Subject: employee commute emissions

*** **CAUTION:** This email originated from an external sender. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe. ***

Hi Lewis,

I would be able to add the employee commute emissions to the GHG inventory for an additional \$900. I would provide the employee survey (probably using Google Forms, so City staff could access via weblink) and handle all the data management/calculations, but I think it would be best if communicating/advertising about the survey to City staff came from you (or other City staff), rather than from me as an 'outsider'.

I'm happy to discuss further if you'd like.

Thank you,
Anders
