Subject: RE: Question on Nov 3, 2017 Presentation

Hey Kevin,

Prior to the Nov pricing, we included a general allowance for Utility relocations and connections. Having learned about the transmission line after, our Nov pricing then increased that allowance by \$150,000 for that specific work.

So yes, all options in the Nov pricing included the \$150,000 allowance increase to account for the transmission line work.

Hope this answers the questions,
