NEEDS AND ESTIMATE SUMMARY:

All components of the project must be defined in the environmental document if any portion of the project is federally-funded. The Project Sponsor agrees to complete all participating and any non-participating work included in this improvement consistent with the environmental document. No work on final engineering and design may occur prior to approval of the environmental document.

The Project Sponsor agrees to the following State Fiscal Year 2014-2018 TAP project funding conditions:

All project sponsors and processes, including real estate acquisition and environmental documentation, must comply with *A Sponsor's Guide to Non-Traditional Transportation Project Implementation* (Sponsor's Guide) and the current WisDOT Facilities Development Manual (FDM).

The subject project is funded with 100% federal funding up to a maximum of **\$339,695** for all federally-funded project phases when the Project Sponsor agrees to provide funds in excess of the **\$339,695** federal funding maximum, in accordance with SRTS and TAP guidelines. Non-participating costs are 100% the responsibility of the Project Sponsor. Any work performed by the Project Sponsor prior to federal authorization is not eligible for federal funding. The Project Sponsor will be notified by the State when each project phase or ID is authorized and available for charging.

This project is subject to a DBE goal assessment of 7% of the construction project cost. The DBE goal is waived if the Project Sponsor constructs the project under an approved Local Force Account (LFA) Agreement. The Catalogue of Federal Domestic Assistance (CFDA) number for this project is 20.205 – Highway Planning and Construction.

The subject project must be commenced within four (4) years of the project award date or the grant is rescinded. Sec. 85.021, Wis. Stats.

- 1) For construction projects, a project is commenced when construction is begun.
- 2) For planning projects, a planning project is commenced when the planning study is begun.
- 3) For non-infrastructure projects that do not fall within any of the above categories, a project is considered commenced on the date that WisDOT receives the first reimbursement request from the project sponsor, as noted on form DT1713 in the 'Date Received' field.

Project Award date: Miscellaneous

Commencement deadline: July 1, 2014

Completion deadline: July 1, 2021

The project commencement deadline is fixed by statute, and may not be extended.

The subject project must be completed by July 1, 2021, and the Project Sponsor must submit a project completion certificate to WisDOT central office on or before this date. WisDOT may consider a written request to extend the completion deadline from the Project Sponsor and may approve such a request in the presence of extenuating circumstances. The written request shall explain the reasons for project implementation delay and revised timeline for project completion.

In the summary funding table below, the federal share of the total estimated cost distribution indicates the maximum amount of federal funding available to the project, to be distributed across federally-funded project phases. The final Project Sponsor share is dependent on the final federal participation, and the actual costs will be used in the final division of costs for billing and reimbursement.
