

Western Technical College

Scope for Pedestrian Crossing Projects

9.8.17

7th Street

- Western Technical College will purchase/install/maintain 2 Solar powered LED lights to illuminate the crosswalk on 20' poles with 3' arms placed in the bioswales along 7th Street.
- Western Technical College will purchase/install/maintain a solar powered LED pedestrian crosswalk sign on each pole similar to others recently installed by the City of La Crosse. One each facing oncoming traffic and motion activated.

Badger Street

- Western Technical College will purchase/install/maintain two pole mounted solar powered LED pedestrian crosswalk sign similar to others recently installed by the City of La Crosse, one each facing oncoming traffic.
- Western requests the loss of parking where midblock crosswalk to be placed.
- Western requests the City to supply/place the proper pedestrian crosswalk striping on Badger Street.
- Western Technical College will purchase/install/maintain concrete sidewalks in the boulevard aligned with the new pedestrian crosswalk.
