Board of Public Works:

Downtown Mainstreet is proposing to use the grey planters as the buffer between traffic and parklet diners and servers. The reasons follow as the planters...

- provide a level of safety to our downtown guests and employees.
- provide a uniform look to the downtown street scape.
- will have mosaic tile added to them as illustrated in the enclosed example picture.
 - we will ask for local artists to create colorful designs.
 - we will add the tile as soon as the weather allows.
- will have flowers and greenery planted in May.
- will enable the restaurants to increase their serving capacity.

Thank you for your consideration in approving this plan. The downtown restaurants appreciate your support as they work to get back to a more robust economic business paradigm.

Best Regards

Terry Bauer
