Owner's Name (if different) Dan Trussoni - City of La Crosse

Phone Number of Contact Person 515.243.9143

Applicant requests the issuance of a Certificate of Appropriateness from the Historic Preservation Commission for proposed changes involving the exterior of a designated historic site or historic structure.

1. A detailed description, including drawings, pictures and any other details showing the final appearance of the proposed construction, reconstruction or alteration, is enclosed.

Yes  No

2. The proposed work requires the issuance of a building permit.

Yes  No

3. Describe the purpose of exterior changes.

The purpose of the second phase of improvements to Myrick Park is to create an updated, interactive play area for children and their families. Earthwork shaping will occur along the southeast edge of the playground to support the placement of new play features including in-ground slides, a zip line, and a net structure over the sloped hillside. Tiered limestone rock and a tunnel exploration area will incorporate additional interactive play opportunities within the existing playground and will be installed around the existing band shell.

4. Describe how the historical attributes of the structure or building will be preserved.

No work is anticipated to affect existing buildings or structures. The existing band shell will remain, and with the proposed shade structure and adjacent seating, visitors will be able to interact with it in a new way. The existing playground is currently being updated with new materials.
