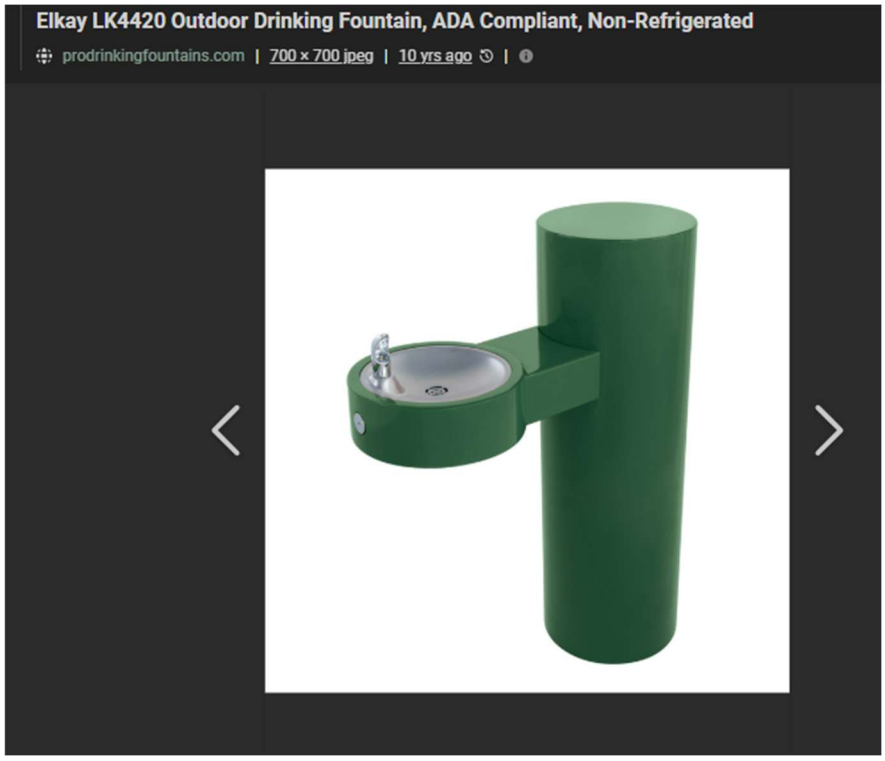
Learn why this is important

Why don't you install ADA Compliant Outdoor Drinking Fountains on the corners opposite the Historic Green Bubblers?

If it's cheaper to install them next to the Historic Green Bubbler's, then do that. Everyone is fairly treated then. Except the dogs. In that case they have the below fountain with a dog bubbler (dish) on the bottom too.



I grew up in La Crosse and utilized those bubblers everyday in numerous locations. It would be nice to keep them for the public as well as add ADA compliant ones.
