RE: West Concept Recommendation for the La Crosse Center Expansion and Remodeling Project from the La Crosse Center Board

On Monday, December 31, 2018 the La Crosse Center Board met. At this meeting the La Crosse Center Board considered the 2 expansion concepts before them. They are entitled North Concept and the West Concept. After a presentation from ISG Architects and input from the construction management of Kraus Anderson the La Crosse Center Board has selected the West Concept as the preferred concept to move forward to the City Council for consideration.

Based on the above action an amended resolution has been submitted to the City Council via the F&P committee for consideration and a vote.

All the best,

A handwritten signature in black ink, appearing to read 'Art Fahey', is written over the typed name.
