Dear City Clerk

I am writing in support of the revised Climate Emergency resolution.. As someone who studies this issue closely, I can tell you we are out of time. Some of the future global warming is already 'baked in' and will happen no matter what. BUT there is a huge difference between a 3 degree rise (quite problematic) and an 8 degree rise (existential). We have no more time to discuss and wait.

I ask the City Council to please ACT now and vote for passage

Also let me know if you would like to learn more about the threat of climate change.

Thanks Tom Schlesinger
