Request to use CAP Implementation Funds for Occupancy Sensors

The City has \$750 from a conservation grant from Xcel Energy from 12 years ago that it needs to spend. Occupancy sensors are a highlighted eligible expense. The City Hall facility manager identified the first floor's West Wing as a good candidate for occupancy sensors. He recieved a quote for \$1,490 to install 3 to cover the L-shaped hallway. Occupancy sensors can reduce energy costs by 50% or more.

Xcel Energy Conservation Grant (February 2012) - \$750
CAP Implementation Funds - \$740
