property of others that arises out of the work performed under the building permit or because of any bodily injury to or death of others or damage to the property of others that is caused by any negligence by the contractor that occurs in connection with the work performed under the building permit.

CAUTIONARY STATEMENT TO CONTRACTORS FOR PROJECTS INVOLVING BUILDING BUILT BEFORE 1978

If this project is in a dwelling or child-occupied facility, built before 1978, and disturbs 6 sq. ft. or more of paint per room, 20 sq. ft. or more of exterior paint, or involves windows, then the requirements of ch. DHS 163 requiring Lead-Safe Renovation Training and Certification apply. Call (608)261-6876 or go to the Wisconsin Department of Health Services' lead homepage for details of how to be in compliance.

WETLANDS NOTICE TO PERMIT APPLICANTS

You are responsible for complying with state and federal laws concerning the construction near or on wetlands, lakes, and streams. Wetlands that are not associated with open water can be difficult to identify. Failure to comply may result in removal or modification of construction that violates the law or other penalties or costs. For more information, visit the Department of Natural Resources wetlands identification web page or contact a Department of Natural Resources service center.

ADDITIONAL RESPONSIBILITIES FOR OWNERS OF PROJECTS DISTURBING ONE OR MORE ACRE OF SOIL

I understand that this project is subject to ch. NR 151 regarding additional erosion control and stormwater management standards, and will comply with those standards.
