10. Interference. Licensee agrees not to allow any use of Licensee's Equipment, the Tower, or the Site that may cause interference with or cause the improper operation of the Tower, Licensor's related equipment, Licensor's communications signal or system, or any third party's equipment or communications system located on the Tower prior to Licensee's use of the Tower. In the event Licensee's Equipment or Licensee's use of the Tower or the Site causes measurable interference with or the improper operation of the Tower, Licensor's related equipment or communications system or any third party's equipment or communications system located on the Tower prior to Licensee's use of the Tower, Licensee, upon notification of such interference, agrees to promptly remedy such interference at Licensee's cost and, if necessary, agrees to cease operations (other than tests) until such interference is corrected to Licensor's sole satisfaction. Licensor agrees not to allow any subsequent third party's use of equipment, the Tower, or the Site that may cause interference with or cause the improper operation of the Tower, the Licensee's related equipment, or the Licensee's communications signal or system. In the event any subsequent third party causes measurable interference with or the improper operation of the Tower, Licensee's related equipment or communications system, Licensor, upon notification of such interference, agrees to promptly remedy such interference to Licensee's sole satisfaction, at Licensor's cost.

11. Interruptions. Licensor and Licensee agree that Licensor shall have no responsibility or liability whatsoever for interruptions, disruptions, or failures in the Licensee's Equipment or the operation of the Licensee's Equipment including, without limitation, equipment failures, utility failures, structural failures, or otherwise. Licensor shall not give any unauthorized access to Licensee's Equipment; however, Licensor shall not be responsible to Licensee for any unauthorized access thereto. In all maintenance, repair, or replacement work performed by Licensor on Licensor's Equipment or the Tower, Licensor shall take all reasonable steps to not interrupt or interfere with the operation of Licensee's communications system or equipment without Licensee's written agreement.

12. Compliance with Laws. Licensee shall comply with all present and future laws, regulations, and requirements of all federal, state, and local governments and their agencies as

they relate to the use, operation, maintenance, repair, replacement, and occupancy of the Tower, the Site, and the Licensee's Equipment, as the case may be. Without limiting the foregoing, the Licensee shall at all times use, operate, maintain, repair, replace, and occupy the Tower, and the Site, and the Licensee's Equipment, as the case may be, in accordance with all FCC, FAA, and all other regulations, ordinances or laws.

13. Compliance with FCC Radio Frequency Emissions Requirements.

(a) It shall be the responsibility of the Licensee to ensure that Licensee's use, installation, or modification of Licensee's radios, signal carriage devices and antennas (Licensee's Equipment") at the Site does not cause radio frequency exposure levels of all the existing equipment located at the Site and in the surrounding vicinity including the Licensee's Equipment, Licensor's equipment and all other transmitting equipment in the vicinity to exceed those levels permitted by the Federal Communications Commission ("FCC"). Licensor shall require other communications users of the Site to bear the same responsibility.

(b) If it is determined that the radio frequency levels at the Site and surrounding vicinity exceed exposure levels set by the FCC and the responsible party causing such exposure cannot be identified, then Licensee shall reconfigure Licensee's Equipment, including but not limited to reducing power levels, as reasonably directed by Licensor, and shall equitably share in all expenses incurred by Licensor as are necessary in order to meet FCC compliance levels.

(c) Licensee shall reimburse Licensor, within 30 days following receipt of an invoice from Licensor, for reasonable expenses or costs incurred by Licensor to perform FCC RF compliance tests for human exposure to RF radiation as a result of the installation, existence or subsequent modification of Licensee's Equipment at the Site.

(d) Licensee agrees that in the event that there is any change to applicable rules, regulations, and procedures governing exposure to radio frequency radiation which place the Site in non-compliance, Licensee will cooperate with Licensor and other users of the Site to bring the Site into compliance, which cooperation shall include, but not be limited to, sharing pro rata the costs associated with bringing the Site into compliance.

(e) Licensee acknowledges and agrees that, upon reasonable prior notice (except for emergency situations), Licensee shall reduce operating power or cease operation of Licensee's Equipment when it is necessary to prevent the overexposure of workers on the Tower to RF radiation.

14. Mutual Indemnification. Each party shall, to the fullest extent permitted by law, indemnify, defend and hold harmless the other party, against all claims, losses, costs, expenses, damages, and liabilities arising from: (i) the negligence, willful misconduct or strict liability of such party, or its agents, employees, or contractors; or (ii) any material breach by such party of any provision of this Agreement. Neither party shall be responsible or liable to the other for any claim, loss, cost, expense, damage or liability arising from any claim to the extent attributable to any acts or omissions of the other party or to other third parties at the Tower or Site.

15. Insurance. Licensee shall have adequate insurance at all times at Licensee's expense which coverages shall include but are not limited to the following: Commercial Workers' Compensation Insurance as required by law, Commercial General Liability Insurance with a minimum combined single limit of \$5,000,000 covering personal injury and property damage, completed operations, independent Licensees and contractual liability (which may be provided in any combination of primary and excess coverage); Employer's Liability Insurance with a minimum combined single limit of \$1,000,000; and Commercial Automobile Liability Insurance for any motor vehicle, covering bodily injury and property damage with a minimum combined single limit of \$1,000,000. The foregoing insurance shall be issued on an occurrence basis, shall be primary with respect to any liability assumed by Licensee hereunder and shall include a waiver of subrogation in favor of Licensor. Licensee shall provide Licensor with certificates of insurance evidencing the required coverage and shall give Licensor thirty (30) days written notice if the coverage represented in these certificates is reduced or canceled.

Notwithstanding the foregoing, neither Licensee nor any employee, contractor, subcontractor or agent of Licensee shall allow any person to enter upon or climb on the Tower without inclusion of such person under its insurance policy coverage as required hereunder or without ensuring that such person is adequately insured and using appropriate preventive fall protection.

16. Opportunity to Cure Defaults. If Licensee fails to comply with any provision of this License Agreement which Licensor claims to be a default hereof, Licensor shall serve written notice upon Licensee specifying the default, whereupon a grace period of thirty (30) days shall commence to run during which Licensee shall undertake and diligently pursue a cure of the default. Such grace period shall automatically be extended for an additional thirty (30) days, provided Licensee makes a good faith showing that efforts toward a cure are continuing.

17. Transfer of Licensee's Interest. Licensee's interest under this License Agreement shall be assignable by Licensee, without the necessity of obtaining Licensor's consent, in connection with the transfer to the named holder of a FCC license or to an affiliate, subsidiary or partner of Licensee, provided, however, no such assignment shall relieve Licensee of any obligation under this License Agreement and Licensee and any assignee shall be jointly and severally liable under this License Agreement. Any other assignment of this License Agreement by Licensee shall require Licensor's prior written consent.

18. Multiple Users. Licensee shall not sublet or otherwise subdivide the Licensed Space or any portion thereof, or permit the Licensed Space to be occupied by multiple simultaneous users claiming through or under Licensee.

removing Licensee's Equipment, and (iv) shall surrender the Tower and the Site in good condition, ordinary wear and tear excepted. In the event Licensee fails to remove any of Licensee's Equipment from the Tower or the Site within thirty (30) days of the expiration or earlier termination of this Agreement, Licensee shall be deemed to have abandoned Licensee's Equipment and Licensor shall be free to remove and dispose of Licensee's Equipment in any manner determined by Licensor, in Licensor's sole and absolute discretion, and without any liability to Licensee therefor. If Licensee is deemed to have abandoned Licensee's Equipment to Licensor, pursuant to the preceding sentence, Licensee shall reimburse Licensor within five (5) days of Licensee's receipt of an invoice from Licensor, for all costs incurred by Licensor in removing and disposing of Licensee's Equipment, such obligation to reimburse Licensor to survive the termination of this Agreement. Notwithstanding the foregoing, Licensee shall not have the right to, and may not, remove any structural enhancements to the Tower, such structural enhancements becoming the property of Licensor upon the expiration or earlier termination of this Agreement.

20. Default.

(a) Event of Default. The occurrence of one (1) or more of the following events shall constitute an "Event of Default" hereunder:

(b) Termination. If there occurs an Event of Default by Licensee, in addition to any other remedies available to Licensor at law or in equity, Licensor shall have the right to terminate this License Agreement and all rights of Licensee hereunder. If there occurs an Event of Default by Licensor or if any permit or any approval of any federal, state or local government entity is cancelled, expires, terminated or withdrawn, or in addition to any other remedies available to Licensee at law or in equity, Licensee shall have the right to terminate this License Agreement without further obligation under this License Agreement other than the removal of Licensee's Equipment.
