Please pass the Climate Emergency Resolution! Climate change is real and very dangerous to life as we have known it. Businesses will not survive the changes if they are not proactive NOW. Society as we know it will not survive if we are not proactive NOW. Climate refugees, lack of fresh water, disruption of our food supplies, the spread of tropical diseases, etc. will be devastating. It's time for Kwik Trip to grow their supply of electric power for vehicles, and to develop hydrogen fuel supply. They will still capture the food sales, car washes, etc. Kwik Trip has been ahead of many gasoline chains and should capitalize on that.

thank you for your time. Peace, Carlene and Cam Roberts
