**Subject:** Resolution to declare a climate emergency

\*\*\* **CAUTION:** This email originated from an external sender. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe. \*\*\*

I urge you to pass the climate emergency resolution. Recent events--floods, droughts, fires, melting glaciers--show that we have to act now to stop greenhouse gas emissions. This resolution will reiterate our pledge to take action and prepare the way for the city's climate action plan coming later this year. It will show that we are serious about addressing this existential threat. It will connect us to the millions of people who are working to declare a global climate emergency. Please pass this resolution.

I am in favor of taking a stand now. These words indicate our willingness to look at other resources to use for our energy needs and to combat the warming of our planet. I care about leaving a planet for my kids and grandkids that is still habitable.

If you are voting against this because of your loyalty to an employer or friend, think of the greater good that will be achieved by this stance. Vote yes on the resolution.

Thank you,  
Martha Linville
