Mike,

All material without light fixtures is \$41,564.00. The wire is included in this amount (\$8,437.00). Subtract the 2 and you get \$33,127.00 for all materials (-) wire and lights.

Thanks,

Jeff Milutinovich

Jeff,

I understand what you are saying. Let's go with no wire and install the bases.

Thanks

**Mike Swinghamer, AIA**

Not sure I would do the wire if you weren't putting fixtures on them. Bases possibly but then they would need to pick a fixture so you could at least get anchor bolts. Once you do that you are stuck with whichever fixture they choose.
