Discussion and Action on Drift Cycle Sponsorship.

"WTC has been \$5K & County \$5K (nothing from City for that location on Western's campus)

Parks has generously contributed \$10K for 3 years now, in addition to their partnership role helping with moving around equipment, storage, coordinating on safety/security/vandalism, etc. They have been awesome to date but are hoping others from the City are able to help carry the torch in 2024 and beyond. As you know, they had to cut their sponsorship from the budget in 2024 and we are working diligently to identify another sponsor to take their place at Cameron Park (shared with MTU) and Burns Park (shared with the County)."

- Jacob Sciammas

\$5,000-\$15,000 - CAP Implementation Fund
