

## **EXHIBIT B**

### Description of Project

T. Wall Enterprises is proposing a three phase, 4-story multifamily development that will take advantage of the vacant lot on 215 Pine Street and the former and now blighted La Crosse Tribune building. The proposal includes 1 level of underground parking, approximately 260 units, and +/- 5,445 sq ft of commercial space. T. Wall intends to revitalize the site by demolishing the underutilized/blighted Tribune building to make way for The Chalmers redevelopment.

The Chalmers will serve as a hub for the community, providing gathering and retail spaces. In alignment with the City's Comprehensive Plan, the goal is to create a compact and well-designed mixed-use center that encompasses shopping, employment, housing, recreation, and community gathering opportunities.

The intent is for this development to allow residents access to amenities, resources, and community spaces that cater to all different age groups. The project aims to stimulate revitalization, promote efficient land use, support the employment base, upgrade neighborhoods, increase property value and tax base, attract businesses, and create a vibrant mixed-use community.

The Chalmers is planning one story of underground-parking accommodating approximately 170 stalls. Additionally, the developer intends to construct a skywalk over Pine Street that would connect The Chalmers to the Pine Street Parking Ramp, where The Chalmers plans to lease approximately 120-160 stalls from the City.

In addition to the sky walk, The Chalmers will include bike storage lockers and bike parking stalls for residents in addition to a bike work/repair station for pumping tires, fixing/oiling chains, etc. As noted below, the developer also plans to include bike charging stations for residents who own electric bikes.

#### **Green/Sustainable Building Features:**

- Electric vehicle charging stations
  - 10% of parking stalls will have electric vehicle charging stations while 100% of covered parking stalls will be wired to accommodate electric vehicle charging stations in the future
- Recycling and Reuse plan for demolition of existing Tribune building
- Regionally sourced materials where possible
- Bike and scooter charging stations
- Energy efficient appliances
- High efficiency glass
- LED lighting

#### **Phase 2 Specifics:**

The Chalmers will be constructed in 3 phases. Phase 2 will include the construction and equipping of a multi-story building with approximately 99 general occupancy rental units and 3,495 sq. ft. of commercial space, including both structured and surface parking stalls.
