To Whom it may concern,

The above ordinance being considered is bad legislation and has a number of logical holes. The premise is that there are no standards or guidelines that we as a society follow and that there should be no pressure to redirect anyone. If that were indeed true, there would be no need for education and or learning and for sure no need for any laws or city ordinances! Clearly, any society has to wrestle through the guidelines they choose and how they get established. This ordinance is too broad. It infringes on already established freedoms. And is a direct challenge to parental rights and responsibilities to children.

Please vote "NO" on this proposed ordinance.

Sincerely,

Doug Jorde
