

To the Board of Public works

My name is Angela Herwick. I can't be at the meeting because I work the same schedule every week. I own the house across the street from La Cro. Our driveway is on Rublee street close to the alley. There are 3 adults with vehicles in our house. Some are in the driveway, some on the street.

The La Cro owner and his employees park on Rublee on both sides of the street. Which is also the main entry to our house, on Rublee St.

Northside elementary is a half a block away with not enough parking when school is in session the streets are filled. Not only during the day but also after school, the after school help.

When alternate side parking is in effect its full. So no parking signs would be an inconvenience for not only us but others. There are a lot of houses on Liberty, parking is hard. So we stay on Rubler, I should be able to park by my drive way.

We already have to deal with the tore up street from the semi's. A lot of people twist their ankles, trip and have a lot of bike accidents already. I'm sorry he has an issue once in awhile but we live here.

Sincerely
Angela Harwick
