June Climate Action Plan Workshops Update and Discussion

The focus of the 6/1 workshop was to identify potential advocates, partners, resources and supporters for the draft actions. The ActionFinder went offline on 6/15 so the consulting team can work on integrating edits. In addition to working on editing all of the actions, they will be pulling together a full draft CAP in time to share with the CAP Team at the next workshop on July 13th at 3:30pm. That meeting will be shorter and will focus on giving a high-level review of the draft CAP and starting an internal team review period where we can collect any critical comments from CAP Team members prior to releasing the draft plan for input from the public.
