Statement:

I would like to file this report on the basis of discrimination against age and student status. I live in a downstairs unit of a duplex, with a total of four girls. Our requests for maintenance repairs have been ignored since May, when we moved in. None of the check in items were addressed, the basement is shared and have not been received an itemized list of who pays what when asked about for gas/ water bills. On that note, I personally emailed about this discrepancy, and was promised a phone-call however never received a call. We would like some guidance, if possible to, have an inspection on the house. The front doors for both units are not usable, do not have keys for use, etc. In addition to this safety concern, the side door for the upper unit does not shut all the way. There are windows missing, cracks on windows within the house, mold in the bathroom and an overall low functioning shower. There have been numerous reports on this leasing company/their counter parts and they think they can get away with it. In these reports, tenants share the neglect and lies from the company, refusing to return full deposits as well as not taking responsibilities for maintenance within the home that they are required to upkeep by law/lease. All of these items are similar to what we are experiencing here as tenants.
