Jay-  
We could move the stop south on the block as long as we mark it as NO parking.

**Subject:** Proposed ramp in right of way

Hello,

We have received an application for the Cornerstone Community Church to install a Handicap access ramp in the City's right of way. This looks to be a bus stop area and would like to hear if you have any concerns with this proposal. Would it interfere with the current bus stop or would it be able to coincide? Would the bus stop be able to move to the South if needed? Etc.

Included is the proposed diagram which will be placed in front of the current entrance. The interior floor and doorway gets raised. Thanks for the help.
