Good Afternoon Christa,

I would like to submit a letter of request to attend your next meeting on the 21<sup>st</sup>. The item Xcel would like to bring up is a distribution line relocation. As part of the reconstruction of STH 16 from Oakland to Losey a number of Xcel power poles will need to be relocated onto private land as there is not enough room within Road ROW. One of the areas is located at Hillview & LaCrosse, in the NW quadrant. We were hoping to do an aerial crossing at angle (depicted on the attached plat sheet) which would go from a pole in the right next to the sidewalk north of 16 AKA La Crosse St. and string across the City property to a pole within the Road ROW west of Hill View Avenue. We would need to acquire an easement from the City for which we would offer compensation. I am currently having our survey department create an exhibit with a metes and bounds description of the easement. I was informed by Matt Gallagher that we would need permission from the Park Board in order to move forward with our presentation to City Council.

I have also included e-mail strings from Matt and Dan Trussoni concerning the minimal impact to the park area, and it's daily use. Both gentleman have been out to the site to review. Please let me know if any additional information is needed before the meeting.

Thank you for your time and have a great day,

**Corissa Seely**
