Good afternoon Council,

I am emailing in support of resolution 20-1053 to accept the grant to help improve the bike lane on 2nd St. I live downtown and I frequently see many groups of people using the bike lane, including my partner and I, and it's fantastic to see. I have always thought since it was first built that the plastic poles separating vehicle traffic from the bicyclist was not sufficient and added to the confusion and allowed people to still use it to park. These improvements are necessary to help make it a safer route for bicyclists of all ages to feel safe and confident biking here and the improved signage will help mitigate any confusion for both cyclists and drivers.

When voting on this resolution I hope the council thinks of what is best for the future of La Crosse and all its residents- not just the ones who commute by vehicle.

Thank you,
Luke Eide
