Comments on the council agenda for 8/8/24 meeting.

On 24-1037, recommend approval with the observation that camping is not an allowed use in the land zoned as floodway, which includes much of the marshland listed in a previous proposal. Failure of the city to enforce its zoning in this issue amounts to selective enforcement and has unnecessarily delayed action on alleviating the chaos and drug issues associated with the camping where it was already not allowed. The city has all along had the tools to prevent the debacle when the flood forced the evacuation of the bottom land.

On 24-1075, recommend approval provided the city is ready to provide the strict supervision of the site that was not apparent in the previous use of the property.
