Hello,

My name is Cody Welch. I am a new homeowner to the town of Campbell and have called French Island my home for the last year. In regards to this July 8th report, I wanted to address my deepest concern for the proposal to the use of the Norwood inn and Suites for a temporary housing structure. French Island is a small and out of the way area that does not have the proper resources or infrastructure to support an influx of homeless individuals to our small community. These people need real help and using this site would help no one. They cannot get help in a crumbling building with no surrounding businesses to support our homeless population. There are few stores, few restaurants, and few public buildings/ rest areas that are accessible on French island without traveling a significant distance. I am also extremely disappointed that in the report it states that a town of Campbell representative was not included in these discussions. If this was a viable option to use this building in the way stated, our community of French Island should be represented in discussions including ones that require a significant effect on the people of French Island.

Thank You,
Cody Welch
