As an empathetic resident of the City of La Crosse who has seen the removal of unhoused individuals over the past few years, where do we expect these people to go?

Every time the city removes unhoused people from their encampments, there is no plan to set up a place for these people.

Solving a homelessness problem in the City of La Crosse requires more than moving people around to fix the optics and capitulate to the wills of property owners.

There is no plan to fix the root cause of this problem and Bill 24-0510 is a continuation of this negligence.

I do share a sentiment with the city and property owners: I do not want to see unhoused people. I do not want to see my fellow man suffer, hungry, freeze, dehydrated, poor, or even die. I want people to have the opportunity to live their best lives but the government has to be willing to take that step as well. From every fiber of my being, please vote against this bill and save the lives and futures of the unhoused CITIZENS of La Crosse.
