To whom!

I received the enclosed notice on Sept. 5th and I called and talked to Dave and asked him to explain the problem. Dave said he had received a complaint and had to follow through with it. The snowblower in question was waiting to be picked up for repair. The topper goes on and off my truck depending on what I have to haul. Code 30-2 states no storage on the ground of something unused or unuseable which doesn't apply to my topper because its on blocks and on blacktop and also very useable. Also, how can something 40' from the road be a nuisance and dangerous to public safety.
