Jay,

We received the permit for aerial work along SH 53 and Hanger Ln in City ROW. From my understanding, most of the construction is complete, but due to aerial clearance issues with the railroad, we will need to bury the lines under the railroad instead. I copied the construction manager, Kevin Parris, on this email so he can answer any questions or address any details I left out. We need to know if this is something we can amend on the current permit.

Thanks,

Luke Niles

Jay,

We sent check #1135153, dated 1/14/19 and delivered on 1/15.

Thanks,

Luke Niles
