# Mission Statement

## Mission Statement

*"The City of La Crosse Parks, Recreation, & Forestry Department's mission is to enrich our community through stewardship of the environment and through provision of quality recreation, facilities and fun."*

# Introduction

The maintenance and improvement plan is the Parks, Recreation, and Forestry Departments commitment to the City of La Crosse to provide safe and beautiful recreational areas to its residents and visitors. This allows for the department to appropriately address and budget for all labor tasks and improvement projects. The timeframe will be subjected to an amending process every two years to meet the growing changes and demands of the park system.

The plan calls for the park system to undergo an inventory analysis of all its parks. The inventory analysis is a comprehensive evaluation of the park's amenities. The evaluation identifies the current physical condition of each amenity and determine a life expectancy. The life expectancies are used to categorize improvement projects into high priority, medium priority, and low priority. The plan defines high priority as one to five years, medium priority as five to ten years, and low priority as ten to fifteen years, and amenities in excellent condition as fifteen to twenty and twenty + years. The priority rankings make up our ten-year timeframe for the maintenance/improvement plan.

The purpose of the maintenance and improvement plan is to allow the department to project future costs and adequately plan a funding source, from local businesses, organizations, associations, foundations, state and federal grants, and the capital improvement projects fund.

The diversification of sources will allow the department to meet its funding needs and the overall goals of the plan.

# Goals & Objectives

## Goal 1

Provide a safe and fun atmosphere within the park system.

### Objectives

1. Provide more training opportunities to the park's maintenance department.
2. Increase the frequency of routine maintenance checks of parks.
3. Continue to amend the maintenance plan every 2 years or as changes/updates occur.

## Goal 2

Provide adequate and steady funding for all projects.

### Objectives

1. Reestablish funding for park maintenance and modest improvements that meet the needs of the community.
2. Create a timeline for all future maintenance projects with an estimated cost and funding plan.
3. Diversify funding through local community foundations, state and federal grants, neighborhood associations, private businesses, and donations.
4. Strive to use sustainable technology to reduce future operational costs.

## Goal 3

Build partnerships throughout the community.

### Objectives

1. Continue to recruit volunteers to help maintain cleanliness in the parks and recognize them for their contributions.
2. Continue to enrich and strengthen relationships with local schools, universities, associations, organizations, and businesses to maintain a healthy park system.
3. Enhance access to information and increase communication with the public on routine maintenance tasks.

## Goal 4

Strive to use sustainable practices.

### Objectives

1. Proactively incorporate green strategies in all projects.
2. Continually manage, preserve, and protect natural resource areas.
3. Aspire to become a sustainable leader within the state.
