Re. Land Dispute in Rivercrest Mobile Home Park/Pammel Creek

To Whom It May Concern:

Having recently become aware of the land dispute re. Rivercrest Mobile Home Park property adjacent to Pammel Creek and, being an uncle to one of the six parties directly affected by pending decisions, I feel compelled to write this letter.

I do not, I am sure, begin to understand all the decisions that went into the treatment of this property dating back to the 1990's, BUT I have become very aware of the effects decisions made today will have on the lives of the before mentioned six families faithfully living on this section of land. Through no fault of their own, and with little or no previous disclosure, these people with the smallest voice and least power in this land dispute, find themselves in imminent danger of losing their homes and becoming homeless in your city. Surely there must be an awareness of the consequences of the decisions being made and actions being taken today. Surely there must be an effort to seek common ground in this dispute, keeping in mind the effects on the six families of La Crosse most directly affected.

With great interest and concern, I will be following the decisions made and actions taken in this matter. I hope and pray they will reflect well on all directly involved and on the City of La Crosse. Thank you for your time and consideration.

Sincerely,

John W. Strand, Citizen
