

Dear Board of Public Works,

As you know Governor Evers has directed bars and restaurants to close in-house service and restrict them to carry out only. This has put a strain on businesses in the Downtown and other commercial areas throughout the City that do not have private parking lots or drive thru facilities. Allowing for 15-minute curbside/carryout pick up would assist in helping with our struggling businesses.

I would like to request that the Board of Public Works allow for DMI and other businesses or entities to request temporary curbside/carryout pickup with the following:

- 1) A maximum of four (4) spots per block would be permitted.
- 2) Location and appropriate signage to be determined with guidance from the Parking Utility and City Traffic Engineer.
- 3) Requests are reviewed/renewed monthly.

I am open to any feedback from the Board, Parking Utility, or the Engineering Department on any other conditions or criteria

Thank you
Christine Kahlow
Common Council Member
District 6
