

Dear Mr. Zabrowski and the Bike/Pedestrian Advisory Committee,

Thank you for considering protected bike lanes for Market Street. I urge the city to try this safe and clear road demarcation. It would enable me to bike more places safely with my 9 year old son, and I'm tired of people yelling at me to get off the road when I bicycle to the store or a meeting. I know that more people would bicycle to their destinations if there were protected bike lanes rather than only sharrows.

Thanks for your work on this important committee!
