

From the Offices of the Traffic Engineer  
and the Chief of Police  
City Hall

**CITY OF LA CROSSE  
BOARD OF PUBLIC WORKS  
Findings & Orders:**

August 14, 2023

ESTABLISHING

AMENDING

VACATING

TYPE OF ALTERATION: All-way STOP control

GENERAL LOCATION: 29<sup>th</sup> Street South & Cass Street

Report:

A request was received to investigate traffic control at the intersection of 29<sup>th</sup> Street South and Cass Street, which is currently two-way STOP controlled. Conditions, including sight distance, crash history, existing volume, and road classification were reviewed.

Upon observing the site, it was noted that the existing 29<sup>th</sup> Street S does not connect through, creating unexpected crossing traffic for Cass Street drivers. To establish additional safety at the intersection, it is recommended to install all-way STOP control.

**WHEREAS**, Section 44-39 of the City of La Crosse Municipal Code of Ordinances provides that after obtaining a report and recommendation of the Traffic Engineer, the Chief of Police shall forward recommendations and appropriate orders to the Board of Public Works.

**AND WHEREAS**, the Findings of the Traffic Engineer state the public interest, convenience, and necessity, the Chief of Police hereby Orders the above traffic alterations, to wit:

- Install STOP signs, requiring all directions to STOP.

**NOW, THEREFORE**, the Board of Public Works hereby approves the aforementioned traffic alteration, and City staff is hereby authorized to effect said changes.

Matthew A. Gallager  
Director of Engineering & Public Works

Shawn Kudron  
Chief of Police
