

Request to make improvements to the City of La Crosse Right-of Way at 129 & 133 29th Street South.

- Install three large limestone rocks nearest the curb to define the entrance of the trail.
- Install 32-gallon permanent garbage can mounted to 24" x 24" square cement slab. (approximately 3-4 ft from curb)
- Install 3ft x 4 ft wooden map kiosk (Approximately 7 ft from curb)
- Install 15 linear feet of medium (10-14") sized limestone rocks to be used as edging of the northern trail edge to discourage trail users from making a shortcut to trail above. Limestone edging will be buried 50% to prevent it from becoming dislodged.
- Install 4-6" limestone rocks between the limestone edging and trail above to discourage users from cutting to the trail above.
